# What is possible

- Create a **central state vision** to ensure Minnesota families are able to reach their full potential.
- **A researched-backed multi-generation approach**, focusing services for adults who play key roles in the lives of children as a source of meaningful, equitable impact.
- Prioritizing **economic and food assistance programs** so every child has access to culturally relevant opportunities to help them learn, grow, and thrive.
- Coordinated **implementation of unified statewide networks of community resource centers**.
- **Prioritizing youth with leadership and aligned outcomes**, focusing **upstream** rather than on costly downstream public safety and corrections as the only strategies.
