Subd. 5. **Rate requirements.** (a) The commissioner shall establish rates consistent with the requirements of section 254B.12 for substance use disorder services and service enhancements funded under this chapter.

(b) Effective for residential substance use disorder services listed in this subdivision and rendered on or after January 1, 2025, the commissioner shall increase rates by ... percent. The commissioner shall adjust rates for such services annually, by January 1 of each year, according to the change from the midpoint of the previous rate year to the midpoint of the rate year for which the rate is being determined using the Centers for Medicare and Medicaid Services Medicare Economic Index as forecasted in the calendar year before the rate year. This paragraph does not apply to federally qualified health centers, rural health centers, Indian health services, certified community behavioral health clinics, cost-based rates, and rates that are negotiated with the county.

(c) For payments made under paragraph (b), if and to the extent that the commissioner identifies that the state has received federal financial participation for residential substance use disorder services in excess of the amount allowed under Code of Federal Regulations, title 42, section 447.321, the state shall repay the excess amount to the Centers for Medicare

If for any contract year federal approval is not received for this paragraph, the commissioner must adjust the capitation rates paid to managed care plans and county-based purchasing plans for that contract year to reflect the removal of this provision. Contracts between managed care plans and county-based purchasing plans and providers to whom this paragraph applies must allow recovery of payments from those providers if capitation rates are adjusted in accordance with this paragraph. Payment recoveries must not exceed the amount equal to any increase in rates that results from this provision.

11.3 be rebased, except that a Minnesota long-term hospital shall be rebased effective January  
11.4 1, 2011, based on its most recent Medicare cost report ending on or before September 1,  
11.5 2008, with the provisions under subdivisions 9 and 23, based on the rates in effect on

11.27 shall maintain budget neutrality as described in paragraph (c).

11.28 (e) For discharges occurring on or after November 1, 2014, the commissioner may make

12.9 admission is standardized by the applicable Medicare wage index and adjusted by the  
12.10 hospital's disproportionate population adjustment;
- 12.11 (2) for critical access hospitals, payment rates for discharges between November 1, 2014,  
12.12 and June 30, 2015, shall be set to the same rate of payment that applied for discharges on

12.17 year beginning January 1, 2011, through December 31, 2012, the hospital payment rate per  
12.18 discharge shall be based on the cost-finding methods and allowable costs of the Medicare  
12.19 program in effect during the base year or years. In determining hospital payment rates for  
12.20 discharges in subsequent base years, the per discharge rates shall be based on the cost-finding  
12.21 methods and allowable costs of the Medicare program in effect during the base year or  
12.22 years.
- 12.23 (g) The commissioner shall validate the rates effective November 1, 2014, by applying  
12.24 the rates established under paragraph (c), and any adjustments made to the rates under  
12.25 paragraph (d) or (e), to hospital claims paid in calendar year 2013 to determine whether the  
12.26 total aggregate payments for the same number and types of services under the rebased rates  
12.27 are equal to the total aggregate payments made during calendar year 2013.
- 12.28 (h) Effective for discharges occurring on or after July 1, 2017, and every two years  
12.29 thereafter, payment rates under this section shall be rebased to reflect only those changes  
12.30 in hospital costs between the existing base year or years and the next base year or years. In  
12.31 any year that inpatient claims volume falls below the threshold required to ensure a  
12.32 statistically valid sample of claims, the commissioner may combine claims data from two

13.1 consecutive years to serve as the base year. Years in which inpatient claims volume is  
13.2 reduced or altered due to a pandemic or other public health emergency shall not be used as  
13.3 a base year or part of a base year if the base year includes more than one year. Changes in  
13.4 costs between base years shall be measured using the lower of the hospital cost index defined  
13.5 in subdivision 1, paragraph (a), or the percentage change in the case mix adjusted cost per  
13.6 claim. The commissioner shall establish the base year for each rebasing period considering  
13.7 the most recent year or years for which filed Medicare cost reports are available, except  
13.8 that the base years for the rebasing effective July 1, 2023, are calendar years 2018 and 2019.  
13.9 The estimated change in the average payment per hospital discharge resulting from a  
13.10 scheduled rebasing must be calculated and made available to the legislature by January 15  
13.11 of each year in which rebasing is scheduled to occur, and must include by hospital the  
13.12 differential in payment rates compared to the individual hospital's costs.

