

02/20/2025

To: Chair Port and members of the Senate Housing & Homelessness Prevention Committee

From: Nathaniel Saltz, Chief Program Officer, Minnesota Assistance Council for Veterans

Chair Port and Committee Members:

I am writing on behalf of Minnesota Assistance Council for Veterans to express our strong support for SF 2214/HF 2276, appropriating funding for the Minnesota Homeless Study. The study has been a critical resource in understanding and addressing homelessness in Minnesota since 1991. It is unique in the United States in its partnership with tribal communities, as well as the comprehensive nature of the publicly available data collected over more than 30 years. The study is used to prioritize needs, identify systemic issues, and improve programs and policies to address homelessness in our state. Investment in this study represents incredible value, as the information is used to leverage and prioritize multiple other policies for Minnesotans impacted by homelessness and ensure that investments made are impactful long-term. Minnesota Assistance Council for Veterans uses the data from this study to track trends and identify and address needs in the veteran homelessness response system.

The Minnesota Homeless Study and the companion Veteran Homeless Study are invaluable resources for anyone working to address homelessness and housing instability across the state. This includes state, county, and city officials, homeless service providers who are on the front lines supporting those individuals and communities most impacted by homelessness, and organizations that homeless individuals and families access for non-housing related services, such as healthcare, transportation services, and schools. The Minnesota Assistance Council for Veterans calls on the committee to pass SF 2214/HF 2276 to ensure that the state continues to benefit from the insights provided by Minnesota Homeless Study data.

Sincerely,

Nathaniel Saltz
Chief Program Officer
