**S.F. 4899** (as amended by the A-1) makes a onetime transfer of \$25 million from the general fund to the small cities assistance account in the special revenue fund. Under current law, money in the account is statutorily appropriated to the commissioner of transportation and is distributed by formula to cities with population under 5,000.

The bill also specifies that the \$25 million must be included with the small cities assistance distribution scheduled for July 2024.
