

STATE ELECTION IN 1892.

The political contest of 1892 brought four distinct parties into the field. The so-called Australian ballot law, enacted by the legislature of 1891, governed throughout the state. The platforms adopted by the respective political parties follow in the order in which the political conventions, nominating presidential electors, were held: "Republican," "Prohibition," "Democratic," and "Peoples Party." The "Peoples Party," not having been previously a political party under the terms of the law, filed with the secretary of state certificates of nomination of candidates signed by the required per cent. of resident electors. The "Alliance" party of 1890 held a convention for the nomination of state officers, and did nominate James H. Baker for governor and adopted a platform, but placed no ticket in the field.

REPUBLICAN STATE PLATFORM.

DECLARATION OF PRINCIPLES ADOPTED JULY 28, 1892, AT ST. PAUL.

The Republicans of Minnesota, through their delegates in convention assembled, do affirm and declare as follows:

First—We indorse and approve the platform of the Republican national convention adopted at Minneapolis, June 10, 1892.

Second—We indorse the wise, pure, firm and intensely American administration of President Harrison.

Third—From its very infancy and for upwards of a quarter of a century our state has been managed and guided by men and principles of the Republican party. During that period the state has grown from a mere out-post of scattered settlements to a commonwealth of 1,500,000 souls, prosperous and aggressive, and equal in moral, intellectual and commercial vigor to the best of the older states. Such a people, so prosperous and so growing, have not been badly governed. Our state administrations have been clean, able and loyal to the best interests of the people. The administration of Gov. William R. Merriam has been in no way inferior to those of his predecessors, and may justly be regarded as a model of faithfulness to a great public trust.

Fourth—Recognizing that in some states force and fraud are used to defeat the expression of the people, the Republicans of Minnesota are in favor of all wise means to secure to every citizen a free ballot and a free count.

Fifth—Trusts and combinations to control and unduly enhance the price of commodities are a great evil, the outgrowth of human cupidity, and exist in all civilized communities, regardless of all tariff laws. We are opposed to the same and in favor of all proper legislation to eradicate and repress the evil. In this connection we refer with pride to the establishment and maintenance at the state prison at Stillwater of the manufacture of binding twine, which has been the means of protecting and defending our farmers against one of the great trusts and monopolies.

Sixth—We believe in protecting the laboring man by all necessary and judicious legislation, and to this end we favor the enactment of suitable laws to protect the health, life and limb of all employees of transportation, mining and manufacturing companies while engaged in the service of such companies; (2) the establishment, in some form, of board or tribunals of conciliation and arbitration for the peaceful settlement of all disputes and disagreements between capital and labor touching wages, hours of labor and such questions as pertain to the safety and physical and moral well-being of the laborer; (3) the exclusion from our shores by suitable laws and regulations of all paupers, criminals, contract labor and other dangerous classes; and (4) the preservation of the public domain for actual and bona fide settlers under the homestead law.

Seventh—Whenever the civil power, through its proper officers, is unable to preserve the peace and to properly protect life and property, and a resort to force becomes necessary, we believe that such forces, whether constabulary or military, should be resorted to and used only by the state. We regard the employment of armed forces by other than the proper authorities of the state as un-American and tending to promote lawlessness and a breach of the peace.

Eighth—The farmers of this state, who constitute the chief element of our productive, wealth-creating population, are entitled to the cheapest and best facilities for storing, shipping and marketing their products, and to this end we favor such laws as will give them cheap, safe and easily obtainable elevator and warehouse facilities, and will furnish them promptly and without discrimination, at fair and reasonable rates, proper transportation facilities to all accessible markets.

Ninth—Railroad, telegraph and telephone companies, and all other corporations or individuals charged with and performing any public service or employment, are amenable to public control, and we favor the enactment and enforcement of such laws as will compel them to render the best and most approved service at a fair, just and reasonable rate without discrimination as to persons or places.

