Section 1 adds a cross-reference to **section 3** in chapter 13 for data on restorative practices program participants.

Section 2 amends the reporting requirement for the Restorative Practices Office to require data on recidivism, public safety impacts, and financial investments in restorative practices.

Section 3 prohibits a restorative practice participant from disclosing any communication, document, or other information made or used in the course of or because of restorative practice. Specifies that the prohibition does not exempt mandatory reporters from complying with the provisions requiring reporting of maltreatment of children or vulnerable adults. Disclosure of information necessary to prevent reasonably certain death, great bodily harm, or criminal activity or information related to professional misconduct by a participant is not prohibited. Allows disclosure of information to verify to a court that a person ordered to participate in a program is participating. Classifies government data on restorative practice participants as private data on individuals.
