

S.F. No. 2345 – DNR Policy Bill

Author: Senator Fount Hawj

Prepared by: Ben Stanley, Senate Counsel (ben.stanley@mnsenate.gov)

Date: March 28, 2025

Section 1 [Repeal of Land Report] repeals a requirement that the commissioner of natural resources (DNR) biennially submit an inventory of certain state-owned land to the legislature. The report is currently required to include information on interests, rights, and easements in the land; a list of lands withdrawn from sale; and related recommendations.

Section 2 [Off-Road Vehicle State Trail Pass Clarification] clarifies that state trail passes for off-road vehicles must be carried by the operator but do not have to be displayed on the vehicle itself.

Section 3 [Definition of “Eviscerated”] defines “eviscerated” for purposes of the statute enacted by Section 4.

Section 4 [Authority to Possess Eviscerated Carp] authorizes a person to possess, import, purchase, sell, and transport without a permit bighead carp, grass carp, and silver carp if they are dead and eviscerated.

Section 5 [Lake Superior Burbot Commercial Harvest] allows commercial fishing operators to take burbot from Lake Superior.

Section 6 [Technical Correction] makes a technical correction to the public waters inventory statute to correct a technical error in the previous year’s environment omnibus bill.
