## FOREWORD

The original Minnesota law providing for the registration of Architects, Engineers and Land Surveyors was passed by the State Legislature in 1921. It was subsequently amended in 1933, 1945 and 1949. The purpose of the law is to safeguard life, health, and property and to promote the public welfare by requiring that any person in either public or private capacity practicing or offering to practice Architecture, Engineering or Land Surveying, shall be registered. The provisions of the law have raised the standard of these professional services in connection with the planning, design and supervision of public and private structures and works so as to widely affect a large proportion of the population in our State. At the present time all of the states and territories excepting the District of Columbia have laws governing the registration of Professional Engineers. Most of the states and territories have similar laws governing the registration of Architects and Land Surveyors.

The reason for registering Architects, Engineers and Land Surveyors is not to form a closed corporation of these professions with the object of restricting the number practicing. On the contrary, the purpose of registration, as the Board interprets it, is to make the operation of such a law a benefit to the general public.

The fundamental aims and objectives are: first, to protect the public; second, to raise the ethical and technical standards of the professions. The objectives are both to be attained by barring from practice men who have not had sufficient background of education and experience to properly equip them for professional practice. Many other professions serving the public have been regulated by legislative act for many years. It is our belief that the public has received tangible and direct benefits from this regulation. Likewise, the public has benefited from the registration of Architects, Engineers and Land Surveyors in materially safeguarding life, health, and property.

By the 1949 amendment to the registration law the number of Engineer members of the Board was increased from three to five. As no two Board members can be from the same classification, this provision in the amended law gives direct representation on the Board to two additional Engineering classifications.

We have endeavored to make this Roster as nearly correct as possible including all names of those authorized to practice as of December 31, 1948. It has frequently been called to the attention of registrants that unless renewed, registration expires on December 31 of each year. Oversights and delays in replying, together with incorrect addresses, have occasionally resulted in omission of some names from the Roster. Following December 31, the renewal fee and penalty is \$7.50 for an Architect or Engineer and \$3.00 for a Land Surveyor. In some cases communications are returned with the post office stamp "address unknown." Information relative to deceased registrants is particularly meager. It is suggested that the Board be given your wholehearted cooperation in keeping the Roster up to date.

Attention is called to the fact that a Roster of Engineers-in-Training is carried following the professional Roster. All of these Engineers-in-Training have successfully passed a written examination upon graduation and will be enrolled as Engineers-in-Training for a period of not to exceed ten years or to such time within ten years as they complete their final examination for full professional status. Beginning in June, 1945, when the first such examination was given and up to the time this Roster goes to press in September, 1949, 14 examinations have been given to approximately 1,700

applicants, by far the greater number being those graduating from the Institute of Technology just previous to the examination.

A supplement to the Year Book supplying a statistical analysis of the data pertinent to registrants appearing in the Roster has been prepared. This supplement gives the number registered and practicing in each classification, together with the character of practice, educational qualifications and other information. Its publication was originally contemplated for the latter part of 1948. The Board now plans to issue this supplement within the next few months.

#### \*RULES AND REGULATIONS

**Foreword:** In adopting and following these rules, the Board recognizes two important requirements it must meet: first, to respect the right to his means of livelihood of the individual who has conscientiously prepared himself to practice the professions of Architecture, Engineering or Land Surveying and, second, to do what is within the power of the Board to protect the Public against dangers arising from attempts of incompetent or unscrupulous persons to practice said professions.

All rules and parts of rules inconsistent with the provisions of the following rules are hereby repealed.

##### Rule 1

Classes:

There shall be three classes of Registrants as follows:

- Class 1. Those who were registered without examination prior to July 1, 1933, and by exemption subsequent to 1933. (Registration by exemption or by mere submission of record with references was discontinued in 1938.)
- Class 2. Those registered under the reciprocal provisions of the law.
- Class 3. Those registered following examination, either oral or written, or both.

##### Rule 2

In Training Classes:

There shall be a classification of Architect-in-Training and a classification of Engineer-in-Training. (For examination of Engineer-in-Training see Rule 11.)

