S.F. 1910 defines “entertainment” and “place of entertainment.”

The bill requires places of entertainment to provide attendees with access to potable water by either:

- (1) providing bottled water at no cost to the attendees;
- (2) allowing attendees to bring bottled water into the place of entertainment; or
- (3) allowing attendees to bring an empty water bottle to the place of entertainment and providing attendees with access to potable water to fill the bottle.

“Potable water” means water which is or may be used as a source of supply for human consumption including drinking, culinary use, food processing, and other similar purposes, and which is suitable for such uses in its untreated state or when treated using generally recognized treatment methods.
