The following statement, if followed by the signature of the person making the statement, is sufficient to comply with the certification requirement of this paragraph: "I am familiar with the property described in this instrument and I certify that the status and number of wells on the described real property have not changed since the last previously filed well disclosure certificate." The certification and signature may be on the front or back of the deed or on an attached sheet and an acknowledgment of the statement is not required for the deed or other instrument of conveyance to be recordable.

(j) The commissioner in consultation with county recorders shall prescribe the form for a well disclosure certificate and provide well disclosure certificate forms to county recorders and registrars of titles and other interested persons.

29.6 Subd. 2. **Eligibility for license condition.** (a) A hospital is not eligible to receive a
 29.7 license condition for swing beds unless (1) it either has a licensed bed capacity of less than
 29.8 50 beds defined in the federal Medicare regulations, Code of Federal Regulations, title 42,
 29.9 section 482.66, or it has a licensed bed capacity of 50 beds or more and has swing beds that
 29.10 were approved for Medicare reimbursement before May 1, 1985, or it has a licensed bed
 29.11 capacity of less than 65 beds and the available nursing homes within 50 miles have had, in
 29.12 the aggregate, an average occupancy rate of 96 percent or higher in the most recent two
 29.13 years as documented on the statistical reports to the Department of Health; and (2) it is
 29.14 located in a rural area as defined in the federal Medicare regulations, Code of Federal
 29.15 Regulations, title 42, section 482.66.

29.16 (b) Except for those critical access hospitals established under section 144.1483, clause
 29.17 (9), and section 1820 of the federal Social Security Act, United States Code, title 42, section
 29.18 1395i-4, that have an attached nursing home or that owned a nursing home located in the
 29.19 same municipality as of May 1, 2005, eligible hospitals are allowed a total number of days
 29.20 of swing bed use per year as provided in paragraph (c). Critical access hospitals that have
 29.21 an attached nursing home or that owned a nursing home located in the same municipality
 29.22 as of May 1, 2005, are allowed swing bed use as provided in federal law. A critical access
 29.23 hospital described in section 144.5621 is allowed an unlimited number of days of swing
 29.24 bed use per year.

29.25 (c) An eligible hospital is allowed a total of 3,000 days of swing bed use in calendar
 29.26 year 2020. Beginning in calendar year 2021, and for each subsequent calendar year until
 29.27 calendar year 2027, the total number of days of swing bed use per year is increased by 200
 29.28 swing bed use days. Beginning in calendar year 2028, an eligible hospital is allowed a total
 29.29 of 4,500 days of swing bed use per year.

29.30 (d) Days of swing bed use for medical care that an eligible hospital has determined are
 29.31 charity care shall not count toward the applicable limit in paragraph (b) or (c). For purposes
 29.32 of this paragraph, "charity care" means care that an eligible hospital provided for free or at
 29.33 a discount to persons who cannot afford to pay and for which the eligible hospital did not
 29.34 expect payment.

(e) Days of swing bed use for care of a person who has been denied admission to every Medicare-certified skilled nursing facility within 25 miles of the eligible hospital shall not count toward the applicable limit in paragraphs (b) and (c). Eligible hospitals must maintain documentation that they have contacted each skilled nursing facility within 25 miles to determine if any skilled nursing facility beds are available and if the skilled nursing facilities are willing to admit the patient. Skilled nursing facilities that are contacted must admit the patient or deny admission within 24 hours of being contacted by the eligible hospital. Failure to respond within 24 hours is deemed a denial of admission.

~~(f) Except for critical access hospitals that have an attached nursing home or that owned a nursing home located in the same municipality as of May 1, 2005, the commissioner of health may approve swing bed use beyond 2,000 days as long as there are no Medicare certified skilled nursing facility beds available within 25 miles of that hospital that are willing to admit the patient and the patient agrees to the referral being sent to the skilled nursing facility. Critical access hospitals exceeding 2,000 swing bed days must maintain documentation that they have contacted skilled nursing facilities within 25 miles to determine if any skilled nursing facility beds are available that are willing to admit the patient and the patient agrees to the referral being sent to the skilled nursing facility. This paragraph expires January 1, 2020.~~

~~(g) After reaching 2,000 days of swing bed use in a year, an eligible hospital to which this limit applies may admit six additional patients to swing beds each year without seeking approval from the commissioner or being in violation of this subdivision. These six swing bed admissions are exempt from the limit of 2,000 annual swing bed days for hospitals subject to this limit. This paragraph expires January 1, 2020.~~

~~(h) A health care system that is in full compliance with this subdivision may allocate its total limit of swing bed days among the hospitals within the system, provided that no hospital in the system without an attached nursing home may exceed 2,000 swing bed days per year. This paragraph expires January 1, 2020.~~

EFFECTIVE DATE. This section is effective January 1, 2026, or upon federal approval, whichever is later. The commissioners of health and human services shall inform the revisor of statutes when federal approval is obtained.

31.5 the length of stay of a patient receiving services in a swing bed to not more than 40 days,
31.6 or the duration of Medicare eligibility, unless the commissioner of health approves a greater
31.7 length of stay in an emergency situation. To determine whether an emergency situation
31.8 exists, the commissioner shall require the hospital to provide documentation that continued
31.9 services in the swing bed are required by the patient; that no skilled nursing facility beds
31.10 are available within 25 miles from the patient's home, or in some more remote facility of
31.11 the resident's choice, that can provide the appropriate level of services required by the
31.12 patient; and that other alternative services are not available to meet the needs of the patient.

Subd. 2. **Continuing approval.** The board must, through the board's representative, annually survey all midwifery education programs in Minnesota for current accreditation status by the American Commission for Midwifery Education or any successor organization recognized by the United States Department of Education or the Council for Higher Education Accreditation. If the results of the survey show that a certified midwifery education program meets all standards for continuing accreditation, the board must continue approval of the certified midwifery education program.

Subd. 3. **Loss of approval.** If the board determines that an accredited certified midwifery education program is not maintaining the standards required by the American Commission on Midwifery Education or any successor organization, the board must obtain the defect in writing from the accrediting body. If a program fails to correct the defect to the satisfaction of the accrediting body and the accrediting body revokes the program's accreditation, the board must remove the program from the list of approved certified midwifery education programs.

Subd. 4. **Reinstatement of approval.** The board must reinstate approval of a certified midwifery education program upon submission of satisfactory evidence that the certified midwifery education program of theory and practice meets the standards required by the accrediting body.

Sec. 98. [148G.13] GROUNDS FOR DISCIPLINARY ACTION.

Subdivision 1. **Grounds listed.** The board may deny, revoke, suspend, limit, or condition the license of any person to practice certified midwifery under this chapter or otherwise discipline a licensee or applicant as described in section 148G.14. The following are grounds for disciplinary action:

137.1 (1) failure to demonstrate the qualifications or satisfy the requirements for a license
137.2 contained in this chapter or rules of the board. In the case of an applicant for licensure, the
137.3 burden of proof is upon the applicant to demonstrate the qualifications or satisfaction of the
137.4 requirements;

137.5 (2) employing fraud or deceit in procuring or attempting to procure a license to practice
137.6 certified midwifery;

137.7 (3) conviction of a felony or gross misdemeanor reasonably related to the practice of
137.8 certified midwifery. Conviction, as used in this subdivision, includes a conviction of an
137.9 offense that if committed in this state would be considered a felony or gross misdemeanor
137.10 without regard to its designation elsewhere, or a criminal proceeding where a finding or
137.11 verdict of guilt is made or returned, but the adjudication of guilt is either withheld or not
137.12 entered;

137.13 (4) revocation, suspension, limitation, conditioning, or other disciplinary action against
137.14 the person's certified midwife credential in another state, territory, or country; failure to
137.15 report to the board that charges regarding the person's certified midwifery license,
137.16 certification, or other credential are pending in another state, territory, or country; or failure
137.17 to report to the board having been refused a license or other credential by another state,
137.18 territory, or country;

137.19 (5) failure or inability to practice as a certified midwife with reasonable skill and safety,
137.20 or departure from or failure to conform to standards of acceptable and prevailing certified
137.21 midwifery practice, including failure of a certified midwife to adequately supervise or
137.22 monitor the performance of acts by any person working at the certified midwife's direction;

137.23 (6) engaging in unprofessional conduct, including but not limited to a departure from
137.24 or failure to conform to statutes relating to certified midwifery practice or to the minimal
137.25 standards of acceptable and prevailing certified midwifery practice, or engaging in any
137.26 certified midwifery practice that may create unnecessary danger to a patient's life, health,
137.27 or safety. Actual injury to a patient need not be established under this clause;

137.28 (7) supervision or accepting the supervision of a midwifery function or a prescribed
137.29 health care function when the acceptance could reasonably be expected to result in unsafe
137.30 or ineffective patient care;

137.31 (8) actual or potential inability to practice certified midwifery with reasonable skill and
137.32 safety to patients by reason of illness; by the reason of use of alcohol, drugs, chemicals, or
137.33 any other material; or as a result of any mental or physical condition;

138.1 (9) adjudication as mentally incompetent, mentally ill, a chemically dependent person,
138.2 or a person dangerous to the public by a court of competent jurisdiction, within or outside
138.3 of Minnesota;

138.4 (10) engaging in any unethical conduct, including but not limited to conduct likely to
138.5 deceive, defraud, or harm the public, or demonstrating a willful or careless disregard for
138.6 the health, welfare, or safety of a patient. Actual injury need not be established under this
138.7 clause;

138.8 (11) engaging in conduct with a patient that is sexual or may reasonably be interpreted
138.9 by the patient as sexual, in any verbal behavior that is seductive or sexually demeaning to
138.10 a patient, or in sexual exploitation of a patient or former patient;

138.11 (12) obtaining money, property, or services from a patient, other than reasonable fees
138.12 for services provided to the patient, through the use of undue influence, harassment, duress,
138.13 deception, or fraud;

138.14 (13) revealing a privileged communication from or relating to a patient except when
138.15 otherwise required or permitted by law;

138.16 (14) engaging in abusive or fraudulent billing practices, including violations of federal
138.17 Medicare and Medicaid laws or state medical assistance laws;

138.18 (15) improper management of patient records, including failure to maintain adequate
138.19 patient records, to comply with a patient's request made pursuant to sections 144.291 to
138.20 144.298, or to furnish a patient record or report required by law;

138.21 (16) knowingly aiding, assisting, advising, or allowing an unlicensed person to engage
138.22 in the unlawful practice of certified midwifery;

138.23 (17) violating a rule adopted by the board, an order of the board, a state or federal law
138.24 relating to the practice of certified midwifery, or a state or federal narcotics or controlled
138.25 substance law;

138.26 (18) knowingly providing false or misleading information to a patient that is directly
138.27 related to the care of that patient unless done for an accepted therapeutic purpose such as
138.28 the administration of a placebo;

138.29 (19) aiding suicide or aiding attempted suicide in violation of section 609.215 as
138.30 established by any of the following:

138.31 (i) a copy of the record of criminal conviction or plea of guilty for a felony in violation
138.32 of section 609.215, subdivision 1 or 2;

139.1 (ii) a copy of the record of a judgment of contempt of court for violating an injunction
139.2 issued under section 609.215, subdivision 4;

139.3 (iii) a copy of the record of a judgment assessing damages under section 609.215,
139.4 subdivision 5; or

139.5 (iv) a finding by the board that the person violated section 609.215, subdivision 1 or 2.
139.6 The board must investigate any complaint of a violation of section 609.215, subdivision 1
139.7 or 2;

139.8 (20) practicing outside the scope of certified midwifery practice as defined under section
139.9 148G.03, subdivision 5;

139.10 (21) making a false statement or knowingly providing false information to the board,
139.11 failing to make reports as required by section 148G.15, or failing to cooperate with an
139.12 investigation of the board as required by section 148G.17;

139.13 (22) engaging in false, fraudulent, deceptive, or misleading advertising;

139.14 (23) failure to inform the board of the person's certification or recertification status as
139.15 a certified midwife;

139.16 (24) engaging in certified midwifery practice without a license and current certification
139.17 or recertification by the American Midwifery Certification Board or any successor
139.18 organization; or

139.19 (25) failure to maintain appropriate professional boundaries with a patient. A certified
139.20 midwife must not engage in practices that create an unacceptable risk of patient harm or of
139.21 the impairment of a certified midwife's objectivity or professional judgment. A certified
139.22 midwife must not act or fail to act in a way that, as judged by a reasonable and prudent
139.23 certified midwife, inappropriately encourages the patient to relate to the certified midwife
139.24 outside of the boundaries of the professional relationship or in a way that interferes with
139.25 the patient's ability to benefit from certified midwife services. A certified midwife must not
139.26 use the professional relationship with a patient, student, supervisee, or intern to further the
139.27 certified midwife's personal, emotional, financial, sexual, religious, political, or business
139.28 benefit or interests.

139.29 Subd. 2. **Conviction of a felony-level criminal sexual offense.** (a) Except as provided
139.30 in paragraph (e), the board must not grant or renew a license to practice certified midwifery
139.31 to any person who has been convicted on or after August 1, 2014, of any of the provisions
139.32 of section 609.342, subdivision 1 or 1a; 609.343, subdivision 1 or 1a; 609.344, subdivision

140.1 1 or 1a, paragraphs (c) to (g); or 609.345, subdivision 1 or 1a, paragraphs (c) to (g); or a
140.2 similar statute in another jurisdiction.

140.3 (b) A license to practice certified midwifery is automatically revoked if the licensee is
140.4 convicted of an offense listed in paragraph (a).

140.5 (c) A license to practice certified midwifery that has been denied or revoked under this
140.6 subdivision is not subject to chapter 364.

140.7 (d) For purposes of this subdivision, "conviction" means a plea of guilty, a verdict of
140.8 guilty by a jury, or a finding of guilty by the court, unless the court stays imposition or
140.9 execution of the sentence and final disposition of the case is accomplished at a nonfelony
140.10 level.

140.11 (e) The board may establish criteria whereby an individual convicted of an offense listed
140.12 in paragraph (a) may become licensed if the criteria:

140.13 (1) utilize a rebuttable presumption that the applicant is not suitable for licensing;

140.14 (2) provide a standard for overcoming the presumption; and

140.15 (3) require that a minimum of ten years has elapsed since the applicant's sentence was
140.16 discharged.

140.17 (f) The board must not consider an application under paragraph (e) if the board determines
140.18 that the victim involved in the offense was a patient or a client of the applicant at the time
140.19 of the offense.

140.20 Subd. 3. **Evidence.** In disciplinary actions alleging a violation of subdivision 1, clause
140.21 (3) or (4), or 2, a copy of the judgment or proceeding under the seal of the court administrator
140.22 or of the administrative agency that entered the same is admissible into evidence without
140.23 further authentication and constitutes prima facie evidence of the violation concerned.

140.24 Subd. 4. **Examination; access to medical data.** (a) If the board has probable cause to
140.25 believe that grounds for disciplinary action exist under subdivision 1, clause (8) or (9), it
140.26 may direct the applicant or certified midwife to submit to a mental or physical examination
140.27 or chemical dependency evaluation. For the purpose of this subdivision, when a certified
140.28 midwife licensed under this chapter is directed in writing by the board to submit to a mental
140.29 or physical examination or chemical dependency evaluation, that person is considered to
140.30 have consented and to have waived all objections to admissibility on the grounds of privilege.
140.31 Failure of the applicant or certified midwife to submit to an examination when directed
140.32 constitutes an admission of the allegations against the applicant or certified midwife, unless
140.33 the failure was due to circumstances beyond the person's control, and the board may enter

141.1 a default and final order without taking testimony or allowing evidence to be presented. A
141.2 certified midwife affected under this paragraph must, at reasonable intervals, be given an
141.3 opportunity to demonstrate that the competent practice of certified midwifery can be resumed
141.4 with reasonable skill and safety to patients. Neither the record of proceedings nor the orders
141.5 entered by the board in a proceeding under this paragraph may be used against a certified
141.6 midwife in any other proceeding.

141.7 (b) Notwithstanding sections 13.384, 144.651, and 595.02, or any other law limiting
141.8 access to medical or other health data, the board may obtain medical data and health records
141.9 relating to a certified midwife or applicant for a license without that person's consent if the
141.10 board has probable cause to believe that grounds for disciplinary action exist under
141.11 subdivision 1, clause (8) or (9). The medical data may be requested from a provider, as
141.12 defined in section 144.291, subdivision 2; an insurance company; or a government agency,
141.13 including the Department of Human Services or Direct Care and Treatment. A provider,
141.14 insurance company, or government agency must comply with any written request of the
141.15 board under this subdivision and is not liable in any action for damages for releasing the
141.16 data requested by the board if the data are released pursuant to a written request under this
141.17 subdivision, unless the information is false and the provider giving the information knew
141.18 or had reason to believe the information was false. Information obtained under this
141.19 subdivision is classified as private data on individuals as defined in section 13.02.

141.20 Sec. 99. **[148G.14] FORMS OF DISCIPLINARY ACTION; AUTOMATIC**
141.21 **SUSPENSION; TEMPORARY SUSPENSION; REISSUANCE.**

141.22 Subdivision 1. **Forms of disciplinary action.** If the board finds that grounds for
141.23 disciplinary action exist under section 148G.13, it may take one or more of the following
141.24 actions:

141.25 (1) deny the license application or application for license renewal;

141.26 (2) revoke the license;

141.27 (3) suspend the license;

141.28 (4) impose limitations on the certified midwife's practice of certified midwifery, including
141.29 but not limited to limitation of scope of practice or the requirement of practice under
141.30 supervision;

141.31 (5) impose conditions on the retention of the license, including but not limited to the
141.32 imposition of retraining or rehabilitation requirements or the conditioning of continued

142.1 practice on demonstration of knowledge or skills by appropriate examination, monitoring,
142.2 or other review;

142.3 (6) impose a civil penalty not exceeding \$10,000 for each separate violation. The amount
142.4 of the civil penalty must be fixed so as to deprive the certified midwife of any economic
142.5 advantage gained by reason of the violation charged; to reimburse the board for the cost of
142.6 counsel, investigation, and proceeding; and to discourage repeated violations;

142.7 (7) order the certified midwife to provide unremunerated service;

142.8 (8) censure or reprimand the certified midwife; or

142.9 (9) any other action justified by the facts in the case.

142.10 Subd. 2. **Automatic suspension of license.** (a) Unless the board orders otherwise, a
142.11 license to practice certified midwifery is automatically suspended if:

142.12 (1) a guardian of a certified midwife is appointed by order of a court under sections
142.13 524.5-101 to 524.5-502;

142.14 (2) the certified midwife is committed by order of a court under chapter 253B; or

142.15 (3) the certified midwife is determined to be mentally incompetent, mentally ill,
142.16 chemically dependent, or a person dangerous to the public by a court of competent
142.17 jurisdiction within or outside of Minnesota.

142.18 (b) The license remains suspended until the certified midwife is restored to capacity by
142.19 a court and, upon petition by the certified midwife, the suspension is terminated by the
142.20 board after a hearing or upon agreement between the board and the certified midwife.

142.21 Subd. 3. **Temporary suspension of license.** In addition to any other remedy provided
142.22 by law, the board may, through its designated board member under section 214.10,
142.23 subdivision 2, temporarily suspend the license of a certified midwife without a hearing if
142.24 the board finds that there is probable cause to believe the certified midwife has violated a
142.25 statute or rule the board is empowered to enforce and continued practice by the certified
142.26 midwife would create a serious risk of harm to others. The suspension takes effect upon
142.27 written notice to the certified midwife, served by first-class mail, specifying the statute or
142.28 rule violated. The suspension must remain in effect until the board issues a temporary stay
142.29 of suspension or a final order in the matter after a hearing or upon agreement between the
142.30 board and the certified midwife. At the time it issues the suspension notice, the board must
142.31 schedule a disciplinary hearing to be held under the Administrative Procedure Act. The
142.32 board must provide the certified midwife at least 20 days' notice of any hearing held under

143.1 this subdivision. The board must schedule the hearing to begin no later than 30 days after
143.2 the issuance of the suspension order.

143.3 Subd. 4. **Reissuance.** The board may reinstate and reissue a license to practice certified
143.4 midwifery, but as a condition may impose any disciplinary or corrective measure that it
143.5 might originally have imposed. Any person whose license has been revoked, suspended, or
143.6 limited may have the license reinstated and a new license issued when, at the discretion of
143.7 the board, the action is warranted, provided that the board must require the person to pay
143.8 the costs of the proceedings resulting in the revocation, suspension, or limitation of the
143.9 license; the relicensure fee; and the fee for the current licensure period. The cost of
143.10 proceedings includes but is not limited to the cost paid by the board to the Office of
143.11 Administrative Hearings and the Office of the Attorney General for legal and investigative
143.12 services; the costs of a court reporter and witnesses, reproduction of records, board staff
143.13 time, travel, and expenses; and the costs of board members' per diem reimbursements, travel
143.14 costs, and expenses.

143.15 Sec. 100. **[148G.15] REPORTING OBLIGATIONS.**

143.16 Subdivision 1. **Permission to report.** A person who has knowledge of any conduct
143.17 constituting grounds for discipline under section 148G.13 may report the alleged violation
143.18 to the board.

143.19 Subd. 2. **Institutions.** The chief nursing executive or chief administrative officer of any
143.20 hospital, clinic, prepaid medical plan, or other health care institution or organization located
143.21 in Minnesota must report to the board any action taken by the institution or organization or
143.22 any of its administrators or committees to revoke, suspend, limit, or condition a certified
143.23 midwife's privilege to practice in the institution or as part of the organization, any denial of
143.24 privileges, any dismissal from employment, or any other disciplinary action. The institution
143.25 or organization must also report the resignation of any certified midwife before the conclusion
143.26 of any disciplinary proceeding or before commencement of formal charges, but after the
143.27 certified midwife had knowledge that formal charges were contemplated or in preparation.
143.28 The reporting described by this subdivision is required only if the action pertains to grounds
143.29 for disciplinary action under section 148G.13.

143.30 Subd. 3. **Licensed professionals.** A person licensed by a health-related licensing board
143.31 as defined in section 214.01, subdivision 2, must report to the board personal knowledge
143.32 of any conduct the person reasonably believes constitutes grounds for disciplinary action
143.33 under section 148G.13 by any certified midwife, including conduct indicating that the
143.34 certified midwife may be incompetent, may have engaged in unprofessional or unethical

144.1 conduct, or may be mentally or physically unable to engage safely in the practice of certified
144.2 midwifery.

144.3 Subd. 4. **Insurers.** (a) By the first day of February, May, August, and November each
144.4 year, each insurer authorized to sell insurance described in section 60A.06, subdivision 1,
144.5 clause (13), and providing professional liability insurance to certified midwives must submit
144.6 to the board a report concerning any certified midwife against whom a malpractice award
144.7 has been made or who has been a party to a settlement. The report must contain at least the
144.8 following information:

144.9 (1) the total number of settlements or awards;

144.10 (2) the date a settlement or award was made;

144.11 (3) the allegations contained in the claim or complaint leading to the settlement or award;

144.12 (4) the dollar amount of each malpractice settlement or award and whether that amount
144.13 was paid as a result of a settlement or of an award; and

144.14 (5) the name and address of the practice of the certified midwife against whom an award
144.15 was made or with whom a settlement was made.

144.16 (b) An insurer must also report to the board any information it possesses that tends to
144.17 substantiate a charge that a certified midwife may have engaged in conduct in violation of
144.18 this chapter.

144.19 Subd. 5. **Courts.** The court administrator of district court or another court of competent
144.20 jurisdiction must report to the board any judgment or other determination of the court that
144.21 adjudges or includes a finding that a certified midwife is a person who is mentally ill,
144.22 mentally incompetent, chemically dependent, dangerous to the public, guilty of a felony or
144.23 gross misdemeanor, guilty of a violation of federal or state narcotics laws or controlled
144.24 substances act, guilty of operating a motor vehicle while under the influence of alcohol or
144.25 a controlled substance, or guilty of an abuse or fraud under Medicare or Medicaid; or if the
144.26 court appoints a guardian of the certified midwife under sections 524.5-101 to 524.5-502
144.27 or commits a certified midwife under chapter 253B.

144.28 Subd. 6. **Deadlines; forms.** Reports required by subdivisions 2, 3, and 5 must be
144.29 submitted no later than 30 days after the occurrence of the reportable event or transaction.
144.30 The board may provide forms for the submission of reports required under this section, may
144.31 require that the reports be submitted on the forms provided, and may adopt rules necessary
144.32 to ensure prompt and accurate reporting. The board must review all reports, including those
144.33 submitted after the deadline.

Subd. 7. **Failure to report.** Any person, institution, insurer, or organization that fails to report as required under subdivisions 2 to 6 is subject to civil penalties for failing to report as required by law.

Sec. 101. **[148G.16] IMMUNITY.**

Subdivision 1. **Reporting.** Any person, health care facility, business, or organization is immune from civil liability and criminal prosecution for submitting in good faith a report to the board under section 148G.15 or for otherwise reporting in good faith to the board violations or alleged violations of this chapter. All such reports are investigative data as defined in chapter 13.

Subd. 2. **Investigation.** (a) Members of the board, persons employed by the board or engaged in the investigation of violations and in the preparation and management of charges of violations of this chapter on behalf of the board, or persons participating in the investigation or testifying regarding charges of violations are immune from civil liability and criminal prosecution for any actions, transactions, or publications in the execution of, or relating to, their duties under this chapter.

(b) Members of the board and persons employed by the board or engaged in maintaining records and making reports regarding adverse health care events are immune from civil liability and criminal prosecution for any actions, transactions, or publications in the execution of, or relating to, their duties under this chapter.

Sec. 102. **[148G.17] CERTIFIED MIDWIFE COOPERATION.**

A certified midwife who is the subject of an investigation by or on behalf of the board must cooperate fully with the investigation. Cooperation includes responding fully and promptly to any question raised by or on behalf of the board relating to the subject of the investigation and providing copies of patient or other records in the certified midwife's possession, as reasonably requested by the board, to assist the board in its investigation and to appear at conferences and hearings scheduled by the board. The board must pay for copies requested. If the board does not have written consent from a patient permitting access to the patient's records, the certified midwife must delete any data in the record that identify the patient before providing it to the board. The board must maintain any records obtained pursuant to this section as investigative data under chapter 13. The certified midwife must not be excused from giving testimony or producing any documents, books, records, or correspondence on the grounds of self-incrimination, but the testimony or evidence must not be used against the certified midwife in any criminal case.

146.1 Sec. 103. [148G.18] DISCIPLINARY RECORD ON JUDICIAL REVIEW.

146.2 Upon judicial review of any board disciplinary action taken under this chapter, the
146.3 reviewing court must seal the administrative record, except for the board's final decision,
146.4 and must not make the administrative record available to the public.

146.5 Sec. 104. [148G.19] EXEMPTIONS.

146.6 The provisions of this chapter do not prohibit:

146.7 (1) the furnishing of certified midwifery assistance in an emergency;

146.8 (2) the practice of certified midwifery by any legally qualified certified midwife of
146.9 another state who is employed by the United States government or any bureau, division, or
146.10 agency thereof while in the discharge of official duties;

146.11 (3) the practice of any profession or occupation licensed by Minnesota, other than
146.12 certified midwifery, by any person licensed to practice the profession or occupation, or the
146.13 performance by a person of any acts properly coming within the scope of the profession,
146.14 occupation, or license;

146.15 (4) the practice of traditional midwifery as specified under section 147D.03;

146.16 (5) certified midwifery practice by a student practicing under the supervision of an
146.17 instructor while the student is enrolled in an approved certified midwifery education program;
146.18 or

146.19 (6) certified midwifery practice by a certified midwife licensed in another state, territory,
146.20 or jurisdiction who is in Minnesota temporarily;

146.21 (i) providing continuing or in-service education;

146.22 (ii) serving as a guest lecturer;

146.23 (iii) presenting at a conference; or

146.24 (iv) teaching didactic content via distance education to a student located in Minnesota
146.25 who is enrolled in a formal, structured course of study, such as a course leading to a higher
146.26 degree in midwifery.

146.27 Sec. 105. [148G.20] VIOLATIONS; PENALTY.

146.28 Subdivision 1. **Violations described.** It is unlawful for any person, corporation, firm,
146.29 or association to:

147.1 (1) sell or fraudulently obtain or furnish any certified midwifery diploma, license, or
147.2 record, or aid or abet therein;

147.3 (2) practice certified midwifery under cover of any diploma, permit, license, certified
147.4 midwife credential, or record illegally or fraudulently obtained or signed or issued unlawfully
147.5 or under fraudulent representation;

147.6 (3) practice certified midwifery unless the person is licensed to do so under this chapter;

147.7 (4) use the professional title certified midwife or licensed certified midwife unless
147.8 licensed to practice certified midwifery under this chapter;

147.9 (5) use any abbreviation or other designation tending to imply licensure as a certified
147.10 midwife unless licensed to practice certified midwifery under this chapter;

147.11 (6) practice certified midwifery in a manner prohibited by the board in any limitation

179.16 from the entity. A committee member must notify the committee of any potential conflict
179.17 of interest and recuse themselves from any communications, discussion, or vote on any
179.18 matter where a conflict of interest exists. A conflict of interest alone, without a personal
179.19 interest, does not preclude an applicant from serving as a member of the Formulary
179.20 Committee. Members may be removed from the committee for cause after a recommendation
179.21 for removal by a majority of the committee membership. For the purposes of this subdivision,
179.22 "cause" does not include offering a differing or dissenting clinical opinion on a drug or drug
179.23 class. The department's medical director shall also serve as an ex officio, nonvoting member
179.24 for the committee. Committee members shall serve three-year terms and may be reappointed
179.25 twice by the commissioner. The committee members shall vote on a chair and vice chair
179.26 from among their membership. The chair shall preside over all committee meetings, and
179.27 the vice chair shall preside over the meetings if the chair is not present. The Formulary
179.28 Committee shall meet at least three times per year. The commissioner may require more
179.29 frequent Formulary Committee meetings as needed. An honorarium of \$100 per meeting
179.30 and reimbursement for mileage shall be paid to each committee member in attendance. The
179.31 Formulary Committee expires June 30, ~~2027~~ 2029. The Formulary Committee is subject to
179.32 the Open Meeting Law under chapter 13D. For purposes of establishing a quorum to transact
179.33 business, vacant committee member positions do not count in the calculation as long as at
179.34 least 60 percent of the committee member positions are filled.

179.35 **EFFECTIVE DATE.** This section is effective the day following final enactment.

180.1 Sec. 4. Minnesota Statutes 2024, section 256B.0625, subdivision 13d, is amended to read:

180.2 Subd. 13d. **Drug formulary.** (a) The commissioner shall establish a drug formulary. Its
180.3 establishment and publication shall not be subject to the requirements of the Administrative
180.4 Procedure Act, but the Formulary Committee shall review and comment on the formulary
180.5 contents.

180.6 (b) The formulary shall not include:

180.7 (1) drugs, active pharmaceutical ingredients, or products for which there is no federal
180.8 funding;

180.9 (2) over-the-counter drugs, except as provided in subdivision 13;

180.10 (3) drugs or active pharmaceutical ingredients when used for the treatment of impotence
180.11 or erectile dysfunction;

180.12 (4) drugs or active pharmaceutical ingredients for which medical value has not been
180.13 established;

180.14 (5) drugs from manufacturers who have not signed a rebate agreement with the
180.15 Department of Health and Human Services pursuant to section 1927 of title XIX of the
180.16 Social Security Act; and

180.17 (6) medical cannabis flower as defined in section 342.01, subdivision 54, or medical
180.18 cannabinoid products as defined in section 342.01, subdivision 52.

180.19 (c) If a single-source drug used by at least two percent of the fee-for-service medical
180.20 assistance recipients is removed from the formulary due to the failure of the manufacturer
180.21 to sign a rebate agreement with the Department of Health and Human Services, the
180.22 commissioner shall notify prescribing practitioners within 30 days of receiving notification
180.23 from the Centers for Medicare and Medicaid Services (CMS) that a rebate agreement was
180.24 not signed.

180.25 (d) Within ten calendar days of any commissioner determination to change the drug
180.26 formulary, the commissioner must provide written notice to all enrollees affected by the
180.27 change. The notice must include a description of the change, the reason for the change, and
180.28 the date the change will become effective.

180.29 (e) By January 15, 2026, and annually thereafter, the commissioner of human services
180.30 must provide a report with data and information related to the effects on enrollees of drug
180.31 formulary changes made in the prior calendar year to the chairs and ranking minority

181.1 members of the legislative committees with jurisdiction over health and human services
181.2 policy and finance. The report must include but is not limited to data and information on:

181.3 (1) the number of times the formulary was changed;

181.4 (2) the reasons for the formulary changes and how frequently the formulary was changed
181.5 for each reason;

181.6 (3) the drugs that were removed from the formulary;

181.7 (4) for each drug that was removed from the formulary, the number of enrollees who
181.8 were prescribed that drug when it was removed;

181.9 (5) for each drug that was removed from the formulary, whether a therapeutically
181.10 equivalent drug was added;

181.11 (6) the drugs that were added to the formulary;

181.12 (7) the fiscal impacts to the Department of Human Services resulting from the changes
181.13 to the formulary; and

181.14 (8) enrollee populations or medical conditions disproportionately affected by the
181.15 formulary changes.

181.16 Sec. 5. Minnesota Statutes 2024, section 256B.0625, subdivision 13e, is amended to read:

181.17 Subd. 13e. **Payment rates.** (a) The basis for determining the amount of payment shall
181.18 be the lower of the ingredient costs of the drugs plus the professional dispensing fee; or the
181.19 usual and customary price charged to the public. The usual and customary price means the
181.20 lowest price charged by the provider to a patient who pays for the prescription by cash,
181.21 check, or charge account and includes prices the pharmacy charges to a patient enrolled in
181.22 a prescription savings club or prescription discount club administered by the pharmacy or
181.23 pharmacy chain, unless the prescription savings club or prescription discount club is one
181.24 in which an individual pays a recurring monthly access fee for unlimited access to a defined
181.25 list of drugs for which the pharmacy does not bill the member or a payer on a
181.26 per-standard-transaction basis. The amount of payment basis must be reduced to reflect all
181.27 discount amounts applied to the charge by any third-party provider/insurer agreement or
181.28 contract for submitted charges to medical assistance programs. The net submitted charge
181.29 may not be greater than the patient liability for the service. The professional dispensing fee
181.30 shall be \$11.55 for prescriptions filled with legend drugs meeting the definition of "covered
181.31 outpatient drugs" according to United States Code, title 42, section 1396r-8(k)(2). The
181.32 dispensing fee for intravenous solutions that must be compounded by the pharmacist shall

182.1 be \$11.55 per claim. The professional dispensing fee for prescriptions filled with
182.2 over-the-counter drugs meeting the definition of covered outpatient drugs shall be \$11.55
182.3 for dispensed quantities equal to or greater than the number of units contained in the
182.4 manufacturer's original package. The professional dispensing fee shall be prorated based
182.5 on the percentage of the package dispensed when the pharmacy dispenses a quantity less
182.6 than the number of units contained in the manufacturer's original package. The pharmacy
182.7 dispensing fee for prescribed over-the-counter drugs not meeting the definition of covered
182.8 outpatient drugs shall be \$3.65 for quantities equal to or greater than the number of units
182.9 contained in the manufacturer's original package and shall be prorated based on the
182.10 percentage of the package dispensed when the pharmacy dispenses a quantity less than the
182.11 number of units contained in the manufacturer's original package. The ingredient cost for
182.12 a drug is the lower of the National Average Drug Acquisition Cost (NADAC) shall be used
182.13 ~~to determine the ingredient cost of a drug, the Minnesota actual acquisition cost (MNAAC)~~
182.14 as defined in paragraph (i), or the maximum allowable cost. For drugs for which a NADAC,
182.15 a MNAAC, or a maximum allowable cost is not reported, the commissioner shall estimate
182.16 the ingredient cost at the wholesale acquisition cost minus two percent. The ingredient cost
182.17 of a drug for a provider participating in the federal 340B Drug Pricing Program shall be
182.18 ~~either~~ the 340B Drug Pricing Program ceiling price established by the Health Resources
182.19 and Services Administration ~~or~~, the NADAC, the MNAAC, or the maximum allowable
182.20 cost, whichever is lower. Wholesale acquisition cost is defined as the manufacturer's list
182.21 price for a drug or biological to wholesalers or direct purchasers in the United States, not
182.22 including prompt pay or other discounts, rebates, or reductions in price, for the most recent
182.23 month for which information is available, as reported in wholesale price guides or other
182.24 publications of drug or biological pricing data. The maximum allowable cost of a ~~multisource~~
182.25 drug may be set by the commissioner and it shall be comparable to the actual acquisition
182.26 cost of the drug product and no higher than the NADAC of the generic product. Establishment
182.27 of the amount of payment for drugs shall not be subject to the requirements of the
182.28 Administrative Procedure Act.

182.29 (b) Pharmacies dispensing prescriptions to residents of long-term care facilities using
182.30 an automated drug distribution system meeting the requirements of section 151.58, or a
182.31 packaging system meeting the packaging standards set forth in Minnesota Rules, part
182.32 6800.2700, that govern the return of unused drugs to the pharmacy for reuse, may employ
182.33 retrospective billing for prescription drugs dispensed to long-term care facility residents. A
182.34 retrospectively billing pharmacy must submit a claim only for the quantity of medication
182.35 used by the enrolled recipient during the defined billing period. A retrospectively billing
182.36 pharmacy must use a billing period not less than one calendar month or 30 days.

(c) A pharmacy provider using packaging that meets the standards set forth in Minnesota Rules, part 6800.2700, is required to credit the department for the actual acquisition cost of all unused drugs that are eligible for reuse, unless the pharmacy is using retrospective billing. The commissioner may permit the drug clozapine to be dispensed in a quantity that is less than a 30-day supply.

