

Dear Chair Carlson & Members of the Committee,

Senator Marty's SF567 will delay the time for a legislator to be out of office for seven years before becoming a lobbyist. I support his bill because the legislator has influence with his friends still in office and the information to possibly bypass information critical for an honest process rather than a decision for the good of our citizens.

I appreciate the work you are doing for Minnesotans, and I thank you for considering SF567 with at least four years of retirement from the Legislature.

Elaine Mayer
