No other permissible users may directly access the data electronically. If the data is directly accessed electronically, the permissible user shall implement and maintain a comprehensive information security program that contains administrative, technical, and physical safeguards that are appropriate to the

22.1 user's size and complexity, and the sensitivity of the personal information obtained. The
22.2 permissible user shall identify reasonably foreseeable internal and external risks to the
22.3 security, confidentiality, and integrity of personal information that could result in the

22.19 (k) With available appropriations, the commissioner of human services shall establish
22.20 and implement a system through which the Department of Human Services shall routinely

23.11 defined in this section. A permissible user whose account has been selected for a random
23.12 audit shall respond to an inquiry by the board, no later than 30 days after receipt of notice
23.13 that an audit is being conducted. Failure to respond may result in deactivation of access to
23.14 the electronic system and referral to the appropriate health licensing board, or the
23.15 commissioner of human services, for further action. The board shall report the results of
23.16 random audits to the chairs and ranking minority members of the legislative committees

23.27 to an agent or employee shall terminate that individual's access to the data within three
23.28 business days of the agent or employee leaving employment with the permissible user. The
23.29 board may conduct random audits to determine compliance with this requirement.