(d) If a pharmacy dispenses a multisource drug, the ingredient cost shall be the lesser of the NADAC of the generic product, the MNAAC of the generic product, or the maximum allowable cost of the generic product established by the commissioner unless prior authorization for the brand name product has been granted according to the criteria established by the Drug Formulary Committee as required by subdivision 13f, paragraph (a), and the prescriber has indicated "dispense as written" on the prescription in a manner consistent with section 151.21, subdivision 2. If prior authorization is granted, the ingredient cost shall be the lesser of the NADAC of the brand name product, the MNAAC of the brand name product, or the maximum allowable cost of the brand name product. A generic product includes a generic drug, an authorized generic drug, and a biosimilar biological product as defined in Code of Federal Regulations, title 42, section 423.4. A brand name product includes a brand name drug, a brand name biological product, and an unbranded biological product as defined in Code of Federal Regulations, title 42, section 423.4.

(e) The basis for determining the amount of payment for drugs administered in an outpatient setting shall be the lower of the usual and customary cost submitted by the provider, 106 percent of the average sales price as determined by the United States Department of Health and Human Services pursuant to title XVIII, section 1847a of the federal Social Security Act, the ~~specialty pharmacy rate~~ MNAAC, or the maximum allowable cost set by the commissioner. If the average sales price is, the MNAAC, and the maximum allowable cost are unavailable, the amount of payment must be lower of the usual and customary cost submitted by the provider, or the wholesale acquisition cost, the specialty pharmacy rate, or the maximum allowable cost set by the commissioner. The commissioner shall discount the payment rate for drugs obtained through the federal 340B Drug Pricing Program by 28.6 percent. The payment for drugs administered in an outpatient setting shall be made to the administering facility or practitioner. A retail or specialty pharmacy dispensing a drug for administration in an outpatient setting is not eligible for direct reimbursement.

~~(f) The commissioner may establish maximum allowable cost rates for specialty pharmacy products that are lower than the ingredient cost formulas specified in paragraph (a). The commissioner may require individuals enrolled in the health care programs administered by the department to obtain specialty pharmacy products from providers with whom the~~

184.1 ~~commissioner has negotiated lower reimbursement rates. Specialty pharmacy products are~~
184.2 ~~defined as those used by a small number of recipients or recipients with complex and chronic~~
184.3 ~~diseases that require expensive and challenging drug regimens. Examples of these conditions~~
184.4 ~~include, but are not limited to: multiple sclerosis, HIV/AIDS, transplantation, hepatitis C,~~
184.5 ~~growth hormone deficiency, Crohn's Disease, rheumatoid arthritis, and certain forms of~~
184.6 ~~cancer. Specialty pharmaceutical products include injectable and infusion therapies,~~
184.7 ~~biotechnology drugs, antihemophilic factor products, high-cost therapies, and therapies that~~
184.8 ~~require complex care. The commissioner shall consult with the Formulary Committee to~~
184.9 ~~develop a list of specialty pharmacy products subject to maximum allowable cost~~
184.10 ~~reimbursement. In consulting with the Formulary Committee in developing this list, the~~
184.11 ~~commissioner shall take into consideration the population served by specialty pharmacy~~
184.12 ~~products, the current delivery system and standard of care in the state, and access to care~~
184.13 ~~issues. The commissioner shall have the discretion to adjust the maximum allowable cost~~
184.14 ~~to prevent access to care issues.~~

184.15 ~~(g)~~ (f) Home infusion therapy services provided by home infusion therapy pharmacies
184.16 must be paid at rates according to subdivision 8d.

184.17 ~~(h)~~ (g) The commissioner shall contract with a vendor to conduct a cost of dispensing
184.18 survey for all pharmacies that are physically located in the state of Minnesota that dispense
184.19 outpatient drugs under medical assistance. The commissioner shall ensure that the vendor
184.20 has prior experience in conducting cost of dispensing surveys. Each pharmacy enrolled with
184.21 the department to dispense outpatient prescription drugs to fee-for-service members must
184.22 respond to the cost of dispensing survey. The commissioner may sanction a pharmacy under
184.23 section 256B.064 for failure to respond. The commissioner shall require the vendor to
184.24 measure a single statewide cost of dispensing for specialty prescription drugs and a single
184.25 statewide cost of dispensing for nonspecialty prescription drugs for all responding pharmacies
184.26 to measure the mean, mean weighted by total prescription volume, mean weighted by
184.27 medical assistance prescription volume, median, median weighted by total prescription
184.28 volume, and median weighted by total medical assistance prescription volume. The
184.29 commissioner shall post a copy of the final cost of dispensing survey report on the
184.30 department's website. The initial survey must be completed no later than January 1, 2021,
184.31 and repeated every ~~three~~ two years. The commissioner shall provide a summary of the
184.32 results of each cost of dispensing survey and provide recommendations for any changes to
184.33 the dispensing fee to the chairs and ranking minority members of the legislative committees
184.34 with jurisdiction over medical assistance pharmacy reimbursement. Notwithstanding section
184.35 256.01, subdivision 42, this paragraph does not expire.

~~(f)~~ (h) The commissioner shall increase the ingredient cost reimbursement calculated in paragraphs (a) and ~~(f)~~ (e) by ~~1.8 percent~~ the amount of the wholesale drug distributor tax for prescription and nonprescription drugs subject to the wholesale drug distributor tax under section 295.52.

(i) The commissioner shall contract with a vendor to create MNAAC through a periodic survey of enrolled pharmacy providers. Each pharmacy enrolled with the department to dispense outpatient prescription drugs must respond to the periodic surveys. The commissioner may sanction a pharmacy under section 256B.064 for failure to respond. The current MNAAC rates must be publicly available on the department's or vendor's website. The commissioner must require that the MNAAC is measured and calculated at least quarterly, but the MNAAC can be measured and calculated more frequently. The commissioner must ensure that the vendor has an appeal process available to providers for the time between the measurement and calculation of the periodically updated MNAAC rates if price fluctuations result in a MNAAC that is lower than the price at which enrolled providers can purchase a drug. Establishment of the MNAAC and survey reporting requirements shall not be subject to the requirements of the Administrative Procedure Act. Data provided by pharmacies for the measurement and calculation of the MNAAC are nonpublic data as defined in section 13.02, subdivision 9.

EFFECTIVE DATE. This section is effective January 1, 2027, or upon federal approval, whichever is later. The commissioner of human services must notify the revisor of statutes when federal approval is obtained.

Sec. 6. Minnesota Statutes 2024, section 256B.064, subdivision 1a, is amended to read:

Subd. 1a. **Grounds for sanctions.** (a) The commissioner may impose sanctions against any individual or entity that receives payments from medical assistance or provides goods or services for which payment is made from medical assistance for any of the following: (1) fraud, theft, or abuse in connection with the provision of goods and services to recipients of public assistance for which payment is made from medical assistance; (2) a pattern of presentment of false or duplicate claims or claims for services not medically necessary; (3) a pattern of making false statements of material facts for the purpose of obtaining greater compensation than that to which the individual or entity is legally entitled; (4) suspension or termination as a Medicare vendor; (5) refusal to grant the state agency access during regular business hours to examine all records necessary to disclose the extent of services provided to program recipients and appropriateness of claims for payment; (6) failure to repay an overpayment or a fine finally established under this section; (7) failure to correct

errors in the maintenance of health service or financial records for which a fine was imposed or after issuance of a warning by the commissioner; and (8) any reason for which an individual or entity could be excluded from participation in the Medicare program under section 1128, 1128A, or 1866(b)(2) of the Social Security Act. For the purposes of this section, goods or services for which payment is made from medical assistance includes but is not limited to care and services identified in section 256B.0625 or provided pursuant to any federally approved waiver.

(b) The commissioner may impose sanctions against a pharmacy provider for failure to respond to a cost of dispensing survey under section 256B.0625, subdivision 13e, paragraph ~~(h)~~ (g).

(c) The commissioner may impose sanctions against a pharmacy provider for failure to respond to a Minnesota drug acquisition cost survey under section 256B.0625, subdivision 13e, paragraph (i).

EFFECTIVE DATE. This section is effective January 1, 2027, or upon federal approval, whichever is later. The commissioner of human services must notify the revisor of statutes when federal approval is obtained.

Sec. 7. Minnesota Statutes 2024, section 256B.69, subdivision 6d, is amended to read:

Subd. 6d. **Prescription drugs.** (a) The commissioner may exclude or modify coverage for prescription drugs from the prepaid managed care contracts entered into under this section in order to increase savings to the state by collecting additional prescription drug rebates.

(b) The contracts must maintain incentives for the managed care plan to manage drug costs and utilization and may require that the managed care plans maintain an open drug formulary. In order to manage drug costs and utilization, the contracts may authorize the managed care plans to use preferred drug lists and prior authorization. The contracts must require that the managed care plans enter into contracts with the state's selected pharmacy benefit manager vendor to administer the pharmacy benefit.

(c) This subdivision is contingent on federal approval of the managed care contract changes and the collection of additional prescription drug rebates.

187.1 Sec. 8. Minnesota Statutes 2024, section 256B.69, is amended by adding a subdivision to
187.2 read:

187.3 Subd. 6i. **Directed pharmacy dispensing payment.** (a) The commissioner shall provide
187.4 a directed pharmacy dispensing payment of \$4.50 per filled prescription to eligible outpatient
187.5 retail pharmacies in Minnesota to improve and maintain access to pharmaceutical services
187.6 in rural and underserved areas of Minnesota. Managed care and county-based purchasing
187.7 plans delivering services under section 256B.69 or 256B.692, and any pharmacy benefit
187.8 managers under contract with these entities, must pay the directed pharmacy dispensing
187.9 payment to eligible outpatient retail pharmacies for drugs dispensed to medical assistance
187.10 enrollees. The directed pharmacy dispensing payment is in addition to, and must not supplant
187.11 or reduce, any other dispensing fee paid by these entities to the pharmacy. Entities paying
187.12 the directed pharmacy dispensing payment must not reduce other payments to the pharmacy
187.13 as a result of payment of the directed pharmacy dispensing payment.

187.14 (b) For purposes of this subdivision, "eligible outpatient retail pharmacy" means an
187.15 outpatient retail pharmacy licensed under chapter 151 that is not owned, either directly or
187.16 indirectly or through an affiliate or subsidiary, by a pharmacy benefit manager licensed
187.17 under chapter 62W or a health carrier, as defined in section 62A.011, subdivision 2, and
187.18 that:

187.19 (1) is located in a medically underserved area or primarily serves a medically underserved
187.20 population, as defined by the United States Department of Health and Human Services
187.21 Health Resources and Services Administration under United States Code, title 42, section
187.22 254; or

187.23 (2) shares common ownership with 12 or fewer Minnesota pharmacies.

187.24 (c) In order to receive the directed pharmacy dispensing payment, a pharmacy must
187.25 submit to the commissioner a form, developed by the commissioner, attesting that the
187.26 pharmacy meets the requirements of paragraph (b).

187.27 (d) Managed care and county-based purchasing plans, and any pharmacy benefit managers
187.28 under contract with these entities, shall pay the directed pharmacy dispensing payment to
187.29 eligible outpatient retail pharmacies. The commissioner shall monitor the effect of this
187.30 requirement on access to pharmaceutical services in rural and underserved areas of
187.31 Minnesota. If, for any contract year, federal approval is not received for this subdivision,
187.32 the commissioner must adjust the capitation rates paid to managed care plans and
187.33 county-based purchasing plans for that contract year to reflect removal of this subdivision.
187.34 Contracts between managed care plans and county-based purchasing plans, and any pharmacy

benefit managers under contract with these entities, and providers to whom this subdivision applies, must allow recovery of payments from those providers if capitation rates are adjusted in accordance with this paragraph. Payment recoveries must not exceed the amount equal to any increase in rates that results from this subdivision. This subdivision expires if federal approval is not received for this subdivision at any time.

(e) This subdivision expires on December 31, 2026.

EFFECTIVE DATE. This section is effective July 1, 2025, or upon federal approval, whichever is later. The commissioner of human services shall notify the revisor of statutes when federal approval is obtained.

190.3 (2) all common ownership, members of a board of directors, managers, or other control

190.15 pharmacy benefit manager on pharmacies licensed in Minnesota with which the pharmacy
190.16 benefit manager shares common ownership, management, or control, or that are owned,
190.17 managed, or controlled by any of the pharmacy benefit manager's affiliated companies;

190.18 (4) any direct or indirect fees, charges, or any kind of assessments imposed by the
190.19 pharmacy benefit manager on pharmacies licensed in Minnesota; and

190.20 (5) any financial terms and arrangements between the pharmacy benefit manager and a
190.21 prescription drug manufacturer or labeler, including formulary management, drug substitution
190.22 programs, educational support claims processing, or data sales fees.

190.23 Subd. 3. **Drug coverage.** (a) The commissioner may require the state pharmacy benefit
190.24 manager to modify utilization review limitations, requirements, and strategies imposed by
190.25 managed care plans on prescription drug coverage.

190.26 (b) The state pharmacy benefit manager is responsible for processing all point of sale

194.22 clinical criteria used to conduct prior authorizations for a health care service, the change in
194.23 coverage terms or change in clinical criteria shall not apply until the next plan year, or the
194.24 next calendar year for fee-for-service providers under chapters 256B and 256L, for any
194.25 enrollee who received prior authorization for a health care service using the coverage terms
194.26 or clinical criteria in effect before the effective date of the change.

194.27 (b) Paragraph (a) does not apply if a utilization review organization changes coverage
194.28 terms for a drug or device that has been deemed unsafe by the United States Food and Drug

194.33 (c) Paragraph (a) does not apply if a utilization review organization changes coverage
194.34 terms for a service or the clinical criteria used to conduct prior authorizations for a service

195.21 have the meanings given:

195.22 (1) "eligible hospital" means a hospital licensed under section 144.50 and located in
195.23 Minnesota;

195.24 (2) "net outpatient revenue" means the value reflecting total outpatient revenue less
195.25 Medicare revenue as calculated from Worksheet G of the hospital's most recent Medicare
195.26 cost report filed and showing in the Healthcare Cost Report Information System (HCRIS)
195.27 as of August 1 of each year; and

195.28 (3) "total patient days" means the value reflecting total hospital inpatient days as reported
195.29 on Worksheet S-3 of the hospital's most recent Medicare cost report filed and showing in
195.30 HCRIS as of August 1 of each year.

195.31 (b) Subject to paragraphs (k) to (n), each eligible hospital must pay to the hospital directed
195.32 payment program account assessments in an aggregate annual amount equal to the sum of
195.33 the following:

196.1 (1) \$120.22 multiplied by total patient days; and

196.2 (2) 5.96 percent of the hospital's net outpatient revenue.

196.3 (c) The assessment amount for calendar years 2026 and 2027 must be based on the total
196.4 patient days and net outpatient revenue in 2021 for each eligible hospital.

196.5 (d) The commissioner may, after consultation with the Minnesota Hospital Association,
196.6 modify the rates of assessment in paragraph (b) as necessary to comply with federal law,
196.7 obtain or maintain a waiver under Code of Federal Regulations, title 42, section 433.72, or
196.8 to otherwise maximize under this section federal financial participation for medical assistance.
196.9 Notwithstanding the foregoing authorization to maximize federal financial participation for
196.10 medical assistance, the commissioner must reduce the rates of assessment in paragraph (b)
196.11 as necessary to ensure:

196.12 (1) the state's aggregated health care-related taxes on inpatient hospital services do not
196.13 exceed five percent of the net patient revenue attributable to those services; and

196.14 (2) the state's aggregated health care-related taxes on outpatient hospital services do not
196.15 exceed five percent of the net patient revenue attributable to those services.

196.16 (e) Eligible hospitals must pay the annual assessment amount under paragraph (b) to the
196.17 commissioner by paying four equal quarterly assessments. Eligible hospitals must pay the
196.18 quarterly assessments by January 1, April 1, July 1, and October 1 each year. Eligible
196.19 hospitals must pay the assessments in the form and manner specified by the commissioner.
196.20 An eligible hospital is prohibited from paying a quarterly assessment until the eligible
196.21 hospital has received the applicable invoice under paragraph (f). The commissioner may
196.22 make the assessment retroactive to the first quarter for which federal approval is effective.

196.23 (f) The commissioner must provide eligible hospitals with an invoice by December 1
196.24 for the assessment due January 1, March 1 for the assessment due April 1, June 1 for the
196.25 assessment due July 1, and September 1 for the assessment due October 1 each year.

196.26 (g) The commissioner must notify each eligible hospital of its estimated annual assessment
196.27 amount for the subsequent calendar year by October 15 each year.

196.28 (h) If any of the dates for assessments or invoices in paragraphs (e) to (g) fall on a
196.29 holiday, the applicable date is the next business day.

196.30 (i) A hospital is not required to pay an assessment under this subdivision until the start
196.31 of the first full fiscal year the hospital is an eligible hospital. A hospital that has merged
196.32 with another hospital must have the hospital's assessment revised at the start of the first full

197.1 fiscal year after the merger is complete. A closed hospital is retroactively responsible for
197.2 assessments owed for services provided through the final date of operations.

197.3 (j) If the commissioner determines that a hospital has underpaid or overpaid an
197.4 assessment, the commissioner must notify the hospital of the unpaid assessment or of any
197.5 refund due.

197.6 (k) Revenue from an assessment under this subdivision must only be used by the
197.7 commissioner to pay the nonfederal share of the directed payment program under section
197.8 256B.1974.

197.9 (l) The commissioner is prohibited from collecting any assessment under this subdivision
197.10 during any period of time when:

197.11 (1) federal financial participation is unavailable, disallowed, or reduced by at least 15
197.12 percent relative to the state's share of medical assistance as of April 1, 2025; or

197.13 (2) a directed payment under section 256B.1974 is not approved by the Centers for
197.14 Medicare and Medicaid Services.

197.15 (m) The commissioner must make the following discounts from the inpatient portion of
197.16 the assessment under paragraph (b), clause (1), in the stated amount or as necessary to
197.17 achieve federal approval of the assessment in this section:

197.18 (1) for Hennepin Healthcare, a discount of 25 percent off the inpatient portion of the
197.19 assessment rate;

197.20 (2) for Mayo Rochester, a discount of ten percent off the inpatient portion of the
197.21 assessment rate; and

197.22 (3) for Gillette Children's Hospital, a discount of 90 percent off the inpatient portion of
197.23 the assessment rate.

197.24 (n) The commissioner must make the following discounts from the outpatient portion
197.25 of the assessment under paragraph (b), clause (2), in the stated amount or as necessary to
197.26 achieve federal approval of the assessment in this section:

197.27 (1) for each critical access hospital or independent hospital located outside a city of the
197.28 first class and paid under the Medicare prospective payment system, a discount of 40 percent
197.29 off the outpatient portion of the assessment rate;

197.30 (2) for Gillette Children's Hospital, a discount of 90 percent off the outpatient portion
197.31 of the assessment rate;

198.1 (3) for Hennepin Healthcare, a discount of 60 percent off the outpatient portion of the
198.2 assessment rate; and

198.3 (4) for Mayo Rochester, a discount of 20 percent off the outpatient portion of the
198.4 assessment rate.

198.5 (o) The commissioner must fully exempt the following from the assessment in this
198.6 section:

198.7 (1) federal Indian Health Service facilities;

198.8 (2) state-owned or state-operated regional treatment centers and all state-operated services;

198.9 (3) federal Veterans Administration Medical Centers; and

198.10 (4) long-term acute care hospitals.

198.11 (p) If the federal share of the hospital directed payment program under section 256B.1974
198.12 is increased as the result of an increase to the federal medical assistance percentage, then
198.13 the commissioner must reduce the assessment on a uniform percentage basis across eligible
198.14 hospitals on which the assessment is imposed, such that the aggregate amount collected
198.15 from hospitals under this subdivision does not exceed the total amount needed to maintain
198.16 the same aggregate state and federal funding level for the directed payments authorized by
198.17 section 256B.1974.

198.18 (q) Hospitals subject to the assessment under this subdivision must submit to the
198.19 commissioner on an annual basis, in the form and manner specified by the commissioner
198.20 in consultation with the Minnesota Hospital Association, all documentation necessary to
198.21 determine the assessment amounts under this subdivision.

198.22 (r) Any disproportionate share hospital payments that are supplanted due to the
198.23 implementation of the hospital directed payment program under section 256B.1974 must
198.24 be redirected into the hospital directed payment program as an offset to the assessment
198.25 under this section owed by all medical assistance disproportionate share hospitals as defined
198.26 in section 256.969, subdivision 9, and reduce their assessments on a uniform basis.

198.27 (s) Any future state funding sources identified and used toward the hospital directed
198.28 payment program under section 256B.1974 may be used to offset the assessment under this
198.29 section.

198.30 **EFFECTIVE DATE.** (a) This section is effective the later of January 1, 2026, or federal
198.31 approval of all of the following:

198.32 (1) this section; and

199.1 (2) the amendments in this act to Minnesota Statutes, sections 256B.1973 and 256B.1974.

199.2 (b) The commissioner of human services shall notify the revisor of statutes when federal
199.3 approval for all amendments set forth in paragraph (a) is obtained.

199.4 Sec. 4. Minnesota Statutes 2024, section 256.969, subdivision 2b, is amended to read:

199.5 Subd. 2b. **Hospital payment rates.** (a) For discharges occurring on or after November
199.6 1, 2014, hospital inpatient services for hospitals located in Minnesota shall be paid according
199.7 to the following:

199.8 (1) critical access hospitals as defined by Medicare shall be paid using a cost-based
199.9 methodology;

199.10 (2) long-term hospitals as defined by Medicare shall be paid on a per diem methodology
199.11 under subdivision 25;

199.12 (3) rehabilitation hospitals or units of hospitals that are recognized as rehabilitation
199.13 distinct parts as defined by Medicare shall be paid according to the methodology under
199.14 subdivision 12; and

199.15 (4) all other hospitals shall be paid on a diagnosis-related group (DRG) methodology.

199.16 (b) For the period beginning January 1, 2011, through October 31, 2014, rates shall not
199.17 be rebased, except that a Minnesota long-term hospital shall be rebased effective January
199.18 1, 2011, based on its most recent Medicare cost report ending on or before September 1,
199.19 2008, with the provisions under subdivisions 9 and 23, based on the rates in effect on
199.20 December 31, 2010. For rate setting periods after November 1, 2014, in which the base
199.21 years are updated, a Minnesota long-term hospital's base year shall remain within the same
199.22 period as other hospitals.

199.23 (c) Effective for discharges occurring on and after November 1, 2014, payment rates
199.24 for hospital inpatient services provided by hospitals located in Minnesota or the local trade
199.25 area, except for the hospitals paid under the methodologies described in paragraph (a),
199.26 clauses (2) and (3), shall be rebased, incorporating cost and payment methodologies in a
199.27 manner similar to Medicare. The base year or years for the rates effective November 1,
199.28 2014, shall be calendar year 2012. The rebasing under this paragraph shall be budget neutral,
199.29 ensuring that the total aggregate payments under the rebased system are equal to the total
199.30 aggregate payments that were made for the same number and types of services in the base
199.31 year. Separate budget neutrality calculations shall be determined for payments made to
199.32 critical access hospitals and payments made to hospitals paid under the DRG system. Only
199.33 the rate increases or decreases under subdivision 3a or 3c that applied to the hospitals being

200.1 rebased during the entire base period shall be incorporated into the budget neutrality
200.2 calculation.

200.3 (d) For discharges occurring on or after November 1, 2014, through the next rebasing
200.4 that occurs, the rebased rates under paragraph (c) that apply to hospitals under paragraph
200.5 (a), clause (4), shall include adjustments to the projected rates that result in no greater than
200.6 a five percent increase or decrease from the base year payments for any hospital. Any
200.7 adjustments to the rates made by the commissioner under this paragraph and paragraph (e)
200.8 shall maintain budget neutrality as described in paragraph (c).

200.9 (e) For discharges occurring on or after November 1, 2014, the commissioner may make
200.10 additional adjustments to the rebased rates, and when evaluating whether additional
200.11 adjustments should be made, the commissioner shall consider the impact of the rates on the
200.12 following:

200.13 (1) pediatric services;

200.14 (2) behavioral health services;

200.15 (3) trauma services as defined by the National Uniform Billing Committee;

200.16 (4) transplant services;

200.17 (5) obstetric services, newborn services, and behavioral health services provided by
200.18 hospitals outside the seven-county metropolitan area;

200.19 (6) outlier admissions;

200.20 (7) low-volume providers; and

200.21 (8) services provided by small rural hospitals that are not critical access hospitals.

200.22 (f) Hospital payment rates established under paragraph (c) must incorporate the following:

200.23 (1) for hospitals paid under the DRG methodology, the base year payment rate per
200.24 admission is standardized by the applicable Medicare wage index and adjusted by the
200.25 hospital's disproportionate population adjustment;

200.26 (2) for critical access hospitals, payment rates for discharges between November 1, 2014,
200.27 and June 30, 2015, shall be set to the same rate of payment that applied for discharges on
200.28 October 31, 2014;

200.29 (3) the cost and charge data used to establish hospital payment rates must only reflect
200.30 inpatient services covered by medical assistance; and

201.1 (4) in determining hospital payment rates for discharges occurring on or after the rate
201.2 year beginning January 1, 2011, through December 31, 2012, the hospital payment rate per
201.3 discharge shall be based on the cost-finding methods and allowable costs of the Medicare
201.4 program in effect during the base year or years. In determining hospital payment rates for
201.5 discharges in subsequent base years, the per discharge rates shall be based on the cost-finding
201.6 methods and allowable costs of the Medicare program in effect during the base year or
201.7 years.

201.8 (g) The commissioner shall validate the rates effective November 1, 2014, by applying
201.9 the rates established under paragraph (c), and any adjustments made to the rates under
201.10 paragraph (d) or (e), to hospital claims paid in calendar year 2013 to determine whether the
201.11 total aggregate payments for the same number and types of services under the rebased rates
201.12 are equal to the total aggregate payments made during calendar year 2013.

201.13 (h) Effective for discharges occurring on or after July 1, 2017, and every two years
201.14 thereafter, payment rates under this section shall be rebased to reflect only those changes
201.15 in hospital costs between the existing base year or years and the next base year or years. In
201.16 any year that inpatient claims volume falls below the threshold required to ensure a
201.17 statistically valid sample of claims, the commissioner may combine claims data from two
201.18 consecutive years to serve as the base year. Years in which inpatient claims volume is
201.19 reduced or altered due to a pandemic or other public health emergency shall not be used as
201.20 a base year or part of a base year if the base year includes more than one year. Changes in
201.21 costs between base years shall be measured using the lower of the hospital cost index defined
201.22 in subdivision 1, paragraph (a), or the percentage change in the case mix adjusted cost per
201.23 claim. The commissioner shall establish the base year for each rebasing period considering
201.24 the most recent year or years for which filed Medicare cost reports are available, except
201.25 that the base years for the rebasing effective July 1, 2023, are calendar years 2018 and 2019.
201.26 The estimated change in the average payment per hospital discharge resulting from a
201.27 scheduled rebasing must be calculated and made available to the legislature by January 15
201.28 of each year in which rebasing is scheduled to occur, and must include by hospital the
201.29 differential in payment rates compared to the individual hospital's costs.

201.30 (i) Effective for discharges occurring on or after July 1, 2015, inpatient payment rates
201.31 for critical access hospitals located in Minnesota or the local trade area shall be determined
201.32 using a new cost-based methodology. The commissioner shall establish within the
201.33 methodology tiers of payment designed to promote efficiency and cost-effectiveness.
201.34 Payment rates for hospitals under this paragraph shall be set at a level that does not exceed
201.35 the total cost for critical access hospitals as reflected in base year cost reports. Until the

202.1 next rebasing that occurs, the new methodology shall result in no greater than a five percent
202.2 decrease from the base year payments for any hospital, except a hospital that had payments
202.3 that were greater than 100 percent of the hospital's costs in the base year shall have their
202.4 rate set equal to 100 percent of costs in the base year. The rates paid for discharges on and
202.5 after July 1, 2016, covered under this paragraph shall be increased by the inflation factor
202.6 in subdivision 1, paragraph (a). The new cost-based rate shall be the final rate and shall not
202.7 be settled to actual incurred costs. Hospitals shall be assigned a payment tier based on the
202.8 following criteria:

202.9 (1) hospitals that had payments at or below 80 percent of their costs in the base year
202.10 shall have a rate set that equals 85 percent of their base year costs;

202.11 (2) hospitals that had payments that were above 80 percent, up to and including 90
202.12 percent of their costs in the base year shall have a rate set that equals 95 percent of their
202.13 base year costs; and

202.14 (3) hospitals that had payments that were above 90 percent of their costs in the base year
202.15 shall have a rate set that equals 100 percent of their base year costs.

202.16 (j) The commissioner may refine the payment tiers and criteria for critical access hospitals
202.17 to coincide with the next rebasing under paragraph (h). The factors used to develop the new
202.18 methodology may include, but are not limited to:

202.19 (1) the ratio between the hospital's costs for treating medical assistance patients and the
202.20 hospital's charges to the medical assistance program;

202.21 (2) the ratio between the hospital's costs for treating medical assistance patients and the
202.22 hospital's payments received from the medical assistance program for the care of medical
202.23 assistance patients;

202.24 (3) the ratio between the hospital's charges to the medical assistance program and the
202.25 hospital's payments received from the medical assistance program for the care of medical
202.26 assistance patients;

202.27 (4) the statewide average increases in the ratios identified in clauses (1), (2), and (3);

202.28 (5) the proportion of that hospital's costs that are administrative and trends in
202.29 administrative costs; and

202.30 (6) geographic location.

202.31 (k) Subject to subdivision 2g, effective for discharges occurring on or after January 1,
202.32 2024, the rates paid to hospitals described in paragraph (a), clauses (2) to (4), must include

203.1 a rate factor specific to each hospital that qualifies for a medical education and research
203.2 cost distribution under section 62J.692, subdivision 4, paragraph (a).

203.3 (1) Effective for discharges occurring on or after January 1, 2028, or on or after the date
203.4 federal approval, whichever is later, the commissioner must increase:

203.5 (1) payments for inpatient behavioral health services provided by hospitals paid under
203.6 the DRG methodology by increasing the adjustment for behavioral health services under
203.7 section 256.969, subdivision 2b, paragraph (e); and

203.8 (2) capitation payments made to managed care plans and county-based purchasing plans
203.9 to reflect the rate increase provided under this paragraph. Managed care and county-based
203.10 purchasing plans must use the capitation rate increase provided under this clause to increase
203.11 payment rates for inpatient behavioral health services provided by hospitals paid under the
203.12 DRG methodology. The commissioner must monitor the effect of this rate increase on
203.13 enrollee access to behavioral health services. If for any contract year federal approval is not
203.14 received for this clause, the commissioner must adjust the capitation rates paid to managed
203.15 care plans and county-based purchasing plans for that contract year to reflect the removal
203.16 of this clause. Contracts between managed care plans and county-based purchasing plans
203.17 and providers to whom this paragraph applies must allow recovery of payments from those
203.18 providers if capitation rates are adjusted in accordance with this clause. Payment recoveries
203.19 must not exceed the amount equal to any increase in rates that results from this paragraph.

204.21 through telehealth, the written opinion from the consulting physician providing the telehealth
204.22 consultation; and

204.23 (7) compliance with the criteria attested to by the health care provider in accordance
204.24 with paragraph (b).

204.25 (d) Telehealth visits provided through audio and visual communication or accessible
204.26 video-based platforms may be used to satisfy the face-to-face requirement for reimbursement
204.27 under the payment methods that apply to a federally qualified health center, rural health
204.28 clinic, Indian health service, 638 tribal clinic, and certified community behavioral health

206.2 rate increase. The increased rate described in this paragraph applies to ambulance service

206.32 contract year to reflect the removal of this provision. Contracts between managed care plans
206.33 and county-based purchasing plans and providers to whom this paragraph applies must

208.6 (C). Payment for rural health clinic and federally qualified health center services shall be
208.7 made according to applicable federal law and regulation.

208.8 (b) A federally qualified health center (FQHC) that is beginning initial operation shall
208.9 submit an estimate of budgeted costs and visits for the initial reporting period in the form
208.10 and detail required by the commissioner. An FQHC that is already in operation shall submit

209.27 assistance status and provides no-cost care as needed.

209.28 (i) Effective for services provided on or after January 1, 2015, all claims for payment
209.29 of clinic services provided by FQHCs and rural health clinics shall be paid by the

210.4 (2) FQHCs and rural health clinics submit claims for recipients enrolled in a managed
210.5 care or county-based purchasing plan to the plan, and those claims are submitted by the
210.6 plan to the commissioner for payment to the clinic.

210.7 (j) For clinic services provided prior to January 1, 2015, the commissioner shall calculate
210.8 and pay monthly the proposed managed care supplemental payments to clinics, and clinics
210.9 shall conduct a timely review of the payment calculation data in order to finalize all
210.10 supplemental payments in accordance with federal law. Any issues arising from a clinic's

210.16 unable to resolve issues under this subdivision, the parties shall submit the dispute to the
210.17 arbitration process under section 14.57.

210.18 (k) The commissioner shall establish an encounter payment rate that is equivalent to the
210.19 all inclusive rate (AIR) payment established by the Indian Health Service and published in

210.31 to the following requirements:

210.32 (1) the commissioner shall establish a single medical and single dental organization
210.33 encounter rate for each FQHC and rural health clinic when applicable;

212.18 (v) the commissioner must provide for a 60-day appeals process under section 14.57;

212.19 (6) the commissioner shall annually inflate the applicable organization encounter rates
212.20 for FQHCs and rural health clinics from the base year payment rate to the effective date by
212.21 using the CMS FQHC Market Basket inflator established under United States Code, title
212.22 42, section 1395m(o), less productivity;

212.23 (7) FQHCs and rural health clinics that have elected the alternative payment methodology
212.24 under this paragraph shall submit all necessary documentation required by the commissioner
212.25 to compute the rebased organization encounter rates no later than six months following the
212.26 date the applicable Medicare cost reports are due to the Centers for Medicare and Medicaid
212.27 Services;

212.28 (8) the commissioner shall reimburse FQHCs and rural health clinics an additional
212.29 amount relative to their medical and dental organization encounter rates that is attributable
212.30 to the tax required to be paid according to section 295.52, if applicable;

212.31 (9) FQHCs and rural health clinics may submit change of scope requests to the
212.32 commissioner if the change of scope would result in an increase or decrease of 2.5 percent

213.1 or higher in the medical or dental organization encounter rate currently received by the
213.2 FQHC or rural health clinic;

213.3 (10) for FQHCs and rural health clinics seeking a change in scope with the commissioner
213.4 under clause (9) that requires the approval of the scope change by the federal Health
213.5 Resources Services Administration:

213.6 (i) FQHCs and rural health clinics shall submit the change of scope request, including
213.7 the start date of services, to the commissioner within seven business days of submission of
213.8 the scope change to the federal Health Resources Services Administration;

213.9 (ii) the commissioner shall establish the effective date of the payment change as the
213.10 federal Health Resources Services Administration date of approval of the FQHC's or rural
213.11 health clinic's scope change request, or the effective start date of services, whichever is
213.12 later; and

213.13 (iii) within 45 days of one year after the effective date established in item (ii), the
213.14 commissioner shall conduct a retroactive review to determine if the actual costs established
213.15 under clause (3) or encounters result in an increase or decrease of 2.5 percent or higher in
213.16 the medical or dental organization encounter rate, and if this is the case, the commissioner
213.17 shall revise the rate accordingly and shall adjust payments retrospectively to the effective
213.18 date established in item (ii);

213.19 (11) for change of scope requests that do not require federal Health Resources Services
213.20 Administration approval, the FQHC and rural health clinic shall submit the request to the
213.21 commissioner before implementing the change, and the effective date of the change is the
213.22 date the commissioner received the FQHC's or rural health clinic's request, or the effective
213.23 start date of the service, whichever is later. The commissioner shall provide a response to
213.24 the FQHC's or rural health clinic's request within 45 days of submission and provide a final
213.25 approval within 120 days of submission. This timeline may be waived at the mutual
213.26 agreement of the commissioner and the FQHC or rural health clinic if more information is
213.27 needed to evaluate the request;

213.28 (12) the commissioner, when establishing organization encounter rates for new FQHCs
213.29 and rural health clinics, shall consider the patient caseload of existing FQHCs and rural
213.30 health clinics in a 60-mile radius for organizations established outside of the seven-county
213.31 metropolitan area, and in a 30-mile radius for organizations in the seven-county metropolitan
213.32 area. If this information is not available, the commissioner may use Medicare cost reports
213.33 or audited financial statements to establish base rates;

214.1 (13) the commissioner, when establishing organization encounter rates under this section
214.2 for FQHCs and rural health clinics resulting from a merger of existing clinics or the
214.3 acquisition of an existing clinic by another existing clinic, must use the combined costs and
214.4 caseloads from the clinics participating in the merger or acquisition to set the encounter rate
214.5 for the new clinic organization resulting from the merger or acquisition. The scope of services
214.6 for the newly formed clinic must be inclusive of the scope of services of the clinics
214.7 participating in the merger or acquisition;

214.8 ~~(13)~~ (14) the commissioner shall establish a quality measures workgroup that includes
214.9 representatives from the Minnesota Association of Community Health Centers, FQHCs,
214.10 and rural health clinics, to evaluate clinical and nonclinical measures; and

214.11 ~~(14)~~ (15) the commissioner shall not disallow or reduce costs that are related to an
214.12 FQHC's or rural health clinic's participation in health care educational programs to the extent
214.13 that the costs are not accounted for in the alternative payment methodology encounter rate
214.14 established in this paragraph.