Tenth—Realizing the importance to the people of good public highways, we are in favor of the enactment of laws for the systematic improvement and maintenance of the same.

Eleventh--The Republicans of the state are heartily in favor of the protection of its forests so far as consistent with its general interests.

Twelfth—This convention approves and re-adopts the resolution passed by the last Republican state convention, urging upon congress the passage of the Washburn-Hatch anti-option bill.

PROHIBITION STATE PLATFORM.

ADOPTED AT HARMONIA HALL, MINNEAPOLIS, MAY 31, 1892.

Recognizing the necessity of Divine guidance to a wise administration, and believing that all government should be conducted for the common welfare of the people, we make the following declaration of principles:

The overshadowing question of the times is the suppression of the liquor traffic. The organized liquor traffic is the most formidable, insidious and dangerous of all foes of good government, social order and material prosperity.

We therefore demand the repeal by the state of all laws licensing, permitting the traffic in intoxicants, or deriving any revenue therefrom, and the absolute prohibition of their manufacture and sale for beverage purposes.

We also demand the entire prohibition by the federal government within its jurisdiction of the importation, exportation and manufacture of intoxicants and all traffic therein for beverage purposes, and also the repeal of all federal laws storing or taxing intoxicants, or licensing or permitting their manufacture, importation or sale for beverage purposes or deriving any revenue therefrom, and the enactment of adequate laws preventing the transportation thereof into states having prohibitory laws, to be used contrary to the laws of such states.

We believe that all laws legalizing the saloon are in direct conflict with the objects set forth in the preamble to the Constitution of the United States and of the several states, and such laws should be, and we believe will be, declared void.

We believe in the political equality of all men and women, and in the right and duty of all citizens of proper age, possessed of adequate intelligence and education (not disqualified by crime), to share in the honors and responsibilities of government, including the elective franchise, without distinction of race or sex; but suffrage should be based upon full citizenship and a proper educational qualification. We favor the Australian system, so framed as to insure equal justice to all political parties and a free official ballot at public expense; and we denounce the political chicanery of the old party legislators in certain states that seek, by incorporation of unjust features into the system, to disfranchise voters of weaker organizations, or so discriminate against them as to render it extremely difficult for them to freely exercise their right of suffrage.

We favor the election of president, vice-president and United States senators by direct vote of the people.

We demand the abolition of official patronage and the wretched "spoils of office" system, and the placing of the civil service upon a basis of merit alone, under supervision of a competent pan-partisan commission, the inhibition of all class legislation, and of the improvident granting away (or leasing) of people's franchises, the public domain, the state mineral lands, or other resources of the people; the suppression of lotteries, of gambling in options, futures, produce and stocks, and of all combinations for the control of production, transportation, or the people's markets.

Money should be in gold and silver, and of treasury notes redeemable in gold or silver at the option of the government; and all money should be equally a legal tender for all purposes. It should be issued by the general government only, and the volume of the currency should be increased to an amount sufficient to meet all the demands of the nation's business and to relieve all embarrassing monetary stringency.

The accumulation of vast fortunes, the centralization of wealth into a few hands the enormous increase of corporate wealth and power, and the acquisition of vast possessions in lands, should be discouraged as against public policy; and alien ownership thereof, land monopolies, and the holding of lands by railroad corporations free from taxation should be prohibited. The public lands should be appropriated in limited quantities to actual settlers only, and the distribution of real estate in small holdings in fee among the people should be aided and encouraged by the government, as a promoter of good citizenship and the general public welfare.

Every one enjoying the protection of government should share in the burdens of taxation for its support in proportion to his ability to bear them and to the magnitude of his material interests protected; and to permit the wealthy to evade this duty of fealty is to encourage the malign spirit of disloyalty and oppression.

We favor a graduated tax annually by the government upon all incomes above a reasonable exemption, upon the corporate property of every corporation exceeding such amount, not so already taxed; and we favor such amendment of the state laws as will effectually subject all private property, in excess of a reasonable exemption, including that of railroad companies, to a just proportion of all taxes.

