FOREWORD

The original Minnesota law providing for the registration of Architects, Engineers and Land Surveyors was passed by the State Legislature in 1921. It was subsequently amended in 1933 and in 1945. The purpose of the law is to safeguard life, health, and property and to promote the public welfare by requiring that any person in either public or private capacity practicing or offering to practice Architecture, Engineering or Land Surveying, shall be registered. The provisions of the law have raised the standard of these professional services in connection with the planning, design and supervision of public and private structures and works so as to widely affect a large proportion of the population in our State. At the present time all of the states and territories excepting the District of Columbia have laws governing the registration of Professional Engineers. Most of the states and territories have similar laws governing the registration of Architects and Land Surveyors.

The reason for registering Architects, Engineers and Land Surveyors is not to form a closed corporation of these professions with the object of restricting the number practicing. On the contrary, the purpose of registration, as the Board interprets it, is to make the operation of such a law a benefit to the general public.

The fundamental aims and objectives are: first, to protect the public; second, to raise the ethical and technical standards of the professions. The objectives are both to be attained by barring from practice men who have not had sufficient background of education and experience to properly equip them for professional practice. Many other professions serving the public have been regulated by legislative act for many years. It is our belief that the public has received tangible and direct benefits from this regulation. Likewise, the public has benefited from the registration of Architects, Engineers and Land Surveyors in materially safeguarding life, health, and property.

We have endeavored to make this Roster as nearly correct as possible including all names of those authorized to practice as of December 31, 1947. It has frequently been called to the attention of registrants that unless renewed, registration expires on December 31 of each year. Oversights and delays in replying, together with incorrect addresses, have occasionally resulted in omission of some names from the Roster. Following December 31, the renewal fee and penalty is \$5.00 for an Architect or Engineer and \$2.00 for a Land Surveyor. In some cases communications are returned with the post office stamp "address unknown." Information relative to deceased registrants is particularly meager. It is suggested that the Board be given your wholehearted cooperation in keeping the Roster up to date.

Attention is called to the fact that a Roster of Engineers-in-Training is carried following the professional Roster. All of these Engineers-in-Training have successfully passed a written examination upon graduation and will be enrolled as Engineers in Training for a period of not to exceed ten years or to such time within ten years as they complete their final examination for full professional status.

A supplement to the Year Book is being prepared and will be issued later in 1948. This supplement will supply a statistical analysis of the data pertinent to registrants appearing in the Roster, giving the number registered and practicing in each classification, together with the character of practice, educational qualifications and other information. This supplement is being prepared by the Board at the request of numerous individuals and professional societies.

SECTIONS 326.02 TO 326.16 INCLUSIVE, AND SECTION 326.53,

MINNESOTA STATUTES FOR 1941, AS AMENDED BY CHAPTER 380, LAWS OF 1945

Sec. 326.02. Registration of Architects, Engineers and Surveyors. Subdivision 1. Registration mandatory.—In order to safeguard life, health, and property, and to promote the public welfare, any person in either public or private capacity practicing, or offering to practice, architecture, professional engineering, or land surveying in this State, either as an individual, a co-partner, or as agent of another, shall be registered as hereinafter provided. It shall be unlawful for any person to practice, or to offer to practice, in this State, architecture, professional engineering, or land surveying, or to solicit or to contract to furnish work within the terms of Sections 326.02 to 326.16, or to use in connection with his name, or to otherwise assume, use or advertise any title or description tending to convey the impression that he is an architect, professional engineer (hereinafter called engineer) or land surveyor, unless such person is qualified by registration under Sections 326.02 to 326.16.

Subd. 2. Qualification Requirements.—Any person shall be deemed to be practicing architecture, within the meaning of Sections 326.02 to 326.16, who holds himself out as able to perform or who does perform any professional service, such as planning, design, or supervision of construction for the purpose of compliance with specifications and design, in connection with any private or public buildings, structures or projects, or the equipment or utilities thereof, or the accessories thereto, wherein the safeguarding of life, health, or property is concerned or involved, when such professional service requires the application of the art and science of construction based upon the principles of mathematics, aesthetics, and the physical sciences, acquired by education or training.

Subd. 3. Persons Qualified.—Any person shall be deemed to be practicing professional engineering within the meaning of Sections 326.02 to 326.16 who shall furnish any technical professional service, such as planning, design or supervision of construction for the purpose of assuring compliance with specifications and design, in connection with any public or private structures, buildings, utilities, machines, equipment, processes, works, or projects, wherein the public welfare or the safeguarding of life, health, or property is concerned or involved, when such professional service requires the application of the principles of mathematics and the physical sciences, acquired by education or training.

Subd. 4. Practice Defined.—Any person shall be deemed to be practicing land surveying within the meaning of Sections 326.02 to 326.16 who makes any survey for the establishment or re-establishment of land boundaries, or for the subdivision and platting of land or for the determination of areas.

Subd. 5. Limitation.—The provisions of Sections 326.02 to 326.16 shall not apply to the preparation of plans and specifications for the erection, enlargement, or alteration of any building or other structure by any person, for his, or his lessee's exclusive occupancy or use, unless such occupancy or use involves the public health or safety or the health or safety of the employees of said person, or his lessee; nor shall they apply to the preparation of plans and specifications for any building, structure, or work, which is not public as defined in Section 326.03, the total cost of which does not exceed \$10,000; nor shall they apply to the preparation of plans and specifications for any single or two-family dwelling, nor to any farm building or accessory thereto; nor to any detailed or shop plans required to be furnished by a contractor to a registered engineer or architect, nor to any standardized manufactured product, nor to any construction superintendent supervising the execution of work designed by an architect or engineer registered in accordance with this Act.

