S.F. 1515 amends provisions related to postsecondary student voter registration.

Section 1 [Redistricting housing list] requires all postsecondary institutions that enroll students accepting state financial aid to prepare a list of students that reside in the institution's housing or in the city in which the campus is situated, if available. The lists must include the student's address unless the student is enrolled in the Safe at Home address confidentiality program.

Section 2 [Additional proofs of residence permitted for students] allows an eligible voter to prove residency by presenting a current photo ID issued by a postsecondary educational institution if the voter's name, ID number (if available), and address also appear on the residential housing list described in **section 2**. The institution must agree to certify the lists to the county auditor and to certify the lists in the time specified. If the institution fails to do so, students are not permitted to use this method to prove residency.

Section 3 [Forms] requires certain postsecondary institutions to provide voter registration applications at specified times. The institutions must report to the secretary of state on voter registrations. The secretary of state must report this data to the legislature.

Section 4 [Voter information] requires certain postsecondary institutions to provide specified information about voting to students.
