The Honorable Sandra Pappas, Chair  
Capital Investment Committee  
Minnesota Senate  
2113 Minnesota Senate Building  
St. Paul, MN 55155

RE: GO Bonding Spreadsheet

Dear Chair Pappas, and Capital Investment Committee:

Thank you for the inclusion of public housing rehabilitation and the Greater Minnesota Housing Infrastructure Grants from all 150 housing agencies of the Minnesota Chapter of the National Association of Housing and Redevelopment Officials (Minnesota NAHRO).

We are sincerely grateful that the bill includes \$10 million for public housing rehabilitation. Over the past 5 years, Minnesota has invested \$103 million in Public Housing rehabilitation loans. Even with the \$227 million of federal capital funds, there is a backlog of \$172 million of unmet capital needs. Minnesota's Publicly Owned Housing Program (POHP), funded with general obligation bonds and appropriations, has proven to be a successful investment. HUD does not allow housing authorities to take out debt to complete the capital repairs and improvements. Public Housing provides safe housing to our lowest income neighbors. The average annual income of Public Housing residents is \$17,781. POHP appropriations have been allocated throughout Minnesota to ensure the 14,885 very low-income households have a decent and safe place to call home.

Sincerely,

A handwritten signature in blue ink, appearing to read "Melissa Taphorn".