##### Rule 3

Application for Registration:

- (a) Before making formal application for examination, the candidate is requested to submit to the Board, by typewritten letter, information relative to place and date of birth, time and place of schools attended and studies completed, whether he graduated or not, degree or degrees received, together with a chronological record of his employment, with all dates and with complete information relative to duties and type of work performed, and particularly outlining the applicant's responsibilities in charge of the whole or any part thereof. This information will be evaluated and if the candidate is found definitely ineligible for examination at that time, he will be so notified and no expense will have been incurred. If he is apparently eligible at the time for examination, he will be so notified and a form will be sent him on which to make his formal application for registration subject to the Rules and Regulations of the Board.
- (b) Applications for registration shall be made on forms prescribed and furnished by the Board and shall be filed with the Secretary-Treasurer of the Board at St. Paul, accompanied by the payment of the examination fee.
- (c) Applications for examination as Architect-in-Training or Engineer-in-Training shall be made on forms prescribed and furnished by the Board and shall be filed with the Secretary-Treasurer of the Board at St. Paul accompanied by the examination fee.
- (d) Application forms will be furnished to individual applicants but will not be furnished in quantities to intermediaries.

\*As Filed with the Secretary of State and Approved by the Attorney General August 16, 1949.

Rule 4

Fees:

- (a) Fees shall be paid to the State Board of Registration for Architects, Engineers and Land Surveyors.
- (b) The fee for examination is Fifteen (\$15.00) Dollars for an Architect and Engineer and Seven and 50/100 (\$7.50) Dollars for a Land Surveyor, which in all instances must accompany an application. Where an applicant is apparently qualified for and requests registration in more than one profession, the examination fee will be Twenty-five (\$25.00) Dollars if, in such instances, the appropriate examinations are taken at the same time. If a registrant desires registration in an additional branch of engineering subsequent to original registration, it may be granted if applicant passes the examination for which the examination fee will be Fifteen (\$15.00) Dollars. In the event an applicant does not appear for examination within one year following notification of date of examination, a new application and examination fee shall be required except when a delay of more than one year is due to circumstances which, in the opinion of the Board, justify a different procedure. One retaking of the examination will be permitted without additional fee. Subsequent retakes will require payment of the stated fee. These fees will be retained by the Board regardless of the outcome of the examination. The examination fee for an Architect-in-Training or Engineer-in-Training shall be Five (\$5.00) Dollars. This fee shall be credited toward the total examination fee of Fifteen (\$15.00) Dollars for final registration as an Architect or Professional Engineer, provided application and examination for such final registration are completed within ten years from date of becoming an Architect-in-Training or Engineer-in-Training, otherwise the full Fifteen (\$15.00) Dollars examination fee must accompany the application.
- (c) The fee for registration in addition to the fee for examination is Ten (\$10.00) Dollars for an Architect or Engineer and Five (\$5.00) Dollars for a Land Surveyor and such payment shall be due when the application has been approved. Payment of this fee must be made prior to the issuance of the certificate of registration.
- (d) The fee for registration in two or more professions is Fifteen (\$15.00) Dollars.
- (e) The fee for a non-resident who is registered in Minnesota is Ten (\$10.00) Dollars for an Architect or Engineer, and Five (\$5.00) Dollars for a Land Surveyor. The aggregate fee for registration in two or all of the three professions is Fifteen (\$15.00) Dollars.
- (f) The fee for renewal of registration is due in the month of December of each year in the amount of Five (\$5.00) Dollars for an Architect or an Engineer, and Two (\$2.00) Dollars for a Land Surveyor. The aggregate fee for renewal in any two or three of the professions is Five (\$5.00) Dollars. There is no annual renewal fee during period of applicant's status as Architect-in-Training or Engineer-in-Training.  
The renewal fee must be paid on or before December 31 of each year, otherwise the name of the Registrant will be deleted from the Roster. The postmark on the envelope containing the remittance will be accepted as the date of payment.
- (g) No fee will be charged for certifying to the qualifications of a Minnesota Registrant who applies for registration in another State. The cost of certified copies or photostats of other documents required by the State in which registration is desired shall be paid by the applicant.

