

Chair Fateh and Members of the Senate Higher Education Committee,

This semester I lost my insurance because I did not know that you need 6 credits at one institution. I have 6 credits across two schools. I've been adjunct for over 15 years with no steady paycheck and no secure health insurance. My students have better job security than I do. I have managed to be full time and have insurance for all of the years I have been an adjunct. Until this semester. I am now paying out of pocket to cover my insurance. I'm not Sure I will be able to continue in this line of work.