214.15 (m) Effective July 1, 2023, an enrolled Indian health service facility or a Tribal health
214.16 center operating under a 638 contract or compact may elect to also enroll as a Tribal FQHC.
214.17 Requirements that otherwise apply to an FQHC covered in this subdivision do not apply to
214.18 a Tribal FQHC enrolled under this paragraph, except that any requirements necessary to
214.19 comply with federal regulations do apply to a Tribal FQHC. The commissioner shall establish
214.20 an alternative payment method for a Tribal FQHC enrolled under this paragraph that uses
214.21 the same method and rates applicable to a Tribal facility or health center that does not enroll
214.22 as a Tribal FQHC.

214.23 (n) FQHC reimbursement for mental health targeted case management services is limited
214.24 to:

214.25 (1) only those services described under section 256B.0625, subdivision 20, and provided
214.26 in accordance with contracts executed with counties authorized to subcontract for mental
214.27 health targeted case management services; and

214.28 (2) an FQHC's actual incurred costs as separately reported on the cost report submitted
214.29 to the Centers for Medicare and Medicaid Services and further identified in reports submitted
214.30 to the commissioner.

214.31 (o) Counties contracting with FQHCs for mental health targeted case management remain
214.32 responsible for the nonfederal share of the cost of the provided mental health targeted case
214.33 management services. The commissioner must bill each county for the nonfederal share of
214.34 the mental health targeted case management costs as reported by the FQHC.

215.1 **EFFECTIVE DATE.** This section is effective the day following final enactment.

215.2 Sec. 9. Minnesota Statutes 2024, section 256B.0625, subdivision 54, is amended to read:

215.3 Subd. 54. **Services provided in birth centers.** (a) Medical assistance covers services
215.4 provided in a licensed birth center by a licensed health professional if the service would

215.22 shall be paid at the lower of billed charges or 100 percent of the rate paid to a physician
215.23 performing the same services. If a recipient is transported from a birth center to a hospital
215.24 prior to the delivery, a licensed traditional midwife who does not perform the delivery may
215.25 not bill for any delivery services. Services are not covered if provided by an unlicensed
215.26 traditional midwife.

215.27 (e) Licensed health professionals working in licensed birth centers shall be reimbursed
215.28 for the full range of maternity care and newborn care services within their scope of practice,
215.29 regardless of place of service. The commissioner shall review current birth center
215.30 reimbursement and, in consultation with birth centers currently licensed in the state, develop
215.31 revisions to current payment practices in order to ensure reimbursement for the full range
215.32 of maternity care and newborn care services, including but not limited to:

216.1 (1) professional services for intrapartum care when a recipient is transferred from a birth
216.2 center to a hospital prior to delivery;

216.3 (2) professional services billed with a home place of service code by a licensed health
216.4 professional within their scope of practice;

216.5 (3) professional services when a licensed health professional provides any Minnesota
216.6 mandated newborn screening, including but not limited to the newborn metabolic screen,

216.14 maternity care services within their scope of practice, regardless of place of service, as
216.15 determined in paragraph (e) at no less than the medical assistance fee for service fee schedule
216.16 for the year in which the service is provided.

216.17 ~~(e)~~ (g) The commissioner shall apply for any necessary waivers from the Centers for
216.18 Medicare and Medicaid Services to allow birth centers and birth center providers to be
216.19 reimbursed.

216.20 Sec. 10. Minnesota Statutes 2024, section 256B.0625, is amended by adding a subdivision
216.21 to read:

216.22 Subd. 54a. **Home birth.** (a) For purposes of this subdivision, the following terms have
216.23 the meanings given:

216.24 (1) "birth services" means prenatal, labor, birth, and postpartum services;

216.25 (2) "eligible provider" means a licensed or certified health care professional eligible for
216.26 reimbursement under the medical assistance program; and

216.27 (3) "low-risk patient for birth services" means a person undergoing a normal,
216.28 uncomplicated prenatal course as determined by documentation of adequate prenatal care
216.29 who anticipates a normal, uncomplicated labor and birth, as defined by reasonable and
216.30 generally accepted criteria adopted by professional groups for maternal, fetal, and neonatal
216.31 health care.

217.1 (b) Medical assistance covers birth services provided at home when the following
217.2 conditions are met:

217.3 (1) the birth services are provided by an eligible provider whose scope of practice and
217.4 experience includes home birth;

217.5 (2) the recipient is a low-risk patient for birth services; and

217.6 (3) the recipient has a plan of care that includes:

217.7 (i) a consent form detailing the risks and benefits of home birth signed by the recipient;

217.8 (ii) sufficient visits, test results, and follow-up consultations as needed to establish that
217.9 the recipient is a low-risk patient for birth services; and

217.10 (iii) a plan for transfer to a hospital as needed.

217.11 (c) Services provided under this subdivision by an eligible provider must be paid at a
217.12 rate at least equal to 100 percent of the rate paid to a physician performing the same services.
217.13 An eligible provider who does not perform the delivery must not bill for any delivery
217.14 services.

217.15 (d) Supplies used for birth services under this subdivision must be paid at 70 percent of
217.16 the statewide average for a facility payment rate made to a hospital for an uncomplicated
217.17 vaginal delivery as determined using the most recent calendar year for which complete
217.18 claims data are available. If a recipient is transported from a home to a hospital prior to the
217.19 delivery, the payment for the supplies used for birth services under this subdivision must
217.20 be the lower of billed charges or 15 percent of the statewide average for a facility payment
217.21 rate made to a hospital for the services provided for an uncomplicated vaginal delivery as
217.22 determined using the most recent calendar year for which complete claims data are available.

217.23 **EFFECTIVE DATE.** This section is effective January 1, 2026, or upon federal approval,
217.24 whichever is later. The commissioner of human services shall notify the revisor of statutes
217.25 when federal approval is obtained.

217.26 Sec. 11. Minnesota Statutes 2024, section 256B.0757, subdivision 5, is amended to read:

217.27 Subd. 5. **Payments.** (a) The commissioner shall make payments to each designated
217.28 provider for the provision of health home services described in subdivision 3 to each eligible
217.29 individual under subdivision 2 that selects the health home as a provider. This paragraph
217.30 expires on the date that paragraph (b) becomes effective.

217.31 (b) Effective January 1, 2028, or upon federal approval, whichever is later, the
217.32 commissioner shall make payments to each designated provider for the provision of health

218.1 home services described in subdivision 3, except for behavioral health services, to each
218.2 eligible individual under subdivision 2 who selects the health home as a provider.

218.3 Sec. 12. Minnesota Statutes 2024, section 256B.0757, is amended by adding a subdivision
218.4 to read:

218.5 Subd. 5a. **Payments for behavioral health home services.** (a) Notwithstanding
218.6 subdivision 5, the commissioner must implement a single statewide reimbursement rate for
218.7 behavioral health home services under this section. The rate must be no less than \$425 per
218.8 member per month. The commissioner must adjust the reimbursement rate for behavioral
218.9 health home services annually according to the change from the midpoint of the previous
218.10 rate year to the midpoint of the rate year for which the rate is being determined using the
218.11 Centers for Medicare and Medicaid Services Medicare Economic Index as forecasted in
218.12 the fourth quarter of the calendar year before the rate year.

218.13 (b) The commissioner must review and update the behavioral health home services rate
218.14 under paragraph (a) at least every four years. The updated rate must account for the average
218.15 hours required for behavioral health home team members spent providing services and the
218.16 Department of Labor prevailing wage for required behavioral health home team members.
218.17 The updated rate must ensure that behavioral health home services rates are sufficient to
218.18 allow providers to meet required certifications, training, and practice transformation
218.19 standards; staff qualification requirements; and service delivery standards.

218.20 (c) Managed care plans and county-based purchasing plans must reimburse providers
218.21 at an amount that is at least equal to the fee-for-service rate for services under this
218.22 subdivision. The commissioner must monitor the effect of this rate increase on enrollee
218.23 access to services under this subdivision. If for any contract year federal approval is not
218.24 received for this paragraph, the commissioner must adjust the capitation rates paid to managed
218.25 care plans and county-based purchasing plans for that contract year to reflect the removal
218.26 of this paragraph. Contracts between managed care plans and county-based purchasing
218.27 plans and providers to whom this paragraph applies must allow recovery of payments from
218.28 those providers if capitation rates are adjusted in accordance with this paragraph. Payment
218.29 recoveries must not exceed the amount equal to any increase in rates that results from this
218.30 paragraph.

218.31 (d) This subdivision is effective January 1, 2028, or upon federal approval, whichever
218.32 is later.

219.1 Sec. 13. Minnesota Statutes 2024, section 256B.1973, is amended by adding a subdivision
219.2 to read:

219.3 Subd. 9. **Interaction with other directed payments.** An eligible provider under
219.4 subdivision 3 may participate in the hospital directed payment program under section
219.5 256B.1974 for inpatient hospital services, outpatient hospital services, or both. A provider
219.6 participating in the hospital directed payment program must not receive a directed payment
219.7 under this section for any provider classes paid via the hospital directed payment program.
219.8 A hospital subject to this section must notify the commissioner in writing no later than 30
219.9 days after enactment of this subdivision of its intention to participate in the hospital directed
219.10 payment program under section 256B.1974 for inpatient hospital services, outpatient hospital
219.11 services, or both. The election under this subdivision is a onetime election, except that if
219.12 an eligible provider elects to participate in the hospital directed payment program, and the
219.13 hospital directed payment program expires, then the eligible provider may thereafter elect
219.14 to participate in the directed payment program under this section.

219.15 **EFFECTIVE DATE.** (a) This section is effective on the later of January 1, 2026, or
219.16 federal approval of all of the following:

219.17 (1) this section;

219.18 (2) the amendments in this act to add Minnesota Statutes, section 256.9657, subdivision
219.19 2b; and

219.20 (3) the amendments in this act to Minnesota Statutes, section 256B.1974.

219.21 (b) The commissioner of human services shall notify the revisor of statutes when federal
219.22 approval for all amendments set forth in paragraph (a) is obtained.

219.23 Sec. 14. **[256B.1974] HOSPITAL DIRECTED PAYMENT PROGRAM.**

219.24 Subdivision 1. **Definitions.** (a) For purposes of this section, the following terms have
219.25 the meanings given.

219.26 (b) "Health plan" means a managed care plan or county-based purchasing plan that is
219.27 under contract with the commissioner to deliver services to medical assistance enrollees
219.28 under section 256B.69.

219.29 (c) "Hospital" means a hospital licensed under section 144.50.

219.30 Subd. 2. **Required conditions for program.** The hospital directed payment program is
219.31 contingent on the satisfaction of all requirements necessary for the collection of an assessment

220.1 under section 256.9657, and must conform with the requirements for permissible directed
220.2 managed care organization expenditures under section 256B.6928, subdivision 5.

220.3 Subd. 3. **Commissioner's duties; state-directed fee schedule requirement.** (a) For
220.4 each federally approved directed payment program that is a state-directed fee schedule
220.5 requirement that includes a quarterly payment amount to be submitted by each health plan
220.6 to each hospital, the commissioner must determine the quarterly payment amount using the
220.7 average commercial payer rate, or using another method acceptable to the Centers for
220.8 Medicare and Medicaid Services if the average commercial payer rate is not approved. The
220.9 commissioner must ensure that the application of the quarterly payment amounts maximizes
220.10 the amount generated by the hospital assessment in section 256.9657, subdivision 2b, for
220.11 allowable directed payments and does not result in payments exceeding federal limits.

220.12 (b) The commissioner must use an annual settle-up process that occurs within the time
220.13 period allowed for medical assistance managed care claims adjustments.

220.14 (c) On and after January 1, 2028, if the federal regulations set forth in Code of Federal
220.15 Regulations, title 42, parts 430, 438, and 457, remain effective, the hospital directed payment
220.16 program must be specific to each health plan and prospectively incorporated into capitation
220.17 payments for that plan.

220.18 (d) For each federally approved directed payment program that is a state-directed fee
220.19 schedule requirement, the commissioner must develop a plan for the initial implementation
220.20 of the state-directed fee schedule requirement to ensure that hospitals receive the entire
220.21 permissible value of the federally approved directed payment. If federal approval of a
220.22 directed payment under this subdivision is retroactive, the commissioner must make a
220.23 onetime pro rata increase to the quarterly payment amount and the initial payments to include
220.24 claims submitted between the retroactive federal approval date and the period captured by
220.25 the initial payments.

220.26 (e) Directed payments under this section must only be used to supplement, and not
220.27 supplant, medical assistance reimbursement to hospitals. The directed payment program
220.28 must not modify, reduce, or offset the medical assistance payment rates determined for each
220.29 hospital as required by section 256.969.

220.30 (f) The commissioner must require health plans to make quarterly directed payments
220.31 according to this section.

220.32 (g) Health plans must make quarterly directed payments using electronic funds transfers,
220.33 if the hospital provides the information necessary to process such transfers, and in accordance

221.1 with directions provided by the commissioner. Health plans must make quarterly directed
221.2 payments:

221.3 (1) for the first two quarters for which such payments are due, within 30 calendar days
221.4 of the date the commissioner issued sufficient payments to the health plan to make the
221.5 directed payments according to this section; and

221.6 (2) for all subsequent quarters, within ten calendar days of the date the commissioner
221.7 issued sufficient payments to the health plan to make the directed payments according to
221.8 this section.

221.9 (h) The commissioner must publish on the Department of Human Services' website, on
221.10 a quarterly basis, the dates that the health plans completed their required quarterly payments
221.11 under this section.

221.12 (i) Payments to health plans that would be paid consistent with actuarial certification
221.13 and enrollment in the absence of the increased capitation payments under this section must
221.14 not be reduced as a result of this section.

221.15 (j) The commissioner must publish all directed payments owed to each hospital from
221.16 each health plan on the department's website for at least two years. All calculations and
221.17 reports must be posted no later than the first day of the quarter for which the payments are
221.18 to be issued.

221.19 (k) By December 1 each year, the commissioner must notify each hospital of any changes
221.20 to the payment methodologies in this section, including but not limited to changes in the
221.21 directed payment rates, the aggregate directed payment amount for all hospitals, and the
221.22 hospital's directed payment amount for the upcoming calendar year.

221.23 (l) The commissioner must distribute payments required under this section for each
221.24 hospital within 30 days of a quarterly assessment under section 256.9657, subdivision 2b,
221.25 being received. The commissioner must pay the directed payments to health plans under
221.26 contract no later than January 1, April 1, July 1, and October 1 each year.

221.27 (m) A hospital is not entitled to payments under this section until the start of the first
221.28 full fiscal year it is an eligible hospital. A hospital that has merged with another hospital
221.29 must have its payments under this section revised at the start of the first full fiscal year after
221.30 the merger is complete. A closed hospital is entitled to the payments under this section for
221.31 services provided through the final date of operations.

221.32 Subd. 4. **Health plan duties; submission of claims.** Each health plan must submit to
221.33 the commissioner, in accordance with its contract with the commissioner to serve as a

222.1 managed care organization in medical assistance, payment information for each claim paid
222.2 to a hospital for services provided to a medical assistance enrollee. Health plans must allow
222.3 each hospital to review the health plan's own paid claims detail to enable proper validation
222.4 that the medical assistance managed care claims volume and content is consistent with the
222.5 hospital's internal records. To support the validation process for the directed payment
222.6 program, health plans must permit the commissioner to share inpatient and outpatient
222.7 claims-level details with hospitals identifying only those claims where the prepaid medical
222.8 assistance program under section 256B.69 is the payer source. Hospitals must provide notice
222.9 of discrepancies in claims paid to the commissioner in a form determined by the
222.10 commissioner. The commissioner is authorized to determine the final disposition of the
222.11 validation process for disputed claims.

222.12 Subd. 5. **Health plan duties; directed payment add-on.** (a) Each health plan must
222.13 make, in accordance with its contract with the commissioner to serve as a managed care
222.14 organization in medical assistance, a directed payment to each hospital. The amount of the
222.15 directed payment to the hospital must be equal to the payment amounts the plan received
222.16 from the commissioner for the hospital.

222.17 (b) Health plans are prohibited from:

222.18 (1) setting, establishing, or negotiating reimbursement rates with a hospital in a manner
222.19 that directly or indirectly takes into account a directed payment that a hospital receives
222.20 under this section;

222.21 (2) unnecessarily delaying a directed payment to a hospital; or

222.22 (3) recouping or offsetting a directed payment for any reason, except as expressly
222.23 authorized by the commissioner.

222.24 Subd. 6. **Hospital duties; quarterly supplemental directed payment add-on.** (a) A
222.25 hospital receiving a directed payment under this section is prohibited from:

222.26 (1) setting, establishing, or negotiating reimbursement rates with a managed care
222.27 organization in a manner that directly or indirectly takes into account a directed payment
222.28 that a hospital receives under this section; or

222.29 (2) directly passing on the cost of an assessment to patients or nonmedical assistance
222.30 payers, including as a fee or rate increase.

222.31 (b) A hospital that violates this subdivision is prohibited from receiving a directed
222.32 payment under this section for the remainder of the rate year. This subdivision does not
222.33 prohibit a hospital from negotiating with a payer for a rate increase.

223.1 (c) Any hospital receiving a directed payment under this section must meet the
223.2 commissioner's standards for directed payments as described in subdivision 7.

223.3 Subd. 7. **State minimum policy goals established.** (a) The effect of the directed

238.15 imposed under this subdivision equals 2.8 percent of the health plan companies' aggregate
238.16 gross revenue.

238.17 (e) The commissioner may, after consultation with health plan companies likely to be
238.18 affected, modify the rate of assessment, as set forth in paragraphs (a) to (d), as necessary
238.19 to:

238.20 (1) comply with federal law, obtain or maintain a waiver under Code of Federal

238.29 determine the following for each health plan company:

238.30 (1) total enrollment for the calendar year;

- 239.1 (2) total Medicare enrollment for the calendar year;
- 239.2 (3) total medical assistance enrollment for the calendar year;
- 239.3 (4) total plan-to-plan enrollment for the calendar year;
- 239.4 (5) total enrollment through the Federal Employees Health Benefits Act of 1959, Public
- 239.5 Law 86-382, as amended, for the calendar year; and
- 239.6 (6) total other enrollment for the calendar year that is not otherwise counted in clauses
- 239.7 (2) to (5).
- 239.8 (b) Health plan companies must provide any information requested by the commissioner
- 239.9 for the purpose of this subdivision, provided that the commissioner determines such
- 239.10 information is necessary to accurately determine the information in paragraph (a).
- 239.11 (c) The commissioner may correct errors in data provided to the commissioner by a
- 239.12 health plan company to the extent necessary to accurately determine the information in

- 239.15 the commissioner must count any individual that was an enrollee of a health plan at any

- 239.17 plan.
- 239.18 (e) The commissioner must annually use the information in paragraph (a) to compute
- 239.19 the assessment for each health plan company.
- 239.20 (f) The commissioner must collect the annual assessment for each health plan company
- 239.21 in four equal installments, in the manner and on the schedule determined by the
- 239.22 commissioner. The commissioner is prohibited from collecting any amount under this section
- 239.23 until 20 days after the commissioner has notified the health plan company of:
- 239.24 (1) the effective date of this section;
- 239.25 (2) the assessment due dates for the applicable calendar year; and
- 239.26 (3) the annual assessment amount.
- 239.27 (g) The commissioner may waive all or part of the interest or penalty imposed on a
- 239.28 health plan company under subdivision 2, paragraph (f), if the commissioner determines
- 239.29 the interest or penalty is likely to create an undue financial hardship on the health plan
- 239.30 company or a significant financial difficulty in providing necessary services to medical
- 239.31 assistance enrollees. A waiver under this paragraph must be contingent on the health plan
- 239.32 company's agreement to make assessment payments on an alternative schedule, determined

240.1 by the commissioner, that accounts for the health plan company's finances and the potential
240.2 impact on the delivery of services to medical assistance enrollees.

240.3 (h) In the event of a merger, acquisition, or other transaction that results in the transfer
240.4 of health plan responsibility to another health plan company or similar entity during calendar
240.5 years 2026 to 2029, the surviving, acquiring, or controlling health plan company or similar
240.6 entity shall be responsible for paying the full assessment amount as provided in this section
240.7 that would have been the responsibility of the health plan company to which that full
240.8 assessment amount was assessed upon the effective date of the transaction. If a transaction
240.9 results in the transfer of health plan responsibility for only some of a health plan's enrollees
240.10 under this section but not all enrollees, the full assessment amount as provided in this section
240.11 remains the responsibility of that health plan company to which that full assessment amount
240.12 was assessed.

240.14 under this section must be deposited in the health care access fund.

240.15 (b) All amounts collected by the commissioner under this section are annually

240.20 (3) mental health services under section 256B.761;

240.21 (4) services reimbursed under the resource-based relative value scale and with a
240.22 corresponding rate and procedural code in the Medicare Physician Fee Schedule under
240.23 section 256B.768; and

240.24 (5) inpatient behavioral health services provided by hospitals paid under the DRG
240.25 methodology.

240.26 (c) The assessment money must be used to supplement money for medical assistance
240.27 from the general fund.

240.28 (d) The commissioner must provide an annual report to all health plan companies, in a
240.29 time and manner determined by the commissioner. The report must identify the assessments

241.3 care-related tax under Code of Federal Regulations, title 42, section 433.68, eligible for
241.4 federal financial participation, including but not limited to federal approval of a waiver
241.5 under Code of Federal Regulations, title 42, section 433.72, if such waiver is necessary to
241.6 receive health care-related taxes without a reduction in federal financial participation,
241.7 whichever is later. The commissioner of human services shall notify the revisor of statutes
241.8 when federal approval is obtained.

241.23 federal approval to implement the hospital assessment described in Minnesota Statutes,
241.24 section 256.9657, subdivision 2b, and the hospital directed payment program under
241.25 Minnesota Statutes, section 256B.1974. At least 15 days before submitting the request for
241.26 approval, the commissioner must make available to the public the draft assessment

241.28 for each hospital without an exemption from the assessment pursuant to Minnesota Statutes,
241.29 section 256.9657, subdivision 2b, paragraph (k).

241.30 (c) During the design and prior to submission of the request for approval under paragraph

302.19 mental health professional must document what actions will be taken to address the client's

320.8 system of services, including family community support and specialized residential treatment
320.9 services for children. The services shall be designed for children with ~~emotional disturbance~~
320.10 mental illness who exhibit violent or destructive behavior and for whom local treatment
320.11 services are not feasible due to the small number of children statewide who need the services
320.12 and the specialized nature of the services required. The services shall be located in community
320.13 settings.

320.14 Sec. 40. Minnesota Statutes 2024, section 245.4884, is amended to read:

321.1 (8) make a smooth transition into the adult mental health system as appropriate.

321.2 In addition, family community support services must be designed to improve overall
321.3 family functioning if clinically appropriate to the child's needs, and to reduce the need for
321.4 and use of placements more intensive, costly, or restrictive both in the number of admissions
321.5 and lengths of stay than indicated by the child's diagnostic assessment.

321.6 The commissioner of human services shall work with mental health professionals to
321.7 develop standards for clinical supervision of family community support services. These
321.8 standards shall be incorporated in rule and in guidelines for grants for family community

321.14 designed to:

321.15 (1) provide a structured environment for treatment;

321.16 (2) provide support for residing in the community;

321.17 (3) prevent placements that are more intensive, costly, or restrictive than necessary to
321.18 meet the child's need;

321.19 (4) coordinate with or be offered in conjunction with the child's education program;

321.20 (5) provide therapy and family intervention for children that are coordinated with
321.21 education services provided and funded by schools; and

321.22 (6) operate during all 12 months of the year.

321.23 (b) County boards may request a waiver from including day treatment services if they
321.24 can document that:

321.25 (1) alternative services exist through the county's family community support services
321.26 for each child who would otherwise need day treatment services; and

321.27 (2) county demographics and geography make the provision of day treatment services
321.28 cost ineffective and unfeasible.

321.29 Subd. 3. **Professional home-based family treatment provided.** (a) By January 1, 1991,
321.30 county boards must provide or contract for sufficient professional home-based family
321.31 treatment within the county to meet the needs of each child with ~~severe emotional disturbance~~

322.5 family treatment set fee schedules approved by the county board that are based on the child's
322.6 or family's ability to pay. The professional home-based family treatment must be designed
322.7 to assist each child with ~~severe emotional disturbance~~ serious mental illness who is at risk
322.8 of or who is returning from ~~out-of-home placement~~ residential treatment or therapeutic
322.9 foster care and the child's family to:

322.10 (1) improve overall family functioning in all areas of life;

322.11 (2) treat the child's symptoms of ~~emotional disturbance~~ mental illness that contribute to
322.12 a risk of ~~out-of-home placement~~ residential treatment or therapeutic foster care;

322.13 (3) provide a positive change in the emotional, behavioral, and mental well-being of
322.14 children and their families; and

322.15 (4) reduce risk of ~~out-of-home placement~~ residential treatment or therapeutic foster care

322.20 (b) Professional home-based family treatment must be provided by a team consisting of

322.27 the family. Professional home-based family treatment providers shall coordinate services
322.28 and service needs with case managers assigned to children and their families. The treatment
322.29 team must develop an individual treatment plan that identifies the specific treatment
322.30 objectives for both the child and the family.

322.31 Subd. 4. **Therapeutic support of foster care.** By January 1, 1992, county boards must
322.32 provide or contract for foster care with therapeutic support as defined in section 245.4871,
322.33 subdivision 34. Foster families caring for children with ~~severe emotional disturbance~~ serious

323.3 Subd. 5. **Benefits assistance.** The county board must offer help to a child with ~~severe~~
323.4 ~~emotional disturbance~~ serious mental illness and the child's family in applying for federal
323.5 benefits, including Supplemental Security Income, medical assistance, and Medicare.

323.6 Sec. 41. Minnesota Statutes 2024, section 245.4885, subdivision 1, is amended to read:

323.7 Subdivision 1. **Admission criteria.** (a) Prior to admission or placement, except in the
323.8 case of an emergency, all children referred for treatment of ~~severe emotional disturbance~~
323.9 serious mental illness in a treatment foster care setting, residential treatment facility, or
323.10 informally admitted to a regional treatment center shall undergo an assessment to determine
323.11 the appropriate level of care if county funds are used to pay for the child's services. An
323.12 emergency includes when a child is in need of and has been referred for crisis stabilization
323.13 services under section 245.4882, subdivision 6. A child who has been referred to residential
323.14 treatment for crisis stabilization services in a residential treatment center is not required to
323.15 undergo an assessment under this section.

323.16 (b) The county board shall determine the appropriate level of care for a child when
323.17 county-controlled funds are used to pay for the child's residential treatment under this
323.18 chapter, including residential treatment provided in a qualified residential treatment program
323.19 as defined in section 260C.007, subdivision 26d. When a county board does not have
323.20 responsibility for a child's placement and the child is enrolled in a prepaid health program
323.21 under section 256B.69, the enrolled child's contracted health plan must determine the
323.22 appropriate level of care for the child. When Indian Health Services funds or funds of a
323.23 tribally owned facility funded under the Indian Self-Determination and Education Assistance
323.24 Act, Public Law 93-638, are used for the child, the Indian Health Services or 638 tribal
323.25 health facility must determine the appropriate level of care for the child. When more than
323.26 one entity bears responsibility for a child's coverage, the entities shall coordinate level of
323.27 care determination activities for the child to the extent possible.

323.28 (c) The child's level of care determination shall determine whether the proposed treatment:

323.29 (1) is necessary;

323.30 (2) is appropriate to the child's individual treatment needs;

323.31 (3) cannot be effectively provided in the child's home; and

323.32 (4) provides a length of stay as short as possible consistent with the individual child's
323.33 needs.

(d) When a level of care determination is conducted, the county board or other entity may not determine that a screening of a child, referral, or admission to a residential treatment facility is not appropriate solely because services were not first provided to the child in a less restrictive setting and the child failed to make progress toward or meet treatment goals in the less restrictive setting. The level of care determination must be based on a diagnostic assessment of a child that evaluates the child's family, school, and community living situations; and an assessment of the child's need for care out of the home using a validated tool which assesses a child's functional status and assigns an appropriate level of care to the child. The validated tool must be approved by the commissioner of human services and may be the validated tool approved for the child's assessment under section 260C.704 if the juvenile treatment screening team recommended placement of the child in a qualified residential treatment program. If a diagnostic assessment has been completed by a mental health professional within the past 180 days, a new diagnostic assessment need not be completed unless in the opinion of the current treating mental health professional the child's mental health status has changed markedly since the assessment was completed. The child's parent shall be notified if an assessment will not be completed and of the reasons. A copy of the notice shall be placed in the child's file. Recommendations developed as part of the level of care determination process shall include specific community services needed by the child and, if appropriate, the child's family, and shall indicate whether these services are available and accessible to the child and the child's family. The child and the child's family must be invited to any meeting where the level of care determination is discussed and decisions regarding residential treatment are made. The child and the child's family may invite other relatives, friends, or advocates to attend these meetings.

(e) During the level of care determination process, the child, child's family, or child's legal representative, as appropriate, must be informed of the child's eligibility for case management services and family community support services and that an individual family community support plan is being developed by the case manager, if assigned.

(f) The level of care determination, placement decision, and recommendations for mental health services must be documented in the child's record and made available to the child's family, as appropriate.

344.14 Subd. 9. **Service delivery criteria.** (a) In delivering services under this section, a certified
344.15 provider entity must ensure that:

344.16 (1) the provider's caseload size should reasonably enable the provider to play an active
344.17 role in service planning, monitoring, and delivering services to meet the client's and client's
344.18 family's needs, as specified in each client's individual treatment plan;

344.19 (2) site-based programs, including day treatment programs, provide staffing and facilities

344.21 to implement each client's individual treatment plan; and

344.22 (3) a day treatment program is provided to a group of clients by a team under the treatment
344.23 supervision of a mental health professional. The day treatment program must be provided
344.24 in and by: (i) an outpatient hospital accredited by the Joint Commission on Accreditation
344.25 of Health Organizations and licensed under sections 144.50 to 144.55; (ii) a community

344.32 community. The remainder of the structured treatment program may include patient and/or
344.33 family or group psychotherapy, and individual or group skills training, if included in the

345.1 client's individual treatment plan. Day treatment programs are not part of inpatient or
345.2 residential treatment services. When a day treatment group that meets the minimum group
345.3 size requirement temporarily falls below the minimum group size because of a member's
345.4 temporary absence, medical assistance covers a group session conducted for the group
345.5 members in attendance. A day treatment program may provide fewer than the minimally
345.6 required hours for a particular child during a billing period in which the child is transitioning
345.7 into, or out of, the program.

345.8 (b) To be eligible for medical assistance payment, a provider entity must deliver the
345.9 service components of children's therapeutic services and supports in compliance with the
345.10 following requirements:

345.11 (1) psychotherapy to address the child's underlying mental health disorder must be
345.12 documented as part of the child's ongoing treatment. A provider must deliver or arrange for
345.13 medically necessary psychotherapy unless the child's parent or caregiver chooses not to
345.14 receive it or the provider determines that psychotherapy is no longer medically necessary.
345.15 When a provider determines that psychotherapy is no longer medically necessary, the
345.16 provider must update required documentation, including but not limited to the individual
345.17 treatment plan, the child's medical record, or other authorizations, to include the
345.18 determination. When a provider determines that a child needs psychotherapy but
345.19 psychotherapy cannot be delivered due to a shortage of licensed mental health professionals
345.20 in the child's community, the provider must document the lack of access in the child's
345.21 medical record;

345.22 (2) individual, family, or group skills training is subject to the following requirements:

345.23 (i) a mental health professional, clinical trainee, or mental health practitioner shall provide
345.24 skills training;

345.25 (ii) skills training delivered to a child or the child's family must be targeted to the specific
345.26 deficits or maladaptations of the child's mental health disorder and must be prescribed in
345.27 the child's individual treatment plan;

345.28 (iii) group skills training may be provided to multiple recipients who, because of the
345.29 nature of their emotional, behavioral, or social dysfunction, can derive mutual benefit from
345.30 interaction in a group setting, which must be staffed as follows:

345.31 (A) one mental health professional, clinical trainee, or mental health practitioner must
345.32 work with a group of three to eight clients; or

346.1 (B) any combination of two mental health professionals, clinical trainees, or mental
346.2 health practitioners must work with a group of nine to 12 clients;

346.3 (iv) a mental health professional, clinical trainee, or mental health practitioner must have
346.4 taught the psychosocial skill before a mental health behavioral aide may practice that skill
346.5 with the client; and

346.6 (v) for group skills training, when a skills group that meets the minimum group size
346.7 requirement temporarily falls below the minimum group size because of a group member's
346.8 temporary absence, the provider may conduct the session for the group members in
346.9 attendance;

346.10 (3) crisis planning to a child and family must include development of a written plan that
346.11 anticipates the particular factors specific to the child that may precipitate a psychiatric crisis
346.12 for the child in the near future. The written plan must document actions that the family
346.13 should be prepared to take to resolve or stabilize a crisis, such as advance arrangements for
346.14 direct intervention and support services to the child and the child's family. Crisis planning
346.15 must include preparing resources designed to address abrupt or substantial changes in the
346.16 functioning of the child or the child's family when sudden change in behavior or a loss of
346.17 usual coping mechanisms is observed, or the child begins to present a danger to self or
346.18 others;

346.19 (4) mental health behavioral aide services must be medically necessary treatment services,
346.20 identified in the child's individual treatment plan.

346.21 To be eligible for medical assistance payment, mental health behavioral aide services must
346.22 be delivered to a child who has been diagnosed with ~~an emotional disturbance or~~ a mental
346.23 illness, as provided in subdivision 1, paragraph (a). The mental health behavioral aide must
346.24 document the delivery of services in written progress notes. Progress notes must reflect
346.25 implementation of the treatment strategies, as performed by the mental health behavioral
346.26 aide and the child's responses to the treatment strategies; and

346.27 (5) mental health service plan development must be performed in consultation with the
346.28 child's family and, when appropriate, with other key participants in the child's life by the
346.29 child's treating mental health professional or clinical trainee or by a mental health practitioner
346.30 and approved by the treating mental health professional. Treatment plan drafting consists
346.31 of development, review, and revision by face-to-face or electronic communication. The
346.32 provider must document events, including the time spent with the family and other key
346.33 participants in the child's life to approve the individual treatment plan. Medical assistance
346.34 covers service plan development before completion of the child's individual treatment plan.

347.1 Service plan development is covered only if a treatment plan is completed for the child. If
347.2 upon review it is determined that a treatment plan was not completed for the child, the
347.3 commissioner shall recover the payment for the service plan development.

347.4 Sec. 65. Minnesota Statutes 2024, section 256B.0943, subdivision 12, is amended to read:

347.5 Subd. 12. **Excluded services.** The following services are not eligible for medical
347.6 assistance payment as children's therapeutic services and supports:

347.7 (1) service components of children's therapeutic services and supports simultaneously
347.8 provided by more than one provider entity unless prior authorization is obtained;

347.9 (2) treatment by multiple providers within the same agency at the same clock time,
347.10 unless one service is delivered to the child and the other service is delivered to the child's
347.11 family or treatment team without the child present;

347.13 policy in Minnesota Rules, part 9505.0220;

347.18 license holder, including foster care providers under the terms of a service agreement or
347.19 administrative rules governing licensure; and

347.21 covered by medical assistance, including:

347.22 (i) a service that is primarily recreation oriented or that is provided in a setting that is
347.23 not medically supervised. This includes sports activities, exercise groups, activities such as
347.24 craft hours, leisure time, social hours, meal or snack time, trips to community activities,

351.12 owned or controlled by a demonstration provider to provide Medicaid services. Medicare
351.13 funds and services shall be administered according to the terms and conditions of the federal
351.14 contract and demonstration provisions. For the purpose of administering medical assistance
351.15 funds, demonstrations under this subdivision are subject to subdivisions 1 to 22. The
351.16 provisions of Minnesota Rules, parts 9500.1450 to 9500.1464, apply to these demonstrations,
351.17 with the exceptions of parts 9500.1452, subpart 2, item B; and 9500.1457, subpart 1, items
351.18 B and C, which do not apply to persons enrolling in demonstrations under this section. All
351.19 enforcement and rulemaking powers available under chapters 62D, 62M, and 62Q are hereby
351.20 granted to the commissioner of health with respect to Medicare-approved special needs
351.21 plans with which the commissioner contracts to provide Medicaid services under this section.
351.22 An initial open enrollment period may be provided. Persons who disenroll from
351.23 demonstrations under this subdivision remain subject to Minnesota Rules, parts 9500.1450
351.24 to 9500.1464. When a person is enrolled in a health plan under these demonstrations and
351.25 the health plan's participation is subsequently terminated for any reason, the person shall
351.26 be provided an opportunity to select a new health plan and shall have the right to change
351.27 health plans within the first 60 days of enrollment in the second health plan. Persons required
351.28 to participate in health plans under this section who fail to make a choice of health plan
351.29 shall not be randomly assigned to health plans under these demonstrations. Notwithstanding
351.30 section 256L.12, subdivision 5, and Minnesota Rules, part 9505.5220, subpart 1, item A,
351.31 if adopted, for the purpose of demonstrations under this subdivision, the commissioner may
351.32 contract with managed care organizations, including counties, to serve only elderly persons
351.33 eligible for medical assistance, elderly persons with a disability, or persons with a disability
351.34 only. For persons with a primary diagnosis of developmental disability, serious and persistent
351.35 mental illness, or serious ~~emotional disturbance~~ mental illness in children, the commissioner

352.1 must ensure that the county authority has approved the demonstration and contracting design.
352.2 Enrollment in these projects for persons with disabilities shall be voluntary. The
352.3 commissioner shall not implement any demonstration project under this subdivision for
352.4 persons with a primary diagnosis of developmental disabilities, serious and persistent mental
352.5 illness, or serious ~~emotional disturbance~~, mental illness in children without approval of the
352.6 county board of the county in which the demonstration is being implemented.

