

SF 4431

To the Senate Elections committee:

Let's bring our Political Contribution Refund program into the present century! Presently candidates and contributors have to resort to snail mail in order to request a refund. SF 4431 will allow requests to be filed electronically through the internet.

It's clear that this will result in a greater use of the PCR program and more support for candidates from small donors. This means more democratic elections.

Please vote for Senator Westin's SF 4431 on March 5!

George Beck
