Date: March 25, 2025

Section 1. (Creates new section, 116L.36) **Grantee evaluations.** Beginning January 15, 2026, requires the commissioner of employment and economic development to submit an annual report to the legislature detailing organizations that received workforce development grants. The report must include grant amounts, prior funding, job placement statistics, cost-effectiveness, and charitable giving ratios. Directs grantees serving non-Minnesota residents to explain their funding use to provide services to non-residents. Exempts certain grantees without measurable outcomes from some reporting requirements.