Sec. 326.03. Registration Required.—No person, except an architect, engineer or land surveyor, registered as provided for in Sections 326.02 to

State Board of Registration for Architects, Engineers and Land Surveyors

326.15 shall practice architecture, professional engineering, or land surveying, respectively, in the preparation of plans, specifications, report, plats or other engineering or architectural documents, or in the supervision of architectural, engineering, or land surveying work, for any public work or public improvement in this state, excepting any public work or public improvement the total cost of which does not exceed \$2,000, provided that plans and specifications for such work or improvement affecting water supply or waste disposal are approved by the appropriate state agency. Public work or public improvement is defined to mean work or improvement the cost of which is to be paid in whole or in part from public funds.

No plat, map, or drawing of any survey or subdivision of lands required by law to be filed or recorded with the register of deeds or registered with the registrar of titles of any county, shall be filed, recorded, or registered therein unless there shall be endorsed thereon a certificate by a registered land surveyor.

The provisions hereof shall not apply to any person holding an elective office when in discharging the duties thereof such person is required to do work or perform service of the character of work or service usually done or performed by an architect, engineer, or land surveyor.

Sec. 326.04. State Board Created—Terms—Appointment.—To carry out the provisions of Sections 326.02 to 326.15 there is hereby created a State Board of Registration for architects, engineers and land surveyors (hereinafter called the Board) consisting of seven members, who shall be appointed by the Governor. Three members shall be registered architects, three members shall be registered engineers and one member shall be a registered land surveyor. Not more than one member of said Board shall be from the same branch of the profession of engineering. The members of the first Board shall be appointed to serve for the following terms: two members for one year; two members for two years; two members for three years; and one member for four years, said terms ending on the first day of January of the succeeding years. On the expiration of each of said terms the term of office of each newly appointed or reappointed member of the Board shall be for a period of four years and shall terminate on the first day of January; except that each member shall hold over after the expiration of his term until his successor shall have been duly appointed and qualified. The Governor may remove any member of the Board for misconduct, incompetency or neglect of duty. Vacancies in the membership of the Board, however created, shall be filled by appointment by the Governor for the unexpired term.

Sec. 326.05. Qualifications of Members of Board.—Each member of the Board shall be a citizen of the United States and a resident of this State at the time of his appointment. He shall have been engaged in the practice of his profession for at least ten years and shall have been in responsible charge of work for at least five years. He shall be a member in good standing of a recognized society of architects, engineers or land surveyors, and except as provided in Section 326.06 shall be a registered architect, registered engineer or registered land surveyor.

Sec. 326.06. Powers and Duties of the Board.—Each member of the Board shall receive a certificate of appointment from the Governor, and before beginning his term of office he shall file with the Secretary of State the constitutional oath of office. Each member of the Board first created shall receive a certificate of registration under Sections 326.02 to 326.15 from the Governor of this State. The Board or any committee thereof shall be entitled to the services of the Attorney General in connection with the affairs of the Board, and the Board shall have power to compel the attendance of witnesses, may administer oaths and may take testimony and proofs concerning all matters within its jurisdiction. The Board shall adopt and have

State Board of Registration for Architects, Engineers and Land Surveyors

an official seal which shall be affixed to all certificates of registration granted; and shall make all by-laws and rules not inconsistent with law needed in performing its duties; and shall fix standards for determining the qualifications of applicants for certificates, which shall not exceed the requirements contained in the curriculum of a recognized school of architecture or engineering.

Sec. 326.07. Meetings—Officers—Quorum.—The Board shall hold a meeting within thirty days after its members are first appointed, and thereafter shall hold at least two regular meetings each year. Special meetings shall be held at such times as the by-laws of the Board may provide. Notice of all meetings shall be given in such manner as the by-laws may provide. The Board shall elect annually from its members a chairman, a vice-chairman and a secretary-treasurer. A quorum of the Board shall consist of not less than four members, of whom two shall be architects and two engineers.

Sec. 326.08. Fees to Be Used for Expenses—Compensation of Members—Bonds of Officers.—All fees and other monies accruing from the operation of Sections 326.02 to 326.15 shall be paid to the Board and shall be used for the purposes of Sections 326.02 to 326.15 and 326.53. The expenses of the Board shall be paid by voucher made by the secretary-treasurer and approved by the chairman. Each member of the Board shall receive such compensation as the Board may direct, not to exceed \$10.00 per day for time spent in attending meetings of the Board. The members of the Board shall be reimbursed for actual expenses incurred in travel to and from meetings and for expenditures for hotel bills, meals, stationery, postage, printing, typewriting and the like necessary expenses incurred in the performance of their duties under Sections 326.02 to 326.15 and 326.53. The secretary-treasurer of the Board shall give a surety bond satisfactory to the State Treasurer conditioned upon the faithful performance of his duties. The premium on said bond shall be regarded as a proper and necessary expense of the Board.

Sec. 326.09. Records—Reports—Rosters.—The Board shall keep a record of its proceedings and a register of all applicants for registration showing for each, the date of application, name, age, educational and other qualifications, place of business and place of residence, whether or not an examination was required and whether the applicant was rejected or a certificate of registration granted, and the date of such action. The books and register of the Board shall be prima facie evidence of all matters recorded therein. A roster showing the names and places of business and of residence of all registered architects, engineers and land surveyors shall be prepared by the secretary-treasurer of the Board during the month of January of each year; such roster shall be printed out of the funds of the Board as provided in Section 326.08. On or before the first day of February of each year the Board shall submit to the Governor and file with the Secretary of State a copy of the report of its transactions for the preceding year together with a complete statement of the receipts and expenditures of the Board signed by the chairman and the secretary-treasurer, accompanied by a certified audit, and a copy of the said roster of registered architects, registered engineers and registered land surveyors.

