## WHAT IS COMPASSION?

# MONARCHS AND MILKWEED: A STORY OF SURVIVAL

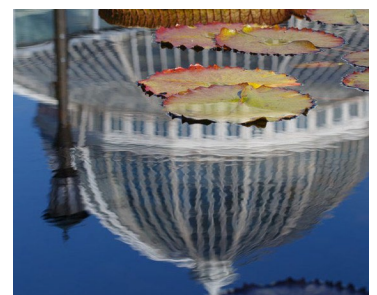

## A large, curved glass display case containing a mangrove ecosystem model. The model features several mangrove trees with prominent, reddish-brown prop roots extending into a shallow, watery environment. The base of the display is dark, and the entire setup is surrounded by a metal railing.

## A large, ornate glass conservatory with a prominent dome and arched sections, surrounded by manicured gardens and a pond with large lily pads in the foreground. The conservatory is made of glass and metal, with a central dome and long, arched wings. The gardens feature low hedges, tall conical evergreen trees, and a pond with large, round lily pads and various flowers. People are walking around the conservatory and sitting on a bench near the pond. The sky is blue with some clouds.