13.13 (i) Effective for discharges occurring on or after July 1, 2015, inpatient payment rates  
13.14 for critical access hospitals located in Minnesota or the local trade area shall be determined  
13.15 using a new cost-based methodology. The commissioner shall establish within the  
13.16 methodology tiers of payment designed to promote efficiency and cost-effectiveness.  
13.17 Payment rates for hospitals under this paragraph shall be set at a level that does not exceed  
13.18 the total cost for critical access hospitals as reflected in base year cost reports. Until the  
13.19 next rebasing that occurs, the new methodology shall result in no greater than a five percent  
13.20 decrease from the base year payments for any hospital, except a hospital that had payments  
13.21 that were greater than 100 percent of the hospital's costs in the base year shall have their  
13.22 rate set equal to 100 percent of costs in the base year. The rates paid for discharges on and  
13.23 after July 1, 2016, covered under this paragraph shall be increased by the inflation factor  
13.24 in subdivision 1, paragraph (a). The new cost-based rate shall be the final rate and shall not  
13.25 be settled to actual incurred costs. Hospitals shall be assigned a payment tier based on the  
13.26 following criteria:

13.27 (1) hospitals that had payments at or below 80 percent of their costs in the base year  
13.28 shall have a rate set that equals 85 percent of their base year costs;

13.29 (2) hospitals that had payments that were above 80 percent, up to and including 90  
13.30 percent of their costs in the base year shall have a rate set that equals 95 percent of their  
13.31 base year costs; and

13.32 (3) hospitals that had payments that were above 90 percent of their costs in the base year  
13.33 shall have a rate set that equals 100 percent of their base year costs.

14.1 (j) The commissioner may refine the payment tiers and criteria for critical access hospitals  
14.2 to coincide with the next rebasing under paragraph (h). The factors used to develop the new  
14.3 methodology may include, but are not limited to:

14.4 (1) the ratio between the hospital's costs for treating medical assistance patients and the  
14.5 hospital's charges to the medical assistance program;

14.6 (2) the ratio between the hospital's costs for treating medical assistance patients and the  
14.7 hospital's payments received from the medical assistance program for the care of medical  
14.8 assistance patients;

14.9 (3) the ratio between the hospital's charges to the medical assistance program and the  
14.10 hospital's payments received from the medical assistance program for the care of medical  
14.11 assistance patients;

14.12 (4) the statewide average increases in the ratios identified in clauses (1), (2), and (3);

14.13 (5) the proportion of that hospital's costs that are administrative and trends in  
14.14 administrative costs; and

14.15 (6) geographic location.

14.16 (k) Effective for discharges occurring on or after January 1, 2024, the rates paid to  
14.17 hospitals described in paragraph (a), clauses (2) to (4), must include a rate factor specific  
14.18 to each hospital that qualifies for a medical education and research cost distribution under  
14.19 section 62J.692, subdivision 4, paragraph (a).

14.20 (l) Effective for discharges occurring on or after January 1, 2025, the commissioner shall  
14.21 increase payments for inpatient behavioral health services provided by hospitals paid under  
14.22 the DRG methodology by increasing the adjustment for behavioral health services under  
14.23 paragraph (e).

14.24 (m) Effective for discharges occurring on or after January 1, 2025, the commissioner  
14.25 shall increase capitation payments made to managed care plans and county-based purchasing  
14.26 plans to reflect the rate increase provided under paragraph (l). Managed care plans and  
14.27 county-based purchasing plans must use the capitation rate increase provided under this  
14.28 paragraph to increase payment rates for inpatient behavioral health services provided by  
14.29 hospitals paid under the DRG methodology. The commissioner must monitor the effect of  
14.30 this rate increase on enrollee access to inpatient behavioral health services. If for any contract  
14.31 year federal approval is not received for this paragraph, the commissioner must adjust the  
14.32 capitation rates paid to managed care plans and county-based purchasing plans for that  
14.33 contract year to reflect the removal of this provision. Contracts between managed care plans

15.1 and county-based purchasing plans and providers to whom this paragraph applies must  
15.2 allow recovery of payments from those providers if capitation rates are adjusted in accordance  
15.3 with this paragraph. Payment recoveries must not exceed the amount equal to any increase  
15.4 in rates that results from this provision.