Sec. 326.10. Certificates of Registration. Subdivision 1. Issuance.—The board shall, on application therefor, on a prescribed form, and the payment of a fee not to exceed \$10.00, issue a certificate of registration as an architect or engineer, and, on the payment of a fee of not to exceed \$5.00, issue a certificate of registration as a land surveyor;

(1) To any person over 25 years of age, who is a citizen of the United States or Canada, or who has made declaration of his intention to become a citizen of the United States; who speaks and writes the English language; who is of good moral character and repute, and has been actively engaged for eight or more years in architectural or engineering work, or engaged for

State Board of Registration for Architects, Engineers and Land Surveyors

six or more years in surveying work. The character of such work shall be satisfactory to the Board. Each scholastic year of teaching or of study satisfactorily completed, of architecture, engineering, or land surveying in a school or college of architecture or engineering accredited by the National Architectural Accrediting Board or by the Engineers' Council for Professional Development, shall be considered as equivalent to one year of such active engagement, provided, however, that three years of actual experience of a standard satisfactory to the board shall be required in addition to school attendance.

An honorably discharged veteran of World War I or World War II shall be given credit for such experience or education gained in the armed services of the United States as meets the standards fixed by the board.

(2) To any person who holds a like unexpired certificate of registration issued to him by proper authority in the District of Columbia, in any state or territory of the United States, or in any province of Canada, in which the requirements for registration of architects, engineers, or land surveyors are equal to those fixed by the board and by the laws of this state, and in which similar privileges are extended to the holders of certificates of registration issued by this state;

Subd. 2. Examination.—The board may subject any applicant to such examinations as may be deemed necessary to establish his qualifications.

In determining the qualifications in such cases of applicants for registration as architects, a majority vote of the architect members of the board only shall be required; in determining the qualifications in such cases of applicants for registration as engineers, a majority vote of the engineer members of the board only, shall be required; and in determining the qualifications of applicants for registration as land surveyors, the affirmative vote of the land surveyor member and of one engineer of the board only, shall be required.

Subd. 3. Rules for Classification.—The board may make reasonable rules and regulations for classifying and registering engineers in divisions according to their qualifications to practice different classes of engineering work, and shall, in such case, register qualified applicants in one or more such divisions in which they shall qualify under the terms of Sections 326.02 to 326.16 and shall, in any event, provide one such division for highway engineers.

Any person so qualified may be registered in two or all of these three professions; but the aggregate fee for such registration shall not exceed \$15.00.

Subd. 4. Deposit Returned.—In case the board denies the issuance of a certificate to an applicant, the registration fee deposited shall be returned by the board to the applicant.

Subd. 5. Expiration — Notice — Renewal.—Certificates of registration shall expire on the last day of the calendar year for which they are issued and shall become invalid on that date unless renewed. It shall be the duty of the secretary-treasurer of the board to notify, by mail, every person registered of the date of the expiration of his certificate and the amount of fee required for its renewal for one year; such notice shall be mailed to the registrant at his address as shown on the records of the Board at least one month in advance of the date of the expiration of the certificate. Renewal may be effected at any time during the month of December by the payment of a fee of \$3.00 for an architect or an engineer, and \$1.00 for a land surveyor.

Subd. 6. Delayed Registration.—The failure on the part of any registrant to renew his certificate annually in the month of December shall not deprive such person of his right of renewal thereafter, but the fees to be paid

State Board of Registration for Architects, Engineers and Land Surveyors

for the renewal of the certificate after the succeeding first day of January shall be \$5.00 for an architect or an engineer, and \$2.00 for a land surveyor. The aggregate fee for renewal of registration in two or three of the professions shall be the same as the single renewal fee for registration as an architect or an engineer.

Subd. 7. Graduates.—Any candidate for registration as an architect or professional engineer who is a graduate of an accredited school or college of architecture or engineering or who has had four years or more of experience in architectural or engineering work of a character satisfactory to the board shall receive from the board, upon successfully passing an examination in fundamental architectural or engineering subjects, a certificate stating that he has passed such examination and that his name has been recorded as an architect-in-training or as an engineer-in-training.

Sec. 326.11. Certificates of Registration, Revocation, Re-issue, Duplicates. Subdivision 1. Revocation.—The board shall have the power to revoke or suspend as hereinafter provided, the certificate of registration of any architect, engineer, or land surveyor, who is found guilty by the board of any fraud or deceit in obtaining a certificate of registration, or of attaching his seal or signature to any plan, specification, report, plat, or other engineering or architectural document not prepared by him or under his direct supervision, or of gross negligence, incompetency, or misconduct in the practice of architecture, engineering, or land surveying, or upon conviction of any violation of Sections 326.02 to 326.16 or amendments thereof, or of any crime involving moral turpitude or upon adjudication of insanity or incompetency, and in the case of such conviction or adjudication, such revocation or suspension may be made by the board on its own motion on the filing with its secretary-treasurer of a copy of the minutes of such conviction and judgment or adjudication, duly certified by the clerk in whose custody they are, the same to be conclusive evidence of such conviction or adjudication.

Subd. 2. Charges.—Any person may prefer charges of such fraud, deceit, misuse of seal or signature or of such gross negligence, incompetency, or misconduct against any person registered hereunder. Such charges shall be in writing, sworn to by the complainant, filed with the secretary-treasurer and submitted by him to the board; and, unless dismissed without hearing by the board as unfounded or trivial, shall be heard or determined by the board within three months after the date of such filing with the secretary-treasurer. A time and place for such hearing shall be fixed by the board.

Subd. 3. Copy Served — Notice of Hearing.—A copy of the charges, together with a notice of the time and place of hearing, shall be legally served on the accused at least 30 days before the date fixed for the hearing, and, in the event that such service cannot be effected 30 days before the hearing, the date of hearing and determination shall be postponed as may be necessary to permit the carrying out of this condition.

Subd. 4. Hearing.—At the hearing the accused shall have the right to appear personally and by counsel, to cross-examine witnesses against him, and to produce evidence and witnesses in his defense. If, after said hearing, five or more members of the board vote in favor of finding the accused guilty of any charge made against him, the board may revoke or suspend the certificate of registration of the accused.

Subd. 5. Re-issue.—The board may reissue a certificate of registration to any person whose certificate has been revoked, provided five or more members of the board vote in favor of such reissuance for reasons the board may deem sufficient.

