**Bill Description**

SF 96 related to the Board of Architecture, Engineering, Land Surveying, Landscape Architecture, Geoscience and Interior Design modifies

- board member qualifications;
- requirements for initial licensure
- requirements for those already licensed in another jurisdiction (comity licensure);
- the method for service of orders by mail;

and allows for retroactive enforcement and removal of the temporary license application fee for eligible active military and their spouses.

**Assumptions**

The Board assumes an effective date of August 1, 2025. The Board assumes no costs associated with implementing board member qualification changes, initial licensure minimum age, method of service of orders, and retroactive enforcement. The Board assumes minimal rule changes will be necessary for implementation of comity licensure changes and minimal changes to the online application system. Any costs would be immaterial and covered within the current operating budget. The Board has had no temporary military license application requests in the last biennium and expects no unusual increase in such applications going forward.