352.7 (b) MS 2009 Supplement [Expired, 2003 c 47 s 4; 2007 c 147 art 7 s 60]

352.8 (c) Before implementation of a demonstration project for persons with a disability, the
352.9 commissioner must provide information to appropriate committees of the house of
352.10 representatives and senate and must involve representatives of affected disability groups in
352.11 the design of the demonstration projects.

352.12 (d) A nursing facility reimbursed under the alternative reimbursement methodology in
352.13 section 256B.434 may, in collaboration with a hospital, clinic, or other health care entity
352.14 provide services under paragraph (a). The commissioner shall amend the state plan and seek
352.15 any federal waivers necessary to implement this paragraph.

352.16 (e) The commissioner, in consultation with the commissioners of commerce and health,
352.17 may approve and implement programs for all-inclusive care for the elderly (PACE) according
352.18 to federal laws and regulations governing that program and state laws or rules applicable
352.19 to participating providers. A PACE provider is not required to be licensed or certified as a
352.20 health plan company as defined in section 62Q.01, subdivision 4. Persons age 55 and older
352.21 who have been screened by the county and found to be eligible for services under the elderly
352.22 waiver or community access for disability inclusion or who are already eligible for Medicaid
352.23 but meet level of care criteria for receipt of waiver services may choose to enroll in the
352.24 PACE program. Medicare and Medicaid services will be provided according to this
352.25 subdivision and federal Medicare and Medicaid requirements governing PACE providers
352.26 and programs. PACE enrollees will receive Medicaid home and community-based services
352.27 through the PACE provider as an alternative to services for which they would otherwise be
352.28 eligible through home and community-based waiver programs and Medicaid State Plan
352.29 Services. The commissioner shall establish Medicaid rates for PACE providers that do not
352.30 exceed costs that would have been incurred under fee-for-service or other relevant managed
352.31 care programs operated by the state.

352.32 (f) The commissioner shall seek federal approval to expand the Minnesota disability
352.33 health options (MnDHO) program established under this subdivision in stages, first to
352.34 regional population centers outside the seven-county metro area and then to all areas of the

state. Until July 1, 2009, expansion for MnDHO projects that include home and community-based services is limited to the two projects and service areas in effect on March 1, 2006. Enrollment in integrated MnDHO programs that include home and community-based services shall remain voluntary. Costs for home and community-based services included under MnDHO must not exceed costs that would have been incurred under the fee-for-service program. Notwithstanding whether expansion occurs under this paragraph, in determining MnDHO payment rates and risk adjustment methods, the commissioner must consider the methods used to determine county allocations for home and community-based program participants. If necessary to reduce MnDHO rates to comply with the provision regarding MnDHO costs for home and community-based services, the commissioner shall achieve the reduction by maintaining the base rate for contract year 2010 for services provided under the community access for disability inclusion waiver at the same level as for contract year 2009. The commissioner may apply other reductions to MnDHO rates to implement decreases in provider payment rates required by state law. Effective January 1, 2011, enrollment and operation of the MnDHO program in effect during 2010 shall cease. The commissioner may reopen the program provided all applicable conditions of this section are met. In developing program specifications for expansion of integrated programs, the commissioner shall involve and consult the state-level stakeholder group established in subdivision 28, paragraph (d), including consultation on whether and how to include home and community-based waiver programs. Plans to reopen MnDHO projects shall be presented to the chairs of the house of representatives and senate committees with jurisdiction over health and human services policy and finance prior to implementation.

(g) Notwithstanding section 256B.0621, health plans providing services under this section are responsible for home care targeted case management and relocation targeted case management. Services must be provided according to the terms of the waivers and contracts approved by the federal government.

354.13 subdivision 15, or a sexually dangerous person as defined in section 253D.02, subdivision
354.14 16, is excluded from enrollment in the demonstration project.

354.15 Sec. 72. Minnesota Statutes 2024, section 260B.157, subdivision 3, is amended to read:

354.16 Subd. 3. **Juvenile treatment screening team.** (a) The local social services agency shall
354.17 establish a juvenile treatment screening team to conduct screenings and prepare case plans

354.21 chemically dependent, or have a developmental disability. The team shall involve parents
354.22 or guardians in the screening process as appropriate. The team may be the same team as
354.23 defined in section 260C.157, subdivision 3.

354.24 (b) If the court, prior to, or as part of, a final disposition, proposes to place a child:

354.25 (1) for the primary purpose of treatment for ~~an emotional disturbance~~ mental illness,
354.26 and residential placement is consistent with section 260.012, a developmental disability, or
354.27 chemical dependency in a residential treatment facility out of state or in one which is within

355.2 days of receipt of the notice; or

355.3 (ii) elect not to screen a given case, and notify the court of that decision within three
355.4 working days.

355.5 (c) If the screening team has elected to screen and evaluate the child, the child may not
355.6 be placed for the primary purpose of treatment for ~~an emotional disturbance~~ mental illness,
355.7 a developmental disability, or chemical dependency, in a residential treatment facility out
355.8 of state nor in a residential treatment facility within the state that is licensed under chapter
355.9 245A, unless one of the following conditions applies:

355.11 child in a facility within the state;

355.12 (2) the screening team has evaluated the child and recommended that a residential
355.13 placement is necessary to meet the child's treatment needs and the safety needs of the
355.14 community, that it is a cost-effective means of meeting the treatment needs, and that it will
355.15 be of therapeutic value to the child; or

355.16 (3) the court, having reviewed a screening team recommendation against placement,
355.17 determines to the contrary that a residential placement is necessary. The court shall state
355.18 the reasons for its determination in writing, on the record, and shall respond specifically to
355.19 the findings and recommendation of the screening team in explaining why the
355.20 recommendation was rejected. The attorney representing the child and the prosecuting
355.21 attorney shall be afforded an opportunity to be heard on the matter.

356.20 include clinical care consultation under section 256B.0671, subdivision 7, and mental health

356.21 certified family peer specialist services under section 256B.0616.

356.28 residential treatment facility under section 256B.0941 or a family foster home as defined

356.29 in section 260C.007, subdivision 16b.

357.1 Sec. 76. Minnesota Statutes 2024, section 260C.157, subdivision 3, is amended to read:

357.2 Subd. 3. **Juvenile treatment screening team.** (a) The responsible social services agency
357.3 shall establish a juvenile treatment screening team to conduct screenings under this chapter
357.4 and chapter 260D, for a child to receive treatment for ~~an emotional disturbance~~ a mental
357.5 illness, a developmental disability, or related condition in a residential treatment facility
357.6 licensed by the commissioner of human services under chapter 245A, or licensed or approved
357.7 by a tribe. A screening team is not required for a child to be in: (1) a residential facility
357.8 specializing in prenatal, postpartum, or parenting support; (2) a facility specializing in
357.9 high-quality residential care and supportive services to children and youth who have been
357.10 or are at risk of becoming victims of sex trafficking or commercial sexual exploitation; (3)
357.11 supervised settings for youth who are 18 years of age or older and living independently; or
357.12 (4) a licensed residential family-based treatment facility for substance abuse consistent with
357.13 section 260C.190. Screenings are also not required when a child must be placed in a facility
357.14 due to an emotional crisis or other mental health emergency.

357.15 (b) The responsible social services agency shall conduct screenings within 15 days of a
357.16 request for a screening, unless the screening is for the purpose of residential treatment and
357.17 the child is enrolled in a prepaid health program under section 256B.69, in which case the
357.18 agency shall conduct the screening within ten working days of a request. The responsible
357.19 social services agency shall convene the juvenile treatment screening team, which may be
357.20 constituted under section 245.4885, 254B.05, or 256B.092. The team shall consist of social
357.21 workers; persons with expertise in the treatment of juveniles who are emotionally disturbed,
357.22 chemically dependent, or have a developmental disability; and the child's parent, guardian,
357.23 or permanent legal custodian. The team may include the child's relatives as defined in section
357.24 260C.007, subdivisions 26b and 27, the child's foster care provider, and professionals who
357.25 are a resource to the child's family such as teachers, medical or mental health providers,
357.26 and clergy, as appropriate, consistent with the family and permanency team as defined in
357.27 section 260C.007, subdivision 16a. Prior to forming the team, the responsible social services
357.28 agency must consult with the child's parents, the child if the child is age 14 or older, and,
357.29 if applicable, the child's tribe to obtain recommendations regarding which individuals to
357.30 include on the team and to ensure that the team is family-centered and will act in the child's
357.31 best interests. If the child, child's parents, or legal guardians raise concerns about specific
357.32 relatives or professionals, the team should not include those individuals. This provision
357.33 does not apply to paragraph (c).

357.34 (c) If the agency provides notice to tribes under section 260.761, and the child screened
357.35 is an Indian child, the responsible social services agency must make a rigorous and concerted

358.1 effort to include a designated representative of the Indian child's tribe on the juvenile
358.2 treatment screening team, unless the child's tribal authority declines to appoint a
358.3 representative. The Indian child's tribe may delegate its authority to represent the child to
358.4 any other federally recognized Indian tribe, as defined in section 260.755, subdivision 12.
358.5 The provisions of the Indian Child Welfare Act of 1978, United States Code, title 25, sections
358.6 1901 to 1963, and the Minnesota Indian Family Preservation Act, sections 260.751 to
358.7 260.835, apply to this section.

358.8 (d) If the court, prior to, or as part of, a final disposition or other court order, proposes
358.9 to place a child with ~~an emotional disturbance or~~ a mental illness, developmental disability,
358.10 or related condition in residential treatment, the responsible social services agency must
358.11 conduct a screening. If the team recommends treating the child in a qualified residential
358.12 treatment program, the agency must follow the requirements of sections 260C.70 to
358.13 260C.714.

358.14 The court shall ascertain whether the child is an Indian child and shall notify the
358.15 responsible social services agency and, if the child is an Indian child, shall notify the Indian
358.16 child's tribe as paragraph (c) requires.

358.17 (e) When the responsible social services agency is responsible for placing and caring
358.18 for the child and the screening team recommends placing a child in a qualified residential
358.19 treatment program as defined in section 260C.007, subdivision 26d, the agency must: (1)
358.20 begin the assessment and processes required in section 260C.704 without delay; and (2)
358.21 conduct a relative search according to section 260C.221 to assemble the child's family and
358.22 permanency team under section 260C.706. Prior to notifying relatives regarding the family
358.23 and permanency team, the responsible social services agency must consult with the child's
358.24 parent or legal guardian, the child if the child is age 14 or older, and, if applicable, the child's
358.25 tribe to ensure that the agency is providing notice to individuals who will act in the child's
358.26 best interests. The child and the child's parents may identify a culturally competent qualified
358.27 individual to complete the child's assessment. The agency shall make efforts to refer the
358.28 assessment to the identified qualified individual. The assessment may not be delayed for
358.29 the purpose of having the assessment completed by a specific qualified individual.

358.30 (f) When a screening team determines that a child does not need treatment in a qualified
358.31 residential treatment program, the screening team must:

358.32 (1) document the services and supports that will prevent the child's foster care placement
358.33 and will support the child remaining at home;

359.1 (2) document the services and supports that the agency will arrange to place the child
359.2 in a family foster home; or

359.3 (3) document the services and supports that the agency has provided in any other setting.

359.4 (g) When the Indian child's tribe or tribal health care services provider or Indian Health
359.5 Services provider proposes to place a child for the primary purpose of treatment for ~~an~~
359.6 ~~emotional disturbance~~ mental illness, a developmental disability, or co-occurring ~~emotional~~
359.7 ~~disturbance~~ mental illness and chemical dependency, the Indian child's tribe or the tribe
359.8 delegated by the child's tribe shall submit necessary documentation to the county juvenile
359.9 treatment screening team, which must invite the Indian child's tribe to designate a
359.10 representative to the screening team.

359.11 (h) The responsible social services agency must conduct and document the screening in
359.12 a format approved by the commissioner of human services.

359.13 Sec. 77. Minnesota Statutes 2024, section 260C.201, subdivision 1, is amended to read:

359.14 Subdivision 1. **Dispositions.** (a) If the court finds that the child is in need of protection
359.15 or services or neglected and in foster care, the court shall enter an order making any of the
359.16 following dispositions of the case:

359.17 (1) place the child under the protective supervision of the responsible social services
359.18 agency or child-placing agency in the home of a parent of the child under conditions
359.19 prescribed by the court directed to the correction of the child's need for protection or services:

359.20 (i) the court may order the child into the home of a parent who does not otherwise have
359.21 legal custody of the child, however, an order under this section does not confer legal custody
359.22 on that parent;

359.23 (ii) if the court orders the child into the home of a father who is not adjudicated, the
359.24 father must cooperate with paternity establishment proceedings regarding the child in the
359.25 appropriate jurisdiction as one of the conditions prescribed by the court for the child to
359.26 continue in the father's home; and

359.27 (iii) the court may order the child into the home of a noncustodial parent with conditions
359.28 and may also order both the noncustodial and the custodial parent to comply with the
359.29 requirements of a case plan under subdivision 2; or

359.30 (2) transfer legal custody to one of the following:

359.31 (i) a child-placing agency; or

(ii) the responsible social services agency. In making a foster care placement of a child whose custody has been transferred under this subdivision, the agency shall make an individualized determination of how the placement is in the child's best interests using the placement consideration order for relatives and the best interest factors in section 260C.212, subdivision 2, and may include a child colocated with a parent in a licensed residential family-based substance use disorder treatment program under section 260C.190; or

(3) order a trial home visit without modifying the transfer of legal custody to the responsible social services agency under clause (2). Trial home visit means the child is returned to the care of the parent or guardian from whom the child was removed for a period not to exceed six months. During the period of the trial home visit, the responsible social services agency:

(i) shall continue to have legal custody of the child, which means that the agency may see the child in the parent's home, at school, in a child care facility, or other setting as the agency deems necessary and appropriate;

(ii) shall continue to have the ability to access information under section 260C.208;

(iii) shall continue to provide appropriate services to both the parent and the child during the period of the trial home visit;

(iv) without previous court order or authorization, may terminate the trial home visit in order to protect the child's health, safety, or welfare and may remove the child to foster care;

(v) shall advise the court and parties within three days of the termination of the trial home visit when a visit is terminated by the responsible social services agency without a court order; and

(vi) shall prepare a report for the court when the trial home visit is terminated whether by the agency or court order that describes the child's circumstances during the trial home visit and recommends appropriate orders, if any, for the court to enter to provide for the child's safety and stability. In the event a trial home visit is terminated by the agency by removing the child to foster care without prior court order or authorization, the court shall conduct a hearing within ten days of receiving notice of the termination of the trial home visit by the agency and shall order disposition under this subdivision or commence permanency proceedings under sections 260C.503 to 260C.515. The time period for the hearing may be extended by the court for good cause shown and if it is in the best interests of the child as long as the total time the child spends in foster care without a permanency hearing does not exceed 12 months;

(4) if the child has been adjudicated as a child in need of protection or services because the child is in need of special services or care to treat or ameliorate a physical or mental disability or ~~emotional disturbance~~ mental illness as defined in section 245.4871, subdivision 15, the court may order the child's parent, guardian, or custodian to provide it. The court may order the child's health plan company to provide mental health services to the child. Section 62Q.535 applies to an order for mental health services directed to the child's health plan company. If the health plan, parent, guardian, or custodian fails or is unable to provide this treatment or care, the court may order it provided. Absent specific written findings by the court that the child's disability is the result of abuse or neglect by the child's parent or guardian, the court shall not transfer legal custody of the child for the purpose of obtaining special treatment or care solely because the parent is unable to provide the treatment or care. If the court's order for mental health treatment is based on a diagnosis made by a treatment professional, the court may order that the diagnosing professional not provide the treatment to the child if it finds that such an order is in the child's best interests; or

(5) if the court believes that the child has sufficient maturity and judgment and that it is in the best interests of the child, the court may order a child 16 years old or older to be allowed to live independently, either alone or with others as approved by the court under supervision the court considers appropriate, if the county board, after consultation with the court, has specifically authorized this dispositional alternative for a child.

(b) If the child was adjudicated in need of protection or services because the child is a runaway or habitual truant, the court may order any of the following dispositions in addition to or as alternatives to the dispositions authorized under paragraph (a):

(1) counsel the child or the child's parents, guardian, or custodian;

(2) place the child under the supervision of a probation officer or other suitable person in the child's own home under conditions prescribed by the court, including reasonable rules for the child's conduct and the conduct of the parents, guardian, or custodian, designed for the physical, mental, and moral well-being and behavior of the child;

(3) subject to the court's supervision, transfer legal custody of the child to one of the following:

(i) a reputable person of good moral character. No person may receive custody of two or more unrelated children unless licensed to operate a residential program under sections 245A.01 to 245A.16; or

(ii) a county probation officer for placement in a group foster home established under the direction of the juvenile court and licensed pursuant to section 241.021;

362.1 (4) require the child to pay a fine of up to \$100. The court shall order payment of the
362.2 fine in a manner that will not impose undue financial hardship upon the child;

362.3 (5) require the child to participate in a community service project;

362.4 (6) order the child to undergo a chemical dependency evaluation and, if warranted by
362.5 the evaluation, order participation by the child in a drug awareness program or an inpatient
362.6 or outpatient chemical dependency treatment program;

362.7 (7) if the court believes that it is in the best interests of the child or of public safety that
362.8 the child's driver's license or instruction permit be canceled, the court may order the
362.9 commissioner of public safety to cancel the child's license or permit for any period up to
362.10 the child's 18th birthday. If the child does not have a driver's license or permit, the court
362.11 may order a denial of driving privileges for any period up to the child's 18th birthday. The
362.12 court shall forward an order issued under this clause to the commissioner, who shall cancel
362.13 the license or permit or deny driving privileges without a hearing for the period specified
362.14 by the court. At any time before the expiration of the period of cancellation or denial, the
362.15 court may, for good cause, order the commissioner of public safety to allow the child to
362.16 apply for a license or permit, and the commissioner shall so authorize;

362.17 (8) order that the child's parent or legal guardian deliver the child to school at the
362.18 beginning of each school day for a period of time specified by the court; or

362.19 (9) require the child to perform any other activities or participate in any other treatment
362.20 programs deemed appropriate by the court.

362.21 To the extent practicable, the court shall enter a disposition order the same day it makes
362.22 a finding that a child is in need of protection or services or neglected and in foster care, but
362.23 in no event more than 15 days after the finding unless the court finds that the best interests
362.24 of the child will be served by granting a delay. If the child was under eight years of age at
362.25 the time the petition was filed, the disposition order must be entered within ten days of the
362.26 finding and the court may not grant a delay unless good cause is shown and the court finds
362.27 the best interests of the child will be served by the delay.

362.28 (c) If a child who is 14 years of age or older is adjudicated in need of protection or
362.29 services because the child is a habitual truant and truancy procedures involving the child
362.30 were previously dealt with by a school attendance review board or county attorney mediation
362.31 program under section 260A.06 or 260A.07, the court shall order a cancellation or denial
362.32 of driving privileges under paragraph (b), clause (7), for any period up to the child's 18th
362.33 birthday.

(d) In the case of a child adjudicated in need of protection or services because the child has committed domestic abuse and been ordered excluded from the child's parent's home, the court shall dismiss jurisdiction if the court, at any time, finds the parent is able or willing to provide an alternative safe living arrangement for the child as defined in paragraph (f).

(e) When a parent has complied with a case plan ordered under subdivision 6 and the child is in the care of the parent, the court may order the responsible social services agency to monitor the parent's continued ability to maintain the child safely in the home under such terms and conditions as the court determines appropriate under the circumstances.

(f) For the purposes of this subdivision, "alternative safe living arrangement" means a living arrangement for a child proposed by a petitioning parent or guardian if a court excludes the minor from the parent's or guardian's home that is separate from the victim of domestic abuse and safe for the child respondent. A living arrangement proposed by a petitioning parent or guardian is presumed to be an alternative safe living arrangement absent information to the contrary presented to the court. In evaluating any proposed living arrangement, the court shall consider whether the arrangement provides the child with necessary food, clothing, shelter, and education in a safe environment. Any proposed living arrangement that would place the child in the care of an adult who has been physically or sexually violent is presumed unsafe.

Sec. 78. Minnesota Statutes 2024, section 260C.201, subdivision 2, is amended to read:

Subd. 2. **Written findings.** (a) Any order for a disposition authorized under this section shall contain written findings of fact to support the disposition and case plan ordered and shall also set forth in writing the following information:

(1) why the best interests and safety of the child are served by the disposition and case plan ordered;

(2) what alternative dispositions or services under the case plan were considered by the court and why such dispositions or services were not appropriate in the instant case;

(3) when legal custody of the child is transferred, the appropriateness of the particular placement made or to be made by the placing agency using the relative and sibling placement considerations and best interest factors in section 260C.212, subdivision 2, or the appropriateness of a child colocated with a parent in a licensed residential family-based substance use disorder treatment program under section 260C.190;

(4) whether reasonable efforts to finalize the permanent plan for the child consistent with section 260.012 were made including reasonable efforts:

364.1 (i) to prevent the child's placement and to reunify the child with the parent or guardian
364.2 from whom the child was removed at the earliest time consistent with the child's safety.
364.3 The court's findings must include a brief description of what preventive and reunification
364.4 efforts were made and why further efforts could not have prevented or eliminated the
364.5 necessity of removal or that reasonable efforts were not required under section 260.012 or
364.6 260C.178, subdivision 1;

364.7 (ii) to identify and locate any noncustodial or nonresident parent of the child and to
364.8 assess such parent's ability to provide day-to-day care of the child, and, where appropriate,
364.9 provide services necessary to enable the noncustodial or nonresident parent to safely provide
364.10 day-to-day care of the child as required under section 260C.219, unless such services are
364.11 not required under section 260.012 or 260C.178, subdivision 1. The court's findings must
364.12 include a description of the agency's efforts to:

364.13 (A) identify and locate the child's noncustodial or nonresident parent;

364.14 (B) assess the noncustodial or nonresident parent's ability to provide day-to-day care of
364.15 the child; and

364.16 (C) if appropriate, provide services necessary to enable the noncustodial or nonresident
364.17 parent to safely provide the child's day-to-day care, including efforts to engage the
364.18 noncustodial or nonresident parent in assuming care and responsibility of the child;

364.19 (iii) to make the diligent search for relatives and provide the notices required under
364.20 section 260C.221; a finding made pursuant to a hearing under section 260C.202 that the
364.21 agency has made diligent efforts to conduct a relative search and has appropriately engaged
364.22 relatives who responded to the notice under section 260C.221 and other relatives, who came
364.23 to the attention of the agency after notice under section 260C.221 was sent, in placement
364.24 and case planning decisions fulfills the requirement of this item;

364.25 (iv) to identify and make a foster care placement of the child, considering the order in
364.26 section 260C.212, subdivision 2, paragraph (a), in the home of an unlicensed relative,
364.27 according to the requirements of section 142B.06, a licensed relative, or other licensed foster
364.28 care provider, who will commit to being the permanent legal parent or custodian for the
364.29 child in the event reunification cannot occur, but who will actively support the reunification
364.30 plan for the child. If the court finds that the agency has not appropriately considered relatives
364.31 for placement of the child, the court shall order the agency to comply with section 260C.212,
364.32 subdivision 2, paragraph (a). The court may order the agency to continue considering
364.33 relatives for placement of the child regardless of the child's current placement setting; and

(v) to place siblings together in the same home or to ensure visitation is occurring when siblings are separated in foster care placement and visitation is in the siblings' best interests under section 260C.212, subdivision 2, paragraph (d); and

(5) if the child has been adjudicated as a child in need of protection or services because the child is in need of special services or care to treat or ameliorate a mental disability or ~~emotional disturbance~~ mental illness as defined in section 245.4871, subdivision 15, the written findings shall also set forth:

(i) whether the child has mental health needs that must be addressed by the case plan;

(ii) what consideration was given to the diagnostic and functional assessments performed by the child's mental health professional and to health and mental health care professionals' treatment recommendations;

(iii) what consideration was given to the requests or preferences of the child's parent or guardian with regard to the child's interventions, services, or treatment; and

(iv) what consideration was given to the cultural appropriateness of the child's treatment or services.

(b) If the court finds that the social services agency's preventive or reunification efforts have not been reasonable but that further preventive or reunification efforts could not permit the child to safely remain at home, the court may nevertheless authorize or continue the removal of the child.

(c) If the child has been identified by the responsible social services agency as the subject of concurrent permanency planning, the court shall review the reasonable efforts of the agency to develop a permanency plan for the child that includes a primary plan that is for reunification with the child's parent or guardian and a secondary plan that is for an alternative, legally permanent home for the child in the event reunification cannot be achieved in a timely manner.

Sec. 79. Minnesota Statutes 2024, section 260C.301, subdivision 4, is amended to read:

Subd. 4. **Current foster care children.** Except for cases where the child is in placement due solely to the child's developmental disability or ~~emotional disturbance~~ mental illness, where custody has not been transferred to the responsible social services agency, and where the court finds compelling reasons to continue placement, the county attorney shall file a termination of parental rights petition or a petition to transfer permanent legal and physical custody to a relative under section 260C.515, subdivision 4, for all children who have been in out-of-home care for 15 of the most recent 22 months. This requirement does not apply

366.1 if there is a compelling reason approved by the court for determining that filing a termination
366.2 of parental rights petition or other permanency petition would not be in the best interests
366.3 of the child or if the responsible social services agency has not provided reasonable efforts
366.4 necessary for the safe return of the child, if reasonable efforts are required.

366.5 Sec. 80. Minnesota Statutes 2024, section 260D.01, is amended to read:

366.6 **260D.01 CHILD IN VOLUNTARY FOSTER CARE FOR TREATMENT.**

366.7 (a) Sections 260D.01 to 260D.10, may be cited as the "child in voluntary foster care for
366.8 treatment" provisions of the Juvenile Court Act.

366.9 (b) The juvenile court has original and exclusive jurisdiction over a child in voluntary
366.10 foster care for treatment upon the filing of a report or petition required under this chapter.
366.11 All obligations of the responsible social services agency to a child and family in foster care
366.12 contained in chapter 260C not inconsistent with this chapter are also obligations of the
366.13 agency with regard to a child in foster care for treatment under this chapter.

366.14 (c) This chapter shall be construed consistently with the mission of the children's mental
366.15 health service system as set out in section 245.487, subdivision 3, and the duties of an agency
366.16 under sections 256B.092 and 260C.157 and Minnesota Rules, parts 9525.0004 to 9525.0016,
366.17 to meet the needs of a child with a developmental disability or related condition. This
366.18 chapter:

366.19 (1) establishes voluntary foster care through a voluntary foster care agreement as the
366.20 means for an agency and a parent to provide needed treatment when the child must be in
366.21 foster care to receive necessary treatment for ~~an emotional disturbance or~~ a mental illness,
366.22 developmental disability, or related condition;

366.23 (2) establishes court review requirements for a child in voluntary foster care for treatment
366.24 due to ~~emotional disturbance or~~ a mental illness, developmental disability, or a related
366.25 condition;

366.26 (3) establishes the ongoing responsibility of the parent as legal custodian to visit the
366.27 child, to plan together with the agency for the child's treatment needs, to be available and
366.28 accessible to the agency to make treatment decisions, and to obtain necessary medical,
366.29 dental, and other care for the child;

366.30 (4) applies to voluntary foster care when the child's parent and the agency agree that the
366.31 child's treatment needs require foster care either:

(i) due to a level of care determination by the agency's screening team informed by the child's diagnostic and functional assessment under section 245.4885; or

(ii) due to a determination regarding the level of services needed by the child by the responsible social services agency's screening team under section 256B.092, and Minnesota Rules, parts 9525.0004 to 9525.0016; and

(5) includes the requirements for a child's placement in sections 260C.70 to 260C.714, when the juvenile treatment screening team recommends placing a child in a qualified residential treatment program, except as modified by this chapter.

(d) This chapter does not apply when there is a current determination under chapter 260E that the child requires child protective services or when the child is in foster care for any reason other than treatment for the child's ~~emotional disturbance or~~ mental illness, developmental disability, or related condition. When there is a determination under chapter 260E that the child requires child protective services based on an assessment that there are safety and risk issues for the child that have not been mitigated through the parent's engagement in services or otherwise, or when the child is in foster care for any reason other than the child's ~~emotional disturbance or~~ mental illness, developmental disability, or related condition, the provisions of chapter 260C apply.

(e) The paramount consideration in all proceedings concerning a child in voluntary foster care for treatment is the safety, health, and the best interests of the child. The purpose of this chapter is:

(1) to ensure that a child with a disability is provided the services necessary to treat or ameliorate the symptoms of the child's disability;

(2) to preserve and strengthen the child's family ties whenever possible and in the child's best interests, approving the child's placement away from the child's parents only when the child's need for care or treatment requires out-of-home placement and the child cannot be maintained in the home of the parent; and

(3) to ensure that the child's parent retains legal custody of the child and associated decision-making authority unless the child's parent willfully fails or is unable to make decisions that meet the child's safety, health, and best interests. The court may not find that the parent willfully fails or is unable to make decisions that meet the child's needs solely because the parent disagrees with the agency's choice of foster care facility, unless the agency files a petition under chapter 260C, and establishes by clear and convincing evidence that the child is in need of protection or services.

(f) The legal parent-child relationship shall be supported under this chapter by maintaining the parent's legal authority and responsibility for ongoing planning for the child and by the agency's assisting the parent, when necessary, to exercise the parent's ongoing right and obligation to visit or to have reasonable contact with the child. Ongoing planning means:

(1) actively participating in the planning and provision of educational services, medical, and dental care for the child;

(2) actively planning and participating with the agency and the foster care facility for the child's treatment needs;

(3) planning to meet the child's need for safety, stability, and permanency, and the child's need to stay connected to the child's family and community;

(4) engaging with the responsible social services agency to ensure that the family and permanency team under section 260C.706 consists of appropriate family members. For purposes of voluntary placement of a child in foster care for treatment under chapter 260D, prior to forming the child's family and permanency team, the responsible social services agency must consult with the child's parent or legal guardian, the child if the child is 14 years of age or older, and, if applicable, the child's Tribe to obtain recommendations regarding which individuals to include on the team and to ensure that the team is family-centered and will act in the child's best interests. If the child, child's parents, or legal guardians raise concerns about specific relatives or professionals, the team should not include those individuals unless the individual is a treating professional or an important connection to the youth as outlined in the case or crisis plan; and

(5) for a voluntary placement under this chapter in a qualified residential treatment program, as defined in section 260C.007, subdivision 26d, for purposes of engaging in a relative search as provided in section 260C.221, the county agency must consult with the child's parent or legal guardian, the child if the child is 14 years of age or older, and, if applicable, the child's Tribe to obtain recommendations regarding which adult relatives the county agency should notify. If the child, child's parents, or legal guardians raise concerns about specific relatives, the county agency should not notify those relatives.

(g) The provisions of section 260.012 to ensure placement prevention, family reunification, and all active and reasonable effort requirements of that section apply.

Sec. 81. Minnesota Statutes 2024, section 260D.02, subdivision 5, is amended to read:

Subd. 5. **Child in voluntary foster care for treatment.** "Child in voluntary foster care for treatment" means a child with ~~emotional disturbance~~ a mental illness or developmental

disability, or who has a related condition and is in foster care under a voluntary foster care agreement between the child's parent and the agency due to concurrence between the agency and the parent when it is determined that foster care is medically necessary:

(1) due to a determination by the agency's screening team based on its review of the diagnostic and functional assessment under section 245.4885; or

(2) due to a determination by the agency's screening team under section 256B.092 and Minnesota Rules, parts 9525.0004 to 9525.0016.

A child is not in voluntary foster care for treatment under this chapter when there is a current determination under chapter 260E that the child requires child protective services or when the child is in foster care for any reason other than the child's ~~emotional or~~ mental illness, developmental disability, or related condition.

Sec. 82. Minnesota Statutes 2024, section 260D.02, subdivision 9, is amended to read:

Subd. 9. ~~Emotional disturbance~~ Mental illness. "~~Emotional disturbance~~ Mental illness" means ~~emotional disturbance~~ mental illness as described in section 245.4871, subdivision 15.

Sec. 83. Minnesota Statutes 2024, section 260D.03, subdivision 1, is amended to read:

Subdivision 1. **Voluntary foster care.** When the agency's screening team, based upon the diagnostic and functional assessment under section 245.4885 or medical necessity screenings under section 256B.092, subdivision 7, determines the child's need for treatment due to ~~emotional disturbance or a~~ mental illness, developmental disability, or related condition requires foster care placement of the child, a voluntary foster care agreement between the child's parent and the agency gives the agency legal authority to place the child in foster care.

Sec. 84. Minnesota Statutes 2024, section 260D.04, is amended to read:

260D.04 REQUIRED INFORMATION FOR A CHILD IN VOLUNTARY FOSTER CARE FOR TREATMENT.

372.28 court's determinations. In this case, the court shall set the matter for hearing and appoint a
372.29 guardian ad litem for the child under section 260C.163, subdivision 5.

373.1 Sec. 86. Minnesota Statutes 2024, section 260D.07, is amended to read:

373.2 **260D.07 REQUIRED PERMANENCY REVIEW HEARING.**

373.3 (a) When the court has found that the voluntary arrangement is in the child's best interests
373.4 and that the agency and parent are appropriately planning for the child pursuant to the report
373.5 submitted under section 260D.06, and the child continues in voluntary foster care as defined
373.6 in section 260D.02, subdivision 10, for 13 months from the date of the voluntary foster care
373.7 agreement, or has been in placement for 15 of the last 22 months, the agency must:

373.8 (1) terminate the voluntary foster care agreement and return the child home; or

373.9 (2) determine whether there are compelling reasons to continue the voluntary foster care
373.10 arrangement and, if the agency determines there are compelling reasons, seek judicial
373.11 approval of its determination; or

373.12 (3) file a petition for the termination of parental rights.

373.13 (b) When the agency is asking for the court's approval of its determination that there are
373.14 compelling reasons to continue the child in the voluntary foster care arrangement, the agency
373.15 shall file a "Petition for Permanency Review Regarding a Child in Voluntary Foster Care
373.16 for Treatment" and ask the court to proceed under this section.

373.17 (c) The "Petition for Permanency Review Regarding a Child in Voluntary Foster Care
373.18 for Treatment" shall be drafted or approved by the county attorney and be under oath. The
373.19 petition shall include:

373.20 (1) the date of the voluntary placement agreement;

373.21 (2) whether the petition is due to the child's developmental disability or ~~emotional~~
373.22 ~~disturbance~~ mental illness;

373.23 (3) the plan for the ongoing care of the child and the parent's participation in the plan;

373.24 (4) a description of the parent's visitation and contact with the child;

373.25 (5) the date of the court finding that the foster care placement was in the best interests
373.26 of the child, if required under section 260D.06, or the date the agency filed the motion under
373.27 section 260D.09, paragraph (b);

373.28 (6) the agency's reasonable efforts to finalize the permanent plan for the child, including
373.29 returning the child to the care of the child's family;

373.30 (7) a citation to this chapter as the basis for the petition; and

374.1 (8) evidence as specified in section 260C.712 when a child is placed in a qualified
374.2 residential treatment program as defined in section 260C.007, subdivision 26d.

374.3 (d) An updated copy of the out-of-home placement plan required under section 260C.212,
374.4 subdivision 1, shall be filed with the petition.

374.5 (e) The court shall set the date for the permanency review hearing no later than 14 months
374.6 after the child has been in placement or within 30 days of the petition filing date when the
374.7 child has been in placement 15 of the last 22 months. The court shall serve the petition
374.8 together with a notice of hearing by United States mail on the parent, the child age 12 or
374.9 older, the child's guardian ad litem, if one has been appointed, the agency, the county
374.10 attorney, and counsel for any party.

374.11 (f) The court shall conduct the permanency review hearing on the petition no later than
374.12 14 months after the date of the voluntary placement agreement, within 30 days of the filing
374.13 of the petition when the child has been in placement 15 of the last 22 months, or within 15
374.14 days of a motion to terminate jurisdiction and to dismiss an order for foster care under
374.15 chapter 260C, as provided in section 260D.09, paragraph (b).

374.16 (g) At the permanency review hearing, the court shall:

374.17 (1) inquire of the parent if the parent has reviewed the "Petition for Permanency Review
374.18 Regarding a Child in Voluntary Foster Care for Treatment," whether the petition is accurate,
374.19 and whether the parent agrees to the continued voluntary foster care arrangement as being
374.20 in the child's best interests;

374.21 (2) inquire of the parent if the parent is satisfied with the agency's reasonable efforts to
374.22 finalize the permanent plan for the child, including whether there are services available and
374.23 accessible to the parent that might allow the child to safely be with the child's family;

374.24 (3) inquire of the parent if the parent consents to the court entering an order that:

374.25 (i) approves the responsible agency's reasonable efforts to finalize the permanent plan
374.26 for the child, which includes ongoing future planning for the safety, health, and best interests
374.27 of the child; and

374.28 (ii) approves the responsible agency's determination that there are compelling reasons
374.29 why the continued voluntary foster care arrangement is in the child's best interests; and

374.30 (4) inquire of the child's guardian ad litem and any other party whether the guardian or
374.31 the party agrees that:

375.1 (i) the court should approve the responsible agency's reasonable efforts to finalize the
375.2 permanent plan for the child, which includes ongoing and future planning for the safety,
375.3 health, and best interests of the child; and

375.4 (ii) the court should approve of the responsible agency's determination that there are
375.5 compelling reasons why the continued voluntary foster care arrangement is in the child's
375.6 best interests.

