- (b) Processors are responsible under this chapter for adhering to the instructions of the controller and assisting the controller to meet its obligations under this chapter. Such assistance shall include the following:
- (1) taking into account the nature of the processing, the processor shall assist the controller by appropriate technical and organizational measures, insofar as this is possible, for the fulfillment of the controller's obligation to respond to consumer requests to exercise their rights pursuant to section 325O.05; and
- (2) taking into account the nature of processing and the information available to the processor, the processor shall assist the controller in meeting the controller's obligations in relation to the security of processing the personal data and in relation to the notification of a breach of the security of the system pursuant to section 325E.61, and shall provide information to the controller necessary to enable the controller to conduct and document any data privacy and protection assessments required by section 325O.08.
- (c) A contract between a controller and a processor shall govern the processor's data processing procedures with respect to processing performed on behalf of the controller. The contract shall be binding and clearly set forth instructions for processing data, the nature and purpose of processing, the type of data subject to processing, the duration of processing, and the rights and obligations of both parties. The contract shall also require that the processor:

- (e) Processing by a processor shall be governed by a contract between the controller and the processor that is binding on both parties and that sets out the processing instructions to which the processor is bound, including the nature and purpose of the processing, the type of personal data subject to the processing, the duration of the processing, and the obligations and rights of both parties. In addition, the contract shall include the requirements imposed by this paragraph, paragraphs (c) and (d), as well as the following requirements:

Alternatively, the processor may arrange for a qualified and independent assessor to conduct, at least annually and at the processor's expense, an assessment of the processor's policies and technical and organizational measures in support of the obligations under this chapter. The assessor must use an appropriate and accepted control standard or framework and assessment procedure for such assessments as applicable, and shall provide a report of such assessment to the controller upon request.
- (f) In no event shall any contract relieve a controller or a processor from the liabilities imposed on them by virtue of their roles in the processing relationship under this chapter.
- (g) Determining whether a person is acting as a controller or processor with respect to a specific processing of data is a fact-based determination that depends upon the context in which personal data are to be processed. A person that is not limited in the person's processing of personal data pursuant to a controller's instructions, or that fails to adhere to such instructions, is a controller and not a processor with respect to a specific processing of data. A processor that continues to adhere to a controller's instructions with respect to a specific processing of personal data remains a processor. If a processor begins, alone or jointly with others, determining the purposes and means of the processing of personal data, it is a controller with respect to such processing.

The consumer has the right to review the customer's personal data used in the profiling. If the decision is determined to have been based upon inaccurate personal data, the consumer has the right to have the data corrected and the profiling decision reevaluated based upon the corrected data.

These means must take into 13.2 13.3 account the ways in which consumers interact with the controller and the need for secure and reliable communication of the requests. 13.4 13.5 (c) A controller may not require a consumer to create a new account in order to exercise a right, but a controller may require a consumer to use an existing account to exercise the 13.6 consumer's rights under this section. 13.7 (d) A controller must comply with a request to exercise the right in subdivision 1, 13.8 paragraph (f), as soon as feasibly possible, but no later than 45 days of receipt of the request. 13.9 (e) A controller must inform a consumer of any action taken on a request under 13.10 subdivision 1 without undue delay and in any event within 45 days of receipt of the request. 13.11 13.12 That period may be extended once by 45 additional days where reasonably necessary, taking into account the complexity and number of the requests. The controller must inform the 13.13 consumer of any such extension within 45 days of receipt of the request, together with the 13.14 reasons for the delay. 13.15 (f) If a controller does not take action on a consumer's request, the controller must inform 13.16 the consumer without undue delay and at the latest within 45 days of receipt of the request 13.17 of the reasons for not taking action and instructions for how to appeal the decision with the 13.18 controller as described in subdivision 3. 13.19 (g) Information provided under this section must be provided by the controller free of 13.20 charge, up to twice annually to the consumer. Where requests from a consumer are manifestly 13.21 unfounded or excessive, in particular because of their repetitive character, the controller 13.22 13.23 may either charge a reasonable fee to cover the administrative costs of complying with the request, or refuse to act on the request. The controller bears the burden of demonstrating 13.24 the manifestly unfounded or excessive character of the request. 13.25 (h) A controller is not required to comply with a request to exercise any of the rights 13.26 under subdivision 1, paragraphs (b) to (e), if the controller is unable to authenticate the 13.27 request using commercially reasonable efforts. In such cases, the controller may request 13.28 the provision of additional information reasonably necessary to authenticate the request. A 13.29 13.30 controller is not required to authenticate an opt-out request, but a controller may deny an opt-out request if the controller has a good faith, reasonable, and documented belief that 13.31 such request is fraudulent. If the appeal 15.3 is denied, the controller must also provide the consumer with an email address or other 15.4 online mechanism through which the consumer may submit the appeal, along with any 15.5 action taken or not taken by the controller in response to the appeal and the controller's 15.6 written explanation of the reasons in support thereof, to the attorney general. 15.7 15.8 (d) When informing a consumer of any action taken or not taken in response to an appeal pursuant to paragraph (c), the controller must clearly and prominently provide the consumer 15.9 with information about how to file a complaint with the Office of the Attorney General. 15.10 The controller must maintain records of all such appeals and the controller's responses for 15.11 at least 24 months and shall, upon written request by the attorney general as part of an 15.12 investigation, compile and provide a copy of the records to the attorney general. 15.13 Sec. 7. (b) If a controller sells personal data to third parties, processes personal data for targeted advertising, or engages in profiling in furtherance of decisions that produce legal effects concerning a consumer or similarly significant effects concerning a consumer, it must disclose such processing in the privacy notice and provide access to a clear and conspicuous method outside the privacy notice for a consumer to opt out of the sale, processing, or profiling in furtherance of decisions that produce legal effects concerning a consumer or similarly significant effects concerning a consumer. This method may include but is not limited to an internet hyperlink clearly labeled "Your Opt-Out Rights" or "Your Privacy Rights" that directly effectuates the opt-out request or takes consumers to a web page where the consumer can make the opt-out request.