- (h) The fee for renewal of registration after December 31, as fixed by the Act is Seven and 50/100 (\$7.50) Dollars for an Architect or Engineer, and Three (\$3.00) Dollars for a Land Surveyor. The aggregate fee for renewal in any two or three of the professions is Seven and 50/100 (\$7.50) Dollars.
- (i) The fee for the issuance of a new certificate to replace one revoked, lost, destroyed or mutilated is One (\$1.00) Dollar.
- (j) It is the duty of the Secretary-Treasurer to notify each registrant by mail of the date of expiration of his registration. Such notice will be sent to the address filed with the Secretary-Treasurer, and failure to receive such notice at such address shall not exempt the registrant from the penalties required by Section 326.10, Minnesota Statutes 1945.

Rule 5

Certificate of Qualification:

Certification of an applicant's technical qualifications by the National Council of Architectural Registration Boards or the National Bureau of Engineering Registration conducted by the National Council of State Boards of Engineering Examiners may be accepted by the Minnesota Board as establishing such qualifications and the applicant, in such instances, will not be required to pass further examination.

Rule 6

Rejections:

A person whose application for registration has been rejected shall be fully informed of the reasons for rejection. A new application, in such instances, may be filed at any time after the lapse of six months next succeeding the date of the previous rejection.

Rule 7

Requirements:

It is required that the applicant submit evidence to the Board indicating that he is qualified to practice in the profession or division thereof, in which he seeks registration. The burden of proof is upon the applicant and he, therefore, should make every effort to present qualifications fully and clearly. Qualifications shall be established by one or more of the following methods:

- (a) By passing a written examination. (Required of all Architect applicants, of Engineer applicants as outlined in Rule 11, and of Land Surveyor applicants as outlined in Rule 12.)
- (b) By passing an oral examination and by submitting satisfactory exhibits of technical qualifications. (Required of all applicants in addition to such written examination as may be required.)
- (c) By submitting a record prepared by the National Council of Architectural Registration Boards. (For Architect applicants only.)
- (d) By submitting a Certificate of Qualification prepared by National Bureau of Engineering Registration. (For Engineer applicants only.)
- (e) For reciprocal registration, under provisions of Sec. 326.10, Subd. 2, M. S. 1945, and experience as the Board may thereunder require together with evidence of current registration and proof of good standing.

State Board of Registration for Architects, Engineers and Land Surveyors

Rule 8

Procedure:

- (a) Exhibits in connection with oral or written examination shall not be submitted until requested by the Board.
- (b) An Architect registered by exemption and desiring a change of status may apply therefor and his qualifications for such change will be determined by (1) written examination, or (2) oral examination and submitting satisfactory exhibits of his technical qualifications. (The oral examination shall apply only to those having ten (10) or more years of independent lawful practice as a principal in the profession of Architecture.)
- (c) In the consideration of Engineer applications, mere employment in engineering work must be distinguished from the kind of progressive experience necessary to qualify an applicant for registration. When beginning his experience, an Engineer, with or without the benefit of a college education, might be engaged in activities which may or may not qualify him to practice professional engineering under an accepted definition of such practice. It is, therefore, incumbent upon the Board to carefully scrutinize the applicant's record, the progressive nature of the tasks performed, the responsibilities assumed, and his ethical conduct in order to determine whether or not he is qualified to assume the title of Registered Professional Engineer. In the evaluation by the Board of the experience record submitted in addition to education in a school with an accredited curriculum, responsible charge of engineering work as a subordinate will be considered as qualifying experience.
- (d) Written examinations will be given under conditions as nearly as possible like those under which an applicant works in his own office, except as otherwise noted in advance of the examination. Handbooks, textbooks, catalogs, and such other printed source of information as may be available will be allowed the candidate for all examinations except those on History of Architecture, Architectural Composition, and Architectural Design. By virtue of the candidate's apparent eligibility to be examined, it is presumed that he is well qualified in the theory of the different branches of architectural, engineering, or land surveying practice.
- (e) Examinations will be given each year at such time and place as may be designated by the Board. Persons who file applications for registration and are eligible for examination will be informed by letter of the date of the next examination.

