

MINNESOTA GUN RIGHTS

1080 Highway 3 South, Northfield, MN 55057 | www.minnesotagunrights.org

March 23, 2023

Chairman Ronald Latz, members of the Committee,

S.F. 2827 is a laughable joke to anybody who isn't a CNN Kool-Aid drinking leftist.

This bill is the definition of a feel-good measure that will have exactly ZERO impact on lessening crime in your inner-city gang fights.

That's because we don't live in 1990's Die Hard 2, where everybody is running around with fully-automatic machine guns.

Virtually nobody owns them and they're a non-factor in your DFL-controlled inner-city crime sprees.

When your voters burned down Lake Street in the Summer of Violence in 2020, to our knowledge there was not a single "machine gun" found to be used.

When your voting bloc burned the 3rd Precinct to the ground, they used Molotov cocktails, not "machine guns."

Maybe you should concentrate on making sure crimes in your cities are actually prosecuted instead of attacking imaginary villains with imaginary machine guns.

I can promise you that the weakest members who vote for this legislation will be exposed at election time in every future election for as long as they hold office.

Minnesota Gun Rights will make sure of it.

For Freedom,

Ben Dorr, Director

Minnesota Gun Rights
