Whereas, a statement by the State Conservation Committee accompanying the above-mentioned application, has been filed in this office, setting forth that a petition for the creation of the Swift County Soil Conservation District was filed with the State Soil Conservation Committee; that after due notice, a hearing was held, and the committee duly determined that there is need, in the interest of public health, safety and welfare, for a soil conservation district to function in the proposed territory, and that the Committee defined the boundaries thereof; that then, after due notice, a referendum was held on the question of the creation of said district, and the results of said referendum showed a majority of the votes cast to be in favor of the creation of said district; and that thereafter the Committee duly determined that the operation of the proposed district is administratively practicable and feasible.