375.7 (h) At a permanency review hearing under this section, the court may take the following
375.8 actions based on the contents of the sworn petition and the consent of the parent:

375.9 (1) approve the agency's compelling reasons that the voluntary foster care arrangement
375.10 is in the best interests of the child; and

375.11 (2) find that the agency has made reasonable efforts to finalize the permanent plan for
375.12 the child.

375.13 (i) A child, age 12 or older, may object to the agency's request that the court approve its
375.14 compelling reasons for the continued voluntary arrangement and may be heard on the reasons
375.15 for the objection. Notwithstanding the child's objection, the court may approve the agency's
375.16 compelling reasons and the voluntary arrangement.

375.17 (j) If the court does not approve the voluntary arrangement after hearing from the child
375.18 or the child's guardian ad litem, the court shall dismiss the petition. In this case, either:

375.19 (1) the child must be returned to the care of the parent; or

375.20 (2) the agency must file a petition under section 260C.141, asking for appropriate relief
375.21 under sections 260C.301 or 260C.503 to 260C.521.

375.22 (k) When the court approves the agency's compelling reasons for the child to continue
375.23 in voluntary foster care for treatment, and finds that the agency has made reasonable efforts
375.24 to finalize a permanent plan for the child, the court shall approve the continued voluntary
375.25 foster care arrangement, and continue the matter under the court's jurisdiction for the purposes
375.26 of reviewing the child's placement every 12 months while the child is in foster care.

375.27 (l) A finding that the court approves the continued voluntary placement means the agency
375.28 has continued legal authority to place the child while a voluntary placement agreement
375.29 remains in effect. The parent or the agency may terminate a voluntary agreement as provided
375.30 in section 260D.10. Termination of a voluntary foster care placement of an Indian child is
375.31 governed by section 260.765, subdivision 4.

376.1 Sec. 87. Minnesota Statutes 2024, section 260E.11, subdivision 3, is amended to read:

376.3 **law enforcement; report ombudsman.** (a) A person mandated to report maltreatment who
376.4 knows or has reason to believe a child has died as a result of maltreatment shall report that
376.5 information to the appropriate medical examiner or coroner instead of the local welfare
376.6 agency, police department, or county sheriff.

376.7 (b) The medical examiner or coroner shall notify the local welfare agency, police
376.8 department, or county sheriff in instances in which the medical examiner or coroner believes
376.9 that the child has died as a result of maltreatment. The medical examiner or coroner shall
376.10 complete an investigation as soon as feasible and report the findings to the police department
376.11 or county sheriff and the local welfare agency.

376.12 (c) If the child was receiving services or treatment for mental illness, developmental
376.13 disability, or substance use disorder, ~~or emotional disturbance~~ from an agency, facility, or
376.14 program as defined in section 245.91, the medical examiner or coroner shall also notify and
376.15 report findings to the ombudsman established under sections 245.91 to 245.97.

376.16 Sec. 88. Minnesota Statutes 2024, section 295.50, subdivision 9b, is amended to read:

376.17 Subd. 9b. **Patient services.** (a) "Patient services" means inpatient and outpatient services
376.18 and other goods and services provided by hospitals, surgical centers, or health care providers.
376.19 They include the following health care goods and services provided to a patient or consumer:

ARTICLE 11

**ASSERTIVE COMMUNITY TREATMENT AND INTENSIVE RESIDENTIAL
TREATMENT SERVICES RECODIFICATION**

Section 1. Minnesota Statutes 2024, section 256B.0622, subdivision 1, is amended to read:

Subdivision 1. **Scope.** (a) Subject to federal approval, medical assistance covers medically necessary, assertive community treatment when the services are provided by an entity certified under and meeting the standards in this section.

~~(b) Subject to federal approval, medical assistance covers medically necessary, intensive residential treatment services when the services are provided by an entity licensed under and meeting the standards in section 245I.23.~~

~~(e)~~ (b) The provider entity must make reasonable and good faith efforts to report individual client outcomes to the commissioner, using instruments and protocols approved by the commissioner.

Sec. 2. Minnesota Statutes 2024, section 256B.0622, subdivision 8, is amended to read:

Subd. 8. **Medical assistance payment for assertive community treatment and intensive residential treatment services.** (a) Payment for ~~intensive residential treatment services and~~ assertive community treatment in this section shall be based on one daily rate per provider inclusive of the following services received by an eligible client in a given calendar day: all rehabilitative services under this section, staff travel time to provide rehabilitative services under this section, and nonresidential crisis stabilization services under section 256B.0624.

(b) Except as indicated in paragraph ~~(d)~~ (c), payment will not be made to more than one entity for each client for services provided under this section on a given day. If services under this section are provided by a team that includes staff from more than one entity, the team must determine how to distribute the payment among the members.

~~(e) Payment must not be made based solely on a court order to participate in intensive residential treatment services. If a client has a court order to participate in the program or to obtain assessment for treatment and follow treatment recommendations, payment under this section must only be provided if the client is eligible for the service and the service is determined to be medically necessary.~~

~~(d)~~ (c) The commissioner shall determine ~~one rate for each provider that will bill medical assistance for residential services under this section and~~ one rate for each assertive community treatment provider under this section. If a single entity provides both ~~services~~ intensive

379.1 residential treatment services under section 256B.0632 and assertive community treatment
379.2 under this section, one rate is established for the entity's intensive residential treatment
379.3 services under section 256B.0632 and another rate for the entity's ~~nonresidential~~ assertive
379.4 community treatment services under this section. A provider is not eligible for payment
379.5 under this section without authorization from the commissioner. The commissioner shall
379.6 develop rates using the following criteria:

379.7 (1) the provider's cost for services shall include direct services costs, other program
379.8 costs, and other costs determined as follows:

379.9 (i) the direct services costs must be determined using actual costs of salaries, benefits,
379.10 payroll taxes, and training of direct service staff and service-related transportation;

379.11 (ii) other program costs not included in item (i) must be determined as a specified
379.12 percentage of the direct services costs as determined by item (i). The percentage used shall
379.13 be determined by the commissioner based upon the average of percentages that represent
379.14 the relationship of other program costs to direct services costs among the entities that provide
379.15 similar services;

379.16 (iii) physical plant costs calculated based on the percentage of space within the program
379.17 that is entirely devoted to treatment and programming. This does not include administrative
379.18 or residential space;

379.19 (iv) assertive community treatment physical plant costs must be reimbursed as part of
379.20 the costs described in item (ii); and

379.21 (v) subject to federal approval, up to an additional five percent of the total rate may be
379.22 added to the program rate as a quality incentive based upon the entity meeting performance
379.23 criteria specified by the commissioner;

379.24 (2) ~~actual cost~~ is costs are defined as costs which are allowable, allocable, and reasonable,
379.25 and consistent with federal reimbursement requirements under Code of Federal Regulations,
379.26 title 48, chapter 1, part 31, relating to for-profit entities, and Office of Management and
379.27 Budget Circular Number A-122, relating to nonprofit entities;

379.28 (3) the number of service units;

379.29 (4) the degree to which clients will receive services other than services under this section
379.30 or section 256B.0632; and

379.31 (5) the costs of other services that will be separately reimbursed.

~~(e)~~ (d) The rate for ~~intensive residential treatment services~~ and assertive community treatment must exclude the medical assistance room and board rate, as defined in section 256B.056, subdivision 5d, and services not covered under this section, such as partial hospitalization, home care, and inpatient services.

~~(f)~~ ~~Physician services that are not separately billed may be included in the rate to the extent that a psychiatrist, or other health care professional providing physician services within their scope of practice, is a member of the intensive residential treatment services treatment team. Physician services, whether billed separately or included in the rate, may be delivered by telehealth. For purposes of this paragraph, "telehealth" has the meaning given to "mental health telehealth" in section 256B.0625, subdivision 46, when telehealth is used to provide intensive residential treatment services.~~

~~(g)~~ (e) When services under this section are provided by an assertive community treatment provider, case management functions must be an integral part of the team.

~~(h)~~ (f) The rate for a provider must not exceed the rate charged by that provider for the same service to other payors.

~~(i)~~ (g) The rates for existing programs must be established prospectively based upon the expenditures and utilization over a prior 12-month period using the criteria established in paragraph ~~(d)~~ (c). The rates for new programs must be established based upon estimated expenditures and estimated utilization using the criteria established in paragraph ~~(d)~~ (c).

~~(j)~~ (h) Effective for the rate years beginning on and after January 1, 2024, rates for assertive community treatment, adult residential crisis stabilization services, and intensive residential treatment services must be annually adjusted for inflation using the Centers for Medicare and Medicaid Services Medicare Economic Index, as forecasted in the third quarter of the calendar year before the rate year. The inflation adjustment must be based on the 12-month period from the midpoint of the previous rate year to the midpoint of the rate year for which the rate is being determined. This paragraph expires upon federal approval.

(i) Effective upon the expiration of paragraph (h), and effective for the rate years beginning on and after January 1, 2024, rates for assertive community treatment services must be annually adjusted for inflation using the Centers for Medicare and Medicaid Services Medicare Economic Index, as forecasted in the third quarter of the calendar year before the rate year. The inflation adjustment must be based on the 12-month period from the midpoint of the previous rate year to the midpoint of the rate year for which the rate is being determined.

381.1 ~~(k)~~ (j) Entities who discontinue providing services must be subject to a settle-up process
381.2 whereby actual costs and reimbursement for the previous 12 months are compared. In the
381.3 event that the entity was paid more than the entity's actual costs plus any applicable
381.4 performance-related funding due the provider, the excess payment must be reimbursed to
381.5 the department. If a provider's revenue is less than actual allowed costs due to lower
381.6 utilization than projected, the commissioner may reimburse the provider to recover its actual
381.7 allowable costs. The resulting adjustments by the commissioner must be proportional to the
381.8 percent of total units of service reimbursed by the commissioner and must reflect a difference
381.9 of greater than five percent.

381.10 ~~(h)~~ (k) A provider may request of the commissioner a review of any rate-setting decision
381.11 made under this subdivision.

381.12 Sec. 3. Minnesota Statutes 2024, section 256B.0622, subdivision 11, is amended to read:

381.13 Subd. 11. **Sustainability grants.** The commissioner may disburse grant funds directly
381.14 to ~~intensive residential treatment services providers and~~ assertive community treatment
381.15 providers to maintain access to these services.

381.16 Sec. 4. Minnesota Statutes 2024, section 256B.0622, subdivision 12, is amended to read:

381.17 Subd. 12. **Start-up grants.** The commissioner may, within available appropriations,
381.18 disburse grant funding to counties, Indian tribes, or mental health service providers to
381.19 establish additional assertive community treatment teams, ~~intensive residential treatment~~
381.20 ~~services, or crisis residential services.~~

381.21 Sec. 5. **[256B.0632] INTENSIVE RESIDENTIAL TREATMENT SERVICES.**

381.22 Subdivision 1. **Scope.** (a) Subject to federal approval, medical assistance covers medically
381.23 necessary, intensive residential treatment services when the services are provided by an
381.24 entity licensed under and meeting the standards in section 245I.23.

381.25 (b) The provider entity must make reasonable and good faith efforts to report individual
381.26 client outcomes to the commissioner, using instruments and protocols approved by the
381.27 commissioner.

381.28 Subd. 2. **Provider entity licensure and contract requirements for intensive residential**
381.29 **treatment services.** (a) The commissioner shall develop procedures for counties and
381.30 providers to submit other documentation as needed to allow the commissioner to determine
381.31 whether the standards in this section are met.

(b) A provider entity must specify in the provider entity's application what geographic area and populations will be served by the proposed program. A provider entity must document that the capacity or program specialties of existing programs are not sufficient to meet the service needs of the target population. A provider entity must submit evidence of ongoing relationships with other providers and levels of care to facilitate referrals to and from the proposed program.

(c) A provider entity must submit documentation that the provider entity requested a statement of need from each county board and Tribal authority that serves as a local mental health authority in the proposed service area. The statement of need must specify if the local mental health authority supports or does not support the need for the proposed program and the basis for this determination. If a local mental health authority does not respond within 60 days of the receipt of the request, the commissioner shall determine the need for the program based on the documentation submitted by the provider entity.

Subd. 3. Medical assistance payment for intensive residential treatment services. (a)
Payment for intensive residential treatment services in this section shall be based on one daily rate per provider inclusive of the following services received by an eligible client in a given calendar day: all rehabilitative services under this section, staff travel time to provide rehabilitative services under this section, and nonresidential crisis stabilization services under section 256B.0624.

(b) Except as indicated in paragraph (d), payment will not be made to more than one entity for each client for services provided under this section on a given day. If services under this section are provided by a team that includes staff from more than one entity, the team must determine how to distribute the payment among the members.

(c) Payment must not be made based solely on a court order to participate in intensive residential treatment services. If a client has a court order to participate in the program or to obtain assessment for treatment and follow treatment recommendations, payment under this section must only be provided if the client is eligible for the service and the service is determined to be medically necessary.

(d) The commissioner shall determine one rate for each provider that will bill medical assistance for intensive residential treatment services under this section. If a single entity provides both intensive residential treatment services under this section and assertive community treatment under section 256B.0622, one rate is established for the entity's intensive residential treatment services under this section and another rate for the entity's assertive community treatment services under section 256B.0622. A provider is not eligible

383.1 for payment under this section without authorization from the commissioner. The
383.2 commissioner shall develop rates using the following criteria:

383.3 (1) the provider's cost for services shall include direct services costs, other program
383.4 costs, and other costs determined as follows:

383.5 (i) the direct services costs must be determined using actual costs of salaries, benefits,
383.6 payroll taxes, and training of direct service staff and service-related transportation;

383.7 (ii) other program costs not included in item (i) must be determined as a specified
383.8 percentage of the direct services costs as determined by item (i). The percentage used shall
383.9 be determined by the commissioner based upon the average of percentages that represent
383.10 the relationship of other program costs to direct services costs among the entities that provide
383.11 similar services;

383.12 (iii) physical plant costs calculated based on the percentage of space within the program
383.13 that is entirely devoted to treatment and programming. This does not include administrative
383.14 or residential space; and

383.15 (iv) subject to federal approval, up to an additional five percent of the total rate may be
383.16 added to the program rate as a quality incentive based upon the entity meeting performance
383.17 criteria specified by the commissioner;

383.18 (2) actual costs are defined as costs which are allowable, allocable, and reasonable, and
383.19 consistent with federal reimbursement requirements under Code of Federal Regulations,
383.20 title 48, chapter 1, part 31, relating to for-profit entities, and Office of Management and
383.21 Budget Circular Number A-122, relating to nonprofit entities;

383.22 (3) the number of services units;

383.23 (4) the degree to which clients will receive services other than services under this section
383.24 or section 256B.0622; and

383.25 (5) the costs of other services that will be separately reimbursed.

383.26 (e) The rate for intensive residential treatment services must exclude the medical
383.27 assistance room and board rate, as defined in section 256B.056, subdivision 5d, and services
383.28 not covered under this section, such as partial hospitalization, home care, and inpatient
383.29 services.

383.30 (f) Physician services that are not separately billed may be included in the rate to the
383.31 extent that a psychiatrist, or other health care professional providing physician services
383.32 within their scope of practice, is a member of the intensive residential treatment services

384.1 treatment team. Physician services, whether billed separately or included in the rate, may
384.2 be delivered by telehealth. For purposes of this paragraph, "telehealth" has the meaning
384.3 given to "mental health telehealth" in section 256B.0625, subdivision 46, when telehealth
384.4 is used to provide intensive residential treatment services.

384.5 (g) The rate for a provider must not exceed the rate charged by that provider for the
384.6 same service to other payors.

384.7 (h) The rates for existing programs must be established prospectively based upon the
384.8 expenditures and utilization over a prior 12-month period using the criteria established in
384.9 paragraph (d). The rates for new programs must be established based upon estimated
384.10 expenditures and estimated utilization using the criteria established in paragraph (d).

384.11 (i) Effective upon the expiration of section 256B.0622, subdivision 8, paragraph (h),
384.12 and effective for rate years beginning on and after January 1, 2024, rates for intensive
384.13 residential treatment services and adult residential crisis stabilization services must be
384.14 annually adjusted for inflation using the Centers for Medicare and Medicaid Services
384.15 Medicare Economic Index, as forecasted in the third quarter of the calendar year before the
384.16 rate year. The inflation adjustment must be based on the 12-month period from the midpoint
384.17 of the previous rate year to the midpoint of the rate year for which the rate is being
384.18 determined.

384.19 (j) Entities who discontinue providing services must be subject to a settle-up process
384.20 whereby actual costs and reimbursement for the previous 12 months are compared. In the
384.21 event that the entity was paid more than the entity's actual costs plus any applicable
384.22 performance-related funding due the provider, the excess payment must be reimbursed to
384.23 the department. If a provider's revenue is less than actual allowed costs due to lower
384.24 utilization than projected, the commissioner may reimburse the provider to recover its actual
384.25 allowable costs. The resulting adjustments by the commissioner must be proportional to the
384.26 percent of total units of service reimbursed by the commissioner and must reflect a difference
384.27 of greater than five percent.

384.28 (k) A provider may request of the commissioner a review of any rate-setting decision
384.29 made under this subdivision.

384.30 **Subd. 4. Provider enrollment; rate setting for county-operated entities. Counties**
384.31 **that employ their own staff to provide services under this section shall apply directly to the**
384.32 **commissioner for enrollment and rate setting. In this case, a county contract is not required.**

Subd. 5. Provider enrollment; rate setting for specialized program. A county contract is not required for a provider proposing to serve a subpopulation of eligible clients under the following circumstances:

(1) the provider demonstrates that the subpopulation to be served requires a specialized program which is not available from county-approved entities; and

(2) the subpopulation to be served is of such a low incidence that it is not feasible to develop a program serving a single county or regional group of counties.

Subd. 6. Sustainability grants. The commissioner may disburse grant funds directly to intensive residential treatment services providers to maintain access to these services.

Subd. 7. Start-up grants. The commissioner may, within available appropriations, disburse grant funding to counties, Indian Tribes, or mental health service providers to establish additional intensive residential treatment services and residential crisis services.

Sec. 6. REPEALER.

Minnesota Statutes 2024, section 256B.0622, subdivision 4, is repealed.

394.30 agency must have received a notice from the commissioner that the personal care assistant
394.31 is:

394.32 (i) not disqualified under section 245C.14; or

(ii) disqualified, but the personal care assistant has received a set aside of the disqualification under section 245C.22.

EFFECTIVE DATE. This section is effective January 15, 2026.

Sec. 2. Minnesota Statutes 2024, section 245C.14, is amended by adding a subdivision to read:

Subd. 4c. Two-year disqualification. An individual is disqualified under section 245C.14, subdivision 6, if less than two years has passed since a determination that the individual violated section 142A.12, 245.095, or 256B.064.

EFFECTIVE DATE. This section is effective July 1, 2025.

Sec. 3. Minnesota Statutes 2024, section 245C.14, is amended by adding a subdivision to read:

Subd. 6. Disqualification from owning, operating, or billing. EFFECTIVE DATE. This section is effective July 1, 2025.

ARTICLE 14

DEPARTMENT OF HUMAN SERVICES PROGRAM INTEGRITY

Section 1. Minnesota Statutes 2024, section 13.46, subdivision 3, is amended to read:

Subd. 3. Investigative data. (a) Data on persons, including data on vendors of services, licensees, and applicants that is collected, maintained, used, or disseminated by the welfare system in an investigation, authorized by statute, and relating to the enforcement of rules or law are confidential data on individuals pursuant to section 13.02, subdivision 3, or protected nonpublic data not on individuals pursuant to section 13.02, subdivision 13, and shall not be disclosed except:

(1) pursuant to section 13.05;

(2) pursuant to statute or valid court order;

(3) to a party named in a civil or criminal proceeding, administrative or judicial, for preparation of defense;

(4) to an agent ~~of the welfare system~~ or an investigator acting on behalf of a county, state, or federal government, including a law enforcement officer or attorney in the investigation or prosecution of a criminal, civil, or administrative proceeding, unless the commissioner of human services or commissioner of children, youth, and families determines that disclosure may compromise a Department of Human Services or Department of Children, Youth, and Families ongoing investigation; or

(5) to provide notices required or permitted by statute.

The data referred to in this subdivision shall be classified as public data upon submission to an administrative law judge or court in an administrative or judicial proceeding. Inactive welfare investigative data shall be treated as provided in section 13.39, subdivision 3.

(b) Notwithstanding any other provision in law, the commissioner of human services shall provide all active and inactive investigative data, including the name of the reporter of alleged maltreatment under section 626.557 or chapter 260E, to the ombudsman for mental health and developmental disabilities upon the request of the ombudsman.

(c) Notwithstanding paragraph (a) and section 13.39, the existence of an investigation by the commissioner of human services of possible overpayments of public funds to a service provider or recipient or the reduction or withholding of payments may be disclosed if the commissioner determines that it will not compromise the investigation.

EFFECTIVE DATE. This section is effective July 1, 2025.

Sec. 2. Minnesota Statutes 2024, section 245.095, subdivision 5, is amended to read:

Subd. 5. **Withholding of payments.** (a) Except as otherwise provided by state or federal law, the commissioner may withhold payments to a provider, vendor, individual, associated individual, or associated entity in any program administered by the commissioner if the commissioner determines:

(1) there is a credible allegation of fraud for which an investigation is pending for a program administered by a Minnesota state or federal agency;

(2) the individual, the entity, or an associated individual or entity was convicted of a crime charged in state or federal court with an offense that involves fraud or theft against a program administered by the commissioner or another Minnesota state or federal agency. For purposes of this subdivision, "convicted" means a judgment of conviction has been entered by a federal, state, or local court, regardless of whether an appeal from the judgment is pending, and includes a stay of adjudication, a court-ordered diversion program, or a plea of guilty or nolo contendere;

397.1 (3) the provider is operating after a Minnesota state or federal agency orders the
397.2 suspension, revocation, or decertification of the provider's license;

397.3 (4) the provider, vendor, associated individual, or associated entity, including those
397.4 receiving funds under any contract or registered program, has a background study
397.5 disqualification under chapter 245C that has not been set aside and for which no variance
397.6 has been issued, except for a disqualification under sections 245C.14, subdivision 5, and
397.7 245C.15, subdivision 4c; or

397.8 (5) by a preponderance of the evidence that the provider, vendor, individual, associated
397.9 individual, or associated entity intentionally provided materially false information on the
397.10 provider's billing forms.

397.11 (b) For purposes of this subdivision, "credible allegation of fraud" means an allegation
397.12 that has been verified by the commissioner from any source, including but not limited to:

397.13 (1) fraud hotline complaints;

397.14 (2) claims data mining;

397.15 (3) patterns identified through provider audits, civil false claims cases, and law
397.16 enforcement investigations; and

397.17 (4) court filings and other legal documents, including but not limited to police reports,
397.18 complaints, indictments, informations, affidavits, declarations, and search warrants.

397.19 (c) The commissioner must send notice of the withholding of payments within five days
397.20 of taking such action. The notice must:

397.21 (1) state that payments are being withheld according to this subdivision;

397.22 (2) set forth the general allegations related to the withholding action, except the notice
397.23 need not disclose specific information concerning an ongoing investigation;

397.24 (3) state that the withholding is for a temporary period and cite the circumstances under
397.25 which the withholding will be terminated; and

397.26 (4) inform the provider, vendor, individual, associated individual, or associated entity
397.27 of the right to submit written evidence to contest the withholding action for consideration
397.28 by the commissioner.

397.29 (d) If the commissioner withholds payments under this subdivision, the provider, vendor,
397.30 individual, associated individual, or associated entity has a right to request administrative
397.31 reconsideration. A request for administrative reconsideration must be made in writing, state
397.32 with specificity the reasons the payment withholding decision is in error, and include

documents to support the request. Within 60 days from receipt of the request, the commissioner shall judiciously review allegations, facts, evidence available to the commissioner, and information submitted by the provider, vendor, individual, associated individual, or associated entity to determine whether the payment withholding should remain in place.

(e) The commissioner shall stop withholding payments if the commissioner determines there is insufficient evidence of fraud by the provider, vendor, individual, associated individual, or associated entity or when legal proceedings relating to the alleged fraud are completed, unless the commissioner has sent notice under subdivision 3 to the provider, vendor, individual, associated individual, or associated entity.

(f) The withholding of payments is a temporary action and is not subject to appeal under section 256.045 or chapter 14.

EFFECTIVE DATE. This section is effective July 1, 2025.

Sec. 3. Minnesota Statutes 2024, section 245.095, is amended by adding a subdivision to read:

Subd. 6. Data practices. The commissioner may exchange information, including claims data, with state or federal agencies, professional boards, departments, or programs for the purpose of investigating or prosecuting a criminal, civil, or administrative proceeding related to suspected fraud or exclusion from any program administered by a state or federal agency.

Sec. 4. Minnesota Statutes 2024, section 245A.04, subdivision 1, is amended to read:

Subdivision 1. **Application for licensure.** (a) An individual, organization, or government entity that is subject to licensure under section 245A.03 must apply for a license. The application must be made on the forms and in the manner prescribed by the commissioner. The commissioner shall provide the applicant with instruction in completing the application and provide information about the rules and requirements of other state agencies that affect the applicant. An applicant seeking licensure in Minnesota with headquarters outside of Minnesota must have a program office located within 30 miles of the Minnesota border. An applicant who intends to buy or otherwise acquire a program or services licensed under this chapter that is owned by another license holder must apply for a license under this chapter and comply with the application procedures in this section and section 245A.043.

The commissioner shall act on the application within 90 working days after a complete application and any required reports have been received from other state agencies or

399.1 departments, counties, municipalities, or other political subdivisions. The commissioner
399.2 shall not consider an application to be complete until the commissioner receives all of the
399.3 required information. If the applicant or a controlling individual is the subject of a pending
399.4 administrative, civil, or criminal investigation, the application is not complete until the
399.5 investigation has closed or the related legal proceedings are complete.

399.6 When the commissioner receives an application for initial licensure that is incomplete
399.7 because the applicant failed to submit required documents or that is substantially deficient
399.8 because the documents submitted do not meet licensing requirements, the commissioner
399.9 shall provide the applicant written notice that the application is incomplete or substantially
399.10 deficient. In the written notice to the applicant the commissioner shall identify documents
399.11 that are missing or deficient and give the applicant 45 days to resubmit a second application
399.12 that is substantially complete. An applicant's failure to submit a substantially complete
399.13 application after receiving notice from the commissioner is a basis for license denial under
399.14 section 245A.043.

399.15 (b) An application for licensure must identify all controlling individuals as defined in
399.16 section 245A.02, subdivision 5a, and must designate one individual to be the authorized
399.17 agent. The application must be signed by the authorized agent and must include the authorized
399.18 agent's first, middle, and last name; mailing address; and email address. By submitting an
399.19 application for licensure, the authorized agent consents to electronic communication with
399.20 the commissioner throughout the application process. The authorized agent must be
399.21 authorized to accept service on behalf of all of the controlling individuals. A government
399.22 entity that holds multiple licenses under this chapter may designate one authorized agent
399.23 for all licenses issued under this chapter or may designate a different authorized agent for
399.24 each license. Service on the authorized agent is service on all of the controlling individuals.
399.25 It is not a defense to any action arising under this chapter that service was not made on each
399.26 controlling individual. The designation of a controlling individual as the authorized agent
399.27 under this paragraph does not affect the legal responsibility of any other controlling individual
399.28 under this chapter.

399.29 (c) An applicant or license holder must have a policy that prohibits license holders,
399.30 employees, subcontractors, and volunteers, when directly responsible for persons served
399.31 by the program, from abusing prescription medication or being in any manner under the
399.32 influence of a chemical that impairs the individual's ability to provide services or care. The
399.33 license holder must train employees, subcontractors, and volunteers about the program's
399.34 drug and alcohol policy.

(d) An applicant and license holder must have a program grievance procedure that permits persons served by the program and their authorized representatives to bring a grievance to the highest level of authority in the program.

(e) The commissioner may limit communication during the application process to the authorized agent or the controlling individuals identified on the license application and for whom a background study was initiated under chapter 245C. Upon implementation of the provider licensing and reporting hub, applicants and license holders must use the hub in the manner prescribed by the commissioner. The commissioner may require the applicant, except for child foster care, to demonstrate competence in the applicable licensing requirements by successfully completing a written examination. The commissioner may develop a prescribed written examination format.

(f) When an applicant is an individual, the applicant must provide:

(1) the applicant's taxpayer identification numbers including the Social Security number or Minnesota tax identification number, and federal employer identification number if the applicant has employees;

(2) at the request of the commissioner, a copy of the most recent filing with the secretary of state that includes the complete business name, if any;

(3) if doing business under a different name, the doing business as (DBA) name, as registered with the secretary of state;

(4) if applicable, the applicant's National Provider Identifier (NPI) number and Unique Minnesota Provider Identifier (UMPI) number; and

(5) at the request of the commissioner, the notarized signature of the applicant or authorized agent.

(g) When an applicant is an organization, the applicant must provide:

(1) the applicant's taxpayer identification numbers including the Minnesota tax identification number and federal employer identification number;

(2) at the request of the commissioner, a copy of the most recent filing with the secretary of state that includes the complete business name, and if doing business under a different name, the doing business as (DBA) name, as registered with the secretary of state;

(3) the first, middle, and last name, and address for all individuals who will be controlling individuals, including all officers, owners, and managerial officials as defined in section

401.1 245A.02, subdivision 5a, and the date that the background study was initiated by the applicant
401.2 for each controlling individual;

401.3 (4) if applicable, the applicant's NPI number and UMPI number;

401.4 (5) the documents that created the organization and that determine the organization's
401.5 internal governance and the relations among the persons that own the organization, have
401.6 an interest in the organization, or are members of the organization, in each case as provided
401.7 or authorized by the organization's governing statute, which may include a partnership
401.8 agreement, bylaws, articles of organization, organizational chart, and operating agreement,
401.9 or comparable documents as provided in the organization's governing statute; and

401.10 (6) the notarized signature of the applicant or authorized agent.

401.11 (h) When the applicant is a government entity, the applicant must provide:

401.12 (1) the name of the government agency, political subdivision, or other unit of government
401.13 seeking the license and the name of the program or services that will be licensed;

401.14 (2) the applicant's taxpayer identification numbers including the Minnesota tax
401.15 identification number and federal employer identification number;

401.16 (3) a letter signed by the manager, administrator, or other executive of the government
401.17 entity authorizing the submission of the license application; and

401.18 (4) if applicable, the applicant's NPI number and UMPI number.

401.19 (i) At the time of application for licensure or renewal of a license under this chapter, the
401.20 applicant or license holder must acknowledge on the form provided by the commissioner
401.21 if the applicant or license holder elects to receive any public funding reimbursement from
401.22 the commissioner for services provided under the license that:

401.23 (1) the applicant's or license holder's compliance with the provider enrollment agreement
401.24 or registration requirements for receipt of public funding may be monitored by the
401.25 commissioner as part of a licensing investigation or licensing inspection; and

401.26 (2) noncompliance with the provider enrollment agreement or registration requirements
401.27 for receipt of public funding that is identified through a licensing investigation or licensing
401.28 inspection, or noncompliance with a licensing requirement that is a basis of enrollment for
401.29 reimbursement for a service, may result in:

401.30 (i) a correction order or a conditional license under section 245A.06, or sanctions under
401.31 section 245A.07;

402.1 (ii) nonpayment of claims submitted by the license holder for public program
402.2 reimbursement;

402.3 (iii) recovery of payments made for the service;

402.4 (iv) disenrollment in the public payment program; or

402.5 (v) other administrative, civil, or criminal penalties as provided by law.

402.6 Sec. 5. Minnesota Statutes 2024, section 245A.05, is amended to read:

402.7 **245A.05 DENIAL OF APPLICATION.**

402.8 (a) The commissioner may deny a license if an applicant or controlling individual:

402.9 (1) fails to submit a substantially complete application after receiving notice from the
402.10 commissioner under section 245A.04, subdivision 1;

402.11 (2) fails to comply with applicable laws or rules;

402.12 (3) knowingly withholds relevant information from or gives false or misleading
402.13 information to the commissioner in connection with an application for a license or during
402.14 an investigation;

402.15 (4) has a disqualification that has not been set aside under section 245C.22 and no
402.16 variance has been granted;

402.17 (5) has an individual living in the household who received a background study under
402.18 section 245C.03, subdivision 1, paragraph (a), clause (2), who has a disqualification that
402.19 has not been set aside under section 245C.22, and no variance has been granted;

402.20 (6) is associated with an individual who received a background study under section
402.21 245C.03, subdivision 1, paragraph (a), clause (6), who may have unsupervised access to
402.22 children or vulnerable adults, and who has a disqualification that has not been set aside
402.23 under section 245C.22, and no variance has been granted;

402.24 (7) fails to comply with section 245A.04, subdivision 1, paragraph (f) or (g);

402.25 (8) fails to demonstrate competent knowledge as required by section 245A.04, subdivision
402.26 6;

402.27 (9) has a history of noncompliance as a license holder or controlling individual with
402.28 applicable laws or rules, including but not limited to this chapter and chapters 142E and
402.29 245C; ~~or~~

402.30 (10) is prohibited from holding a license according to section 245.095; or

(11) is the subject of a pending administrative, civil, or criminal investigation.

(b) An applicant whose application has been denied by the commissioner must be given notice of the denial, which must state the reasons for the denial in plain language. Notice must be given by certified mail, by personal service, or through the provider licensing and reporting hub. The notice must state the reasons the application was denied and must inform the applicant of the right to a contested case hearing under chapter 14 and Minnesota Rules, parts 1400.8505 to 1400.8612. The applicant may appeal the denial by notifying the commissioner in writing by certified mail, by personal service, or through the provider licensing and reporting hub. If mailed, the appeal must be postmarked and sent to the commissioner within 20 calendar days after the applicant received the notice of denial. If an appeal request is made by personal service, it must be received by the commissioner within 20 calendar days after the applicant received the notice of denial. If the order is issued through the provider hub, the appeal must be received by the commissioner within 20 calendar days from the date the commissioner issued the order through the hub. Section 245A.08 applies to hearings held to appeal the commissioner's denial of an application.

Sec. 6. Minnesota Statutes 2024, section 245A.07, subdivision 2, is amended to read:

Subd. 2. **Temporary immediate suspension.** (a) The commissioner shall act immediately to temporarily suspend a license issued under this chapter if:

(1) the license holder's or controlling individual's actions or failure to comply with applicable law or rule, or the actions of other individuals or conditions in the program, pose an imminent risk of harm to the health, safety, or rights of persons served by the program;

(2) while the program continues to operate pending an appeal of an order of revocation, the commissioner identifies one or more subsequent violations of law or rule which may adversely affect the health or safety of persons served by the program; or

(3) the license holder or controlling individual is criminally charged in state or federal court with an offense that involves fraud or theft against a program administered by ~~the commissioner~~ a state or federal agency.

(b) No state funds shall be made available or be expended by any agency or department of state, county, or municipal government for use by a license holder regulated under this chapter while a license issued under this chapter is under immediate suspension. A notice stating the reasons for the immediate suspension and informing the license holder of the right to an expedited hearing under chapter 14 and Minnesota Rules, parts 1400.8505 to 1400.8612, must be delivered by personal service to the address shown on the application

or the last known address of the license holder. The license holder may appeal an order immediately suspending a license. The appeal of an order immediately suspending a license must be made in writing by certified mail, personal service, or other means expressly set forth in the commissioner's order. If mailed, the appeal must be postmarked and sent to the commissioner within five calendar days after the license holder receives notice that the license has been immediately suspended. If a request is made by personal service, it must be received by the commissioner within five calendar days after the license holder received the order. A license holder and any controlling individual shall discontinue operation of the program upon receipt of the commissioner's order to immediately suspend the license.

(c) The commissioner may act immediately to temporarily suspend a license issued under this chapter if the license holder or controlling individual is the subject of a pending administrative, civil, or criminal investigation or subject to an administrative or civil action related to fraud against a program administered by a state or federal agency.

Sec. 7. Minnesota Statutes 2024, section 254B.06, is amended by adding a subdivision to read:

Subd. 5. **Prohibition of duplicative claim submission.** (a) For time-based claims, submissions must follow the guidelines in the Centers for Medicare and Medicaid Services' Healthcare Common Procedure Coding System and the American Medical Association's Current Procedural Terminology to determine the appropriate units of time to report.

(b) More than half the duration of a time-based code must be spent performing the service to be eligible under this section. Any provision of service during the remaining balance of the unit of time is not eligible for any other claims submission and would be considered a duplicative claim submission.

(c) A provider may only round up to the next whole number of service units on a submitted claim when more than one and one-half times the defined value of the code has occurred and no additional time increment code exists.

EFFECTIVE DATE. This section is effective July 1, 2025.

Sec. 8. Minnesota Statutes 2024, section 256.983, subdivision 4, is amended to read:

Subd. 4. **Funding.** (a) County and Tribal agency reimbursement shall be made through the settlement provisions applicable to the Supplemental Nutrition Assistance Program (SNAP), MFIP, child care assistance programs, the medical assistance program, and other federal and state-funded programs.

(b) The commissioners will maintain program compliance if for any ~~three consecutive month period~~ quarter, a county or Tribal agency fails to comply with fraud prevention investigation program guidelines, or fails to meet the cost-effectiveness standards developed by the commissioners. This result is contingent on the commissioners providing written notice, including an offer of technical assistance, within 30 days of the end of the ~~third or subsequent month~~ quarter of noncompliance. The county or Tribal agency shall be required to submit a corrective action plan to the commissioners within 30 days of receipt of a notice of noncompliance. Failure to submit a corrective action plan or, continued deviation from standards of more than ten percent after submission of a corrective action plan, will result in denial of funding for each subsequent month, or billing the county or Tribal agency for fraud prevention investigation (FPI) service provided by the commissioners, or reallocation of program grant funds, or investigative resources, or both, to other counties or Tribal agencies. The denial of funding shall apply to the general settlement received by the county or Tribal agency on a quarterly basis and shall not reduce the grant amount applicable to the FPI project.