- (c) The privacy notice must be made available to the public in each language in which the controller provides a product or service that is subject to the privacy notice or carries out activities related to such product or service.
- (d) The controller must provide the privacy notice in a manner that is reasonably accessible to and usable by individuals with disabilities.
- (e) Whenever a controller makes a material change to its privacy notice or practices, the controller must notify consumers affected by the material change with respect to any prospectively collected personal data and provide a reasonable opportunity for consumers to withdraw consent to any further materially different collection, processing, or transfer of previously collected personal data under the changed policy. The controller shall take all reasonable electronic measures to provide notification regarding material changes to affected consumers, taking into account available technology and the nature of the relationship.
- (f) A controller is not required to provide a separate Minnesota-specific privacy notice or section of a privacy notice if the controller's general privacy notice contains all the information required by this section.
- (g) The privacy notice must be posted online through a conspicuous hyperlink using the word "privacy" on the controller's website home page or on a mobile application's app store page or download page. 18.1 Subd. 2. Use of data. (a) A controller must limit the collection of personal data to what is adequate, relevant, and reasonably necessary in relation to the purposes for which such 18.2 18.3 data are processed, as disclosed to the consumer. (b) Except as provided in this chapter, a controller may not process personal data for 18.4 18.5 purposes that are not reasonably necessary to, or compatible with, the purposes for which such personal data are processed, as disclosed to the consumer, unless the controller obtains 18.6 the consumer's consent. 18.7 (c) A controller shall establish, implement, and maintain reasonable administrative, 18.8 technical, and physical data security practices to protect the confidentiality, integrity, and 18.9 18.10 accessibility of personal data. Such data security practices shall be appropriate to the volume and nature of the personal data at issue. 18.11 (d) Except as otherwise provided in this act, a controller may not process sensitive data 18.12 concerning a consumer without obtaining the consumer's consent, or, in the case of the 18.13 processing of personal data concerning a known child, without obtaining consent from the 18.14 child's parent or lawful guardian, in accordance with the requirement of the Children's 18.15 Online Privacy Protection Act, United States Code, title 15, sections 6501 to 6506, and its 18.16 implementing regulations, rules, and exemptions. 18.17 (e) A controller shall provide an effective mechanism for a consumer, or, in the case of 18.18 the processing of personal data concerning a known child, the child's parent or lawful 18.19 guardian, to revoke previously given consent under this subdivision. The mechanism provided 18.20 shall be at least as easy as the mechanism by which the consent was previously given. Upon 18.21 revocation of consent, a controller shall cease to process the applicable data as soon as 18.22 practicable, but not later than 15 days after the receipt of such request. 18.23 (f) A controller may not process the personal data of a consumer for purposes of targeted 18.24 advertising, or sell the consumer's personal data, without the consumer's consent, under 18.25 circumstances where the controller knows that the consumer is between the ages of 13 and 18.26 16. 18.27 18.28 Subd. 3. - (b) A data privacy and protection assessment must take into account the type of personal data to be processed by the controller, including the extent to which the personal data are sensitive data, and the context in which the personal data are to be processed.
- (c) A data privacy and protection assessment must identify and weigh the benefits that may flow directly and indirectly from the processing to the controller, consumer, other stakeholders, and the public against the potential risks to the rights of the consumer associated with such processing, as mitigated by safeguards that can be employed by the controller to reduce such risks. The use of deidentified data and the reasonable expectations of consumers, as well as the context of the processing and the relationship between the controller and the consumer whose personal data will be processed, must be factored into this assessment by the controller.
- (d) As part of a civil investigative demand, the attorney general may request, in writing, that a controller disclose any data privacy and protection assessment that is relevant to an investigation conducted by the attorney general. The controller must make a data privacy and protection assessment available to the attorney general upon such a request. The attorney general may evaluate the data privacy and protection assessments for compliance with this chapter. Data privacy and protection assessments are classified as nonpublic data, as defined by section 13.02, subdivision 9.
