Re: Veteran Benefits Guide - Senate File 1894 Oppose as Currently Written

Dear Chairman Putnam and members of the Committee,

My name is Josh Smith and I am the CEO and Co-Founder of Veteran Benefits Guide ([VBG](#)) writing to you today to express my **concerns with Senate File 1894 as currently written**. VBG provides Veterans with a private, legal and federally compliant service that assists Veterans in navigating the Department of Veterans Affairs (VA) disability claims process to help ensure they receive the full benefits that they have earned.

VBG strongly supports your commitment to protecting our Veterans and actually believes that the bill does not go far enough in some areas, as it is absent necessary guardrails which includes disclosure requirements and a fee cap. However, and most unfortunate, Senate File 1894 as currently written, prohibits the services of honorable for-profit companies like VBG from serving Veterans.

The proponents of the bill intentionally and inaccurately insinuate that organizations such as ours choose not to be accredited. That is false. VBG would welcome the opportunity to become accredited with the VA but cannot because current law prohibits accredited entities from charging a fee for representation of Veterans on the initial claim. VBG's personnel, medical service provider network and procedures already meet standards required of VA-accredited agents and would meet any reasonable threshold for accreditation set by the VA.

Proponents of the bill also claim that private services like VBG are violating the law. That is also false. Federal law states that "no individual may act as an agent or attorney in the preparation, presentation, or prosecution of any claim under laws administered by the Secretary" without first being accredited. I would like to state for the record that:

- We **DO NOT** practice law.
- We **DO NOT** act as the Veteran's agent of record.
- We **DO NOT** present before the VA.

Our primary concern with SF 1894 is that it provides no path for honorable companies like VBG to become accredited with the VA, and therefore no path to continue serving Veterans.

In addition to being the CEO of VBG, I am also a U.S. Marine Corps Veteran and a former VA employee. At the VA, I served as a Rating Veteran Service Representative, where I reviewed disability compensation applications and assigned disability ratings, determining the amount of benefits Veterans would receive. In that role, I witnessed firsthand that the VA's disability compensation benefits process is inefficient and often running counter to the agency's mission of helping Veterans.

While we were certainly helping some Veterans, far too many were being denied benefits they earned due to an absurdly complicated system. Through no fault of their own, Veterans were receiving lower disability ratings than they deserved or were simply waiting years to receive final determinations on their benefits.

That is why, in 2015, I left the VA and, with my wife, Lauren, created Veteran Benefits Guide to help guide Veterans through the process and ensure they receive the full benefits they earned from their service in a timely manner. Much like a tax service provider, we help Veterans travel through a confusing bureaucracy to get what they are owed.

We are proud to have grown our company and now have more than 200 employees, with offices in Nevada and California. Eighty percent of our employees are Veterans themselves or immediate family members of Veterans. And we have employed former VA personnel, like myself, to keep up-to-date with VA regulations and practice of the VA disability compensation system.

In exchange for our service, we are paid a one-time success-based fee only after the Veteran is paid. Our fee represents a small percentage of the increase in benefits received and is typically around 1% of a Veteran's total lifetime benefits. And if the Veteran's benefit doesn't change, there is no fee.

At VBG, we are committed to putting the Veterans' interests first. All of our clients sign a waiver upfront acknowledging that free services are available. We have never taken a Veteran to small claims court for non-payment and automatically write off 10% of our revenue due to unpaid fees. And we do not offer services around PACT Act claims, which do not require an expert guide.

To date, we have guided more than 35,000 Veterans through the claims process. These Veterans have received an average increase in monthly benefits of \$1,300 benefits they would not have received without our help. Despite their best efforts, Veteran Service Organizations (VSOs), which are intended to represent Veterans in the process, do not have enough resources to keep up with the demand. In fact, more than 70% of our clients first tried navigating the VA benefits process with the help of a VSO representative or on their own. They were either denied their full benefits or felt the process was taking too long.

It is clear that our service is needed. At present, only 5.2 million of 19 million eligible Veterans are receiving benefits. That means there may be millions of eligible Veterans who are not receiving benefits they have earned, either because they aren't aware of their eligibility, have already tried to receive benefits and were wrongly denied, or are too intimidated by the process to even apply.

Unfortunately, the bill as currently written would reduce freedom of choice, representation and access to Veteran services, making it harder for Veterans to receive the benefits they have earned. As members of the Senate Agriculture, Veterans, Broadband, and Rural Development Committee, we urge you to consider our concerns and amend Senate File 1894 so that we can lend our full support.

Very Respectfully,

Josh Smith
