

Dear Chair Carlson & Members of the Committee,

My name is Lorie Marsh, and I live in St. Paul. When I vote for a legislator, I'm voting for a public servant; I'm not laying the path for them to become highly paid lobbyists immediately upon completing their terms.

We're living during an authoritarian coup, funded by corporations and billionaires. I'm counting on the actions of my state legislators to "hold the line" on laws that will aim to preserve our staggering democracy, not add insult to grave injury.

Support SF567.