EFFECTIVE DATE. This section is effective July 1, 2025.

Sec. 9. Minnesota Statutes 2024, section 256B.04, subdivision 21, is amended to read:

Subd. 21. **Provider enrollment.** (a) The commissioner shall enroll providers and conduct screening activities as required by Code of Federal Regulations, title 42, section 455, subpart E. A provider must enroll each provider-controlled location where direct services are provided. The commissioner may deny a provider's incomplete application if a provider fails to respond to the commissioner's request for additional information within 60 days of the request. The commissioner must conduct a background study under chapter 245C, including a review of databases in section 245C.08, subdivision 1, paragraph (a), clauses (1) to (5), for a provider described in this paragraph. The background study requirement may be satisfied if the commissioner conducted a fingerprint-based background study on the provider that includes a review of databases in section 245C.08, subdivision 1, paragraph (a), clauses (1) to (5).

(b) The commissioner shall revalidate ~~each~~:

(1) each provider under this subdivision at least once every five years; ~~and~~

(2) each personal care assistance agency under this subdivision once every three years;

and

406.1 (3) at the commissioner's discretion, any other Medicaid-only provider type the
406.2 commissioner deems "high risk" under this subdivision.

406.3 (c) The commissioner shall conduct revalidation as follows:

406.4 (1) provide 30-day notice of the revalidation due date including instructions for
406.5 revalidation and a list of materials the provider must submit;

406.6 (2) if a provider fails to submit all required materials by the due date, notify the provider
406.7 of the deficiency within 30 days after the due date and allow the provider an additional 30
406.8 days from the notification date to comply; and

406.9 (3) if a provider fails to remedy a deficiency within the 30-day time period, give 60-day
406.10 notice of termination and immediately suspend the provider's ability to bill. The provider
406.11 does not have the right to appeal suspension of ability to bill.

406.12 (d) If a provider fails to comply with any individual provider requirement or condition
406.13 of participation, the commissioner may suspend the provider's ability to bill until the provider
406.14 comes into compliance. The commissioner's decision to suspend the provider is not subject
406.15 to an administrative appeal.

406.16 (e) Correspondence and notifications, including notifications of termination and other
406.17 actions, may be delivered electronically to a provider's MN-ITS mailbox. This paragraph
406.18 does not apply to correspondences and notifications related to background studies.

406.19 (f) If the commissioner or the Centers for Medicare and Medicaid Services determines
406.20 that a provider is designated "high-risk," the commissioner may withhold payment from
406.21 providers within that category upon initial enrollment for a 90-day period. The withholding
406.22 for each provider must begin on the date of the first submission of a claim.

406.23 (g) An enrolled provider that is also licensed by the commissioner under chapter 245A,
406.24 is licensed as a home care provider by the Department of Health under chapter 144A, or is
406.25 licensed as an assisted living facility under chapter 144G and has a home and
406.26 community-based services designation on the home care license under section 144A.484,
406.27 must designate an individual as the entity's compliance officer. The compliance officer
406.28 must:

406.29 (1) develop policies and procedures to assure adherence to medical assistance laws and
406.30 regulations and to prevent inappropriate claims submissions;

406.31 (2) train the employees of the provider entity, and any agents or subcontractors of the
406.32 provider entity including billers, on the policies and procedures under clause (1);

407.1 (3) respond to allegations of improper conduct related to the provision or billing of
407.2 medical assistance services, and implement action to remediate any resulting problems;

407.3 (4) use evaluation techniques to monitor compliance with medical assistance laws and
407.4 regulations;

407.5 (5) promptly report to the commissioner any identified violations of medical assistance
407.6 laws or regulations; and

407.7 (6) within 60 days of discovery by the provider of a medical assistance reimbursement
407.8 overpayment, report the overpayment to the commissioner and make arrangements with
407.9 the commissioner for the commissioner's recovery of the overpayment.

407.10 The commissioner may require, as a condition of enrollment in medical assistance, that a
407.11 provider within a particular industry sector or category establish a compliance program that
407.12 contains the core elements established by the Centers for Medicare and Medicaid Services.

407.13 (h) The commissioner may revoke the enrollment of an ordering or rendering provider
407.14 for a period of not more than one year, if the provider fails to maintain and, upon request
407.15 from the commissioner, provide access to documentation relating to written orders or requests
407.16 for payment for durable medical equipment, certifications for home health services, or
407.17 referrals for other items or services written or ordered by such provider, when the
407.18 commissioner has identified a pattern of a lack of documentation. A pattern means a failure
407.19 to maintain documentation or provide access to documentation on more than one occasion.
407.20 Nothing in this paragraph limits the authority of the commissioner to sanction a provider
407.21 under the provisions of section 256B.064.

407.22 (i) The commissioner shall terminate or deny the enrollment of any individual or entity
407.23 if the individual or entity has been terminated from participation in Medicare or under the
407.24 Medicaid program or Children's Health Insurance Program of any other state. The
407.25 commissioner may exempt a rehabilitation agency from termination or denial that would
407.26 otherwise be required under this paragraph, if the agency:

407.27 (1) is unable to retain Medicare certification and enrollment solely due to a lack of billing
407.28 to the Medicare program;

407.29 (2) meets all other applicable Medicare certification requirements based on an on-site
407.30 review completed by the commissioner of health; and

407.31 (3) serves primarily a pediatric population.

407.32 (j) As a condition of enrollment in medical assistance, the commissioner shall require
407.33 that a provider designated "moderate" or "high-risk" by the Centers for Medicare and

408.1 Medicaid Services or the commissioner permit the Centers for Medicare and Medicaid
408.2 Services, its agents, or its designated contractors and the state agency, its agents, or its
408.3 designated contractors to conduct unannounced on-site inspections of any provider location.
408.4 The commissioner shall publish in the Minnesota Health Care Program Provider Manual a
408.5 list of provider types designated "limited," "moderate," or "high-risk," based on the criteria
408.6 and standards used to designate Medicare providers in Code of Federal Regulations, title
408.7 42, section 424.518. The list and criteria are not subject to the requirements of chapter 14.
408.8 The commissioner's designations are not subject to administrative appeal.

408.9 (k) As a condition of enrollment in medical assistance, the commissioner shall require
408.10 that a high-risk provider, or a person with a direct or indirect ownership interest in the
408.11 provider of five percent or higher, consent to criminal background checks, including
408.12 fingerprinting, when required to do so under state law or by a determination by the
408.13 commissioner or the Centers for Medicare and Medicaid Services that a provider is designated
408.14 high-risk for fraud, waste, or abuse.

408.15 (l)(1) Upon initial enrollment, reenrollment, and notification of revalidation, all durable
408.16 medical equipment, prosthetics, orthotics, and supplies (DMEPOS) medical suppliers
408.17 meeting the durable medical equipment provider and supplier definition in clause (3),
408.18 operating in Minnesota and receiving Medicaid funds must purchase a surety bond that is
408.19 annually renewed and designates the Minnesota Department of Human Services as the
408.20 obligee, and must be submitted in a form approved by the commissioner. For purposes of
408.21 this clause, the following medical suppliers are not required to obtain a surety bond: a
408.22 federally qualified health center, a home health agency, the Indian Health Service, a
408.23 pharmacy, and a rural health clinic.

408.24 (2) At the time of initial enrollment or reenrollment, durable medical equipment providers
408.25 and suppliers defined in clause (3) must purchase a surety bond of \$50,000. If a revalidating
408.26 provider's Medicaid revenue in the previous calendar year is up to and including \$300,000,
408.27 the provider agency must purchase a surety bond of \$50,000. If a revalidating provider's
408.28 Medicaid revenue in the previous calendar year is over \$300,000, the provider agency must
408.29 purchase a surety bond of \$100,000. The surety bond must allow for recovery of costs and
408.30 fees in pursuing a claim on the bond. Any action to obtain monetary recovery or sanctions
408.31 from a surety bond must occur within six years from the date the debt is affirmed by a final
408.32 agency decision. An agency decision is final when the right to appeal the debt has been
408.33 exhausted or the time to appeal has expired under section 256B.064.

408.34 (3) "Durable medical equipment provider or supplier" means a medical supplier that can
408.35 purchase medical equipment or supplies for sale or rental to the general public and is able

409.1 to perform or arrange for necessary repairs to and maintenance of equipment offered for
409.2 sale or rental.

409.3 (m) The Department of Human Services may require a provider to purchase a surety
409.4 bond as a condition of initial enrollment, reenrollment, reinstatement, or continued enrollment
409.5 if: (1) the provider fails to demonstrate financial viability, (2) the department determines
409.6 there is significant evidence of or potential for fraud and abuse by the provider, or (3) the
409.7 provider or category of providers is designated high-risk pursuant to paragraph (f) and as
409.8 per Code of Federal Regulations, title 42, section 455.450. The surety bond must be in an
409.9 amount of \$100,000 or ten percent of the provider's payments from Medicaid during the
409.10 immediately preceding 12 months, whichever is greater. The surety bond must name the
409.11 Department of Human Services as an obligee and must allow for recovery of costs and fees
409.12 in pursuing a claim on the bond. This paragraph does not apply if the provider currently
409.13 maintains a surety bond under the requirements in section 256B.0659 or 256B.85.

409.14 **EFFECTIVE DATE.** This section is effective July 1, 2025.

409.15 Sec. 10. Minnesota Statutes 2024, section 256B.0659, subdivision 21, is amended to read:

409.28 commissioner, must be renewed annually, and must allow for recovery of costs and fees in

410.13 course of daily business including, but not limited to:
- 410.14 (i) a copy of the personal care assistance provider agency's time sheet if the time sheet

410.16 commissioner, and a letter requesting approval of the personal care assistance provider
410.17 agency's nonstandard time sheet;
- 410.18 (ii) the personal care assistance provider agency's template for the personal care assistance

410.32 generated from the medical assistance rate paid for personal care assistance services for

411.1 employee personal care assistant wages and benefits: 72.5 percent of revenue in the personal
411.2 care assistance choice option and 72.5 percent of revenue from other personal care assistance
411.3 providers. The revenue generated by the qualified professional and the reasonable costs
411.4 associated with the qualified professional shall not be used in making this calculation; and

411.5 (13) effective May 15, 2010, documentation that the agency does not burden recipients'
411.6 free exercise of their right to choose service providers by requiring personal care assistants
411.7 to sign an agreement not to work with any particular personal care assistance recipient or
411.8 for another personal care assistance provider agency after leaving the agency and that the
411.9 agency is not taking action on any such agreements or requirements regardless of the date
411.10 signed.

411.11 (b) Personal care assistance provider agencies shall provide the information specified
411.12 in paragraph (a) to the commissioner at the time the personal care assistance provider agency
411.13 enrolls as a vendor or upon request from the commissioner. The commissioner shall collect
411.14 the information specified in paragraph (a) from all personal care assistance providers
411.15 beginning July 1, 2009.

411.16 (c) All personal care assistance provider agencies shall require all employees in
411.17 management and supervisory positions and owners of the agency who are active in the
411.18 day-to-day management and operations of the agency to complete mandatory training as
411.19 determined by the commissioner before submitting an application for enrollment of the
411.20 agency as a provider. All personal care assistance provider agencies shall also require
411.21 qualified professionals to complete the training required by subdivision 13 before submitting
411.22 an application for enrollment of the agency as a provider. Employees in management and
411.23 supervisory positions and owners who are active in the day-to-day operations of an agency
411.24 who have completed the required training as an employee with a personal care assistance
411.25 provider agency do not need to repeat the required training if they are hired by another
411.26 agency, if they have completed the training within the past three years. By September 1,
411.27 2010, the required training must be available with meaningful access according to title VI
411.28 of the Civil Rights Act and federal regulations adopted under that law or any guidance from
411.29 the United States Health and Human Services Department. The required training must be
411.30 available online or by electronic remote connection. The required training must provide for
411.31 competency testing. Personal care assistance provider agency billing staff shall complete
411.32 training about personal care assistance program financial management. This training is
411.33 effective July 1, 2009. Any personal care assistance provider agency enrolled before that
411.34 date shall, if it has not already, complete the provider training within 18 months of July 1,
411.35 2009. Any new owners or employees in management and supervisory positions involved

412.1 in the day-to-day operations are required to complete mandatory training as a requisite of
412.2 working for the agency. Personal care assistance provider agencies certified for participation
412.3 in Medicare as home health agencies are exempt from the training required in this
412.4 subdivision. When available, Medicare-certified home health agency owners, supervisors,
412.5 or managers must successfully complete the competency test.

412.6 (d) All surety bonds, fidelity bonds, workers' compensation insurance, and liability
412.7 insurance required by this subdivision must be maintained continuously. After initial
412.8 enrollment, a provider must submit proof of bonds and required coverages at any time at
412.9 the request of the commissioner. Services provided while there are lapses in coverage are
412.10 not eligible for payment. Lapses in coverage may result in sanctions, including termination.
412.11 The commissioner shall send instructions and a due date to submit the requested information
412.12 to the personal care assistance provider agency.

412.13 **EFFECTIVE DATE.** This section is effective July 1, 2025.

412.14 Sec. 11. Minnesota Statutes 2024, section 256B.85, subdivision 12, is amended to read:

412.15 Subd. 12. **Requirements for enrollment of CFSS agency-providers.** (a) All CFSS
412.16 agency-providers must provide, at the time of enrollment, reenrollment, and revalidation
412.17 as a CFSS agency-provider in a format determined by the commissioner, information and
412.18 documentation that includes but is not limited to the following:

412.19 (1) the CFSS agency-provider's current contact information including address, telephone
412.20 number, and email address;

412.21 (2) proof of surety bond coverage. Upon new enrollment, or if the agency-provider's
412.22 Medicaid revenue in the previous calendar year is less than or equal to \$300,000, the
412.23 agency-provider must purchase a surety bond of \$50,000. If the agency-provider's Medicaid
412.24 revenue in the previous calendar year is greater than \$300,000, the agency-provider must
412.25 purchase a surety bond of \$100,000. The surety bond must be in a form approved by the
412.26 commissioner, must be renewed annually, and must allow for recovery of costs and fees in
412.27 pursuing a claim on the bond. Any action to obtain monetary recovery or sanctions from a
412.28 surety bond must occur within six years from the date the debt is affirmed by a final agency
412.29 decision. An agency decision is final when the right to appeal the debt has been exhausted
412.30 or the time to appeal has expired under section 256B.064;

412.31 (3) proof of fidelity bond coverage in the amount of \$20,000 per provider location;

412.32 (4) proof of workers' compensation insurance coverage;

412.33 (5) proof of liability insurance;

413.1 (6) a copy of the CFSS agency-provider's organizational chart identifying the names
413.2 and roles of all owners, managing employees, staff, board of directors, and additional
413.3 documentation reporting any affiliations of the directors and owners to other service
413.4 providers;

413.5 (7) proof that the CFSS agency-provider has written policies and procedures including:
413.6 hiring of employees; training requirements; service delivery; and employee and consumer
413.7 safety, including the process for notification and resolution of participant grievances, incident
413.8 response, identification and prevention of communicable diseases, and employee misconduct;

413.9 (8) proof that the CFSS agency-provider has all of the following forms and documents:

413.10 (i) a copy of the CFSS agency-provider's time sheet; and

413.11 (ii) a copy of the participant's individual CFSS service delivery plan;

413.12 (9) a list of all training and classes that the CFSS agency-provider requires of its staff
413.13 providing CFSS services;

413.14 (10) documentation that the CFSS agency-provider and staff have successfully completed
413.15 all the training required by this section;

413.16 (11) documentation of the agency-provider's marketing practices;

413.17 (12) disclosure of ownership, leasing, or management of all residential properties that
413.18 are used or could be used for providing home care services;

413.19 (13) documentation that the agency-provider will use at least the following percentages
413.20 of revenue generated from the medical assistance rate paid for CFSS services for CFSS
413.21 support worker wages and benefits: 72.5 percent of revenue from CFSS providers, except
413.22 100 percent of the revenue generated by a medical assistance rate increase due to a collective
413.23 bargaining agreement under section 179A.54 must be used for support worker wages and
413.24 benefits. The revenue generated by the worker training and development services and the
413.25 reasonable costs associated with the worker training and development services shall not be
413.26 used in making this calculation; and

413.27 (14) documentation that the agency-provider does not burden participants' free exercise
413.28 of their right to choose service providers by requiring CFSS support workers to sign an
413.29 agreement not to work with any particular CFSS participant or for another CFSS
413.30 agency-provider after leaving the agency and that the agency is not taking action on any
413.31 such agreements or requirements regardless of the date signed.

414.1 (b) CFSS agency-providers shall provide to the commissioner the information specified
414.2 in paragraph (a).

414.3 (c) All CFSS agency-providers shall require all employees in management and
414.4 supervisory positions and owners of the agency who are active in the day-to-day management
414.5 and operations of the agency to complete mandatory training as determined by the
414.6 commissioner. Employees in management and supervisory positions and owners who are
414.7 active in the day-to-day operations of an agency who have completed the required training
414.8 as an employee with a CFSS agency-provider do not need to repeat the required training if
414.9 they are hired by another agency and they have completed the training within the past three
414.10 years. CFSS agency-provider billing staff shall complete training about CFSS program
414.11 financial management. Any new owners or employees in management and supervisory
414.12 positions involved in the day-to-day operations are required to complete mandatory training
414.13 as a requisite of working for the agency.

414.14 (d) Agency-providers shall submit all required documentation in this section within 30
414.15 days of notification from the commissioner. If an agency-provider fails to submit all the
414.16 required documentation, the commissioner may take action under subdivision 23a.

414.17 **EFFECTIVE DATE.** This section is effective July 1, 2025.

414.18 **ARTICLE 15**
414.19 **DEPARTMENT OF HUMAN SERVICES OFFICE OF THE INSPECTOR GENERAL**
414.20 **POLICY**

414.21 Section 1. Minnesota Statutes 2024, section 142E.51, subdivision 5, is amended to read:

414.22 Subd. 5. **Administrative disqualification of child care providers caring for children**
414.23 **receiving child care assistance.** (a) The department shall pursue an administrative
414.24 disqualification, if the child care provider is accused of committing an intentional program
414.25 violation, in lieu of a criminal action when it has not been pursued. Intentional program
414.26 violations include intentionally making false or misleading statements; receiving or providing
414.27 a kickback, as defined in subdivision 6, paragraph (b); intentionally misrepresenting,
414.28 concealing, or withholding facts; and repeatedly and intentionally violating program
414.29 regulations under this chapter. Intent may be proven by demonstrating a pattern of conduct
414.30 that violates program rules under this chapter.

414.31 (b) To initiate an administrative disqualification, the commissioner must send written
414.32 notice using a signature-verified confirmed delivery method to the provider against whom
414.33 the action is being taken. Unless otherwise specified under this chapter or Minnesota Rules,
414.34 chapter 3400, the commissioner must send the written notice at least 15 calendar days before

415.1 the adverse action's effective date. The notice shall state (1) the factual basis for the agency's
415.2 determination, (2) the action the agency intends to take, (3) the dollar amount of the monetary
415.3 recovery or recoupment, if known, and (4) the provider's right to appeal the agency's proposed
415.4 action.

415.5 (c) The provider may appeal an administrative disqualification by submitting a written
415.6 request to the state agency. A provider's request must be received by the state agency no
415.7 later than 30 days after the date the commissioner mails the notice.

415.8 (d) The provider's appeal request must contain the following:

415.9 (1) each disputed item, the reason for the dispute, and, if applicable, an estimate of the
415.10 dollar amount involved for each disputed item;

415.11 (2) the computation the provider believes to be correct, if applicable;

415.12 (3) the statute or rule relied on for each disputed item; and

415.13 (4) the name, address, and telephone number of the person at the provider's place of
415.14 business with whom contact may be made regarding the appeal.

415.15 (e) On appeal, the issuing agency bears the burden of proof to demonstrate by a
415.16 preponderance of the evidence that the provider committed an intentional program violation.

415.17 (f) The hearing is subject to the requirements of section 142A.20. The human services
415.18 judge may combine a fair hearing and administrative disqualification hearing into a single
415.19 hearing if the factual issues arise out of the same or related circumstances and the provider
415.20 receives prior notice that the hearings will be combined.

415.21 (g) A provider found to have committed an intentional program violation and is
415.22 administratively disqualified must be disqualified, for a period of three years for the first
415.23 offense and permanently for any subsequent offense, from receiving any payments from
415.24 any child care program under this chapter.

415.25 (h) Unless a timely and proper appeal made under this section is received by the
415.26 department, the administrative determination of the department is final and binding.

415.27 Sec. 2. Minnesota Statutes 2024, section 142E.51, subdivision 6, is amended to read:

415.28 Subd. 6. **Prohibited hiring ~~practice~~ practices.** (a) It is prohibited to hire a child care
415.29 center employee when, as a condition of employment, the employee is required to have one
415.30 or more children who are eligible for or receive child care assistance, if:

(1) the individual hiring the employee is, or is acting at the direction of or in cooperation with, a child care center provider, center owner, director, manager, license holder, or other controlling individual; and

(2) the individual hiring the employee knows or has reason to know the purpose in hiring the employee is to obtain child care assistance program funds.

(b) Program applicants, participants, and providers are prohibited from receiving or providing a kickback or payment in exchange for obtaining or attempting to obtain child care assistance benefits for their own financial gain. This paragraph does not apply to:

(1) marketing or promotional offerings that directly benefit an applicant or recipient's child or dependent for whom the child care provider is providing child care services; or

(2) child care provider discounts, scholarships, or other financial assistance allowed under section 142E.17, subdivision 7.

(c) An attempt to buy or sell access to a family's child care subsidy benefits to an unauthorized person by an applicant, a participant, or a provider is a kickback, an intentional program violation under subdivision 5, and wrongfully obtaining assistance under section 256.98.

Sec. 3. Minnesota Statutes 2024, section 245A.04, subdivision 1, is amended to read:

Subdivision 1. **Application for licensure.** (a) An individual, organization, or government entity that is subject to licensure under section 245A.03 must apply for a license. The application must be made on the forms and in the manner prescribed by the commissioner. The commissioner shall provide the applicant with instruction in completing the application and provide information about the rules and requirements of other state agencies that affect the applicant. An applicant seeking licensure in Minnesota with headquarters outside of Minnesota must have a program office located within 30 miles of the Minnesota border. An applicant who intends to buy or otherwise acquire a program or services licensed under this chapter that is owned by another license holder must apply for a license under this chapter and comply with the application procedures in this section and section 245A.043.

The commissioner shall act on the application within 90 working days after a complete application and any required reports have been received from other state agencies or departments, counties, municipalities, or other political subdivisions. The commissioner shall not consider an application to be complete until the commissioner receives all of the required information.

When the commissioner receives an application for initial licensure that is incomplete because the applicant failed to submit required documents or that is substantially deficient because the documents submitted do not meet licensing requirements, the commissioner shall provide the applicant written notice that the application is incomplete or substantially deficient. In the written notice to the applicant the commissioner shall identify documents that are missing or deficient and give the applicant 45 days to resubmit a second application that is substantially complete. An applicant's failure to submit a substantially complete application after receiving notice from the commissioner is a basis for license denial under section 245A.043.

(b) An application for licensure must identify all controlling individuals as defined in section 245A.02, subdivision 5a, and must designate one individual to be the authorized agent. The application must be signed by the authorized agent and must include the authorized agent's first, middle, and last name; mailing address; and email address. By submitting an application for licensure, the authorized agent consents to electronic communication with the commissioner throughout the application process. The authorized agent must be authorized to accept service on behalf of all of the controlling individuals. A government entity that holds multiple licenses under this chapter may designate one authorized agent for all licenses issued under this chapter or may designate a different authorized agent for each license. Service on the authorized agent is service on all of the controlling individuals. It is not a defense to any action arising under this chapter that service was not made on each controlling individual. The designation of a controlling individual as the authorized agent under this paragraph does not affect the legal responsibility of any other controlling individual under this chapter.

(c) An applicant or license holder must have a policy that prohibits license holders, employees, subcontractors, and volunteers, when directly responsible for persons served by the program, from abusing prescription medication or being in any manner under the influence of a chemical that impairs the individual's ability to provide services or care. The license holder must train employees, subcontractors, and volunteers about the program's drug and alcohol policy before the employee, subcontractor, or volunteer has direct contact, as defined in section 245C.02, subdivision 11, with a person served by the program.

(d) An applicant and license holder must have a program grievance procedure that permits persons served by the program and their authorized representatives to bring a grievance to the highest level of authority in the program.

(e) The commissioner may limit communication during the application process to the authorized agent or the controlling individuals identified on the license application and for

418.1 whom a background study was initiated under chapter 245C. Upon implementation of the
418.2 provider licensing and reporting hub, applicants and license holders must use the hub in the
418.3 manner prescribed by the commissioner. The commissioner may require the applicant,
418.4 except for child foster care, to demonstrate competence in the applicable licensing
418.5 requirements by successfully completing a written examination. The commissioner may
418.6 develop a prescribed written examination format.

418.7 (f) When an applicant is an individual, the applicant must provide:

418.8 (1) the applicant's taxpayer identification numbers including the Social Security number
418.9 or Minnesota tax identification number, and federal employer identification number if the
418.10 applicant has employees;

418.11 (2) at the request of the commissioner, a copy of the most recent filing with the secretary
418.12 of state that includes the complete business name, if any;

418.13 (3) if doing business under a different name, the doing business as (DBA) name, as
418.14 registered with the secretary of state;

418.15 (4) if applicable, the applicant's National Provider Identifier (NPI) number and Unique
418.16 Minnesota Provider Identifier (UMPI) number; and

418.17 (5) at the request of the commissioner, the notarized signature of the applicant or

420.17 services from the program; and

420.18 (3) the applicant complies with applicable laws and rules in all other respects.

420.19 (c) A decision by the commissioner to issue a license does not guarantee that any person

420.21 (d) Except as provided in paragraphs (i) and (j), the commissioner shall not issue a
420.22 license if the applicant, license holder, or an affiliated controlling individual has:

421.1 When a license issued under this chapter or chapter 142B is revoked, the license holder
421.2 and each affiliated controlling individual with a revoked license may not hold any license
421.3 under chapter 245A for five years following the revocation, and other licenses held by the
421.4 applicant or license holder or licenses affiliated with each controlling individual shall also
421.5 be revoked.

421.6 (e) Notwithstanding paragraph (d), the commissioner may elect not to revoke a license
421.7 affiliated with a license holder or controlling individual that had a license revoked within
421.8 the past five years if the commissioner determines that (1) the license holder or controlling
421.9 individual is operating the program in substantial compliance with applicable laws and rules
421.10 and (2) the program's continued operation is in the best interests of the community being

421.28 under this chapter has been suspended or revoked and the suspension or revocation is under
421.29 appeal, the program may continue to operate pending a final order from the commissioner.
421.30 If the license under suspension or revocation will expire before a final order is issued, a
421.31 temporary provisional license may be issued provided any applicable license fee is paid
421.32 before the temporary provisional license is issued.

421.33 (j) Notwithstanding paragraph (i), when a revocation is based on the disqualification of
421.34 a controlling individual or license holder, and the controlling individual or license holder

422.1 is ordered under section 245C.17 to be immediately removed from direct contact with
422.2 persons receiving services or is ordered to be under continuous, direct supervision when
422.3 providing direct contact services, the program may continue to operate only if the program
422.4 complies with the order and submits documentation demonstrating compliance with the
422.5 order. If the disqualified individual fails to submit a timely request for reconsideration, or
422.6 if the disqualification is not set aside and no variance is granted, the order to immediately
422.7 remove the individual from direct contact or to be under continuous, direct supervision
422.8 remains in effect pending the outcome of a hearing and final order from the commissioner.

422.9 (k) Unless otherwise specified by statute, all licenses issued under this chapter expire
422.10 at 12:01 a.m. on the day after the expiration date stated on the license. A license holder must

(b) If the commissioner has previously set aside an individual's disqualification for one or more programs or agencies, and the individual is the subject of a subsequent background study for a different program or agency, the commissioner shall determine whether the disqualification is set aside for the program or agency that initiated the subsequent background study. A notice of a set-aside under paragraph (c) shall be issued within 15 working days if all of the following criteria are met:

427.10 program or agency in the substance use disorder treatment field, the commissioner shall set
427.11 aside the disqualification for the program or agency in the substance use disorder treatment
427.12 field that initiated the subsequent background study when the criteria under paragraph (b),
427.13 clauses (1), (3), and (4), are met and the individual is not disqualified for an offense specified
427.14 in section 245C.15, subdivision 1. A notice of a set-aside under paragraph (d) shall be issued
427.15 within 15 working days.

427.16 (d) When a disqualification is set aside under paragraph (b), the notice of background
427.17 study results issued under section 245C.17, in addition to the requirements under section
427.18 245C.17, shall state that the disqualification is set aside for the program or agency that
427.19 initiated the subsequent background study. The notice must inform the individual that the
427.20 individual may request reconsideration of the disqualification under section 245C.21 on the

436.16 Section 1. Minnesota Statutes 2024, section 142A.03, subdivision 2, is amended to read:

436.17 Subd. 2. **Duties of the commissioner.** (a) The commissioner may apply for and accept

436.18 on behalf of the state any grants, bequests, gifts, or contributions for the purpose of carrying

436.19 out the duties and responsibilities of the commissioner. Any money received under this

436.20 paragraph is appropriated and dedicated for the purpose for which the money is granted.

436.21 The commissioner must biennially report to the chairs and ranking minority members of

436.22 relevant legislative committees and divisions by January 15 of each even-numbered year a

436.23 list of all grants and gifts received under this subdivision.

436.24 (b) Pursuant to law, the commissioner may apply for and receive money made available

436.25 from federal sources for the purpose of carrying out the duties and responsibilities of the

436.26 commissioner.

436.27 (c) The commissioner may make contracts with and grants to Tribal Nations, public and

436.28 private agencies, for-profit and nonprofit organizations, and individuals using appropriated

436.29 money.

(d) The commissioner must develop program objectives and performance measures for evaluating progress toward achieving the objectives. The commissioner must identify the objectives, performance measures, and current status of achieving the measures in a biennial report to the chairs and ranking minority members of relevant legislative committees and divisions. The report is due no later than January 15 each even-numbered year. The report must include, when possible, the following objectives:

(1) centering and including the lived experiences of children and youth, including those with disabilities and mental illness and their families, in all aspects of the department's work;

(2) increasing the effectiveness of the department's programs in addressing the needs of children and youth facing racial, economic, or geographic inequities;

(3) increasing coordination and reducing inefficiencies among the department's programs and the funding sources that support the programs;

(4) increasing the alignment and coordination of family access to child care and early learning programs and improving systems of support for early childhood and learning providers and services;

(5) improving the connection between the department's programs and the kindergarten through grade 12 and higher education systems; and

(6) minimizing and streamlining the effort required of youth and families to receive services to which the youth and families are entitled.

(e) The commissioner shall administer and supervise the forms of public assistance and other activities or services that are vested in the commissioner. Administration and supervision of activities or services includes but is not limited to assuring timely and accurate distribution of benefits, completeness of service, and quality program management. In addition to administering and supervising activities vested by law in the department, the commissioner has the authority to:

(1) require county agency participation in training and technical assistance programs to promote compliance with statutes, rules, federal laws, regulations, and policies governing the programs and activities administered by the commissioner;

(2) monitor, on an ongoing basis, the performance of county agencies in the operation and administration of activities and programs; enforce compliance with statutes, rules, federal laws, regulations, and policies governing welfare services; and promote excellence of administration and program operation;

438.1 (3) develop a quality control program or other monitoring program to review county
438.2 performance and accuracy of benefit determinations;

438.3 (4) require county agencies to make an adjustment to the public assistance benefits issued
438.4 to any individual consistent with federal law and regulation and state law and rule and to
438.5 issue or recover benefits as appropriate;

438.6 (5) delay or deny payment of all or part of the state and federal share of benefits and
438.7 administrative reimbursement according to the procedures set forth in section 142A.10;

438.8 (6) make contracts with and grants to public and private agencies and organizations,
438.9 both for-profit and nonprofit, and individuals, using appropriated funds; and

438.10 (7) enter into contractual agreements with federally recognized Indian Tribes with a
438.11 reservation in Minnesota to the extent necessary for the Tribe to operate a federally approved
438.12 family assistance program or any other program under the supervision of the commissioner.
438.13 The commissioner shall consult with the affected county or counties in the contractual
438.14 agreement negotiations, if the county or counties wish to be included, in order to avoid the
438.15 duplication of county and Tribal assistance program services. The commissioner may
438.16 establish necessary accounts for the purposes of receiving and disbursing funds as necessary
438.17 for the operation of the programs.

438.18 The commissioner shall work in conjunction with the commissioner of human services to
438.19 carry out the duties of this paragraph when necessary and feasible.

438.20 (f) The commissioner shall inform county agencies, on a timely basis, of changes in
438.21 statute, rule, federal law, regulation, and policy necessary to county agency administration
438.22 of the programs and activities administered by the commissioner.

438.23 (g) The commissioner shall administer and supervise child welfare activities, including
438.24 promoting the enforcement of laws preventing child maltreatment and protecting children
438.25 with a disability and children who are in need of protection or services, licensing and
438.26 supervising child care and child-placing agencies, and supervising the care of children in
438.27 foster care. The commissioner shall coordinate with the commissioner of human services
438.28 on activities impacting children overseen by the Department of Human Services, such as
438.29 disability services, behavioral health, and substance use disorder treatment.

438.30 (h) The commissioner shall assist and cooperate with local, state, and federal departments,
438.31 agencies, and institutions.

(i) The commissioner shall establish and maintain any administrative units reasonably necessary for the performance of administrative functions common to all divisions of the department.

(j) The commissioner shall act as designated guardian of children pursuant to chapter 260C. For children under the guardianship of the commissioner or a Tribe in Minnesota recognized by the Secretary of the Interior whose interests would be best served by adoptive placement, the commissioner may contract with a licensed child-placing agency or a Minnesota Tribal social services agency to provide adoption services. For children in out-of-home care whose interests would be best served by a transfer of permanent legal and physical custody to a relative under section 260C.515, subdivision 4, or equivalent in Tribal code, the commissioner may contract with a licensed child-placing agency or a Minnesota Tribal social services agency to provide permanency services. A contract with a licensed child-placing agency must be designed to supplement existing county efforts and may not replace existing county programs or Tribal social services, unless the replacement is agreed to by the county board and the appropriate exclusive bargaining representative, Tribal governing body, or the commissioner has evidence that child placements of the county continue to be substantially below that of other counties. Funds encumbered and obligated under an agreement for a specific child shall remain available until the terms of the agreement are fulfilled or the agreement is terminated.

(k) The commissioner has the authority to conduct and administer experimental projects to test methods and procedures of administering assistance and services to recipients or potential recipients of public benefits. To carry out the experimental projects, the commissioner may waive the enforcement of existing specific statutory program requirements, rules, and standards in one or more counties. The order establishing the waiver must provide alternative methods and procedures of administration and must not conflict with the basic purposes, coverage, or benefits provided by law. No project under this paragraph shall exceed four years. No order establishing an experimental project as authorized by this paragraph is effective until the following conditions have been met:

(1) the United States Secretary of Health and Human Services has agreed, for the same project, to waive state plan requirements relative to statewide uniformity; and

(2) a comprehensive plan, including estimated project costs, has been approved by the Legislative Advisory Commission and filed with the commissioner of administration.

(l) The commissioner shall, according to federal requirements and in coordination with the commissioner of human services, establish procedures to be followed by local welfare

440.1 boards in creating citizen advisory committees, including procedures for selection of
440.2 committee members.

440.3 (m) The commissioner shall allocate federal fiscal disallowances or sanctions that are
440.4 based on quality control error rates for the aid to families with dependent children (AFDC)
440.5 program formerly codified in sections 256.72 to 256.87 or the Supplemental Nutrition
440.6 Assistance Program (SNAP) in the following manner:

440.7 (1) one-half of the total amount of the disallowance shall be borne by the county boards
440.8 responsible for administering the programs. For AFDC, disallowances shall be shared by
440.9 each county board in the same proportion as that county's expenditures to the total of all
440.10 counties' expenditures for AFDC. For SNAP, sanctions shall be shared by each county
440.11 board, with 50 percent of the sanction being distributed to each county in the same proportion
440.12 as that county's administrative costs for SNAP benefits are to the total of all SNAP
440.13 administrative costs for all counties, and 50 percent of the sanctions being distributed to
440.14 each county in the same proportion as that county's value of SNAP benefits issued are to
440.15 the total of all benefits issued for all counties. Each county shall pay its share of the
440.16 disallowance to the state of Minnesota. When a county fails to pay the amount due under
440.17 this paragraph, the commissioner may deduct the amount from reimbursement otherwise
440.18 due the county, or the attorney general, upon the request of the commissioner, may institute
440.19 civil action to recover the amount due; and

440.20 (2) notwithstanding the provisions of clause (1), if the disallowance results from knowing
440.21 noncompliance by one or more counties with a specific program instruction, and that knowing
440.22 noncompliance is a matter of official county board record, the commissioner may require
440.23 payment or recover from the county or counties, in the manner prescribed in clause (1), an
440.24 amount equal to the portion of the total disallowance that resulted from the noncompliance
440.25 and may distribute the balance of the disallowance according to clause (1).

