April 21, 2026

Dear Chair Marty, Vice Chair Frentz, Senator Pratt, and Additional Members of the Senate Finance Committee,

On behalf of Healthy Community Initiative (HCI), thank you Chair Marty, Vice Chair Frentz, Senator Pratt and additional Committee members for your service at the Capitol and your attention to the housing challenges that Minnesota residents face each day.

We are writing today in support of Senate File #203– Manufactured Home Residents Bill of Rights portion of the Housing Omnibus Bill. As an organization, HCI recognizes the critical role that housing plays in our mission to cultivate transformative health, education, and career outcomes through collaboration, innovation and continuous learning. In particular, many of the youth and families our organization serves live in manufactured housing. This bill would expand vital protections to these residents and families in our community.

We respectfully urge you to vote in support of Senate File #203 – Manufactured Residents Bill of Rights portion of the Housing Omnibus Bill. Thank you for your time and consideration.

Thank you!

Emily Culver