We are opposed to all covert indirect taxation permitting the ostensible payer thereof to exact it again, with additional, and often oppressive, tribute from the consumers of the necessities of life; except only such duties upon imports as are made expedient or necessary by the conditions of discriminating tariffs imposed by foreign governments, and of differences of wages and cost of production; and the duties so imposed should be adjusted from time to time by a permanent pan-partisan commission of expert business men, upon the basis of an equitable adjustment of those differences only, and in the spirit of true reciprocity with all nations, and not with such countries as promise special advantages to favored classes.

Railroads should be made in the fullest sense public highways, and should be controlled in their management and rates, for the equal interest of all people, on the basis of a reasonable compensation to transportation companies in view of their actual necessary investments (not including any watered stock), and the state should in due time become the owner of the railroads as highways.

We also favor the establishment and control, by the Federal government, of a general postal telegraph and telephone system, and of postal savings bank under the management of the post office department, in the interest of the people.

We demand the complete suppression of polygamy, the social evil, and the indecent publication of scandalous details of immorality and crime; the entire equality of the sexes, before the law and in the field of industry, the vigilant protection of womanly virtue, the increasing of the "age of consent" to sixteen years; rigid and humane restriction and regulation in the employment of child labor; enforced, radical, healthful and just reform in labor employments, wherever needed in the promotion of justice, health and good morals; the settlement of disputes between capital and labor, or between employers and employees, by arbitration upon principles of mutual justice and equity.

We believe in the maintenance and constant improvement of free, public schools, with free text books, for universal and mandatory education of the youth, including scientific instruction in the nature and evil effects of alcohol upon the human system, the complete separation of the public schools and all educational funds from the use or the control of every religious sect, or association; the protection alike of all sects

by equal laws, with entire freedom of faith and worship, and the preservation, and the guaranty to all persons, of a weekly Sabbath day of rest, in accordance with their own conscientious views as to the day to be observed.

As a check upon the corrupting power of the moneyed lobby and the alarming venality of municipal and legislative bodies, we favor a judicious referendum system, in state and municipal legislation touching police regulations and the political, economical and industrial interests of the people.

We denounce the barbarous practice of hanging, shooting and burning supposed criminals without trial by jury, especially as now practised on the colored citizens of this country.

Resolutions were passed as follows:

We most cordially commend the WESTERN LEADER, our English party organ, as an able and fearless representative of our party and its principles, and do declare our willingness to support and extend its influence, and increase its subscription list.

Resolved, That we do most sincerely appreciate the noble stand taken in behalf of the Prohibition cause and of the Prohibition party by the Scandinavian citizens of the state, and especially do we prize the aid given us by their newspapers and other publications.

DEMOCRATIC STATE PLATFORM.

PRINCIPLES ENUNCIATED AT THE CONVENTION AT MINNEAPOLIS, AUGUST 3.

The Democrats of Minnesota, gathered in delegate convention, mingle their rejoicing with that of their fellows in the nation, that the earnest voice of the rank and file of the party was heard and obeyed by the national convention, and found expression in the nomination of able and courageous Cleveland for our leader, and in the bold, explicit declaration that "Republican protection is a fraud," in proof of which we point to Homestead, where the militia of a state is keeping peace in a quarrel over the spoils between the real and the supposed beneficiaries of protection.

Second—We denounce the rapacious and conscienceless combination which has grown up in this state with the connivance of Republican legislatures between the elevator companies, the millers and the railroads, by which our grain markets have been monopolized and our farmers robbed of the fruits of their hard labors. We reaffirm our belief that this combination rests upon the fact that the railroads of this state have abjured one of their primary functions, the provision of suitable means of handling grain, and have given the same over to the control of private persons; and we again declare our belief that the remedy, simple but efficacious, lies in legislation requiring the roads to resume this proper function, thus giving to every station a free and open market.

