

Senator moves to amend the delete-everything amendment (SCS2255A-3) to S.F. No. 2255 as follows:

Page 67, delete section 1 and insert:

"Section 1. [121A.241] CARDIAC EMERGENCY RESPONSE PLAN.

Subdivision 1. Cardiac emergency response plan. (a) For the purposes of this section, a "cardiac emergency response plan" means a written document that establishes specific steps to reduce death from cardiac arrest in a specific setting.

(b) Beginning in the 2026-2027 school year, a school district or charter school must develop a cardiac emergency response plan established by the American Heart Association or other cardiovascular care organization or the model plan developed by the commissioner under section 121A.035, subdivision 1, for cardiac emergencies that occur on school property. At a minimum, the plan must:

(1) establish a school cardiac emergency response team and plan of activation during the event of sudden cardiac arrest;

(2) provide for placement of automated external defibrillators (AEDs) on school grounds following American Heart Association or other nationally recognized cardiovascular care organization guidelines;

(3) provide for routine maintenance of AEDs;

(4) provide for distribution of the plan on school grounds and in coordination with local emergency medical services providers;

(5) provide for annual cardiac emergency response plan drills for school staff and students; and

(6) require the school board to annually review and evaluate the effectiveness of the plan.

Subd. 2. Cardiac emergency response plan; athletic program. (a) Beginning in the 2026-2027 school year, a school district or charter school with an athletic department or organized athletic program must develop a cardiac emergency response plan. The plan must be consistent with recommendations or core elements proposed by the American Heart Association or an athletic emergency action plan following nationally recognized recommendations or core elements that are venue specific. At a minimum, a cardiac emergency response plan for athletics must:

2.1 (1) provide for venue specific and appropriate use of school personnel to respond to
2.2 incidents involving an individual experiencing cardiac arrest or a similar life-threatening
2.3 emergency while attending or participating in an athletic practice or event on school grounds;

2.4 (2) provide for AEDs in clearly marked, unlocked, and easily accessible locations at
2.5 each school athletic venue and event following guidelines establish by the American Heart
2.6 Association or an organization focused on cardiovascular care;

2.7 (3) require an AED to be accessible during the school day and on location at a
2.8 school-sponsored athletic event or team practice when the school's students are participating;

2.9 (4) require AEDs to be tested and maintained according to the manufacturer's operational
2.10 guidelines; and

2.11 (5) require appropriate first aid, ambulance, rescue squad, or other appropriate emergency
2.12 medical services providers notice of the AED, the type of AED, and its location.

2.13 (b) A cardiac emergency response plan developed under subdivision 1 may include the
2.14 requirements of the required plan for the athletic program."

2.15 Page 77, delete section 11

2.16 Renumber the sections in sequence and correct the internal references

2.17 Amend the title accordingly
