RE: Rebecca Lucero

Dear Senate Judiciary Committee:

The Minneapolis NAACP is in support of Rebecca Lucero being confirmed in the Senate. It is with great pleasure that we write this letter of support for Rebecca, as she has been instrumental in partnering with the Minneapolis NAACP to establish mini human rights clinics to support, engage, and inform the community on how the investigation process takes place. She has also attended community meetings to elaborate on the processes of the Minneapolis Police Department findings, and the Decent Decree. She has been willing to discuss ways to support and build significant relationships within the black community, while keeping us informed on current events.

Lastly, we are excited about the working relationship we will continue to have, as we work toward breaking down the doors of discrimination, racism, and all inequities that exist to form barriers and roadblocks. We believe that with Rebecca's confirmation, our continued partnership, and the support of one another, we will be a part of the change that is vital to the growth and development of our black/brown communities.

Respectfully,

Cynthia Wilson
