- Sec. 3. Minnesota Statutes 2024, section 122A.635, is amended to read:

122A.635 COLLABORATIVE URBAN AND GREATER MINNESOTA EDUCATORS OF COLOR GRANT PROGRAM.

Subdivision 1. **Establishment.** The Professional Educator Licensing and Standards Board Department of Education must award competitive grants to increase the number of teacher candidates who are of color or who are American Indian, complete teacher preparation programs, and meet the requirements for a Tier 3 license under section 122A.183. Eligibility for a grant under this section is limited to public or private higher education institutions that offer a teacher preparation program approved by the Professional Educator Licensing and Standards Board.

Subd. 2. Competitive grants. (a) The Professional Educator Licensing and Standards Board commissioner must award competitive grants to a variety of higher education institution types under this section. The board commissioner must require an applicant institution to submit a plan describing how it would use grant funds to increase the number of teachers who are of color or who are American Indian, and must award grants based on the following criteria, listed in descending order of priority. To the extent practicable, the commissioner must award grants based on the following criteria:

(1) program outcomes, including graduation or program completion rates and licensure recommendation rates for candidates who are of color or who are American Indian compared to all candidates enrolled in a teacher preparation program at the institution and, for each outcome measure, the number of teacher candidates who are of color or who are American Indian;

- (2) the extent to which an institution's plan is clear in describing how the institution would use grant funds for implementing explicit research-based practices to provide programmatic support to teacher candidates who are of color or who are American Indian. Plans for grant funds may include:
- (i) recruiting more racially and ethnically diverse candidates for admission to teacher preparation programs;
- (ii) providing differentiated advising, mentoring, or other supportive community-building activities in addition to what the institution provides to all candidates enrolled in the institution;
- (iii) providing academic tutoring or support to help teacher candidates pass required assessments; and
 - (iv) providing for program staffing expenses;
- (3) an institution's plan to provide direct financial assistance as scholarships or stipends within the allowable dollar range determined by the board under subdivision 3, paragraph (b), to teacher candidates who are of color or who are American Indian, not to exceed \$5,000 per academic year for each candidate. The purpose of direct financial assistance is to provide cost of attendance financial assistance to candidates matriculating through the licensure program if they demonstrate financial need;

- (5) geographic diversity among the <u>applicant</u> institutions. In order to expand the number of grant recipients throughout the state, whenever there is at least a 20 percent increase in the base appropriation for this grant program, the board must prioritize awarding grants to institutions outside of the Twin Cities metropolitan area. If the board awards a grant based on the criteria in paragraph (a) to a program that has not previously received funding, the board must thereafter give priority to the program equivalent to other programs that have

applications, and to the extent practicable, the commissioner must award an equal number of grants between applicants in greater Minnesota and those in the seven-county metropolitan area; and

- (i) the aggregate percentage of students of color and American Indian students enrolled in the institution, regardless of major; and

- (b) The <u>board commissioner</u> must not penalize an applicant institution in the grant review process for using grant funds only to provide direct financial support to teacher candidates if that is the institution's priority and the institution uses other resources to provide programmatic support to candidates.
- (c) The <u>board commissioner</u> must determine award amounts for development, maintenance, or expansion of programs based only on the degree to which applicants meet the criteria in this subdivision, the number of candidates who are of color or who are American Indian supported by an applicant program, and funds available.
- (d) The board must determine grant awards in part by multiplying the number of teacher candidates to be provided direct financial assistance by the average amount the institution proposes per candidate that is within the allowable dollar range. After assessing an institution's adherence to grant criteria and funds available, the board may grant an institution a lower average amount per candidate and the institution may decide to award less per candidate or provide financial assistance to fewer candidates within the allowable range. Additionally, an institution may use up to 25 percent of the awarded grant funds to provide programmatic support as described in paragraph (a), clause (3). If the board does not award an applicant institution's full request, the board must allow the institution to modify how it uses grant funds to maximize program outcomes consistent with the requirements of this section. The commissioner must allow an institution to use up to 25 percent of the awarded grant funds to provide programmatic support for the teacher candidates receiving financial support.

Subd. 3. Grant program administration. (a) The Professional Educator Licensing and Standards Board may enter into an interagency agreement with the Office of Higher Education. The agreement may include a transfer of funds to the Office of Higher Education to help establish and administer the competitive grant process. The board must award grants to institutions located in various economic development regions throughout the state, but The department must not predetermine the number of institutions to be awarded grants under this section or set a limit for the amount that any one institution may receive as part of the competitive grant application process.