Third—We recognize the great conspicuous fact that the property of the government rests upon labor, and that all legislation should be shaped, so far as possible, to relieve it from all unjust and oppressive burdens, and secure to it its just share of the benefits of our general prosperity.

Fourth—We are opposed to state interference with parental rights and rights of conscience in the education of children, as an infringement on the fundamental Democratic doctrine, that the largest individual liberty, consistent with the rights of others, insures the highest type of American citizenship and best government.

Fifth—We again call the attention of the voters to the manifest injustice and inequality of our tax laws, under which wealth easily evades its share of the public burdens and compels moderate accumulations to bear the part it shirks; and we again invite the coming legislature to a serious consideration of the subject, to the end that a just, evenly bearing system may be adopted.

Sixth—The Democratic party has always been and is to-day the consistent opponent of all legislation the result of which is to create law-made wealth which impoverishes the poor and those of moderate means in order to enrich the few. We condemn all use of the taxing power for this purpose. We call the attention of the people of this state to the fact that the mineral wealth of the northern part of this state is not bearing its just share of the public burdens. The non-resident millionaires who own iron mines whose value is, at a moderate estimate, \$20,000,000, pay less than \$9,000 per annum in taxes. In exchange for the votes of 2,000 employees, coerced into voting the Republican ticket, the Republican party has covenanted to perpetuate this system, and to deliver to these men the government of one of the counties of this state.

We demand that this condition of things be rectified. We denounce all bounties and exemptions, and demand that all taxes to be raised in this state shall be as nearly equal as may be, and that all property on which taxes are to be levied shall have a cash valuation and be equalized and uniform throughout the state. And we call upon all good citizens, without distinction of party, to join with us in defeating the proposed constitutional amendment known as chapter 2 of the General Laws of 1891, to be voted upon this fall, which seeks to perpetuate this unjust system of taxation, and while it pretends to levy taxes upon sleeping car and other similar corporations, it repeals the existing constitutional tax of 3 per cent. upon the gross earnings of our railroads, now realizing for the state a revenue of \$725,000, and annually increasing, and places the rate of taxation upon the earnings of such railroads at the caprice of the legislature.

We especially call attention to and denounce the form of the ballot for this proposed amendment to be voted on at the coming election, which is known as "Senate File No. 124," as being especially designed to mislead the voters. And we call upon all honest citizens to assist in rebuking such trickery.

Seventh—We are in favor of a radical change in the laws of this state, and demand such legislation as will provide for intelligent and economical supervision of the building and maintenance of our country roads.

Eighth—For the better security of our government we recommend an amendment to the federal constitution extending the presidential term to six years, and making a president ineligible for re-election. We favor also the election of president and vice-president and senators of the United States by a direct vote of the people.

The following resolution, apart from the platform, was adopted:

Believing the contract system in force in the state penitentiary to be wrong in principle, prejudicial to the interests of the state, the welfare of the convicts, and an injustice to honest labor, we demand its discontinuance at the expiration of the present contracts, and that the legislature prohibit any future contracts and provide for the employment by the state, and for the state, of all convicts and persons confined in penal and reformatory institutions of the state.

PEOPLES PARTY STATE PLATFORM.

Resolved, That the Peoples Party of Minnesota affirms and emphasizes the principles and demands of our national platform, and declares its faith in the ability and integrity of our candidates for president and vice-president. We pledge to the citizens of Minnesota the fidelity of the nominees of this convention to the principles of reform, embracing an immediate and radical change in the state control of corporations and transportation facilities, with direct reference to the grain traffic and state taxation.

Resolved, That the constitution should be so amended that the people shall have the right to have all laws referred back to them for approval or disapproval.

WHEREAS, It appears from sworn testimony that gigantic frauds are perpetrated upon the grain growers of Minnesota under our present system of grain inspection and warehousing, therefore,

Resolved, That we demand that the transportation companies shall provide suitable shipping and warehousing facilities at every station on their lines; also, that the state shall erect terminal elevators at Minneapolis, St. Paul and Duluth for the public storage of grain.