Subd. 6. Replacement of Lost Certificate.—A new certificate of registration to replace any certificate revoked, lost, destroyed, or mutilated, may

State Board of Registration for Architects, Engineers and Land Surveyors

be issued, subject to the rules and regulations of the board. A charge of \$1.00 shall be made for such reissuance.

Sec. 326.12. **Certificates as Evidence—Seals of Registrants.** Subdivision 1. **Judicial Proof.**—The issuance of a certificate of registration by the board shall be evidence that the person named therein is entitled to all the rights and privileges of a registered architect, registered engineer, or registered land surveyor while the certificate remains unrevoked or has not expired or has not been suspended.

Subd. 2. **Seal.**—Each registrant may, upon registration, obtain a seal of a design approved by the board, bearing the registrant's name and the legend "registered architect," "registered professional engineer," or "registered land surveyor." Plans, specifications, plats, reports, and other documents prepared by a registrant may be stamped with the seal during the life of registrant's certificate. A rubber stamp facsimile thereof, however, may be used in lieu of the seal on tracings from which prints are to be made or on papers which would be damaged by the regular seal. It shall be unlawful for any one to stamp or seal any document with the stamp or seal after the certificate of the registrant named thereon has expired, been revoked or suspended, unless said certificate shall have been renewed or reissued.

Subd. 3. **Certified Signature.**—Each plan, specification, plat, report, or other document which Sections 326.02 to 326.16 require be prepared by a registered architect, registered engineer, or registered land surveyor shall bear the signature of the person preparing it, or the signature of the person under whose direct supervision it was prepared except for detailed or shop plans as exempted in Section 326.02, subdivision 5. Each signature shall be accompanied by a certification that the signer is registered under Sections 326.02 to 326.16. The provisions of this paragraph shall not apply to documents of an intra-office or intra-company nature.

Sec. 326.13. **Exemptions.**—The following shall be exempted from the provisions of Sections 326.02 to 326.15:

1. Practice as an architect, an engineer or a land surveyor in this State by any person not a resident of and having no established place of business in this State, or any person resident in this State, but whose arrival in the State is recent; provided, however, such person shall have filed an application for registration as an architect, an engineer or a land surveyor and shall have paid the fee provided for in Section 326.10. Such exemption shall continue for only such reasonable time as the Board requires in which to consider and grant or deny the said application for registration; and provided such person is legally qualified to practice such profession in his own state or county in which the requirements and qualifications for obtaining a certificate of registration are not lower than those specified in Sections 326.02 to 326.15.

2. Practice as an architect, an engineer or a land surveyor by any person not a resident of, and having no established place of business in this State, as a consulting associate of an architect, an engineer or a land surveyor registered under the provisions of Sections 326.02 to 326.15, provided the non-resident is qualified for such professional service in his own State or country.

3. Practice as an architect, an engineer or a land surveyor solely as an officer or as an employee of the United States.

Sec. 326.14. **Corporations and Partnerships Authorized.**—A corporation or partnership may engage in work of an architectural or engineering character, or in land surveying in this State, provided the person or persons connected with such corporation or partnership in responsible charge of such work is or are registered as herein required for the practice of architecture, engineering and land surveying.

State Board of Registration for Architects, Engineers and Land Surveyors

Sec. 326.15. **False Impersonation.**—It shall be unlawful for any person to present or attempt to use as his own the seal or certificate of another, or to give false or forged evidence of any kind to the board, or any member thereof, or to falsely impersonate any registrant of like or different name, or to use or attempt to use as his own the certificate of registration of another issued by any authority outside of this state, or to use or attempt to use an expired or revoked or suspended certificate of registration.

Sec. 326.16. **Appeals to District Court.**—Any person aggrieved by any ruling or order of the Board made under the provisions of Sections 326.02 to 326.15, may appeal therefrom to any district court of the state by serving written notice of such intention upon the secretary-treasurer of the board, specifying such court, within 30 days after the same is made. The secretary-treasurer of the board shall thereupon file with the clerk of such court a certified copy of the order or rulings or findings of fact upon which the same are based, which shall be prima facie evidence of the facts therein stated. The trial of all issues on such appeal shall be de novo by the court and such appeal shall be heard and tried in the same manner as other issues of law and fact are heard and tried in such court, and the ruling or order of the board shall be stayed pending the said appeal.

Sec. 326.53. **Violations and Penalties.**—Subdivision 1. (1) Any violation of the provisions of Sections 326.02 to 326.23 shall be a gross misdemeanor.

(2) Any person violating any of the provisions of Sections 326.33 to 326.36 shall be guilty of a gross misdemeanor; and, upon conviction thereof, fined not to exceed \$100.00 or imprisoned in the county jail for not to exceed three months, or both, for each and every violation thereof.

(3) Every person violating any of the provisions of Sections 326.523 to 326.526, or assisting in such violation, shall, upon conviction thereof, be punished by a fine not exceeding \$1,000, or, in default of the payment of such fine, by imprisonment in the county jail for not more than one year. In the case of a corporation, the violation of these sections shall be deemed to be also that of the individual directors, officers, or agents of such corporation who have assisted in such violation, or who have authorized, ordered, or done the acts or omissions constituting, in whole or in part, such violation; and, upon conviction thereof, any such directors, officers, or agents shall be punished by fine or imprisonment as herein provided.

Subd. 2. (1) Any person violating any of the provisions of Sections 326.37 to 326.45 or who shall wilfully make any false representations to the board of health in applying for a license or permit shall be guilty of a misdemeanor.

(2) Any person violating any of the provisions of Sections 326.46 to 326.52 or who shall wilfully make any false representation to the industrial commission in applying for a license or permit shall be guilty of a misdemeanor.

State Board of Registration for Architects, Engineers and Land Surveyors

***RULES AND REGULATIONS**

Foreword: In adopting and following these rules, the Board recognizes two important requirements it must meet: first, to respect the right to his means of livelihood of the individual who has conscientiously prepared himself to practice the professions of Architecture, Engineering or Land Surveying and, second, to do what is within the power of the Board to protect the Public against dangers arising from attempts of incompetent or unscrupulous persons to practice said professions.