Rule 9

Examination of Architect Applicants:

An applicant for registration as an Architect shall be required to pass a written examination of the allotted time as indicated in the following Divisions:

- Division I. Qualifications and Preparation for Practice. Time—as required.  
Examination A. Natural Aptitude and Theoretical and Practical Training. (Examination of Applicant's Record.)  
Examination B. Personal Audience. (Oral Examination of Applicant.)
- Division II. Structural Design and Materials.....total 8 hours  
Examination C. Structural Design .....3 hours  
Examination D. Truss Design .....2 hours  
Examination E. Selection and Use of Materials.....3 hours

State Board of Registration for Architects, Engineers and Land Surveyors

- Division III. Mechanical Equipment, Counselling and Administration, and Supervision.....total 8 hours  
Examination F. Mechanical Equipment of Buildings.....3 hours  
Examination G. Counselling and Administration.....3 hours  
Examination H. Supervision .....2 hours
- Division IV. History of Architecture and Architectural Composition .....total 8 hours  
Examination J. History of Architecture.....4 hours  
Examination K. Architectural Composition .....4 hours
- Division V. Architectural Design.  
Examination L. Design Problem .....12 hours

If an Architect applicant fails in not more than three subjects, such applicant may upon application retake examinations in those subjects in which he failed but may not retake an examination in any subject more than four times. Such examination or examinations may not be retaken within two months of the time of taking the previous examination and must be retaken within one year of taking the original examination. In case of failure in more than three subjects or a failure to retake and pass examinations within the time limit above set out in the case of a failure in not more than three subjects, the application will be considered obsolete. A new application accompanied by the examination fee may be filed after the lapse of not less than 12 months next succeeding the date of the last failure.

Rule 10

Divisions of Engineering Registration:

The Board recognizes for registration under the Act the following divisions of the profession of Engineering, namely, Agricultural, Civil, Mechanical, Electrical, Mining, Chemical, Aeronautical, Highway, Structural, Metallurgical, and Naval Architecture. (These are based on full accredited curricula at the University of Minnesota with the exception of the Highway division which is required under the Act, the Structural division which is a specialized branch of Civil Engineering, and the Naval Architecture division.)

Rule 11

Examination of Engineer Applicants:

An applicant for registration as a Professional Engineer shall be required to pass an oral, or written and oral examination.

The oral examination is required from all applicants except those registered as provided in Rule 7 (d) and Rule 7 (e).

The written examination consists of three parts. Parts I and II are preliminary examinations which may be taken prior to completion of the statutory qualifications for registration. The successful passing of these preliminary examinations will give the applicant the status of Engineer-in-Training as defined in Sec. 326.10, Subd. 7, M. S. 1945, and he will not again be required to take these parts of the examination. Part III is an examination in professional practice and is required as hereinafter outlined. The scope of these examinations is as follows:

Part I. Practical problems in fundamental mathematics and the basic engineering sciences of physics and chemistry as presented in an accredited college engineering curriculum, including application to hydraulics, strength of materials and mechanics. Allotted time—4 hours.

State Board of Registration for Architects, Engineers and Land Surveyors

Part II. Problems in planning and designing of elementary engineering projects for the purpose of establishing the applicant's competency and knowledge in applying his educational or other training to specific problems in the engineering division in which he seeks registration. Allotted time—4 hours.

Part III. Problems embracing knowledge of professional practice and applied economics such as should be acquired in connection with the planning, design and construction of engineering work during the statutory period leading up to final registration. This part of the examination, together with the oral examination, will not be required and cannot be taken until the full statutory period of engineering work has been completed.

The examination in engineering design and construction given for the purpose of determining proficiency in professional practice will include questions designed to show the applicant's ability to use his fundamental training and his skill in planning, designing and supervising the construction of engineering projects. The judgment and resourcefulness shown in respect to appropriateness of design for the purpose intended, relative economy, and appearance of the structure designed, will be taken into account in determining the grade.

Allotted time—4 to 16 hours as noted subsequently in this Rule under (a) and (b).

