# EMR EXPLORATIONS

This course preps 11th-12th grade students to become certified Emergency Medical Responders through hands-on training and knowledge in anatomy, medical emergencies, and trauma care. Open to any student in the state of Minnesota. Flexible and will fit into any schedule.

- Hands-on training in emergency medical care and life-saving techniques
- Study of basic anatomy, physiology, and trauma care
- Preparation for real-world medical emergencies
- Certification opportunity as an Emergency Medical Responder (EMR)
- Open to 11th and 12th-grade students

*With these skills, you could build a future in emergency medical services, healthcare, firefighting, or any first responder career.*