All rules and parts of rules inconsistent with the provisions of the following rules are hereby repealed.

Rule 1

Classes:

There shall be three classes of Registrants as follows:

- Class 1.** Those who were registered without examination prior to July 1, 1933, and by exemption subsequent to 1933. (Registration by exemption or by mere submission of record with references was discontinued in 1933.)
- Class 2.** Those registered under the reciprocal provisions of the law.
- Class 3.** Those registered following examination, either oral or written, or both.

Rule 2

In Training Classes:

There shall be a classification of Architect-in-Training and a classification of Engineer-in-Training. (For examination of Engineer-in-Training see Rule 11.)

Rule 3

Application for Registration:

- (a) Before making formal application for examination, the candidate is requested to submit to the Board, by typewritten letter, information relative to place and date of birth, time and place of schools attended and studies completed, whether he graduated or not, degree or degrees received, together with a chronological record of his employment, with all dates and with complete information relative to duties and type of work performed, and particularly outlining the applicant's responsibilities in charge of the whole or any part thereof. This information will be evaluated and if the candidate is found definitely ineligible for examination at that time, he will be so notified and no expense will have been incurred. If he is apparently eligible at the time for examination, he will be so notified and a form will be sent him on which to make his formal application for registration subject to the Rules and Regulations of the Board.
- (b) Applications for registration shall be made on forms prescribed and furnished by the Board and shall be filed with the Secretary-Treasurer of the Board at St. Paul, accompanied by the payment of the examination fee.
- (c) Applications for examination as Architect-in-Training or Engineer-in-Training shall be made on forms prescribed and furnished by the Board and shall be filed with the Secretary-Treasurer of the Board at St. Paul accompanied by the examination fee.
- (d) Application forms will be furnished to individual applicants but will not be furnished in quantities to intermediaries.

*As Filed with the Secretary of State and Approved by the Attorney General May 5, 1948.

State Board of Registration for Architects, Engineers and Land Surveyors

Rule 4

Fees:

- (a) Fees shall be paid to the State Board of Registration for Architects, Engineers and Land Surveyors.
- (b) The fee for examination is Ten (\$10.00) Dollars for an Architect and Engineer and Five (\$5.00) Dollars for a Land Surveyor, which in all instances must accompany an application. Where an applicant is apparently qualified for and requests registration in more than one profession, the examination fee will be Fifteen (\$15.00) Dollars if, in such instances, the appropriate examinations are taken at the same time. If a registrant desires registration in an additional branch of engineering subsequent to original registration, it may be granted if applicant passes the examination for which the fee will be \$10.00. In the event an applicant's examination is not completed within one year next succeeding the date of the application, a new application and examination fee shall be required except when a delay of more than one year is due to circumstances which, in the opinion of the Board, justify a different procedure. These fees will be retained by the Board regardless of the outcome of the examination. The examination fee for an Architect-in-Training or Engineer-in-Training shall be Five (\$5.00) Dollars. This fee shall be credited toward the total examination fee of Ten (\$10.00) Dollars for final registration as an Architect or Professional Engineer, provided application and examination for such final registration are completed within ten years from date of becoming an Architect-in-Training or Engineer-in-Training, otherwise the full \$10.00 examination fee must accompany the application.
- (c) The fee for registration in addition to the fee for examination is Ten (\$10.00) Dollars for an Architect or Engineer and Five (\$5.00) Dollars for a Land Surveyor and such payment shall be due when the application has been approved. Payment of this fee must be made prior to the issuance of the certificate of registration.
- (d) The fee for registration in two or more professions is Fifteen (\$15.00) Dollars.
- (e) The fee for a non-resident who is registered in Minnesota is Ten (\$10.00) Dollars for an Architect or Engineer, and Five (\$5.00) Dollars for a Land Surveyor. The aggregate fee for registration in two or all of the three professions is Fifteen (\$15.00) Dollars.
- (f) The fee for renewal of registration is due in the month of December of each year in the amount of Three (\$3.00) Dollars for an Architect or Engineer, and One (\$1.00) Dollar for a Land Surveyor. The aggregate fee for renewal in any two or three of the professions is Three (\$3.00) Dollars. There is no annual renewal fee during period of applicant's status as Architect-in-Training or Engineer-in-Training.
- The renewal fee must be paid on or before December 31 of each year, otherwise the name of the Registrant will be deleted from the Roster. The postmark on the envelope containing the remittance will be accepted as the date of payment.
- (g) No fee will be charged for certifying to the qualifications of a Minnesota Registrant who applies for registration in another State. The cost of certified copies or photostats of other documents required by the State in which registration is desired shall be paid by the applicant.
- (h) The fee for renewal of registration after December 31, as fixed by the Act, is Five (\$5.00) Dollars for an Architect or Engineer, and Two (\$2.00) Dollars for a Land Surveyor. The aggregate fee for renewal in any two or three of the professions is Five (\$5.00) Dollars.

State Board of Registration for Architects, Engineers and Land Surveyors

- (i) The fee for the issuance of a new certificate to replace one revoked, lost, destroyed or mutilated is One (\$1.00) Dollar.
- (j) It is the duty of the Secretary-Treasurer to notify each registrant by mail of the date of expiration of his registration. Such notice will be sent to the address filed with the Secretary-Treasurer, and failure to receive such notice at such address shall not exempt the registrant from the penalties required by Section 326.10, Minnesota Statutes 1945.

Rule 5

Certificate of Qualification:

Certification of an applicant's technical qualifications by the National Council of Architectural Registration Boards or the National Bureau of Engineering Registration conducted by the National Council of State Boards of Engineering Examiners may be accepted by the Minnesota Board as establishing such qualifications and the applicant, in such instances, will not be required to pass further examination.

