

Commuter Services Results Summary

Each year we hold around **100 onsite commuter fairs** with large/medium sized companies and multi-tenant office buildings to assist commuters with commuting resources

In a typical year over **5,500** drive alone commuters **SWITCH** to using a sustainable commute mode after receiving customized assistance from Commuter Services

1,887

New Bus and Light Rail Riders

1.635

New Carpoolers

1.254

New Bike Commuters

937

New Teleworkers

61

New Vanpoolers in 6 Vanpools

Resulting in an estimated **56 million** vehicle miles avoided as a direct result of Commuter Services outreach

Each vehicle mile reduced by Commuter Services outreach costs just

"Commuter Services helps us address a major employee concern - getting to work. It's like having an extra staff person dedicated to commuting issues."

Paula Prahl, Best Buy Co

In an average year, Commuter Services outreach results in the reduction of 23,234 metric tons of CO2 emissions

It takes 1,161,692 mature trees to reduce the same amount of CO2 emissions

Friends ask me how I stay in shape, and I tell them that biking is the way I improve my mood, health, and sleep, all while helping the environment. On a bike you can appreciate the sights and sounds of our beautiful state that you can only see and hear outside of a car. Even in the worst of the winter, I would rather be on a bike trail than stuck behind the wheel in traffic. At the end of my bike ride home I am decompressed and ready for family time!

Rajan Vatassery – SkyWater Technology

by Commuter Services

Twin Cities Telework by Commuter Services has **assisted 514 employers** with telework and hybrid work resources along with hundreds of teleworkers in the past year

I have been commuting by bike now for several years, and I continue to do that now that my office has opened up again after the pandemic. I really enjoyed getting outside in the springtime! I also am telecommuting now about half of my days. I appreciate all that Commuter Services does to help promote alternatives to driving!

Tanya Snyder – HID Global

"It is easier than I thought to walk or bike instead of drive. It's really true – we each can make a difference!"

Jodi Standke – Talon Performance, Normandale Lake Office Park