The initial assessment must include obtaining or completing a standard diagnostic assessment according to section 245I.10, subdivision 6, and completing a 30-day individual treatment plan. The team leader, psychiatric care provider, or other mental health professional designated by the team leader or psychiatric care provider, must update the client's diagnostic assessment at least annually as required under section 245I.10, subdivision 2, paragraphs (f) and (g).

(b) A functional assessment must be completed according to section 245I.10, subdivision 9. Each part of the functional assessment areas shall be completed by each respective team specialist or an ACT team member with skill and knowledge in the area being assessed.

(c) Between 30 and 45 days after the client's admission to assertive community treatment, the entire ACT team must hold a comprehensive case conference, where all team members, including the psychiatric provider, present information discovered from the completed assessments and provide treatment recommendations. The conference must serve as the basis for the first individual treatment plan, which must be written by the primary team member.

(d) The client's psychiatric care provider, primary team member, and individual treatment team members shall assume responsibility for preparing the written narrative of the results from the psychiatric and social functioning history timeline and the comprehensive assessment.

(e) The primary team member and individual treatment team members shall be assigned by the team leader in collaboration with the psychiatric care provider by the time of the first treatment planning meeting or 30 days after admission, whichever occurs first.

25.1 (f) Individual treatment plans must be developed through the following treatment planning  
25.2 process:

25.3 (1) The individual treatment plan shall be developed in collaboration with the client and  
25.4 the client's preferred natural supports, and guardian, if applicable and appropriate. The ACT  
25.5 team shall evaluate, together with each client, the client's needs, strengths, and preferences  
25.6 and develop the individual treatment plan collaboratively. The ACT team shall make every  
25.7 effort to ensure that the client and the client's family and natural supports, with the client's  
25.8 consent, are in attendance at the treatment planning meeting, are involved in ongoing  
25.9 meetings related to treatment, and have the necessary supports to fully participate. The  
25.10 client's participation in the development of the individual treatment plan shall be documented.

25.11 (2) The client and the ACT team shall work together to formulate and prioritize the  
25.12 issues, set goals, research approaches and interventions, and establish the plan. The plan is  
25.13 individually tailored so that the treatment, rehabilitation, and support approaches and  
25.14 interventions achieve optimum symptom reduction, help fulfill the personal needs and  
25.15 aspirations of the client, take into account the cultural beliefs and realities of the individual,  
25.16 and improve all the aspects of psychosocial functioning that are important to the client. The  
25.17 process supports strengths, rehabilitation, and recovery.

25.18 (3) Each client's individual treatment plan shall identify service needs, strengths and  
25.19 capacities, and barriers, and set specific and measurable short- and long-term goals for each  
25.20 service need. The individual treatment plan must clearly specify the approaches and  
25.21 interventions necessary for the client to achieve the individual goals, when the interventions  
25.22 shall happen, and identify which ACT team member shall carry out the approaches and  
25.23 interventions.

25.24 (4) The primary team member and the individual treatment team, together with the client  
25.25 and the client's family and natural supports with the client's consent, are responsible for  
25.26 reviewing and rewriting the treatment goals and individual treatment plan whenever there  
25.27 is a major decision point in the client's course of treatment or at least every six months.

25.28 (5) The primary team member shall prepare a summary that thoroughly describes in  
25.29 writing the client's and the individual treatment team's evaluation of the client's progress  
25.30 and goal attainment, the effectiveness of the interventions, and the satisfaction with services  
25.31 since the last individual treatment plan. The client's most recent diagnostic assessment must  
25.32 be included with the treatment plan summary.

25.33 (6) The individual treatment plan and review must be approved or acknowledged by the  
25.34 client, the primary team member, the team leader, the psychiatric care provider, and all

26.1 individual treatment team members. A copy of the approved individual treatment plan must

33.7 contract year to reflect the removal of this provision. Contracts between managed care plans  
33.8 and county-based purchasing plans and providers to whom this paragraph applies must  
33.9 allow recovery of payments from those providers if capitation rates are adjusted in accordance  
33.10 with this paragraph. Payment recoveries must not exceed the amount equal to any increase  
33.11 in rates that results from this provision.