440.26 (n) The commissioner shall develop and implement special projects that maximize
440.27 reimbursements and result in the recovery of money to the state. For the purpose of recovering
440.28 state money, the commissioner may enter into contracts with third parties. Any recoveries
440.29 that result from projects or contracts entered into under this paragraph shall be deposited
440.30 in the state treasury and credited to a special account until the balance in the account reaches
440.31 \$1,000,000. When the balance in the account exceeds \$1,000,000, the excess shall be
440.32 transferred and credited to the general fund. All money in the account is appropriated to the
440.33 commissioner for the purposes of this paragraph.

441.1 (o) The commissioner has the authority to establish and enforce the following county
441.2 reporting requirements:

441.3 (1) the commissioner shall establish fiscal and statistical reporting requirements necessary
441.4 to account for the expenditure of funds allocated to counties for programs administered by
441.5 the commissioner. When establishing financial and statistical reporting requirements, the
441.6 commissioner shall evaluate all reports, in consultation with the counties, to determine if
441.7 the reports can be simplified or the number of reports can be reduced;

441.8 (2) the county board shall submit monthly or quarterly reports to the department as
441.9 required by the commissioner. Monthly reports are due no later than 15 working days after
441.10 the end of the month. Quarterly reports are due no later than 30 calendar days after the end
441.11 of the quarter, unless the commissioner determines that the deadline must be shortened to
441.12 20 calendar days to avoid jeopardizing compliance with federal deadlines or risking a loss
441.13 of federal funding. Only reports that are complete, legible, and in the required format shall
441.14 be accepted by the commissioner;

441.15 (3) if the required reports are not received by the deadlines established in clause (2), the
441.16 commissioner may delay payments and withhold funds from the county board until the next
441.17 reporting period. When the report is needed to account for the use of federal funds and the
441.18 late report results in a reduction in federal funding, the commissioner shall withhold from
441.19 the county boards with late reports an amount equal to the reduction in federal funding until
441.20 full federal funding is received;

441.21 (4) a county board that submits reports that are late, illegible, incomplete, or not in the

441.23 noncompliant. When a county board is found to be noncompliant, the commissioner shall
441.24 notify the county board of the reason the county board is considered noncompliant and
441.25 request that the county board develop a corrective action plan stating how the county board
441.26 plans to correct the problem. The corrective action plan must be submitted to the
441.27 commissioner within 45 days after the date the county board received notice of
441.28 noncompliance;

441.29 (5) the final deadline for fiscal reports or amendments to fiscal reports is one year after
441.30 the date the report was originally due. If the commissioner does not receive a report by the
441.31 final deadline, the county board forfeits the funding associated with the report for that
441.32 reporting period and the county board must repay any funds associated with the report
441.33 received for that reporting period;

442.1 (6) the commissioner may not delay payments, withhold funds, or require repayment
442.2 under clause (3) or (5) if the county demonstrates that the commissioner failed to provide
442.3 appropriate forms, guidelines, and technical assistance to enable the county to comply with
442.4 the requirements. If the county board disagrees with an action taken by the commissioner
442.5 under clause (3) or (5), the county board may appeal the action according to sections 14.57
442.6 to 14.69; and

442.7 (7) counties subject to withholding of funds under clause (3) or forfeiture or repayment
442.8 of funds under clause (5) shall not reduce or withhold benefits or services to clients to cover
442.9 costs incurred due to actions taken by the commissioner under clause (3) or (5).

442.10 (p) The commissioner shall allocate federal fiscal disallowances or sanctions for audit
442.11 exceptions when federal fiscal disallowances or sanctions are based on a statewide random
442.12 sample in direct proportion to each county's claim for that period.

442.13 (q) The commissioner is responsible for ensuring the detection, prevention, investigation,
442.14 and resolution of fraudulent activities or behavior by applicants, recipients, and other
442.15 participants in the programs administered by the department. The commissioner shall
442.16 cooperate with the commissioner of education to enforce the requirements for program
442.17 integrity and fraud prevention for investigation for child care assistance under chapter 142E.

442.18 (r) The commissioner shall require county agencies to identify overpayments, establish
442.19 claims, and utilize all available and cost-beneficial methodologies to collect and recover
442.20 these overpayments in the programs administered by the department.

442.21 (s) The commissioner shall develop recommended standards for child foster care homes
442.22 that address the components of specialized therapeutic services to be provided by child
442.23 foster care homes with those services.

442.24 (t) The commissioner shall authorize the method of payment to or from the department
442.25 as part of the programs administered by the department. This authorization includes the
442.26 receipt or disbursement of funds held by the department in a fiduciary capacity as part of
442.27 the programs administered by the department.

442.28 (u) In coordination with the commissioner of human services, the commissioner shall
442.29 create and provide county and Tribal agencies with blank applications, affidavits, and other
442.30 forms as necessary for public assistance programs.

442.31 (v) The commissioner shall cooperate with the federal government and its public welfare

442.33 temporary assistance for needy families and in conformity with Title I of Public Law 104-193,

443.1 the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 and successor
443.2 amendments, including making reports that contain information required by the federal
443.3 Social Security Advisory Board and complying with any provisions the board may find
443.4 necessary to assure the correctness and verification of the reports.

443.5 (w) On or before January 15 in each even-numbered year, the commissioner shall make
443.6 a biennial report to the governor concerning the activities of the agency.

443.7 (x) The commissioner shall enter into agreements with other departments of the state as
443.8 necessary to meet all requirements of the federal government.

443.9 (y) The commissioner may cooperate with other state agencies in establishing reciprocal
443.10 agreements in instances where a child receiving Minnesota family investment program
443.11 (MFIP) assistance or its out-of-state equivalent moves or contemplates moving into or out
443.12 of the state, in order that the child may continue to receive MFIP or equivalent aid from the
443.13 state moved from until the child has resided for one year in the state moved to.

443.14 (z) The commissioner shall provide appropriate technical assistance to county agencies
443.15 to develop methods to have county financial workers remind and encourage recipients of
443.16 aid to families with dependent children, the Minnesota family investment program, the
443.17 Minnesota family investment plan, family general assistance, or SNAP benefits whose
443.18 assistance unit includes at least one child under the age of five to have each young child
443.19 immunized against childhood diseases. The commissioner must examine the feasibility of
443.20 utilizing the capacity of a statewide computer system to assist county agency financial
443.21 workers in performing this function at appropriate intervals.

443.22 (aa) The commissioner shall have the power and authority to accept on behalf of the
443.23 state contributions and gifts for the use and benefit of children under the guardianship or
443.24 custody of the commissioner. The commissioner may also receive and accept on behalf of

The county agency, depending on funding available, must provide information to all potential relative foster care providers about this choice, including information about available private agencies for foster care licensure.

(c) If an individual who is related to a child is seeking licensure to provide foster care for the child and the individual has a domestic partner but is not married to the domestic partner, only the individual related to the child must be licensed to provide foster care. The commissioner must conduct background studies on household members according to section 245C.03, subdivision 1.

Sec. 3. Minnesota Statutes 2024, section 142B.47, is amended to read:

**142B.47 TRAINING ON RISK OF SUDDEN UNEXPECTED INFANT DEATH
AND ABUSIVE HEAD TRAUMA FOR CHILD FOSTER CARE PROVIDERS.**

Licensed child foster care providers who are related to the child and who only care for a relative child must document completion of the training required under this section within 30 days after licensure. This section does not apply to emergency relative placement under section 142B.06. The training on reducing the risk of sudden unexpected infant death and abusive head trauma may be provided as:

(b) This review is not required if the court has returned the child home, ordered the child permanently placed away from the parent under sections 260C.503 to 260C.521, or terminated rights under section 260C.301. (d) No later than three months after the child's placement in foster care, the court shall review agency efforts to search for and notify relatives pursuant to section 260C.221, and order that the agency's efforts begin immediately, or continue, if the agency has failed to perform, or has not adequately performed, the duties under that section. The court must order the agency to continue to appropriately engage relatives who responded to the notice under section 260C.221 in placement and case planning decisions and to consider relatives for foster care placement consistent with section 260C.221. Notwithstanding a court's finding that the agency has made reasonable efforts to search for and notify relatives under section 260C.221, the court may order the agency to continue making reasonable efforts to search for, notify, engage, and consider relatives who came to the agency's attention after sending the initial notice under section 260C.221.

(e) The court shall review the out-of-home placement plan and may modify the plan as provided under section 260C.201, subdivisions 6 and 7.

Sec. 17. Minnesota Statutes 2024, section 260C.204, is amended to read:

260C.204 PERMANENCY PROGRESS REVIEW FOR CHILDREN IN FOSTER CARE FOR SIX MONTHS.

(a) When a child continues in placement out of the home of the parent or guardian from whom the child was removed, no later than six months after the child's placement the court shall conduct a permanency progress hearing to review:

(1) the progress of the case, the parent's progress on the case plan or out-of-home placement plan, whichever is applicable;

(2) the agency's reasonable, or in the case of an Indian child, active efforts for reunification and its provision of services;

(3) the agency's reasonable efforts to finalize the permanent plan for the child under section 260.012, paragraph (e), and to make a placement as required under section 260C.212, subdivision 2, in a home that will commit to being the legally permanent family for the child in the event the child cannot return home according to the timelines in this section; and

(4) in the case of an Indian child, active efforts to prevent the breakup of the Indian family and to make a placement according to the placement preferences under United States Code, title 25, chapter 21, section 1915.

(b) When a child is placed in a qualified residential treatment program setting as defined in section 260C.007, subdivision 26d, the responsible social services agency must submit evidence to the court as specified in section 260C.712.

(c) The court shall ensure that notice of the hearing is sent to any relative who:

(1) responded to the agency's notice provided under section 260C.221, indicating an interest in participating in planning for the child or being a permanency resource for the child and who has kept the court apprised of the relative's address; or

(2) asked to be notified of court proceedings regarding the child as is permitted in section 260C.152, subdivision 5.

(d)(1) If the parent or guardian has maintained contact with the child and is complying with the court-ordered out-of-home placement plan, and if the child would benefit from reunification with the parent, the court may either:

(i) return the child home, if the conditions that led to the out-of-home placement have been sufficiently mitigated that it is safe and in the child's best interests to return home; or

(ii) continue the matter up to a total of six additional months. If the child has not returned home by the end of the additional six months, the court must conduct a hearing according to sections 260C.503 to 260C.521.

(2) If the court determines that the parent or guardian is not complying, is not making progress with or engaging with services in the out-of-home placement plan, or is not maintaining regular contact with the child as outlined in the visitation plan required as part of the out-of-home placement plan under section 260C.212, the court may order the responsible social services agency:

(i) to develop a plan for legally permanent placement of the child away from the parent;

(ii) to consider, identify, recruit, and support one or more permanency resources from the child's relatives and foster parent, consistent with clause (3) and section 260C.212, subdivision 2, paragraph (a), to be the legally permanent home in the event the child cannot be returned to the parent. Any relative or the child's foster parent may ask the court to order the agency to consider them for permanent placement of the child in the event the child cannot be returned to the parent. A relative or foster parent who wants to be considered under this item shall cooperate with the background study required under section 245C.08, if the individual has not already done so, and with the home study process required under chapter 142B for providing child foster care and for adoption under section 259.41. The home study referred to in this item shall be a single-home study in the form required by the commissioner of children, youth, and families or similar study required by the individual's state of residence when the subject of the study is not a resident of Minnesota. The court may order the responsible social services agency to make a referral under the Interstate Compact on the Placement of Children when necessary to obtain a home study for an

individual who wants to be considered for transfer of permanent legal and physical custody or adoption of the child; and

(iii) to file a petition to support an order for the legally permanent placement plan.

(3) Consistent with section 260C.223, subdivision 2, paragraph (b), the responsible social services agency must not define a foster family as the permanent home for a child until:

(i) inquiry and Tribal notice requirements under section 260.761, subdivisions 1 and 2, are satisfied;

(ii) inquiry about the child's heritage, including their race, culture, and ethnicity pursuant to section 260.63, subdivision 10, has been completed; and

(iii) the court has determined that reasonable or active efforts toward completing the relative search requirements in section 260C.221 have been made.

(e) Following the review under this section:

(1) if the court has either returned the child home or continued the matter up to a total of six additional months, the agency shall continue to provide services to support the child's return home or to make reasonable efforts to achieve reunification of the child and the parent as ordered by the court under an approved case plan;

(2) if the court orders the agency to develop a plan for the transfer of permanent legal and physical custody of the child to a relative, a petition supporting the plan shall be filed in juvenile court within 30 days of the hearing required under this section and a trial on the petition held within 60 days of the filing of the pleadings; or

(3) if the court orders the agency to file a termination of parental rights, unless the county attorney can show cause why a termination of parental rights petition should not be filed, a petition for termination of parental rights shall be filed in juvenile court within 30 days of the hearing required under this section and a trial on the petition held within 60 days of the filing of the petition.

467.10 the individual would not act in the best interest of the child. For a child in voluntary foster
467.11 care for treatment under chapter 260D, preparation of the out-of-home placement plan shall
467.12 additionally include the child's mental health treatment provider. For a child 18 years of

467.30 child is placed in foster care by court order or voluntary placement agreement between the
467.31 responsible social services agency and the child's parent pursuant to section 260C.227 or
467.32 chapter 260D. An out-of-home placement plan shall be prepared within 60 days after any

468.7 out-of-home placement plan is designed to achieve a safe placement for the child in the
468.8 least restrictive, most family-like setting available that is in close proximity to the home of
468.9 the child's parents or guardians when the case plan goal is reunification; and how the
468.10 placement is consistent with the best interests and special needs of the child according to
468.11 the factors under subdivision 2, paragraph (b);

468.12 (2) a description of the services offered and provided to prevent removal of the child
468.13 from the home;

468.27 residential facility during the period the child is in the residential facility;

468.28 (4) a description of any services or resources that were requested by the child or the

473.4 and file it with the court. Within 60 days of placing the child in foster care, the agency must
473.5 file the child's initial out-of-home placement plan with the court. After filing the child's
473.6 ~~initial~~ out-of-home placement plan, the agency shall update and file the child's out-of-home

473.12 (2) when the agency places a child in a qualified residential treatment program as defined
473.13 in section 260C.007, subdivision 26d, or moves a child from one qualified residential
473.14 treatment program to a different qualified residential treatment program, the agency must
473.15 update the child's out-of-home placement plan within 60 days. To meet the requirements
473.16 of section 260C.708, the agency must file the child's out-of-home placement plan along
473.17 with the agency's report seeking the court's approval of the child's placement at a qualified
473.18 residential treatment program under section 260C.71. After the court issues an order, the
473.19 agency must update the child's out-of-home placement plan to document the court's approval
473.20 or disapproval of the child's placement in a qualified residential treatment program;

473.21 (3) when the agency places a child with the child's parent in a licensed residential
473.22 family-based substance use disorder treatment program under section 260C.190, the agency
473.23 must identify the treatment program where the child will be placed in the child's out-of-home
473.24 placement plan prior to the child's placement. The agency must file the child's out-of-home
473.25 placement plan summary and out-of-home placement plan with the court at the next required

474.1 Sec. 20. Minnesota Statutes 2024, section 260C.221, subdivision 2, is amended to read:

474.2 Subd. 2. **Relative notice requirements.** (a) The agency may provide oral or written
474.3 notice to a child's relatives. In the child's case record, the agency must document providing
474.4 the required notice to each of the child's relatives. The responsible social services agency
474.5 must notify relatives:

474.6 (1) of the need for a foster home for the child, the option to become a placement resource
474.7 for the child, the order of placement that the agency will consider under section 260C.212,
474.8 subdivision 2, paragraph (a), and the possibility of the need for a permanent placement for
474.9 the child;

474.10 (2) of their responsibility to keep the responsible social services agency and the court
474.11 informed of their current address in order to receive notice in the event that a permanent
474.12 placement is sought for the child and to receive notice of the permanency progress review
474.13 hearing under section 260C.204. A relative who fails to provide a current address to the
474.14 responsible social services agency and the court forfeits the right to receive notice of the
474.15 possibility of permanent placement and of the permanency progress review hearing under
474.16 section 260C.204, until the relative provides a current address to the responsible social
474.17 services agency and the court. A decision by a relative not to be identified as a potential
474.18 permanent placement resource or participate in planning for the child shall not affect whether
474.19 the relative is considered for placement of, or as a permanency resource for, the child with
474.20 that relative at any time in the case, and shall not be the sole basis for the court to rule out
474.21 the relative as the child's placement or permanency resource;

474.22 (3) that the relative may participate in the care and planning for the child, as specified
474.23 in subdivision 3, including that the opportunity for such participation may be lost by failing
474.24 to respond to the notice sent under this subdivision;

474.25 (4) of the family foster care licensing and adoption home study requirements, including:

474.26 (i) how to complete an application and;

474.27 (ii) how to request a variance from licensing standards that do not present a safety or
474.28 health risk to the child in the home under section 142B.10 and;

474.29 (iii) supports that are available for relatives and children who reside in a family foster
474.30 home, including how to access respite care, strategies for leveraging natural supports for
474.31 the child and family, and ways to include resource or substitute caregivers in the child's
474.32 case plan; and

475.1 (iv) the relative's choice between county or private agency and services provided by that
475.2 agency under section 142B.30, depending on funding available;

475.3 (5) of the relatives' right to ask to be notified of any court proceedings regarding the
475.4 child, to attend the hearings, and of a relative's right to be heard by the court as required
475.5 under section 260C.152, subdivision 5;

475.6 (6) that regardless of the relative's response to the notice sent under this subdivision, the
475.7 agency is required to establish permanency for a child, including planning for alternative
475.8 permanency options if the agency's reunification efforts fail or are not required; ~~and~~

475.9 (7) that by responding to the notice, a relative may receive information about participating
475.10 in a child's family and permanency team if the child is placed in a qualified residential
475.11 treatment program as defined in section 260C.007, subdivision 26d; and

475.12 (8) information advising a relative on access to legal services and support.

475.13 (b) The responsible social services agency shall send the notice required under paragraph
475.14 (a) to relatives who become known to the responsible social services agency, except for
475.15 relatives that the agency does not contact due to safety reasons under subdivision 5, paragraph
475.16 (b). The responsible social services agency shall continue to send notice to relatives
475.17 notwithstanding a court's finding that the agency has made reasonable efforts to conduct a
475.18 relative search.

490.4 to contest an overpayment or disqualification of the provider; and

490.5 (3) submit data on child enrollment and attendance in the form and manner specified by
490.6 the commissioner.

490.7 (b) As a condition of payment, attendance records must be completed daily and include
490.8 the date, the first and last name of each child in attendance, and the times when each child
490.9 is dropped off and picked up. To the extent possible, the times that the child was dropped
490.10 off to and picked up from the child care provider must be entered by the person dropping

491.12 child care money for calendar years 2026 and 2027 to counties and Tribes to account for
491.13 eliminating the schedule reporter designation in the child care assistance program. In
491.14 allocating the additional money, the commissioner shall consider:

ARTICLE 20**CHILDREN AND FAMILIES LICENSING POLICY**

Section 1. Minnesota Statutes 2024, section 142B.10, subdivision 14, is amended to read:

Subd. 14. **Grant of license; license extension.** (a) If the commissioner determines that the program complies with all applicable rules and laws, the commissioner shall issue a license consistent with this section or, if applicable, a temporary change of ownership license under section 142B.11. At minimum, the license shall state:

(1) the name of the license holder;

(2) the address of the program;

(3) the effective date and expiration date of the license;

(4) the type of license;

(5) the maximum number and ages of persons that may receive services from the program;
and

(6) any special conditions of licensure.

(b) The commissioner may issue a license for a period not to exceed two years if:

(1) the commissioner is unable to conduct the observation required by subdivision 11, paragraph (a), clause (3), because the program is not yet operational;

(2) certain records and documents are not available because persons are not yet receiving services from the program; and

(3) the applicant complies with applicable laws and rules in all other respects.

(c) A decision by the commissioner to issue a license does not guarantee that any person or persons will be placed or cared for in the licensed program.

(d) Except as provided in paragraphs (i) and (j), the commissioner shall not issue a license if the applicant, license holder, or an affiliated controlling individual has:

(1) been disqualified and the disqualification was not set aside and no variance has been granted;

(2) been denied a license under this chapter or chapter 245A within the past two years;

(3) had a license issued under this chapter or chapter 245A revoked within the past five years; or

(4) failed to submit the information required of an applicant under subdivision 1, paragraph (f), (g), or (h), after being requested by the commissioner.

When a license issued under this chapter or chapter 245A is revoked, the license holder and each affiliated controlling individual with a revoked license may not hold any license under chapter 142B for five years following the revocation, and other licenses held by the applicant or license holder or licenses affiliated with each controlling individual shall also be revoked.

(e) Notwithstanding paragraph (d), the commissioner may elect not to revoke a license affiliated with a license holder or controlling individual that had a license revoked within the past five years if the commissioner determines that (1) the license holder or controlling individual is operating the program in substantial compliance with applicable laws and rules and (2) the program's continued operation is in the best interests of the community being served.

(f) Notwithstanding paragraph (d), the commissioner may issue a new license in response to an application that is affiliated with an applicant, license holder, or controlling individual that had an application denied within the past two years or a license revoked within the past five years if the commissioner determines that (1) the applicant or controlling individual has operated one or more programs in substantial compliance with applicable laws and rules and (2) the program's operation would be in the best interests of the community to be served.

(g) In determining whether a program's operation would be in the best interests of the community to be served, the commissioner shall consider factors such as the number of persons served, the availability of alternative services available in the surrounding community, the management structure of the program, whether the program provides culturally specific services, and other relevant factors.

(h) The commissioner shall not issue or reissue a license under this chapter if an individual living in the household where the services will be provided as specified under section 245C.03, subdivision 1, has been disqualified and the disqualification has not been set aside and no variance has been granted.

(i) Pursuant to section 142B.18, subdivision 1, paragraph (b), when a license issued under this chapter has been suspended or revoked and the suspension or revocation is under appeal, the program may continue to operate pending a final order from the commissioner. If the license under suspension or revocation will expire before a final order is issued, a temporary provisional license may be issued provided any applicable license fee is paid before the temporary provisional license is issued.

(j) Notwithstanding paragraph (i), when a revocation is based on the disqualification of a controlling individual or license holder, and the controlling individual or license holder is ordered under section 245C.17 to be immediately removed from direct contact with persons receiving services or is ordered to be under continuous, direct supervision when providing direct contact services, the program may continue to operate only if the program complies with the order and submits documentation demonstrating compliance with the order. If the disqualified individual fails to submit a timely request for reconsideration, or if the disqualification is not set aside and no variance is granted, the order to immediately remove the individual from direct contact or to be under continuous, direct supervision remains in effect pending the outcome of a hearing and final order from the commissioner.

(k) For purposes of reimbursement for meals only, under the Child and Adult Care Food Program, Code of Federal Regulations, title 7, subtitle B, chapter II, subchapter A, part 226, relocation within the same county by a licensed family day care provider, shall be considered an extension of the license for a period of no more than 30 calendar days or until the new license is issued, whichever occurs first, provided the county agency has determined the family day care provider meets licensure requirements at the new location.

(l) Unless otherwise specified by statute, all licenses issued under this chapter expire at 12:01 a.m. on the day after the expiration date stated on the license. A license holder must ~~apply for and be granted~~ comply with the requirements in section 142B.12 and be reissued a new license to operate the program or the program must not be operated after the expiration date. Child foster care license holders must apply for and be granted a new license to operate the program or the program must not be operated after the expiration date. Upon implementation of the provider licensing and reporting hub, licenses may be issued each calendar year.

(m) The commissioner shall not issue or reissue a license under this chapter if it has been determined that a tribal licensing authority has established jurisdiction to license the program or service.

(n) The commissioner of children, youth, and families shall coordinate and share data with the commissioner of human services to enforce this section.

Sec. 2. Minnesota Statutes 2024, section 142B.16, subdivision 2, is amended to read:

Subd. 2. Reconsideration of correction orders. (a) If the applicant or license holder believes that the contents of the commissioner's correction order are in error, the applicant or license holder may ask the Department of Children, Youth, and Families to reconsider the parts of the correction order that are alleged to be in error. The request for reconsideration

495.1 must be made in writing and must be postmarked and sent to the commissioner within 20
495.2 calendar days after receipt of the correction order by the applicant or license holder or
495.3 submitted in the provider licensing and reporting hub within 20 calendar days from the date
495.4 the commissioner issued the order through the hub, and:

495.5 (1) specify the parts of the correction order that are alleged to be in error;

495.6 (2) explain why they are in error; and

495.7 (3) include documentation to support the allegation of error.

495.8 (b) Upon implementation of the provider licensing and reporting hub, the provider must
495.9 use the hub to request reconsideration. A request for reconsideration does not stay any
495.10 provisions or requirements of the correction order. The commissioner's disposition of a
495.11 request for reconsideration is final and not subject to appeal under chapter 14.

495.12 ~~(b)~~ (c) This paragraph applies only to licensed family child care providers. A licensed
495.13 family child care provider who requests reconsideration of a correction order under paragraph
495.14 (a) may also request, on a form and in the manner prescribed by the commissioner, that the
495.15 commissioner expedite the review if:

495.16 (1) the provider is challenging a violation and provides a description of how complying
495.17 with the corrective action for that violation would require the substantial expenditure of
495.18 funds or a significant change to their program; and

495.19 (2) describes what actions the provider will take in lieu of the corrective action ordered
495.20 to ensure the health and safety of children in care pending the commissioner's review of the
495.21 correction order.

495.22 (d) The commissioner must not publicly post the correction order for licensed child care
495.23 centers or licensed family child care providers on the department's website until:

495.24 (1) after the 20-calendar-day period for requesting reconsideration; or

495.25 (2) if the applicant or license holder requested reconsideration, after the commissioner's
495.26 disposition of a request for reconsideration is provided to the applicant or license holder.

495.27 **EFFECTIVE DATE.** This section is effective January 1, 2026, or upon federal approval,
495.28 whichever is later. The commissioner of children, youth, and families must notify the revisor
495.29 of statutes when federal approval is obtained.

Sec. 3. Minnesota Statutes 2024, section 142B.171, subdivision 2, is amended to read:

Subd. 2. **Documented technical assistance.** (a) In lieu of a correction order under section 142B.16, the commissioner shall provide documented technical assistance to a family child care or child care center license holder if the commissioner finds that:

(1) the license holder has failed to comply with a requirement in this chapter or Minnesota Rules, chapter 9502 or 9503, that the commissioner determines to be low risk as determined by the child care weighted risk system;

(2) the noncompliance does not imminently endanger the health, safety, or rights of the persons served by the program; and

(3) the license holder did not receive documented technical assistance or a correction order for the same violation at the license holder's most recent annual licensing inspection.

(b) Documented technical assistance must include communication from the commissioner to the license holder that:

(1) states the conditions that constitute a violation of a law or rule;

(2) references the specific law or rule violated; and

(3) explains remedies for correcting the violation.

~~(c) The commissioner shall not publicly publish documented technical assistance on the department's website.~~

Sec. 4. **[142B.181] POSTING LICENSING ACTIONS ON DEPARTMENT WEBSITE.**

(a) The commissioner must post a summary document for each licensing action issued to a licensed child care center and family child care provider on the Licensing Information Lookup public website maintained by the Department of Children, Youth, and Families. The commissioner must not post any communication, including letters, from the commissioner to the center or provider.

(b) The commissioner must remove a summary document from the Licensing Information Lookup public website within ten days of the length of time that the document is required to be posted under Code of Federal Regulations, title 45, section 98.33.

EFFECTIVE DATE. This section is effective January 1, 2026, or upon federal approval, whichever is later. The commissioner of children, youth, and families must notify the revisor of statutes when federal approval is obtained.

The following variances are excluded from the delegation of variance authority and may be issued only by the commissioner:

(2) child foster care maximum age requirement;

(3) variances regarding disqualified individuals;

(4) variances to requirements relating to chemical use problems of a license holder or a household member of a license holder; and

(5) variances to section 142B.74 for a time-limited period. If the commissioner grants a variance under this clause, the license holder must provide notice of the variance to all parents and guardians of the children in care.

(b) The commissioners of human services and children, youth, and families must both approve a variance for dual licensure of family child foster care and family adult foster care or family adult foster care and family child care. Variances under this paragraph are excluded from the delegation of variance authority and may be issued only by both commissioners.

(c) Except as provided in section 142B.41, subdivision 4, paragraph (e), a county agency must not grant a license holder a variance to exceed the maximum allowable family child care license capacity of 14 children.

(d) A county agency that has been designated by the commissioner to issue family child care variances must:

(1) publish the county agency's policies and criteria for issuing variances on the county's public website and update the policies as necessary; and

(2) annually distribute the county agency's policies and criteria for issuing variances to all family child care license holders in the county.

(e) Before the implementation of NETStudy 2.0, county agencies must report information about disqualification reconsiderations under sections 245C.25 and 245C.27, subdivision 2, paragraphs (a) and (b), and variances granted under paragraph (a), clause (5), to the commissioner at least monthly in a format prescribed by the commissioner.

(f) For family child care programs, the commissioner shall require a county agency to conduct one unannounced licensing review at least annually.

(g) A child foster care license issued under this section may be issued for up to two years until implementation of the provider licensing and reporting hub. Upon implementation of the provider licensing and reporting hub, licenses may be issued each calendar year.

(h) A county agency shall report to the commissioner, in a manner prescribed by the commissioner, the following information for a licensed family child care program:

(1) the results of each licensing review completed, including the date of the review, and any licensing correction order issued;

519.5 The responsibility for special instruction and services for a child with a disability
519.6 temporarily placed in another district for care and treatment shall be determined in the
519.7 following manner:

519.8 (a) The district of residence of a child shall be the district in which the child's parent
519.9 resides, if living, or the child's guardian. If there is a dispute between school districts
519.10 regarding residency, the district of residence is the district designated by the commissioner.

519.11 (b) If a district other than the resident district places a pupil for care and treatment, the
519.12 district placing the pupil must notify and give the resident district an opportunity to participate
519.13 in the placement decision. When an immediate emergency placement of a pupil is necessary
519.14 and time constraints foreclose a resident district from participating in the emergency
519.15 placement decision, the district in which the pupil is temporarily placed must notify the
519.16 resident district of the emergency placement within 15 days. The resident district has up to
519.17 five business days after receiving notice of the emergency placement to request an
519.18 opportunity to participate in the placement decision, which the placing district must then
519.19 provide.

519.20 (c) When a child is temporarily placed for care and treatment in a day program located
519.21 in another district and the child continues to live within the district of residence during the
519.22 care and treatment, the district of residence is responsible for providing transportation to
519.23 and from the care and treatment program and an appropriate educational program for the
519.24 child. The resident district may establish reasonable restrictions on transportation, except
519.25 if a Minnesota court or agency orders the child placed at a day care and treatment program
519.26 and the resident district receives a copy of the order, then the resident district must provide
519.27 transportation to and from the program unless the court or agency orders otherwise.
519.28 Transportation shall only be provided by the resident district during regular operating hours
519.29 of the resident district. The resident district may provide the educational program at a school
519.30 within the district of residence, at the child's residence, or in the district in which the day
519.31 treatment center is located by paying tuition to that district. If a child's district of residence,
519.32 district of open enrollment under section 124D.03, or charter school of enrollment under
519.33 section 124E.11 is authorized to provide online learning instruction under state statutes, the
519.34 child's district of residence may utilize that online learning program in fulfilling its

520.1 educational program responsibility under this section if the child, or the child's parent or
520.2 guardian for a pupil under the age of 18, agrees to that form of instruction.

520.3 (d) When a child is temporarily placed in a residential program for care and treatment,
520.4 the nonresident district in which the child is placed is responsible for providing an appropriate
520.5 educational program for the child and necessary transportation while the child is attending
520.6 the educational program; and must bill the district of the child's residence for the actual cost
520.7 of providing the program, as outlined in section 125A.11, except as provided in paragraph
520.8 (e). However, the board, lodging, and treatment costs incurred in behalf of a child with a
520.9 disability placed outside of the school district of residence by the commissioner of human

520.27 paragraph, then paragraph (d) applies.

520.28 (f) The district of residence shall pay tuition and other program costs, not including
520.29 transportation costs, to the district providing the instruction and services. The district of
520.30 residence may claim general education aid for the child as provided by law. Transportation

542.5 (c) The commissioner shall provide to the court the electronically available data
542.6 maintained in the agency's database, including whether the guardian or conservator is or

542.10 Sec. 43. Minnesota Statutes 2024, section 245C.05, subdivision 7, is amended to read:

542.11 Subd. 7. **Probation officer and corrections agent.** (a) A probation officer or corrections
542.12 agent shall notify the commissioner of an individual's conviction if the individual:

542.13 (1) has been affiliated with a program or facility regulated by the Department of Human
542.14 Services; Department of Children, Youth, and Families; or Department of Health, a facility
542.15 serving children or youth licensed by the Department of Corrections, or any type of home
542.16 care agency or provider of personal care assistance services within the preceding year; and

542.17 (2) has been convicted of a crime constituting a disqualification under section 245C.14.

542.18 (b) For the purpose of this subdivision, "conviction" has the meaning given it in section
542.19 609.02, subdivision 5.

542.20 (c) The commissioner, in consultation with the commissioner of corrections, shall develop
542.21 forms and information necessary to implement this subdivision and shall provide the forms
542.22 and information to the commissioner of corrections for distribution to local probation officers
542.23 and corrections agents.

542.24 (d) The commissioner shall inform individuals subject to a background study that criminal
542.25 convictions for disqualifying crimes shall be reported to the commissioner by the corrections
542.26 system.

542.27 (e) A probation officer, corrections agent, or corrections agency is not civilly or criminally
542.28 liable for disclosing or failing to disclose the information required by this subdivision.

542.29 (f) Upon receipt of disqualifying information, the commissioner shall provide the notice
542.30 required under section 245C.17, as appropriate, to agencies on record as having initiated a

543.1 background study or making a request for documentation of the background study status
543.2 of the individual.

543.3 (g) This subdivision does not apply to family child care programs or legal nonlicensed
543.4 child care programs for individuals whose background study was completed in NETStudy
543.5 2.0.

543.6 Sec. 44. Minnesota Statutes 2024, section 245C.07, is amended to read:

543.7 **245C.07 STUDY SUBJECT AFFILIATED WITH MULTIPLE FACILITIES.**

543.8 (a) Subject to the conditions in paragraph (d), when a license holder, applicant, or other
543.9 entity owns multiple programs or services that are licensed by the Department of Human
543.10 Services; Department of Children, Youth, and Families; Department of Health; or
543.11 Department of Corrections, only one background study is required for an individual who
543.12 provides direct contact services in one or more of the licensed programs or services if:

543.13 (1) the license holder designates one individual with one address and telephone number
543.14 as the person to receive sensitive background study information for the multiple licensed
543.15 programs or services that depend on the same background study; and

543.16 (2) the individual designated to receive the sensitive background study information is
543.17 capable of determining, upon request of the department, whether a background study subject
543.18 is providing direct contact services in one or more of the license holder's programs or services
543.19 and, if so, at which location or locations.

543.20 (b) When a license holder maintains background study compliance for multiple licensed
543.21 programs according to paragraph (a), and one or more of the licensed programs closes, the
543.22 license holder shall immediately notify the commissioner which staff must be transferred
543.23 to an active license so that the background studies can be electronically paired with the
543.24 license holder's active program.

543.25 (c) When a background study is being initiated by a licensed program or service or a
543.26 foster care provider that is also licensed under chapter 144G, a study subject affiliated with
543.27 multiple licensed programs or services may attach to the background study form a cover
543.28 letter indicating the additional names of the programs or services, addresses, and background
543.29 study identification numbers.

543.30 When the commissioner receives a notice, the commissioner shall notify each program
543.31 or service identified by the background study subject of the study results.

544.1 The background study notice the commissioner sends to the subsequent agencies shall
544.2 satisfy those programs' or services' responsibilities for initiating a background study on that
544.3 individual.

544.4 (d) If a background study was conducted on an individual related to child foster care
544.5 and the requirements under paragraph (a) are met, the background study is transferable
544.6 across all licensed programs. If a background study was conducted on an individual under
544.7 a license other than child foster care and the requirements under paragraph (a) are met, the
544.8 background study is transferable to all licensed programs except child foster care.

544.9 (e) The provisions of this section that allow a single background study in one or more
544.10 licensed programs or services do not apply to background studies submitted by adoption
544.11 agencies, supplemental nursing services agencies, personnel pool agencies, educational
544.12 programs, professional services agencies, temporary personnel agencies, and unlicensed
544.13 personal care provider organizations.

544.14 (f) For an entity operating under NETStudy 2.0, the entity's active roster must be the
544.15 system used to document when a background study subject is affiliated with multiple entities.
544.16 For a background study to be transferable:

544.17 (1) the background study subject must be on and moving to a roster for which the person
544.18 designated to receive sensitive background study information is the same; and

544.19 (2) the same entity must own or legally control both the roster from which the transfer
544.20 is occurring and the roster to which the transfer is occurring. For an entity that holds or
544.21 controls multiple licenses, or unlicensed personal care provider organizations, there must
544.22 be a common highest level entity that has a legally identifiable structure that can be verified
544.23 through records available from the secretary of state.

544.24 Sec. 45. Minnesota Statutes 2024, section 256.88, is amended to read:

544.25 **256.88 SOCIAL WELFARE FUND ESTABLISHED.**

544.26 Except as otherwise expressly provided, all moneys and funds held by the commissioner
544.27 of human services; the commissioner of children, youth, and families; the Direct Care and
544.28 Treatment executive board; and the local social services agencies of the several counties
544.29 in trust or for the benefit of children with a disability and children who are dependent,
544.30 neglected, or delinquent; children born to mothers who were not married to the children's
544.31 fathers at the times of the conception nor at the births of the children; persons determined
544.32 to have developmental disability, mental illness, or substance use disorder; or other wards
544.33 or beneficiaries, under any law, shall be kept in a single fund to be known as the "social

545.1 welfare fund" which shall be deposited at interest, held, or disbursed as provided in sections
545.2 256.89 to 256.92.

