

Regional Exhibition Center State Sales Tax Exemption

OLMSTED COUNTY MINNESOTA

Olmsted County requests a state sales tax exemption for construction materials, supplies, and equipment needed to construct the Graham Park Regional Exhibition Center and connected outdoor site improvements. The project will provide communities in the region more space for events and entertainment, bring in new tourists, and boost the regional economy.

Graham Park Regional Exhibition Center and outdoor improvements site plan.

The total project cost is \$42,000,000. Olmsted County is grateful for the 2023 state bonding appropriation of \$8 million to help support this regional asset. The state sales tax exemption will provide additional support to our local communities by reducing the cost of the project by approximately \$1,000,000.
