

## **S.F. No. 239 – Requirements for cell-cultured meat and cell-cultured poultry**

**Author:** Senator Rich Draheim

**Prepared by:** Laura Paynter, Legislative Analyst, (laura.paynter@mnsenate.gov)

**Date:** March 18, 2025

---

**S.F. 239** amends the food chapter by inserting new definitions and labeling requirements for cell-cultured meat and cell-cultured poultry.

**Section 1** (31.01) adds a new definition of cell-cultured meat to mean a meat food product grown using animal cell technology that extracts a small number of cells from a living animal and grows the cells in a controlled environment.

**Section 2** (31.01) adds a new definition of cell-cultured poultry to mean a poultry food product grown using animal cell technology that extracts a small number of cells from a living animal and grows the cells in a controlled environment.

**Section 3** (31.12) amends labeling requirements so that a product label must state if it contains cell-cultured meat or cell-cultured poultry and makes clarifying technical changes regarding the commissioner's enforcement of the rules.

**Section 4** (31.633) requires that it be noted on a menu if a product on offer at a restaurant or similar establishment contains cell-cultured meat or cell-cultured poultry.

**Section 5** (31A.02) amends the definition of "Meat food product; poultry food product" to include cell-cultured meat and cell-cultured poultry.