The written examinations have been designed for preliminary qualification of the young engineering graduate as an Engineer-in-Training under the 1945 Act and also as a test of knowledge for both graduates and non-graduates in the application of fundamental mathematics and the engineering sciences to actual professional engineering practice.

Applicants for engineering registration, together with requirements for registration, are in general grouped as follows:

- (a) Graduates from an accredited college engineering curriculum. Graduates will be required to take the written examinations as hereinbefore outlined except that such written examinations for applicants graduating before 1945 may be waived by the Board in cases where the applicant could have qualified in 1945 as to statutory period of combined education and approved experience. Part III of the written examination for graduates will have an allotted time of 4 hours.
- (b) Non-graduates. Non-graduates from accredited college engineering curriculum will be required to take the written examinations as hereinbefore outlined except that the taking of Parts I and II may be waived by the Board in cases where the applicant could have qualified in 1945 as to statutory period of approved experience. In these cases Part III of the written examination will have an allotted time of from 8 to 16 hours as may be determined by the Board.
- (c) Either graduate or non-graduate of long continued and responsible experience in charge of engineering work (the character of such responsibility to be determined by the Board), but who, due to specific legal exemption had not previously applied for registration. The Board in these cases will give such an examination, either oral or written or both, as it may determine. Such an applicant shall have been at least 35 years of age in 1945.

Rule 12

Examination of Land Surveyor Applicants:

An applicant for registration as a Land Surveyor shall have a thorough knowledge of and pass an examination in the following:

State Board of Registration for Architects, Engineers and Land Surveyors

- (a) Fundamental mathematics including square root, logarithms, geometry, algebra and plane trigonometry;
- (b) The history, principles and application of the U. S. system of public land surveys and elementary knowledge of the other systems used in the United States;
- (c) The instructions of the United States Land Office relative to the relocation of lost and obliterated corners and the subdivision of sections;
- (d) The legal essentials of resurveys including those involving disputed boundaries, defective deed descriptions, riparian rights and adverse possession;
- (e) Provision of Minnesota Statutes relative to preparation and filing of plats;
- (f) The judicial functions of Land Surveyors.

Rule 13

Code of Ethics:

Technical work based upon the professional practice of Architects, Engineers and Land Surveyors has become an increasingly important factor in the progress of civilization and in the welfare of the community. These professions are held responsible for the planning, construction, and operation of such work, and are entitled to the position and authority which will enable them to discharge this responsibility and to render effective service to humanity.

That the dignity of his chosen profession may be maintained and that his obligation and responsibility to the public be impressed upon the applicant, it is required before registration is granted that each applicant subscribe to and agree to exemplify the following Code of Ethics:

- (a) To maintain interest in the public welfare and be ready to apply his special knowledge, skill, and training for the use and benefit of mankind.
- (b) To refrain from associating himself with, or allowing the use of his name in connection with, any enterprise of questionable character.
- (c) To carry on his professional work in a spirit of fairness to all concerned, fidelity to clients and employers, loyalty to his country, and to be devoted to high ideals of courtesy and personal honor.
- (d) To regard as confidential any information obtained by him as to the business affairs and technical methods or processes of a client or employer.
- (e) To discourage consulting practice by manufacturers and contractors, and endeavor to have all architectural or engineering plans, other documents, surveys and plats signed by the Architect, Engineer, or Land Surveyor directly responsible for them.
- (f) To inform a client or employer of any business connections, interests, or affiliations which might influence his judgment or impair the disinterested quality of his services.
- (g) To accept financial or other compensation for a particular service from one source only.
- (h) To advertise only in a manner supporting the dignity of his profession.

State Board of Registration for Architects, Engineers and Land Surveyors

- (l) To refrain from submitting competitive bids for professional services or using other improper or questionable methods of soliciting professional work.
- (j) To avoid using unfair means to win professional advancement or to injure the opportunities of another to secure or retain employment.
- (k) To confine his professional service to the profession or division thereof, in which he is registered.
- (i) To refrain from associating, in a partnership, with a person not professionally qualified, and to refrain from lending his name or seal for the approval of plans or other documents for the preparation of which he was not directly responsible.
- (m) To refrain from using the advantages of a salaried position to compete unfairly with other Architects, Engineers, or Land Surveyors.
- (n) To cooperate freely with architectural and engineering agencies in advancing the architectural and engineering professions.

