STATE OF MINNESOTA MINNESOTA HIGHER EDUCATION COORDINATING BOARD

In the Matter of the Proposed Rules Governing Foreign Student Assistance Program, State Grants, Work Study Grants, and Prenursing Grant Program (Minn. Rules 4800.8100-4800.8800, 4830.0200-4830.0600, 4830.2300-4830.2600, 4830.8510-4830.8580) STATEMENTS OF NEED AND REASONABLENESS

SECTION I: AUTHORITY TO PRESCRIBE RULES

The Minnesota Higher Education Coordinating Board is authorized by statute to adopt policies and prescribe rules and regulations for student financial aid programs, including state grants, foreign student assistance, work study grants, and prenursing grants [Minnesota Statutes 1990, 136A.04, Subd. 1(9) and 136A.16].

SECTION II: BACKGROUND

Most of the proposed changes are due to 1991 statutory changes. In order that the rules correctly reflect the current statutory regulations, the rules must be changed through the proposed rulemaking action. Minor grammatical and punctuation changes are to "clean up" the current language for clarity and understanding. Sections governing types of foreign student assistance no longer operationable due to statutory repeal have been deleted for clarity and correctness. Appropriate language changes have been made to reflect current operating procedures, and to ensure that all students are treated equitably in the determination of eligibility for state financial aid programs. Modifications, additions, or deletions to current rules protect the rights of all students applying for such assistance, and attempt to clarify program operations for financial aid officers handling the disbursement of state financial aid monies to eligible students.

SECTION III: PROPOSED CHANGES

The proposed changes to current rules are summarized below:

Foreign Student Assistance Program

- * Delete subpart defining the allocation formula since the Board no longer makes allocations for any type of foreign student assistance. The statutory language pertinent to any such allocations was repealed in 1983.
- * Delete words "grant-in-aid" and add "grant." This is due to a statutory change when referencing the State Grant Program.

- * Delete the incorrect numbering and add the correct numbering of the agency rules pertaining to "eligible institutions" due to the re-numbering of the rules. This is necessary for citation correctness.
- * Delete the definition of "participating institutions" since the type of assistance referenced in the definition is no longer available due to the repeal of statutory language.
- * Delete words "grant-in-aid" and add "grant." This is due to a statutory change when referencing the State Grant Program.
- * Delete definition of "unexpected financial needs". This definition is no longer pertinent to the remaining type of financial assistance under this program.
- * Delete language referring to specific duties and actions of the executive director related to types of assistance no longer operational due to statutory repeals.
- * Delete words "grant-in-aid" and add "grant." This is due to a statutory change when referencing the State Grant Program.
- * Delete section on "unexpected financial need" because this type of assistance was statutorily repealed.
- * Delete section on "terms of loans and grants" due to statuory repeal. All pertinent repayments to the Board have been made, and therefore this section is unnecessary.
- * Delete section on "allocation of funds" because the Board no longer makes any program allocations to institutions. All such types of assistance have been terminated by statutory repeal.
- * Delete section on "disbursement of funds" because the Board no longer makes any disbursements to institutions due to statutory repeal of any such assistance.

State Grants

- * Delete words which allow an exception to one of the requirements for student eligibility. This change is required by statute and clarifies the student eligibility requirements for this program.
- * Delete and add language pertaining to the type of porgram a student must be pursuing for state grant eligibility. This change is to avoid confusion and to clarify this eligibility requirement.
- * Delete/add conjunction "and" for grammatical purposes.
- * Add requirement that a state grant initial awardee must not be more than 30 days in arrears for any child support payments or is complying with a payment plan for arrearages. This is a statutory change.

- * Add and delete language pertaining to "satisfactory academic progress," which is necessitated by a statutory language change.
- * Add requirement that a state grant renewal awardee must not be more than 30 days in arrears for any child support payments or is complying with a payment plan for arrreages. This is a statutory change.

Work Study Grants

- * Delete and add language specifying item letters pertaining to student eligibility for completeness and correctness of reference.
- * Delete the number "20" and add the number "30" in the subpart on "hourly wages" due to statutory change.

Prenursing Grants

* Add language specifying minimum award amount for clarity, and to reflect current program operating procedures.

CHAPTER II: Part-by-Part Explanation