Rule 6

Rejections:

A person whose application for registration has been rejected shall be fully informed of the reasons for rejection. A new application, in such instances, may be filed at any time after the lapse of six months next succeeding the date of the previous rejection.

Rule 7

Requirements:

It is required that the applicant submit evidence to the Board indicating that he is qualified to practice in the profession or division thereof, in which he seeks registration. The burden of proof is upon the applicant and he, therefore, should make every effort to present qualifications fully and clearly. Qualifications shall be established by one or more of the following methods:

- (a) By passing a written examination. (Required of all Architect applicants, of Engineer applicants as outlined in Rule 11, and of Land Surveyor applicants as outlined in Rule 12.)
- (b) By passing an oral examination and by submitting satisfactory exhibits of technical qualifications. (Required of all applicants in addition to such written examination as may be required.)
- (c) By submitting a record prepared by the National Council of Architectural Registration Boards. (For Architect applicants only.)
- (d) By submitting a Certificate of Qualification prepared by National Bureau of Engineering Registration. (For Engineer applicants only.)
- (e) For reciprocal registration, under provisions of Sec. 326.10, Subd. 2, M. S. 1945, and experience as the Board may thereunder require together with evidence of current registration and proof of good standing.

Rule 8

Procedure:

- (a) Exhibits in connection with oral or written examination shall not be submitted until requested by the Board.

State Board of Registration for Architects, Engineers and Land Surveyors

- (b) An Architect registered by exemption and desiring a change of status may apply therefor and his qualifications for such change will be determined by (1) written examination, or (2) oral examination and submitting satisfactory exhibits of his technical qualifications. (The oral examination shall apply only to those having ten (10) or more years of independent lawful practice as a principal in the profession of Architecture.)
- (c) In the consideration of Engineer applications, mere employment in engineering work must be distinguished from the kind of progressive experience necessary to qualify an applicant for registration. When beginning his experience, an Engineer, with or without the benefit of a college education, might be engaged in activities which may or may not qualify him to practice professional engineering under an accepted definition of such practice. It is, therefore, incumbent upon the Board to carefully scrutinize the applicant's record, the progressive nature of the tasks performed, the responsibilities assumed, and his ethical conduct in order to determine whether or not he is qualified to assume the title of Registered Professional Engineer. In the evaluation by the Board of the experience record submitted in addition to education in a school with an accredited curriculum, responsible charge of engineering work as a subordinate will be considered as qualifying experience.
- (d) Written examinations will be given under conditions as nearly as possible like those under which an applicant works in his own office. Handbooks, textbooks, catalogs, and such other printed source of information as may be available will be allowed the candidate for all examinations except those on History of Architecture, Architectural Composition, and Architectural Design. By virtue of the candidate's apparent eligibility to be examined, it is presumed that he is well qualified in the theory of the different branches of architectural, engineering or land surveying practice.
- (e) Examinations will be given each year at such time and place as may be designated by the Board. Persons who file applications for registration and are eligible for examination will be informed by letter of the date of the next examination.

Rule 9

Examination of Architect Applicants:

An applicant for registration as an Architect shall be required to pass a written examination of the allotted time as indicated in the following Divisions:

Division I. Qualifications and Preparation for Practice. Time—as required.	
Examination A. Natural Aptitude and Theoretical and Practical Training. (Examination of Applicant's Record.)	
Examination B. Personal Audience. (Oral Examination of Applicant.)	
Division II. Structural Design and Materials.....total	8 hours
Examination C. Structural Design	3 hours
Examination D. Truss Design	2 hours
Examination E. Selection and Use of Materials.....	3 hours
Division III. Mechanical Equipment, Counselling and Administration, and Supervision.....total	8 hours
Examination F. Mechanical Equipment of Buildings.....	3 hours
Examination G. Counselling and Administration.....	3 hours
Examination H. Supervision	2 hours

State Board of Registration for Architects, Engineers and Land Surveyors

Division IV. History of Architecture and Architectural
Compositiontotal 8 hours
Examination J. History of Architecture.....4 hours
Examination K. Architectural Composition4 hours

Division V. Architectural Design.
Examination L. Design Problem12 hours

If an Architect applicant fails in not more than three subjects, such applicant may upon application retake examinations in those subjects in which he failed but may not retake an examination in any subject more than four times. Such examination or examinations may not be retaken within two months of the time of taking the previous examination and must be retaken within one year of taking the original examination. In case of failure in more than three subjects or a failure to retake and pass examinations within the time limit above set out in the case of a failure in not more than three subjects, the application will be considered obsolete. A new application accompanied by the examination fee may be filed after the lapse of not less than 12 months next succeeding the date of the last failure.

Rule 10

Divisions of Engineering Registration:

The Board recognizes for registration under the Act the following divisions of the profession of Engineering, namely, Civil, Mechanical, Electrical, Mining, Chemical, Aeronautical, Highway, Structural, Metallurgical, and Naval Architecture. (These are based on full accredited curricula at the University of Minnesota with the exception of the Highway division which is required under the Act, the Structural division which is a specialized branch of Civil Engineering, and the Naval Architecture division.)

Rule 11

Examination of Engineer Applicants:

An applicant for registration as a Professional Engineer shall be required to pass an oral, or written and oral examination.

The oral examination is required from all applicants except those registered as provided in Rule 7 (d) and Rule 7 (e).

The written examination consists of three parts. Parts I and II are preliminary examinations which may be taken prior to completion of the statutory qualifications for registration. The successful passing of these preliminary examinations will give the applicant the status of Engineer-in-Training as defined in Sec. 326.10, Subd. 7, M. S. 1945, and he will not again be required to take these parts of the examination. Part III is an examination in professional practice and is required as hereinafter outlined. The scope of these examinations is as follows:

Part I. Practical problems in fundamental mathematics and the basic engineering sciences of physics and chemistry as presented in an accredited college engineering curriculum, including application to hydraulics, strength of materials and mechanics. Allotted time—4 hours.