Rule 14

Partnership:

No person registered under Chapter 523, Laws of Minnesota for 1921, as amended, shall form a partnership with another person or persons to practice the profession of either Architecture, Engineering, or Land Surveying unless the person or persons with whom the partnership is formed is or are registered under said Act in one or more of the three professions.

Rule 15

No partnership formed to practice Architecture, Engineering, or Land Surveying, or all of said professions, shall contract with or accept employment for professional services of an architectural, engineering, or land surveying character as defined by the Act unless a member of the partnership or the employee of the partnership in responsible charge of the work is registered under the Act to practice the profession called for by such employment.

Rule 16

Responsible Charge:

A person in responsible charge of Architecture, Engineering, or Land Surveying work as used in Sec. 326.14 M.S. 1945 is hereby construed to mean the person, or persons, who determines technical questions of design and policy, advises with the client, superintends the work of subordinates and, in general, the person whose professional skill and judgment are embodied in the plans, designs and advice involved in the work.

Rule 17

Misconduct:

It shall be misconduct for any registrant to practice or to offer to practice Architecture, Engineering, or Land Surveying unless he be registered in the profession in which he offers to practice.

Rule 18

It shall be misconduct for a registered professional engineer to practice or offer to practice a division of engineering in which he is not registered.

State Board of Registration for Architects, Engineers and Land Surveyors

Rule 19

It shall be misconduct in the practice of his profession for any registrant to violate the Code of Ethics by Rule 13 prescribed.

Rule 20

Certificate of Registration:

This Board will issue to each successful applicant a Certificate of Registration properly filled out, signed and sealed, giving the Registrant proper authority to practice the profession of Architecture, Engineering, or Land Surveying under the Registration Act of the State of Minnesota for a period ending December 31 of the year Certificate is issued, after which date the Certificate will expire unless renewed.

The certificate issued to an Architect-in-Training or an Engineer-in-Training indicates that his name has been recorded as such in the office of the Board and shall be in effect for a period not exceeding ten years from the date of the granting of such a certificate.

Rule 21

Signature on Plans:

The certification and signature on plans, specifications, plats, reports, etc., is mandatory, as provided by Section 326.12, Subd. 3, M. S. 1945. A person in direct supervision of work as referred to in the foregoing subdivision is construed to mean the person whose professional skill and judgment are embodied in the document signed, and who assumes responsibility for the accuracy and adequacy thereof.

The Board has designed a stamp which combines certification and a space for signature.

The size of the stamp together with the size of letters and spacing of lines may be varied to suit individual requirements. The stamp may be imprinted directly on the tracing and signature affixed thereto thus eliminating the necessity of duplicate signatures on prints.

When the plans are bound together as an entity only the title sheet need bear the signature and certification. Where the set is broken up for specific purposes, such as sub-contracts, each such set or sub-set should be signed and certified. When the plans customarily carry a title on each sheet of drawing or tracing, the certification and signature should preferably be affixed to each such sheet. Certification and signature need not appear on cross section sheets or similar routine data. One certification and signature on bound specifications or separate section of specifications, if so issued, is required.

Rule 22

Seal:

Each registrant may, upon registration, also obtain a seal of a design approved by the Board bearing the registrant's name and the legend, "Registered Architect," "Registered Professional Engineer," or "Registered Land Surveyor." Plans, specifications, plats, reports, and other documents prepared by a registrant may be stamped with the seal during the life of a registrant's certificate provided that such certificate remains unrevoked or has not expired or has not been suspended.

State Board of Registration for Architects, Engineers and Land Surveyors

**ROSTER**

of

**REGISTERED ARCHITECTS, PROFESSIONAL  
ENGINEERS AND LAND SURVEYORS**

AUTHORIZED TO PRACTICE IN MINNESOTA DURING THE YEAR 1949

The Act authorizes registration as

**A—ARCHITECT B—ENGINEER and C—LAND SURVEYOR**

In 1949 registration certificates will be issued in the following classifications only i.e., Architect, Land Surveyor, and the following divisions of Engineering, viz.,

40 Aeronautical	14 Electrical	27 Mining
42 Agricultural	18 Highway	41 Naval Architecture
7 Chemical	25 Mechanical	37 Structural
9 Civil	26 Metallurgical	

Previous to 1937 various other classifications were recognized and, for that reason, the following numerical index is published only to identify classifications as noted in the Roster.