Resolved, That we extend our sympathy to the oppressed workmen at Homestead, Pa., and all over the United States, in their fight against the oppressions of monopolistic employers, and we urge them to join with us in an attempt to overthrow at the polls our common enemy, the monopolistic millionaires, who are now, through their control of the government and the industries of a country, rapidly and surely reducing the people to a condition of political and industrial slavery.

WHEREAS, We believe there is corruption caused by the forming of political rings by officeholders, therefore be it

Resolved, That no man holding a salaried office shall have a right to become a delegate to a convention or serve as a committeeman.

Resolved, That we believe it should be the duty of the legislature to submit to the vote of the people any amendments to the constitution that are demanded by a reasonable number of the voters of the state.

ALLIANCE PLATFORM.

The Alliance party in Minnesota, in convention assembled, reaffirms its faith in Alliance principles as set forth in the platform of 1890. These principles gave us the unparalleled success of the year, and to discard, or substitute ill-advised measures in their place, weakens our cause and alienates our people. We, therefore, re-declare our faith in the following propositions:

First—We affirm our hostility to every species of class legislation, and demand that such as now exists shall be swept from the statutes. Equal justice to every citizen and special privilege to none, should control the letter and spirit of all legislation.

Second—We denounce the present cunningly devised scheme of a protective tariff as the most vicious form of class legislation, with a sole purpose in its use to build up some interest at the expense of all the others; and, therefore, we insist on radical reduction of tariff taxation.

Third—We demand a gradual increase of the national money for the people, to the minimum of \$50 per capita; and as a part of this increase we favor the issuance of legal tender treasury notes in sufficient volume to transact the growing business of the country on a cash basis without damage or advantage to any class; such notes to be a legal tender in payment of all debts, and to be paid out by the government for all purposes and to all classes of the people; and we insist that silver shall have all the rights in coinage, and the qualities of legal tender which gold possesses, as our fathers did before us.

THE WHEAT QUESTION.

Fourth—The wheat question is the paramount issue in this state, and by its importance overshadowing all other interests. We call especial attention to the minority report made by E. J. Moore, of the committee appointed by the last legislature to investigate the public elevators of the state. The evidence is sufficient to convince unprejudiced minds that the price of wheat is arbitrarily fixed each day and sent to producing points throughout the Northwest; also that the powerful combine embraces this entire continent, reaching to Liverpool and thence to continental Europe. To meet this gigantic trust the efforts of individual enterprise are futile, and all the natural laws of supply and demand are ignored. Therefore we invoke the power of the state, and ask our next legislature to make sufficient appropriation for the erection of elevators at deep water on Lake Superior where grain can be stored, unmixed, at a nominal cost by individual producers, awaiting sale and shipment to the markets of the world. We call attention to the report of the chief inspector, which shows that over \$80,000 of a surplus has accumulated from the weighing and inspection of grain. We ask that this fund be applied to this purpose. We also ask that whatever change is made in the grain laws that the inspecting and weighing of grain by the state shall be extended to the country stations. It is of the utmost importance to the wheat producers of this state that all farmers have equal facilities for reaching the tracks of railroads at country stations, and that a law be passed making it the duty absolute of every railway corporation, company or association, now or at any future time operating a railroad or acting as a common carrier, to furnish side track facilities for erection of private elevators or warehouses of a capacity of not less than 5,000 bushels each for the storage of grain awaiting shipment on such line of railway, and to permit and allow such elevators to be erected and controlled by any person, association or corporation desiring to erect, maintain, control and operate the same for said purpose, and further making it the duty of such railway to receive, transport and carry over its line promptly all grain offered for shipment in car lots without previous storage, and as offered.

THE "PASS" MUST GO.

