S.F. No. 4039 – Required use of .gov domain (1st Engrossment)

Author: Senator Bonnie S. Westlin

Prepared by: Alexis C. Stangl, Director (651/296-4397)

Date: March 1, 2024

Section 1 [§5.305; Use of funds] allows funds from the voting operations, technology, and election resources account to be used for transitioning to a .gov domain.

Section 2 [§471.3422; Website domain requirement for certain counties, cities, and towns] requires every county and each municipality that administers absentee voting to use a .gov domain website address by June 1, 2026, for the county or city website. If a municipality has applied for a .gov domain but has not fully transitioned to using it by June 1, 2026, the municipality is not in violation of this section, but that municipality will be in violation if it still has not transitioned fully to using a .gov domain by June 1, 2028.