1—Landscape Architect	14—Electrical	27—Mining
2—Agricultural	15—Gas	28—Municipal
3—Analyst	16—Geophysical	29—Paving Technologist
4—Architectural	17—Heating	30—Power Plant
5—Assessment	18—Highway	31—Professional
6—Bridge	19—Hydraulic	32—Railroad
7—Chemical	20—Hydro-Electrical	33—Refrigerating
8—City Planning	21—Industrial	34—Sanitary
9—Civil	22—Insurance	35—Sewage
10—Combustion	23—Location	36—Soils
11—Construction	24—Marine	37—Structural
12—Consulting	25—Mechanical	38—Valuation
13—Drainage	26—Metallurgical	39—Ventilating

Omission of name of State indicates Registrant lives in Minnesota.

STATE OF MINNESOTA  
DEPARTMENT OF STATE  
**FILED**  
NOV 2 1949

*W. H. Johnson*  
Secretary of State.

BOARD MEMBERS

As of December 31, 1948

Term Expires

George M. Shepard	Civil Engineer and Land Surveyor	St. Paul, Minn.	January 1, 1950
M. E. Chamberlin	Civil Engineer and Land Surveyor	Montevideo, Minn.	January 1, 1952
Kenneth M. Fullerton	Architect	St. Paul, Minn.	January 1, 1951
F. W. McKellip	Electrical and Municipal Engineer & Land Surveyor	Faribault, Minn.	January 1, 1951
A. Reinhold Melander	Architect	Duluth, Minn.	January 1, 1952
E. S. Rankin	Highway Engineer and Land Surveyor	Brainerd, Minn.	January 1, 1949 *
Dale R. McEnary	Architect	Minneapolis, Minn.	January 1, 1949 *

\* Reappointed during 1949.

\* \* \* \* \*

Changes since December 31, 1948

<b>Resignation:</b>			
F. W. McKellip	Electrical and Municipal Engineer & Land Surveyor	Faribault, Minn.	Effective May 18, 1949
<b>Appointments:</b>			
Paul V. Burgett	Civil, Mining Engineer and Land Surveyor	Eveleth, Minn.	<u>Term Expires</u> January 1, 1951
LeRoy A. Griffith	Electrical Engineer	Minneapolis, Minn.	January 1, 1951
B. J. Robertson	Electrical and Mechanical Engineer	Minneapolis, Minn.	January 1, 1950

BOARD MEETINGS

Meetings were held by the Board at its office, 316 New York Building, St. Paul  
on the following dates:

February 9, 1948  
June 11, 1948

---

APPLICATIONS CONSIDERED AND REGISTRATIONS GRANTED

During the year 1948 the following applications were received:

	25 Architects
	156 Engineers
	11 Engineers and Land Surveyors
	<u>15 Land Surveyors</u>
Total	207

Applications held over from previous year:

	18 Architects
	115 Engineers
	5 Engineers and Land Surveyors
	<u>22 Land Surveyors</u>
Total	160

Applications approved for registration:

	20 Architects
	157 Engineers
	4 Engineers and Land Surveyors
	<u>12 Land Surveyors</u>
Total	193

Applications approved for additional registration:

	8 Engineers
	1 Engineer and Land Surveyor
	<u>8 Land Surveyors</u>
Total	17

Applications withdrawn or denied:

	3 Architects
	<u>2 Engineers</u>
Total	5

Applications held for further investigation:

	15 Architects
	114 Engineers
	3 Engineers and Land Surveyors
	<u>20 Land Surveyors</u>
Total	152

FINANCIAL STATEMENT

January 1, 1948 to January 1, 1949

Balance in State Treasury January 1, 1949.		\$10,221.35
