

1.1 Senator moves to amend S.F. No. 4784 as follows:

1.2 Page 22, line 17, after the second "generation" insert "except that the commission shall
1.3 not require evaluation of alternative end points for a high-voltage transmission line qualifying
1.4 as a large energy facility unless the alternative end points are consistent with end points
1.5 identified in a federally registered planning authority transmission plan or otherwise agreed
1.6 to for further evaluation by the applicant"

1.7 Page 23, line 5, after "enactment" insert "and applies to all pending applications"
