Bill Overview

S.F. 2670 establishes a reimbursement rate for phototherapy services in the medical assistance program. Specifically, effective for services provided on or after July 1, 2025, reimbursement for phototherapy services provided at home must include a \$520 fee per patient episode as well as a daily rental rate for the phototherapy light equipment. The equipment rental rate is set to equal the Medicare rate, accomplished by the inclusion of a cross-reference to section 256B.766, subdivision 12. This bill requires the commissioner of human services to annually adjust the \$520 service fee based on inflation.