Part II. Problems in planning and designing of elementary engineering projects for the purpose of establishing the applicant's competency and knowledge in applying his educational or other training to specific problems in the engineering division in which he seeks registration. Allotted time—4 hours.

State Board of Registration for Architects, Engineers and Land Surveyors

Part III. Problems embracing knowledge of professional practice and applied economics such as should be acquired in connection with the planning, design and construction of engineering work during the statutory period leading up to final registration. This part of the examination, together with the oral examination, will not be required and cannot be taken until the full statutory period of engineering work has been completed.

The examination in engineering design and construction given for the purpose of determining proficiency in professional practice will include questions designed to show the applicant's ability to use his fundamental training and his skill in planning, designing and supervising the construction of engineering projects. The judgment and resourcefulness shown in respect to appropriateness of design for the purpose intended, relative economy, and appearance of the structure designed, will be taken into account in determining the grade.

Allotted time—4 to 16 hours as noted subsequently in this Rule under (a) and (b).

The written examinations have been designed for preliminary qualification of the young engineering graduate as an Engineer-in-Training under the 1945 Act and also as a test of knowledge for both graduates and non-graduates in the application of fundamental mathematics and the engineering sciences to actual professional engineering practice.

Applicants for engineering registration, together with requirements for registration, are in general grouped as follows:

- (a) Graduates from an accredited college engineering curriculum. Graduates will be required to take the written examinations as hereinbefore outlined except that such written examinations for applicants graduating before 1945 may be waived by the Board in cases where the applicant could have qualified in 1945 as to statutory period of combined education and approved experience. Part III of the written examination for graduates will have an allotted time of 4 hours.
- (b) Non-graduates. Non-graduates from accredited college engineering curriculum will be required to take the written examinations as hereinbefore outlined except that the taking of Parts I and II may be waived by the Board in cases where the applicant could have qualified in 1945 as to statutory period of approved experience. In these cases Part III of the written examination will have an allotted time of from 8 to 16 hours as may be determined by the Board.
- (c) Either graduate or non-graduate of long continued and responsible experience in charge of engineering work (the character of such responsibility to be determined by the Board), but who, due to specific legal exemption had not previously applied for registration. The Board in these cases will give such an examination, either oral or written or both, as it may determine. Such an applicant shall have been at least 35 years of age in 1945.

Rule 12

Examination of Land Surveyor Applicants:

An applicant for registration as a Land Surveyor shall have a thorough knowledge of and pass an examination in the following:

- (a) Fundamental mathematics including square root, logarithms, geometry, algebra and plane trigonometry;

State Board of Registration for Architects, Engineers and Land Surveyors

- (b) The history, principles and application of the U. S. system of public land surveys and elementary knowledge of the other systems used in the United States;
- (c) The instructions of the United States Land Office relative to the relocation of lost and obliterated corners and the subdivision of sections;
- (d) The legal essentials of resurveys including those involving disputed boundaries, defective deed descriptions, riparian rights and adverse possession;
- (e) Provision of Minnesota Statutes relative to preparation and filing of plats;
- (f) The judicial functions of Land Surveyors.

Rule 13

Code of Ethics:

Technical work based upon the professional practice of Architects, Engineers and Land Surveyors has become an increasingly important factor in the progress of civilization and in the welfare of the community. These professions are held responsible for the planning, construction, and operation of such work, and are entitled to the position and authority which will enable them to discharge this responsibility and to render effective service to humanity.

That the dignity of his chosen profession may be maintained and that his obligation and responsibility to the public be impressed upon the applicant, it is required before registration is granted that each applicant subscribe to and agree to exemplify the following Code of Ethics:

- (a) To maintain interest in the public welfare and be ready to apply his special knowledge, skill, and training for the use and benefit of mankind.
- (b) To refrain from associating himself with, or allowing the use of his name in connection with, any enterprise of questionable character.
- (c) To carry on his professional work in a spirit of fairness to all concerned, fidelity to clients and employers, loyalty to his country, and to be devoted to high ideals of courtesy and personal honor.
- (d) To regard as confidential any information obtained by him as to the business affairs and technical methods or processes of a client or employer.
- (e) To discourage consulting practice by manufacturers and contractors, and endeavor to have all architectural or engineering plans, other documents, surveys and plats signed by the Architect, Engineer, or Land Surveyor directly responsible for them.
- (f) To inform a client or employer of any business connections, interests, or affiliations which might influence his judgment or impair the disinterested quality of his services.
- (g) To accept financial or other compensation for a particular service from one source only.
- (h) To advertise only in a manner supporting the dignity of his profession.
- (i) To refrain from submitting competitive bids for professional services or using other improper or questionable methods of soliciting professional work.

State Board of Registration for Architects, Engineers and Land Surveyors

- (j) To avoid using unfair means to win professional advancement or to injure the opportunities of another to secure or retain employment.
- (k) To confine his professional service to the profession or division thereof, in which he is registered.
- (l) To refrain from associating, in a partnership, with a person not professionally qualified, and to refrain from lending his name or seal for the approval of plans or other documents for the preparation of which he was not directly responsible.
- (m) To refrain from using the advantages of a salaried position to compete unfairly with other Architects, Engineers, or Land Surveyors.
- (n) To cooperate freely with architectural and engineering agencies in advancing the architectural and engineering professions.

Partnership:

Rule 14

No person registered under Chapter 523, Laws of Minnesota for 1921, as amended, shall form a partnership with another person or persons to practice the profession of either Architecture, Engineering, or Land Surveying unless the person or persons with whom the partnership is formed is or are registered under said Act in one or more of the three professions.

Rule 15

No partnership formed to practice Architecture, Engineering, or Land Surveying, or all of said professions, shall contract with or accept employment for professional services of an architectural, engineering, or land surveying character as defined by the Act unless a member of the partnership or the employee of the partnership in responsible charge of the work is registered under the Act to practice the profession called for by such employment.