- (b) The board must establish a standard allowable dollar range for the amount of direct financial assistance an applicant institution may provide to each candidate. To determine the range, the board may collect de-identified data from institutions that received a grant during the previous grant period and calculate the average scholarship amount awarded to all candidates across all institutions using the most recent fiscal year data available. The calculation may be used to determine a scholarship range that is no more than 25 percent of this amount and no less than half the average of this amount. The purpose of direct financial assistance is to assist candidates matriculating through completing licensure programs if they demonstrate financial need after considering other grants and scholarships provided.
- (e) (b) All grants must be awarded by August 15 of the fiscal year in which the grants are to be used. The deadline must be extended if changes to the grant program or appropriation impact the timeline for grant awards. An institution that receives a grant under this section may use the grant funds over a two-up to a four-year period to sustain support for teacher candidates at any stage from recruitment and program admission to graduation and licensure application. For grantees who receive multiple awards that overlap in the same academic years, the maximum combined total of direct financial assistance that an institution may provide to the same teacher candidate in the same academic year is \$10,000.
- Subd. 4. **Report.** (a) By August 15 of each year, an institution awarded a grant under this section must prepare for the board commissioner a detailed report regarding the expenditure of grant funds, including the amounts used to recruit, retain, and support teacher candidates of color or American Indian teacher candidates to complete programs and be recommended for licensure. The report must include:
- (1) the total number of teacher candidates of color and American Indian teacher candidates who:
 - (i) are enrolled in the institution;

- (d) Notwithstanding paragraph (b), a district may levy under this subdivision for the purpose of leasing or renting a district-owned building or site to itself only if the amount is needed by the district to make payments required by a lease purchase agreement, installment purchase agreement, or other deferred payments agreement authorized by law, and the levy meets the requirements of paragraph (c). A levy authorized for a district by the commissioner under this paragraph may be in the amount needed by the district to make payments required by a lease purchase agreement, installment purchase agreement, or other deferred payments agreement authorized by law, provided that any agreement include a provision giving the school districts the right to terminate the agreement annually without penalty.

The intermediate school district, other cooperative unit, or joint powers district may specify which member districts will levy for lease costs under this paragraph.
- (i) Notwithstanding paragraph (a), a district may levy under this subdivision for the purpose of leasing administrative space if the district can demonstrate to the satisfaction of the commissioner that the lease cost for the administrative space is no greater than the lease cost for instructional space that the district would otherwise lease. The commissioner must deny this levy authority unless the district passes a resolution stating its intent to lease instructional space under this section if the commissioner does not grant authority under this paragraph. The resolution must also certify that the lease cost for administrative space under this paragraph is no greater than the lease cost for the district's proposed instructional lease.
- (j) Notwithstanding paragraph (a), a district may levy under this subdivision for the district's proportionate share of deferred maintenance expenditures for a district-owned building or site leased to a cooperative unit under section 123A.24, subdivision 2, or a joint powers district under section 471.59 for any instructional purposes or for school storage.

94.22	Sec. 2. Minnesota Statutes 2024, section 124D.111, subdivision 3, is amended to read:
94.23	Subd. 3. School food service fund. (a) The expenses described in this subdivision must
94.24	be recorded as provided in this subdivision.
94.25	(b) In each district, the expenses for a school food service program for pupils must be
94.26	attributed to a school food service fund. Under a food service program, the school food
94.27	service may prepare or serve milk, meals, or snacks in connection with school or community
94.28	service activities.
4.29	(c) Revenues and expenditures for food service activities must be recorded in the food
94.30	service fund. The costs of processing applications, accounting for meals, preparing and
94.31	serving food, providing kitchen custodial services, waste management, and other expenses
94.32	involving the preparing of meals or the kitchen section or serving area sections of the

lunchroom may be charged to the food service fund or to the general fund of the district.

For the purposes of this paragraph, the costs of serving food include the costs of technology and systems related to serving line automation and meal tracking. The costs of lunchroom supervision, lunchroom custodial services, lunchroom utilities, lunchroom furniture, and other administrative costs of the food service program must be charged to the general fund. Staff whose primary responsibility is financial or program management of food service operations may charge time spent managing the program to the food service fund.

That portion of superintendent and fiscal manager costs that can be documented as attributable to the food service program may be charged to the food service fund provided that the school district does not employ or contract with a food service director or other individual who manages the food service program, or food service management company. If the cost of the superintendent or fiscal manager is charged to the food service fund, the charge must be at a wage rate not to exceed the statewide average for food service directors as determined by the department.

- (d) Capital expenditures for the purchase of food service equipment must be made from the general fund and not the food service fund, unless the restricted balance in the food service fund at the end of the last fiscal year is greater than the cost of the equipment to be purchased.
- (e) If the condition set out in paragraph (d) applies, the equipment may be purchased from the food service fund.
- (f) If a deficit in the food service fund exists at the end of a fiscal year, and the deficit is not eliminated by revenues from food service operations in the next fiscal year, then the deficit must be eliminated by a permanent fund transfer from the general fund at the end of that second fiscal year. However, if a district contracts with a food service management company during the period in which the deficit has accrued, the deficit must be eliminated by a payment from the food service management company.
- (g) Notwithstanding paragraph (f), a district may incur a deficit in the food service fund for up to three years without making the permanent transfer if the district submits to the commissioner by January 1 of the second fiscal year a plan for eliminating that deficit at the end of the third fiscal year.
- (h) If a surplus in the food service fund exists at the end of a fiscal year for three successive years, a district may recode for that fiscal year the documented costs of lunchroom supervision, lunchroom custodial services, lunchroom utilities, lunchroom furniture, and other administrative costs of the food service program charged to the general fund according