Fifth—We insist that all forms of discrimination by railway corporations, including free passes, transient rates and terminal charges shall cease; and we demand such a schedule of charges as shall be based on actual cost with necessary expense and not on watered stocks; and we believe that both the state and nation should control such corporations with renewed vigor and force.

Sixth—We demand a radical reform in the present unequal system of taxation; that hidden property be made to pay equal taxes with visible property; that mortgage indebtedness be deducted from the tax on realty; that an equitable system of graduated tax on incomes shall be established, and also a residuary tax upon great estates.

Seventh—We favor a material reduction of interest and demand that severe penalties be attached to the practice of usury.

Eighth—We ask of congress the passage of laws prohibiting the alien ownership of lands, and if possible to reclaim all so held by alien and foreign syndicates, and all held by railroad companies in excess of that absolutely necessary, and that these and all other lands be held for actual settlers only; and we favor protection to our forests.

Ninth—We believe that the government should own and operate the telegraph and telephone lines as part of the postal system.

Tenth—We favor laws for the suppression of option gambling and the abolition of all forms of trusts and combines.

CAPITAL VS. LABOR.

Eleventh—We demand the repeal of all laws which place capital above labor, and we favor an equitable lien law, a better convict labor law, a factory inspection law, an employers' liability act, the prohibiting the employment of children under fifteen years of age, free text books for public schools, and the eight-hour work day on all national, state or municipal work.

Twelfth—Regarding life as more sacred than property we hold that neither corporations nor private persons shall be permitted to retain in their employ armed bodies of men to take life for the sake of defending property.

Thirteenth—We demand a more vigorous immigration policy, to the end that European paupers, criminals and vicious classes shall not be permitted to enter this republic, and that protected interests shall be prohibited from importing labor to compete with free American labor.

Fourteenth—We insist that all great officers of the government whose duties directly affect the interests of the people, shall be made elective by the popular vote, and the president and vice-president of the United States should not be eligible to a second term.

Fifteenth—As the improvement of the public highways is of the most vital importance to all the people of the state, we therefore demand an immediate revision of our road law; and as an aid to such improvement, without increasing the farmers' taxes, we favor the appropriation of one-half of all moneys from the sale of liquor licenses so long as such laws exist, and a state tax on inheritances for the benefit of the fund for the betterment of the public roads.

Sixteenth—We hold the war for the union to be closed, and its issues adjusted therefore we oppose force bills, and all other measures calculated to reopen the fountains of bitterness, or renew fraternal strife.

Seventeenth—We do not believe that the Union soldier should receive all reward in gratitude, but that he richly deserves liberal pensions and tender care for his illustrious services.

Eighteenth—We favor the nationalization of the liquor traffic, the co-operative union of all the agricultural and laboring classes in this state and nation for the purpose of carrying into effect these principles, and we call upon every thoughtful and conservative member of the Alliance in Minnesota to assert his manhood and preserve his consistency in standing by the old and approved principles for which he has hitherto so nobly contended, and thus again secure success and save the Alliance from destruction by internal foes.

WHEREAS, Our fellow-laborers at Homestead, Pa., have been shot down by hired Pinkertons while engaged in a strike for living wages,

WHEREAS, Carnegie & Co.'s conduct in the affair is in keeping with the policy of the entire plutocratic ring of the country; and

WHEREAS, The strikers had exhibited long-suffering forbearance, seeking to adjust the pending difficulties without loss of property or life, until it became necessary to defend themselves against the armed detectives; therefore,

Resolved, That we hold Carnegie & Co. responsible for this bloody affray.

Resolved, That the event, deplorable as it is, but reveals the stern fact that something is wrong in the relation of labor with capital, and that it becomes the duty of orderly people, irrespective of party, to dispassionately inquire into the cause of such troubles, with a view to adjust them without recourse, if possible, to arms.

Resolved, That in the event of a strike or lock-out the state or national government should take possession of the property involved so as to prevent loss or bloodshed, leaving the civil authorities to settle the troubles satisfactorily to all parties concerned.
