

Dear Chair Carlson & Members of the Committee,

I strongly support Marty's SF567 bill regarding a 7-year cooling-off period for legislators becoming lobbyists. Removing the incentives for financial gain following national service will help stop the unethical decisions to promote causes and projects that fail to serve American citizens. Government service should be motivated by altruism, not self-aggrandizement and greed.

Thank you for taking this issue seriously and doing the right thing on behalf of our nation.

Sincerely,  
Clifton Ware  
Minneapolis
