Electronic Licensing System (ELS) Modernization

Objectives of the new ELS system

m DEPARTMENT OF NATURAL RESOURCES
MINNESOTA IT SERVICES

Coming in 2025: fishing and hunting licensing, made easy.

A new DNR mobile app and licensing system are coming soon, giving Minnesotans more options for on-the-go licensing and registration.

This mockup is intended for concept purposes only. It may not reflect the final content.

AGY_0263_24 ©2024 Minnesota DNR. An equal opportunity provider.

- Easy to buy licenses online, from a license agent or deputy registrar
- Easy to register harvested animals
- Easy to register for firearms safety and skills training
- DNR staff can easily access information for enforcement and management purposes
- Business processes are improved for agents, registrars and DNR staff

ELS technical statutory changes

ELS technical statutory changes

The proposal changes language and process to accurately reflect the new electronic license system and allow it to go live in March 2025