Rule 16

Responsible Charge:

A person in responsible charge of Architecture, Engineering, or Land Surveying work as used in Sec. 326.14 M.S. 1945 is hereby construed to mean the person, or persons, who determines technical questions of design and policy, advises with the client, superintends the work of subordinates and, in general, the person whose professional skill and judgment are embodied in the plans, designs and advice involved in the work.

Rule 17

Misconduct:

It shall be misconduct for any registrant to practice or to offer to practice Architecture, Engineering, or Land Surveying unless he be registered in the profession in which he offers to practice.

Rule 18

It shall be misconduct for a registered professional engineer to practice or offer to practice a division of engineering in which he is not registered.

State Board of Registration for Architects, Engineers and Land Surveyors

Rule 19

It shall be misconduct in the practice of his profession for any registrant to violate the Code of Ethics by Rule 13 prescribed.

Rule 20

Certificate of Registration:

This Board will issue to each successful applicant a Certificate of Registration properly filled out, signed and sealed, giving the Registrant proper authority to practice the profession of Architecture, Engineering, or Land Surveying under the Registration Act of the State of Minnesota for a period ending December 31 of the year Certificate is issued, after which date the Certificate will expire unless renewed.

The certificate issued to an Architect-in-Training or an Engineer-in-Training indicates that his name has been recorded as such in the office of the Board and shall be in effect for a period not exceeding ten years from the date of the granting of such a certificate.

Rule 21

Signature on Plans:

The certification and signature on plans, specifications, plats, reports, etc., is mandatory, as provided by Section 326.12, Subd. 3, M. S. 1945. A person in direct supervision of work as referred to in the foregoing subdivision is construed to mean the person whose professional skill and judgment are embodied in the document signed, and who assumes responsibility for the accuracy and adequacy thereof.

The Board has designed a stamp which combines certification and a space for signature.

The size of the stamp together with the size of letters and spacing of lines may be varied to suit individual requirements. The stamp may be imprinted directly on the tracing and signature affixed thereto thus eliminating the necessity of duplicate signatures on prints.

When the plans are bound together as an entity only the title sheet need bear the signature and certification. Where the set is broken up for specific purposes, such as sub-contracts, each such set or sub-set should be signed and certified. When the plans customarily carry a title on each sheet of drawing or tracing, the certification and signature should preferably be affixed to each such sheet. Certification and signature need not appear on cross section sheets or similar routine data. One certification and signature on bound specifications or separate section of specifications, if so issued, is required.

Rule 22

Seal:

Each registrant may, upon registration, also obtain a seal of a design approved by the Board bearing the registrant's name and the legend, "Registered Architect," "Registered Professional Engineer," or "Registered Land Surveyor." Plans, specifications, plats, reports, and other documents prepared by a registrant may be stamped with the seal during the life of a registrant's certificate provided that such certificate remains unrevoked or has not expired or has not been suspended.

State Board of Registration for Architects, Engineers and Land Surveyors

ROSTER

of

REGISTERED ARCHITECTS, PROFESSIONAL ENGINEERS AND LAND SURVEYORS

AUTHORIZED TO PRACTICE IN MINNESOTA DURING THE YEAR 1948

The Act authorizes registration as

A—ARCHITECT B—ENGINEER and C—LAND SURVEYOR

In 1948 registration certificates will be issued in the following classifications only i.e., Architect, Land Surveyor, and the following divisions of Engineering, viz.,

40 Aeronautical	14 Electrical	27 Mining
7 Chemical	18 Highway	41 Naval Architecture
9 Civil	25 Mechanical	37 Structural
	26 Metallurgical	

Previous to 1937 various other classifications were recognized and, for that reason, the following numerical index is published only to identify classifications as noted in the Roster.

1—Landscape Architect	14—Electrical	27—Mining
2—Agricultural	15—Gas	28—Municipal
3—Analyst	16—Geophysical	29—Paving Technologist
4—Architectural	17—Heating	30—Power Plant
5—Assessment	18—Highway	31—Professional
6—Bridge	19—Hydraulic	32—Railroad
7—Chemical	20—Hydro-Electrical	33—Refrigerating
8—City Planning	21—Industrial	34—Sanitary
9—Civil	22—Insurance	35—Sewage
10—Combustion	23—Location	36—Soils
11—Construction	24—Marine	37—Structural
12—Consulting	25—Mechanical	38—Valuation
13—Drainage	26—Metallurgical	39—Ventilating

Omission of name of State indicates Registrant lives in Minnesota.

St. Paul, Minnesota, December 31, 1947

To His Excellency, Luther W. Youngdahl
Governor of the State of Minnesota

Sir:

The State Board of Registration for Architects,
Engineers and Land Surveyors of Minnesota respectfully
submits this, its twenty seventh annual report with attached
roster of registrants, as required by law.

The Board desires to express its appreciation of
the cooperation and assistance received from your office and
other State Departments.

Respectfully,

George M. Shepard

BOARD MEETINGS

Meetings were held by the Board at its office, 316 New York Building, St. Paul on the following dates:

January 24, 1947
February 24, 1947
June 6, 1947

APPLICATIONS CONSIDERED AND REGISTRATIONS GRANTED

During the year 1947 the following applications were received:

	21 Architects
	216 Engineers
	3 Engineers and Land Surveyors
	11 Land Surveyors
Total	<u>251</u>

Applications held over from previous year:

	14 Architects
	105 Engineers
	5 Engineers and Land Surveyors
	18 Land Surveyors
Total	<u>142</u>

Applications approved for registration:

	16 Architects
	178 Engineers
	1 Engineer and Land Surveyor
	12 Land Surveyors
Total	<u>217</u>

Applications approved for additional registration:

	2 Architects
	11 Engineers
	2 Land Surveyors
Total	<u>15</u>

Applications withdrawn or denied:

1 Engineer

Applications held for further investigation:

	18 Architects
	115 Engineers
	5 Engineers and Land Surveyors
	22 Land Surveyors
Total	<u>160</u>