545.3 Sec. 46. Minnesota Statutes 2024, section 256.89, is amended to read:

545.4 **256.89 FUND DEPOSITED IN STATE TREASURY.**

545.5 The social welfare fund and all accretions thereto shall be deposited in the state treasury,
545.6 as a separate and distinct fund, to the credit of the commissioner of human services; the
545.7 commissioner of children, youth, and families; and the Direct Care and Treatment executive
545.8 board as trustees for their respective beneficiaries in proportion to the beneficiaries' several
545.9 interests. The commissioner of management and budget shall be responsible only to the
545.10 commissioner of human services; the commissioner of children, youth, and families; and
545.11 the Direct Care and Treatment executive board for the sum total of the fund, and shall have
545.12 no duties nor direct obligations toward the beneficiaries thereof individually. Subject to the
545.13 applicable rules of the commissioner of human services; the commissioner of children,
545.14 youth, and families; or the Direct Care and Treatment executive board, money so received
545.15 by a local social services agency may be deposited by the executive secretary of the local
545.16 social services agency in a local bank carrying federal deposit insurance, designated by the
545.17 local social services agency for this purpose. The amount of such deposit in each such bank
545.18 at any one time shall not exceed the amount protected by federal deposit insurance.

545.19 Sec. 47. Minnesota Statutes 2024, section 256.90, is amended to read:

545.20 **256.90 SOCIAL WELFARE FUND; USE; DISPOSITION; DEPOSITORIES.**

545.21 The commissioner of human services, in consultation with the commissioner of children,
545.22 youth, and families and the Direct Care and Treatment executive board, at least 30 days
545.23 before the first day of January and the first day of July in each year shall file with the
545.24 commissioner of management and budget an estimate of the amount of the social welfare
545.25 fund to be held in the treasury during the succeeding six-month period, subject to current
545.26 disbursement. Such portion of the remainder thereof as may be at any time designated by
545.27 the request of the commissioner of human services may be invested by the commissioner
545.28 of management and budget in bonds in which the permanent trust funds of the state of
545.29 Minnesota may be invested, upon approval by the State Board of Investment. The portion
545.30 of such remainder not so invested shall be placed by the commissioner of management and
545.31 budget at interest for the period of six months, or when directed by the commissioner of
545.32 human services, for the period of 12 months thereafter at the highest rate of interest obtainable
545.33 in a bank, or banks, designated by the board of deposit as a suitable depository therefor. All

546.1 the provisions of law relative to the designation and qualification of depositories of other
546.2 state funds shall be applicable to sections 256.88 to 256.92, except as herein otherwise
546.3 provided. Any bond given, or collateral assigned or both, to secure a deposit hereunder may
546.4 be continuous in character to provide for the repayment of any moneys belonging to the
546.5 fund theretofore or thereafter at any time deposited in such bank until its designation as
546.6 such depository is revoked and the security thereof shall be not impaired by any subsequent
546.7 agreement or understanding as to the rate of interest to be paid upon such deposit, or as to
546.8 time for its repayment. The amount of money belonging to the fund deposited in any bank,
546.9 including other state deposits, shall not at any time exceed the amount of the capital stock
546.10 thereof. In the event of the closing of the bank any sum deposited therein shall immediately
546.11 become due and payable.

546.12 Sec. 48. Minnesota Statutes 2024, section 256.91, is amended to read:

546.13 **256.91 PURPOSES.**

546.14 From that part of the social welfare fund held in the state treasury subject to disbursement
546.15 as provided in section 256.90, the commissioner of human services; the commissioner of
546.16 children, youth, and families; or the Direct Care and Treatment executive board at any time
546.17 may pay out such amounts as the ~~commissioner~~ commissioners or executive board deems
546.18 proper for the support, maintenance, or other legal benefit of any of the children with a
546.19 disability and children who are dependent, neglected, or delinquent; children born to mothers
546.20 who were not married to the children's fathers at the times of the conception nor at the births
546.21 of the children; persons with developmental disability, substance use disorder, or mental
546.22 illness; or other wards or persons entitled thereto, not exceeding in the aggregate to or for
546.23 any person the principal amount previously received for the benefit of the person, together
546.24 with the increase in it from an equitable apportionment of interest realized from the social
546.25 welfare fund.

546.26 When any such person dies or is finally discharged from the guardianship, care, custody,
546.27 and control of the commissioner of human services; the commissioner of children, youth,
546.28 and families; or the Direct Care and Treatment executive board, the amount then remaining
546.29 subject to use for the benefit of the person shall be paid as soon as may be from the social
546.30 welfare fund to the persons thereto entitled by law.

Sec. 49. Minnesota Statutes 2024, section 256.92, is amended to read:

**256.92 COMMISSIONER OF HUMAN SERVICES AND DIRECT CARE AND
TREATMENT COMMISSIONERS AND EXECUTIVE BOARD, ACCOUNTS.**

It shall be the duty of the commissioner of human services; the commissioner of children, youth, and families; the Direct Care and Treatment executive board; and the local social services agencies of the several counties of this state to cause to be deposited with the commissioner of management and budget all moneys and funds in their possession or under their control and designated by section 256.91 as and for the social welfare fund; and all such moneys and funds shall be so deposited in the state treasury as soon as received. The commissioner of human services, in consultation with the commissioner of children, youth, and families and the Direct Care and Treatment executive board, shall keep books of account or other records showing separately the principal amount received and deposited in the social welfare fund for the benefit of any person, together with the name of such person, and the name and address, if known to the commissioner of human services; the commissioner of children, youth, and families; or the Direct Care and Treatment executive board, of the person from whom such money was received; and, at least once every two years, the amount of interest, if any, which the money has earned in the social welfare fund shall be apportioned thereto and posted in the books of account or records to the credit of such beneficiary.

The provisions of sections 256.88 to 256.92 shall not apply to any fund or money now or hereafter deposited or otherwise disposed of pursuant to the lawful orders, decrees, judgments, or other directions of any district court having jurisdiction thereof.

Sec. 50. Minnesota Statutes 2024, section 256G.01, subdivision 1, is amended to read:

Subdivision 1. **Applicability.** This chapter governs the Minnesota human services system. The system includes the Department of Human Services; the Department of Children, Youth, and Families; Direct Care and Treatment; local social services agencies; county welfare agencies; human service boards; community mental health center boards; state hospitals; state nursing homes; and persons, agencies, institutions, organizations, and other entities under contract to any of those agencies to the extent specified in the contract.

Sec. 51. Minnesota Statutes 2024, section 256G.01, subdivision 3, is amended to read:

Subd. 3. **Program coverage.** This chapter applies to all social service programs administered by the commissioner of human services; the commissioner of children, youth, and families; or the Direct Care and Treatment executive board in which residence is the

determining factor in establishing financial responsibility. These include, but are not limited to: commitment proceedings, including voluntary admissions; emergency holds; poor relief funded wholly through local agencies; social services, including title XX, IV-E and section 256K.10; social services programs funded wholly through the resources of county agencies; social services provided under the Minnesota Indian Family Preservation Act, sections 260.751 to 260.781; costs for delinquency confinement under section 393.07, subdivision 2; service responsibility for these programs; and housing support under chapter 256I.

Sec. 52. Minnesota Statutes 2024, section 256G.03, subdivision 2, is amended to read:

Subd. 2. **No durational test.** Except as otherwise provided in sections 142G.12; 142G.78; 256B.056, subdivision 1; and 256D.02, subdivision 12a for purposes of this chapter, no waiting period is required before securing county or state residence. A person cannot, however, gain residence while physically present in an excluded time facility unless otherwise specified in this chapter or in a federal regulation controlling a federally funded human service; children, youth, and families; or direct care and treatment program. Interstate migrants who enter a shelter for battered women directly from another state can gain residency while in the facility provided the person can provide documentation that the person is a victim of domestic abuse and the county determines that the placement is appropriate.

Sec. 53. Minnesota Statutes 2024, section 256G.04, subdivision 2, is amended to read:

Subd. 2. **Moving out of state.** (a) A person retains county and state residence so long as the person's absence from Minnesota is viewed as a temporary absence within the context of the affected program.

(b) Direct entry into a facility in another state does not end Minnesota residence for purposes of this chapter. Financial responsibility does not continue, however, unless placement was initiated by a human service; children, youth, and families; or direct care and treatment agency or another governmental entity that has statutory authority to bind the human service; children, youth, and families; or direct care and treatment agency and is based on a formal, written plan of treatment, or unless federal regulations require payment for an out-of-state resident.

Sec. 54. Minnesota Statutes 2024, section 256G.09, subdivision 2, is amended to read:

Subd. 2. **Financial disputes.** (a) If the county receiving the transmittal does not believe it is financially responsible, it should provide to the commissioner of human services and the initially responsible county a statement of all facts and documents necessary for the

549.1 commissioner to make the requested determination of financial responsibility. The submission
549.2 must clearly state the program area in dispute and must state the specific basis upon which
549.3 the submitting county is denying financial responsibility.

549.4 (b) The initially responsible county then has 15 calendar days to submit its position and
549.5 any supporting evidence to the commissioner of human services. The absence of a submission
549.6 by the initially responsible county does not limit the right of the commissioner of human
549.7 services; the commissioner of children, youth, and families; or Direct Care and Treatment
549.8 executive board to issue a binding opinion based on the evidence actually submitted.

549.9 (c) A case must not be submitted until the local agency taking the application or making
549.10 the commitment has made an initial determination about eligibility and financial
549.11 responsibility, and services have been initiated. This paragraph does not prohibit the
549.12 submission of closed cases that otherwise meet the applicable statute of limitations.

549.13 Sec. 55. Minnesota Statutes 2024, section 256G.09, subdivision 3, is amended to read:

549.14 Subd. 3. **Commissioner of human services obligations.** (a) Except as provided in
549.15 paragraph (b) for matters solely under the jurisdiction of the Direct Care and Treatment
549.16 executive board or the commissioner of children, youth, and families, the commissioner of
549.17 human services shall then promptly decide any question of financial responsibility as outlined
549.18 in this chapter and make an order referring the application to the local agency of the proper
549.19 county for further action. Further action may include reimbursement by that county of
549.20 assistance that another county has provided to the applicant under this subdivision. The
549.21 commissioner shall decide disputes within 60 days of the last county evidentiary submission
549.22 and shall issue an immediate opinion.

549.23 (b) For disputes regarding financial responsibility relating to matters solely under the
549.24 jurisdiction of the Direct Care and Treatment executive board or the commissioner of
549.25 children, youth, and families, the commissioner of human services shall promptly issue an
549.26 advisory opinion on any question of financial responsibility as outlined in this chapter and
549.27 recommend to the executive board or commissioner of children, youth, and families an
549.28 order referring the application to the local agency of the proper county for further action.
549.29 Further action may include reimbursement by that county of assistance that another county
549.30 has provided to the applicant under this subdivision. The commissioner of human services
549.31 shall provide an advisory opinion and recommended order to the executive board or
549.32 commissioner of children, youth, and families within 30 days of the last county evidentiary
549.33 submission. The executive board or commissioner of children, youth, and families shall
549.34 decide to accept or reject the commissioner's advisory opinion and recommended order

550.1 within 60 days of the last county evidentiary submission and shall issue an immediate
550.2 opinion stating the reasons for accepting or rejecting the ~~commissioner's~~ recommendation
550.3 of the commissioner of human services.

550.4 (c) The commissioner of human services may make any investigation it considers proper
550.5 before making a decision or a recommendation to the executive board or commissioner of
550.6 children, youth, and families. The commissioner of human services may prescribe rules it
550.7 considers necessary to carry out this subdivision except that the commissioner of human
550.8 services must not create rules purporting to bind the ~~executive board's~~ decision of the
550.9 executive board or commissioner of children, youth, and families on any advisory opinion
550.10 or recommended order under paragraph (b).

550.11 (d) Except as provided in paragraph (e) for matters solely under the jurisdiction of the
550.12 executive board or the commissioner of children, youth, and families, the order of the
550.13 commissioner of human services binds the local agency involved and the applicant or
550.14 recipient. That agency shall comply with the order unless reversed on appeal as provided
550.15 in section 256.045, subdivision 7. The agency shall comply with the order pending the
550.16 appeal.

550.17 (e) For disputes regarding financial responsibility relating to matters solely under the
550.18 jurisdiction of the Direct Care and Treatment executive board or the commissioner of
550.19 children, youth, and families, the order of the executive board or the commissioner of
550.20 children, youth, and families binds the local agency involved and the applicant or recipient.
550.21 That agency shall comply with the order of the executive board or the commissioner of
550.22 children, youth, and families unless the order is reversed on appeal as provided in section
550.23 142A.20, subdivision 5, or 256.045, subdivision 7. The agency shall comply with the order
550.24 of the executive board or the commissioner of children, youth, and families pending the
550.25 appeal.

550.26 Sec. 56. Minnesota Statutes 2024, section 256G.09, subdivision 4, is amended to read:

550.27 Subd. 4. **Appeals.** A local agency that is aggrieved by the order of the ~~department~~
550.28 commissioner of human services, executive board, or commissioner of children, youth, and
550.29 families under subdivision 3, paragraph (e), may appeal the opinion to the district court of
550.30 the county responsible for furnishing assistance or services by serving a written copy of a
550.31 notice of appeal on the commissioner of human services and any adverse party of record
550.32 within 30 days after the date the department issued the opinion, and by filing the original
550.33 notice and proof of service with the court administrator of district court. Service may be
550.34 made personally or by mail. Service by mail is complete upon mailing.

551.1 The commissioner of human services; the commissioner of children, youth, and families;
551.2 or the executive board may elect to become a party to the proceedings in district court. The
551.3 court may consider the matter in or out of chambers and shall take no new or additional
551.4 evidence.

551.5 Sec. 57. Minnesota Statutes 2024, section 256G.09, subdivision 5, is amended to read:

551.6 Subd. 5. **Payment pending appeal.** After the ~~department~~ commissioner of human
551.7 services, or the executive board or commissioner of children, youth, and families under
551.8 subdivision 3, paragraph (e), issues an opinion in any submission under this section, the
551.9 service or assistance covered by the submission must be provided or paid pending or during
551.10 an appeal to the district court.

551.11 Sec. 58. Minnesota Statutes 2024, section 256G.10, is amended to read:

551.12 **256G.10 DERIVATIVE SETTLEMENT.**

551.13 (a) The residence of the parent of a minor child, with whom that child last lived in a
551.14 nonexcluded time setting, or guardian of a ward shall determine the residence of the child
551.15 or ward for all social services governed by this chapter.

551.16 (b) For purposes of this chapter, a minor child is defined as being under 18 years of age
551.17 unless otherwise specified in a program administered by the commissioner of human services;
551.18 the commissioner of children, youth, and families; or the Direct Care and Treatment executive
551.19 board.

551.20 (c) Physical or legal custody has no bearing on residence determinations. This section
551.21 does not, however, apply to situations involving another state, limit the application of an
551.22 interstate compact, or apply to situations involving state wards where the commissioner of
551.23 human services or children, youth, and families is defined by law as the guardian.

551.24 Sec. 59. Minnesota Statutes 2024, section 256G.11, is amended to read:

551.25 **256G.11 NO RETROACTIVE EFFECT.**

551.26 (a) This chapter is not retroactive and does not require redetermination of financial
551.27 responsibility for cases existing on January 1, 1988. This chapter applies only to applications
551.28 and redeterminations of eligibility taken or routinely made after January 1, 1988.

551.29 (b) Notwithstanding this section, existing social services cases shall be treated in the
551.30 same manner as cases for those programs outlined in section 256G.02, subdivision 4,

552.1 paragraph (g), for which an application is taken or a redetermination is made after January
552.2 1, 1988.

552.3 (c) The requirement under section 256G.09, subdivision 3, for the Direct Care and
552.4 Treatment executive board or the commissioner of children, youth, and families to accept
552.5 or reject the recommendation of the commissioner of human services regarding the county
552.6 of financial responsibility for matters solely under the jurisdiction of the executive board
552.7 or the commissioner of children, youth, and families is not retroactive and does not require
552.8 redetermination of financial responsibility for cases existing prior to the effective date of
552.9 the transfer of all authorities and responsibilities from the Department of Human Services
552.10 to Direct Care and Treatment.

552.11 (d) Notwithstanding paragraph (c), existing cases relating to matters under the jurisdiction
552.12 of the executive board must be treated in the same manner as cases relating to matters under
552.13 the jurisdiction of the executive board opened or redetermined after the effective date of
552.14 the transfer of all authorities and responsibilities from the Department of Human Services
552.15 to Direct Care and Treatment or the Department of Children, Youth, and Families.

552.16 Sec. 60. Minnesota Statutes 2024, section 256G.12, subdivision 1, is amended to read:

552.17 Subdivision 1. **Limitation.** A submission to the commissioner of human services; the
552.18 commissioner of children, youth, and families; or the Direct Care and Treatment executive
552.19 board for a determination of financial responsibility must be made within three years from
552.20 the date of application for the program in question or from the date of admission or
552.21 commitment to state or other institutions.

552.22 Sec. 61. Minnesota Statutes 2024, section 260.762, subdivision 2a, is amended to read:

552.23 Subd. 2a. **Required findings that active efforts were provided.** (a) A court shall not
552.24 order a child placement, termination of parental rights, guardianship to the commissioner
552.25 of children, youth, and families under section 260C.325, or temporary or permanent change
552.26 in custody of an Indian child unless the court finds that the child-placing agency or petitioner
552.27 demonstrated that active efforts were made to preserve the Indian child's family. Active
552.28 efforts to preserve the Indian child's family include efforts to prevent placement of the Indian
552.29 child to correct the conditions that led to the placement by ensuring remedial services and
552.30 rehabilitative programs designed to prevent the breakup of the family were provided in a
552.31 manner consistent with the prevailing social and cultural conditions of the Indian child's
552.32 Tribe and in partnership with the Indian child, the Indian child's parents, the Indian custodian,
552.33 extended family members, and Tribe, and that these efforts have proved unsuccessful.

553.1 (b) The court, in determining whether active efforts were made to preserve the Indian
553.2 child's family for purposes of child placement or permanency, shall ensure the provision of
553.3 active efforts designed to correct the conditions that led to the placement of the Indian child
553.4 and shall make findings regarding whether the following activities were appropriate and
553.5 necessary, and whether the child-placing agency or petitioner ensured appropriate and
553.6 meaningful services were available based upon the family's specific needs, whether listed
553.7 in this paragraph or not:

553.8 (1) whether active efforts were made at the earliest point possible to inquire into the
553.9 child's heritage, to identify any federally recognized Indian Tribe the child may be affiliated
553.10 with, to notify all potential Tribes at the earliest point possible, and to request participation
553.11 of the Indian child's Tribe;

553.12 (2) whether a Tribally designated representative with substantial knowledge of the
553.13 prevailing social and cultural standards and child-rearing practices within the Tribal
553.14 community was provided an opportunity to consult with and be involved in any investigations
553.15 or assessments of the family's circumstances, participate in identifying the family's needs,
553.16 and participate in development of any plan to keep the Indian child safely in the home,
553.17 identify services designed to prevent the breakup of the Indian child's family, and to reunify
553.18 the Indian child's family as soon as safety can be assured if out-of-home placement has
553.19 occurred;

553.20 (3) whether the Tribal representative was provided with all information available
553.21 regarding the proceeding, and whether it was requested that the Tribal representative assist
553.22 in identifying services designed to prevent the breakup of the Indian child's family and to
553.23 reunify the Indian child's family as soon as safety can be assured if out-of-home placement
553.24 has occurred;

553.25 (4) whether, before making a decision that may affect an Indian child's safety and
553.26 well-being or when contemplating placement of an Indian child, guidance from the Indian
553.27 child's Tribe was sought regarding family structure, how the family can seek help, what
553.28 family and Tribal resources are available, and what barriers the family faces that could
553.29 threaten the family's preservation;

553.30 (5) whether a Tribal representative was consulted to determine and arrange for visitation
553.31 in the most natural setting that ensures the Indian child's safety, when the Indian child's
553.32 safety requires supervised visitation;

553.33 (6) whether early and ongoing efforts occurred to identify, locate, and include extended
553.34 family members as supports for the Indian child and the Indian child's family;

554.1 (7) whether continued active efforts were made to identify and place the Indian child in
554.2 a home that is compliant with the placement preferences in sections 260.751 to 260.835,
554.3 including whether extended family members were consulted to provide support to the Indian
554.4 child and Indian child's parents; to inform the child-placing agency, petitioner, and court
554.5 as to cultural connections and family structure; to assist in identifying appropriate cultural
554.6 services and supports for the Indian child and Indian child's parents; and to identify and
554.7 serve as placement and permanency resources for the Indian child. If there was difficulty
554.8 contacting or engaging extended family members, whether assistance was sought from the
554.9 Tribe; the Department of Human Services; the Department of Children, Youth, and Families;
554.10 or other agencies with expertise in working with Indian families;

554.11 (8) whether services and resources were provided to extended family members who are
554.12 considered the primary placement option for an Indian child, as agreed upon by the
554.13 child-placing agency or petitioner and the Tribe, to overcome licensing and other barriers
554.14 to providing care to an Indian child. The need for services or resources shall not be a basis
554.15 to exclude an extended family member from consideration as a primary placement. Services
554.16 and resources include but are not limited to child care assistance, financial assistance,
554.17 housing resources, emergency resources, and foster care licensing assistance and resources;

554.18 (9) whether concrete services and access to both Tribal and non-Tribal services were
554.19 provided to the Indian child's parents and Indian custodian and, where necessary, members
554.20 of the Indian child's extended family members who provide support to the Indian child and
554.21 the Indian child's parents; and whether these services were provided in an ongoing manner
554.22 throughout the child-placing agency or petitioner's involvement with the Indian family to
554.23 directly assist the Indian family in accessing and utilizing services to maintain the Indian
554.24 family, or to reunify the Indian family as soon as safety can be assured if out-of-home
554.25 placement has occurred. Services include but are not limited to financial assistance, food,
554.26 housing, health care, transportation, in-home services, community support services, and
554.27 specialized services; and

554.28 (10) whether visitation occurred whenever possible in the home of the Indian child's
554.29 parent, Indian custodian, or extended family member or in another noninstitutional setting
554.30 in order to keep the Indian child in close contact with the Indian child's parents, siblings,
554.31 and other relatives regardless of the Indian child's age and to allow the Indian child and
554.32 those with whom the Indian child visits to have natural, unsupervised interaction when
554.33 consistent with protecting the child's safety.

555.1 Sec. 62. Minnesota Statutes 2024, section 260B.171, subdivision 4, is amended to read:

555.12 (c) The victim of any alleged delinquent act may, upon the victim's request, obtain the
555.13 following information, unless it reasonably appears that the request is prompted by a desire
555.14 on the part of the requester to engage in unlawful activities:

555.15 (1) the name and age of the juvenile;

555.16 (2) the act for which the juvenile was petitioned and date of the offense; and

555.29 any proceeding before the court.

555.30 (e) When a judge of a juvenile court, or duly authorized agent of the court, determines
555.31 under a proceeding under this chapter that a child has violated a state or local law, ordinance,
555.32 or regulation pertaining to the operation of a motor vehicle on streets and highways, except

556.22 Sec. 65. Minnesota Statutes 2024, section 260E.30, subdivision 4, is amended to read:

556.23 Subd. 4. **Mitigating factors in investigating facilities.** (a) When determining whether
556.24 the facility or individual is the responsible party or whether both the facility and the individual
556.25 are responsible for determined maltreatment in a facility, the investigating agency shall
556.26 consider at least the following mitigating factors:

556.27 (1) whether the actions of the facility or the individual caregivers were according to,
556.28 and followed the terms of, an erroneous physician order, prescription, individual care plan,
556.29 or directive; however, this is not a mitigating factor when the facility or caregiver was
556.30 responsible for the issuance of the erroneous order, prescription, individual care plan, or

557.1 directive or knew or should have known of the errors and took no reasonable measures to
557.2 correct the defect before administering care;

557.4 placed upon an employee, including the facility's compliance with related regulatory standards
557.5 and the adequacy of facility policies and procedures, facility training, an individual's

557.9 professional judgment.

557.10 (b) The evaluation of the facility's responsibility under paragraph (a), clause (2), must
557.11 not be based on the completeness of the risk assessment or risk reduction plan required
557.12 under section ~~245A.66~~ 142B.54, but must be based on the facility's compliance with the
557.13 regulatory standards for policies and procedures, training, and supervision as cited in
557.14 Minnesota Statutes and Minnesota Rules.

557.15 (c) Notwithstanding paragraphs (a) and (b), when maltreatment is determined to have
557.16 been committed by an individual who is also the facility license holder, both the individual
557.17 and the facility must be determined responsible for the maltreatment, and both the background
557.18 study disqualification standards under section 245C.15, subdivision 4, and the licensing or
557.19 certification actions under section 142B.16, 142B.18, 142C.06, 142C.07, 245A.06, or
557.20 245A.07 apply.

557.21 Sec. 66. Minnesota Statutes 2024, section 260E.33, subdivision 6, is amended to read:

557.22 Subd. 6. **Contested case hearing.** If a maltreatment determination or a disqualification

557.24 142B.15 or 245A.05 or a licensing sanction under section 142B.18 or 245A.07, the license
557.25 holder has the right to a contested case hearing under chapter 14 and Minnesota Rules, parts
557.26 1400.8505 to 1400.8612. As provided for under section 142B.20, subdivision 3, or 245A.08,
557.27 subdivision 2a, the scope of the contested case hearing shall include the maltreatment
557.28 determination, disqualification, and licensing sanction or denial of a license. In such cases,
557.29 a fair hearing regarding the maltreatment determination and disqualification shall not be
557.30 conducted under section 256.045. Except for family child care and child foster care,
557.31 reconsideration of a maltreatment determination as provided under this subdivision and
557.32 reconsideration of a disqualification as provided under section 245C.22 shall also not be
557.33 conducted when:

(1) a denial of a license under section 142B.15 or 245A.05 or a licensing sanction under section 142B.18 or 245A.07 is based on a determination that the license holder is responsible for maltreatment or the disqualification of a license holder based on serious or recurring maltreatment;

(2) the denial of a license or licensing sanction is issued at the same time as the maltreatment determination or disqualification; and

(3) the license holder appeals the maltreatment determination or disqualification and denial of a license or licensing sanction.

Notwithstanding clauses (1) to (3), if the license holder appeals the maltreatment determination or disqualification but does not appeal the denial of a license or a licensing sanction, reconsideration of the maltreatment determination shall be conducted under subdivision 2 and section 626.557, subdivision 9d, and reconsideration of the disqualification shall be conducted under section 245C.22. In such cases, a fair hearing shall also be conducted as provided under subdivision 2 and sections 245C.27 and 626.557, subdivision 9d.

If the disqualified subject is an individual other than the license holder and upon whom a background study must be conducted under chapter 245C, the hearings of all parties may be consolidated into a single contested case hearing upon consent of all parties and the administrative law judge.

566.2 Subd. 2. **Underperforming county; more than one-half of services.** If the ~~commissioner~~
566.3 ~~determines~~ commissioners determine that a county or service delivery authority is deficient
566.4 in achieving minimum performance thresholds for more than one-half of the defined essential
566.5 human services programs, the ~~commissioner~~ commissioners may impose the following
566.6 remedies:

566.7 (1) voluntary incorporation of the administration and operation of essential human
566.8 services programs with an existing service delivery authority or another county. A service
566.9 delivery authority or county incorporating an underperforming county shall not be financially
566.10 liable for the costs associated with remedying performance outcome deficiencies;

566.11 (2) mandatory incorporation of the administration and operation of essential human
566.12 services programs with an existing service delivery authority or another county. A service
566.13 delivery authority or county incorporating an underperforming county shall not be financially
566.14 liable for the costs associated with remedying performance outcome deficiencies; or

566.15 (3) transfer of authority for administration and operation of essential human services
566.16 programs to the commissioner that oversees each program.

566.17 Sec. 81. Minnesota Statutes 2024, section 402A.18, subdivision 3, is amended to read:

566.18 Subd. 3. **Conditions prior to imposing remedies.** (a) The commissioner shall notify a
566.19 county or service delivery authority that it must submit a performance improvement plan
566.20 if:

566.21 (1) the county or service delivery authority does not meet the minimum performance
566.22 threshold for a measure; or

566.23 (2) the county or service delivery authority has a performance disparity for a racial or
566.24 ethnic subgroup, even if the county or service delivery authority met the threshold for the
566.25 overall population. The council shall make recommendations on performance disparities,
566.26 and the commissioner shall make the final determination.

566.27 (b) When the ~~department~~ commissioner determines that a county or service delivery
566.28 authority does not meet the minimum performance threshold for a given measure, the
566.29 commissioner must advise the county or service delivery authority that fiscal penalties may
566.30 result if the performance does not improve. The ~~department~~ commissioner must offer
566.31 technical assistance to the county or service delivery authority. Within 30 days of the initial
566.32 advisement from the ~~department~~ commissioner, the county or service delivery authority
566.33 may claim and the ~~department~~ commissioner may approve an extenuating circumstance

567.1 that relieves the county or service delivery authority of any further remedy. If a county or
567.2 service delivery authority has a small number of participants in an essential human services
567.3 program such that reliable measurement is not possible, the commissioner may approve
567.4 extenuating circumstances.

567.5 (c) If there are no extenuating circumstances, the county or service delivery authority
567.6 must submit a performance improvement plan to the commissioner within 60 days of the
567.7 initial advisement from the ~~department~~ commissioner. The term of the performance
567.8 improvement plan must be two years, starting with the date the plan is approved by the
567.9 commissioner. This plan must include a target level for improvement for each measure that
567.10 did not meet the minimum performance threshold. The commissioner must approve the
567.11 performance improvement plan within 60 days of submittal.

567.12 (d) The ~~department~~ commissioner must monitor the performance improvement plan for
567.13 two years. After two years, if the county or service delivery authority meets the minimum
567.14 performance threshold, there is no further remedy. If the county or service delivery authority
567.15 fails to meet the minimum performance threshold, but meets the improvement target in the
567.16 performance improvement plan, the county or service delivery authority shall modify the
567.17 performance improvement plan for further improvement and the ~~department~~ commissioner
567.18 shall continue to monitor the plan.

567.19 (e) If, after two years of monitoring, the county or service delivery authority fails to
567.20 meet both the minimum performance threshold and the improvement target identified in
567.21 the performance improvement plan, the next step of the remedies process shall be invoked
567.22 by the commissioner. This phase of the remedies process may include:

567.23 (1) fiscal penalties for the county or service delivery authority that do not exceed one
567.24 percent of the county's human services expenditures and that are negotiated in the
567.25 performance improvement plan, based on what is needed to improve outcomes. Counties
567.26 or service delivery authorities must reinvest the amount of the fiscal penalty into the essential
567.27 human services program that was underperforming. A county or service delivery authority
567.28 shall not be required to pay more than three fiscal penalties in a year; and

567.29 (2) the ~~department's~~ commissioner's provision of technical assistance to the county or
567.30 service delivery authority that is targeted to address the specific performance issues.

567.31 The commissioner shall continue monitoring the performance improvement plan for a third
567.32 year.

567.33 (f) If, after the third year of monitoring, the county or service delivery authority meets
567.34 the minimum performance threshold, there is no further remedy. If the county or service

568.1 delivery authority fails to meet the minimum performance threshold, but meets the
568.2 improvement target for the performance improvement plan, the county or service delivery
568.3 authority shall modify the performance improvement plan for further improvement and the
568.4 ~~department~~ commissioner shall continue to monitor the plan.

568.5 (g) If, after the third year of monitoring, the county or service delivery authority fails to
568.6 meet the minimum performance threshold and the improvement target identified in the
568.7 performance improvement plan, the Human Services Performance Council shall review the
568.8 situation and recommend a course of action to the commissioner.

568.9 (h) If the commissioner has determined that a program has a balanced set of program
568.10 measures and a county or service delivery authority is subject to fiscal penalties for more
568.11 than one-half of the measures for that program, the commissioner may apply further remedies
568.12 as described in subdivisions 1 and 2.

568.13 Sec. 82. Minnesota Statutes 2024, section 402A.18, is amended by adding a subdivision
568.14 to read:

568.15 Subd. 4. **Commissioner jurisdiction.** For purposes of this section, "commissioner"
568.16 means the commissioner of human services or the commissioner of children, youth, and
568.17 families, whichever oversees the program or service at issue. If programs or services overseen
568.18 by both commissioners are at issue, commissioner means both commissioners jointly. A
568.19 commissioner must not take action under this section for a program or service that the
568.20 commissioner does not oversee.

568.21 Sec. 83. Minnesota Statutes 2024, section 402A.35, subdivision 1, is amended to read:

568.22 Subdivision 1. **Requirements for establishing a service delivery authority.** (a) A
568.23 county, tribe, or consortium of counties is eligible to establish a service delivery authority
568.24 if:

568.25 (1) the county, tribe, or consortium of counties is:

568.26 (i) a single county with a population of 55,000 or more;

568.27 (ii) a consortium of counties with a total combined population of 55,000 or more;

568.28 (iii) a consortium of four or more counties in reasonable geographic proximity without
568.29 regard to population; or

568.30 (iv) one or more tribes with a total combined population of 25,000 or more.

569.1 The council may recommend that the ~~commissioner of human services~~ commissioners
569.2 exempt a single county, tribe, or consortium of counties from the minimum population
569.3 standard if the county, tribe, or consortium of counties can demonstrate that it can otherwise
569.4 meet the requirements of this chapter.

569.5 (b) A service delivery authority shall:

569.6 (1) comply with current state and federal law, including any existing federal or state
569.7 performance measures when they are enacted into law, except where waivers are approved
569.8 by the ~~commissioner~~ commissioners;

569.9 (2) define the scope of essential services over which the service delivery authority has
569.10 jurisdiction;

569.11 (3) designate a single administrative structure to oversee the delivery of those services
569.12 included in a proposal for a redesigned service or services and identify a single administrative
569.13 agent for purposes of contact and communication with the department;

569.14 (4) identify the waivers from statutory or rule program requirements that are needed to
569.15 ensure greater local control and flexibility to determine the most cost-effective means of
569.16 achieving specified measurable goals that the participating service delivery authority is
569.17 expected to achieve;

569.18 (5) set forth a reasonable level of targeted reductions in overhead and administrative
569.19 costs for each service delivery authority participating in the service delivery redesign;

569.20 (6) set forth the terms under which a county, tribe, or consortium of counties may
569.21 withdraw from participation. In the case of withdrawal of any or all parties or the dissolution
569.22 of the service delivery authority, the employees shall continue to be represented by the same
569.23 exclusive representative or representatives and continue to be covered by the same collective
569.24 bargaining union agreement until a new agreement is negotiated or the collective bargaining
569.25 agreement term ends; and

569.26 (7) set forth a structure for managing the terms and conditions of employment of the
569.27 employees as provided in section 402A.40.

569.28 (c) Once a county, tribe, or consortium of counties establishes a service delivery authority,
569.29 no county, tribe, or consortium of counties that is a member of the service delivery authority
569.30 may participate as a member of any other service delivery authority. The service delivery
569.31 authority may allow an additional county, a tribe, or a consortium of counties to join the
569.32 service delivery authority subject to the approval of the council and the ~~commissioner~~
569.33 commissioners.

(d) Nothing in this chapter precludes local governments from using sections 465.81 and 465.82 to establish procedures for local governments to merge, with the consent of the voters. Nothing in this chapter limits the authority of a county board or tribal council to enter into contractual agreements for services not covered by the provisions of a memorandum of understanding establishing a service delivery authority with other agencies or with other units of government.

Sec. 84. Minnesota Statutes 2024, section 402A.35, subdivision 4, is amended to read:

(i) the details of the proposal;

(ii) the state, tribal, and local resources, which may include, but are not limited to, funding, administrative and technology support, and other requirements necessary for the service delivery authority; and

(2) a board resolution from the board of commissioners of each participating county stating the county's intent to participate, or in the case of a tribe, a resolution from tribal government, stating the tribe's intent to participate.

(b) After the council has considered and recommended approval of a proposed memorandum of understanding, the ~~commissioner~~ commissioners may finalize and execute the memorandum of understanding.

Sec. 85. Minnesota Statutes 2024, section 402A.35, subdivision 5, is amended to read:

Subd. 5. **Commissioner authority to seek waivers.** The ~~commissioner~~ commissioners may use the authority under section 142A.03, subdivision 2, paragraph (k), or 256.01, subdivision 2, paragraph (k), to grant waivers identified as part of a proposed service delivery authority under subdivision 1, paragraph (b), clause (4), except that waivers granted under this section must be approved by the council under section 402A.20 rather than the Legislative Advisory Committee.

571.2 Subd. 6. **Rent assistance not income.** (a) Notwithstanding any law to the contrary,
571.3 payments under this section must not be considered income, assets, or personal property
571.4 for purposes of determining eligibility or recertifying eligibility for state public assistance,
571.5 including but not limited to:

571.6 (1) child care assistance programs under chapter 142E;

571.12 ~~chapter 142G; and~~

571.13 ~~(5) (6) economic assistance programs under chapter 256P.~~

571.14 (b) The commissioner of human services must not consider rent assistance grant money
571.15 under this section as income or assets under section 256B.056, subdivision 1a, paragraph
571.16 (a); subdivision 3; or subdivision 3c, or for persons with eligibility determined under section
571.17 256B.057, subdivision 3, 3a, or 3b.

571.18 Sec. 87. Minnesota Statutes 2024, section 466.131, is amended to read:
