October 16, 1951

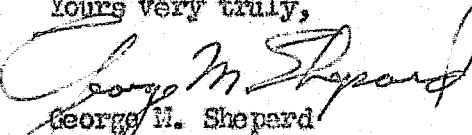

To His Excellency, C. Elmer Anderson
Governor of the State of Minnesota

Dear Governor Anderson:

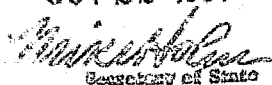

Under the State Registration Law for Architects,
Engineers and Land Surveyors, the Board is required to sub-
mit an annual report and roster of registrants each year.
Although the letter of transmittal is dated December 31, 1950,
it was necessary to delay the printing of the Year Book until
July, 1951, due to approval of amended rules and regulations
by the Attorney General's office. The letter of transmittal
is consequently addressed to former Governor Youngdahl. I
trust that this will be satisfactory.

Thanking you, I remain

Yours very truly,

George M. Shepard
Chairman

To His Excellency, Luther W. Youngdahl
Governor of the State of Minnesota

Sir:

The State Board of Registration for Architects, Engineers
and Land Surveyors of Minnesota respectfully submits this, its
thirtieth annual report with attached roster of registrants, as
required by law.

The Board desires to express its appreciation of the
cooperation and assistance received from your office and other State
Departments.

Respectfully,

A handwritten signature in cursive script that reads "George M. Shepard".

BOARD MEETINGS

Meetings were held by the Board at its office, 316 New York Building, St. Paul,
on the following dates:

February 20, 1950
June 19, 1950
November 9, 1950

APPLICATIONS CONSIDERED AND REGISTRATIONS GRANTED

During the year 1950, the following applications were received:

	27 Architects
	143 Engineers
	1 Engineer and Land Surveyor
	9 Land Surveyors
Total	<u>180</u>

Applications held over from previous year:

	12 Architects
	137 Engineers
	4 Engineers and Land Surveyors
	20 Land Surveyors
Total	<u>173</u>

Applications approved for registration:

	19 Architects
	134 Engineers
	1 Engineer and Land Surveyor
	8 Land Surveyors
Total	<u>162</u>

Applications approved for additional registrations:

	1 Architect
	5 Engineers
	2 Land Surveyors
Total	<u>8</u>

Applications withdrawn or denied:

	3 Architects
	2 Engineers
Total	<u>5</u>

Applications held for further investigation:

	16 Architects
	139 Engineers
	3 Engineers and Land Surveyors
	20 Land Surveyors
Total	<u>178</u>

FOREWORD

The original Minnesota law providing for the registration of Architects, Engineers and Land Surveyors was passed by the State Legislature in 1921. It was subsequently amended in 1933, 1945 and 1949. The purpose of the law is to safeguard life, health, and property and to promote the public welfare by requiring that any person in either public or private capacity practicing or offering to practice Architecture, Engineering or Land Surveying, shall be registered. The provisions of the law have raised the standard of these professional services in connection with the planning, design and supervision of public and private structures and works so as to widely affect a large proportion of the population in our State. At the present time all of the states and territories have laws governing the registration of Professional Engineers. Most of the states and territories have similar laws governing the registration of Architects and Land Surveyors.

The reason for registering Architects, Engineers and Land Surveyors is not to form a closed corporation of these professions with the object of restricting the number practicing. On the contrary, the purpose of registration, as the Board interprets it, is to make the operation of such a law a benefit to the general public.

The fundamental aims and objectives are: first, to protect the public; second, to raise the ethical and technical standards of the professions. The objectives are both to be attained by barring from practice men who have not had sufficient background of education and experience to properly equip them for professional practice. Many other professions serving the public have been regulated by legislative act for many years. It is our belief that the public has received tangible and direct benefits from this regulation. Likewise, the public has benefited from the registration of Architects, Engineers and Land Surveyors in materially safeguarding life, health, and property.

By the 1949 amendment to the registration law the number of Engineer members of the Board was increased from three to five. The two additional members to the Board were appointed by Governor Youngdahl in 1949. The Civil, Electrical, Highway, Mechanical and Mining classifications of Engineering now have representation on the Board.

We have endeavored to make this Roster as nearly correct as possible including all names of those authorized to practice as of December 31, 1950. It has frequently been called to the attention of registrants that unless renewed, registration expires on December 31 of each year. Oversights and delays in replying, together with incorrect addresses, have occasionally resulted in omission of some names from the Roster. Following December 31, the renewal fee and penalty is \$7.50 for an Architect or Engineer and \$3.00 for a Land Surveyor. In some cases communications are returned with the post office stamp "address unknown." Information relative to deceased registrants is particularly meager. It is suggested that the Board be given your wholehearted cooperation in keeping the Roster up to date.

Attention is called to the fact that a Roster of Engineers-in-Training is carried following the professional Roster. All of these Engineers-in-Training have successfully passed a written examination upon graduation and will be enrolled as Engineers-in-Training for a period of not to exceed ten years or to such time within ten years as they complete their final examination for full professional status. Beginning in June, 1945, when the first such examination was given and up to the time this Roster goes to press in July, 1951, 22 examinations have been given to approximately 3,000

applicants, by far the greater number being those graduating from the Institute of Technology just previous to the examination.

Attention is called to the revision of the rules effective July 9, 1951. The revision specifically covers Rules 11 and 12, and except for those registered under Rule 7 (d) requiring the submission of a Certificate of Qualification from the National Bureau of Engineering Registration, and Rule 7 (e) for reciprocal registration under provisions of Section 326.10, Subdivision 1, Minnesota Statutes 1945, all applicants for registration as a Professional Engineer shall be required to pass a written and oral examination. The written examination consists of a minimum of a two-day examination with sixteen-hours allotted time. This revision of Rules 11 and 12 was approved by the Board at its meeting on June 12, 1951, following a published notice and a notice to engineering and other interested organizations. Representatives of the Minnesota Society of Professional Engineers were present and discussed the revision at the time of the hearing.

Subsequent to the spring meeting of representatives of the Central Zone of the National Council of State Boards of Engineering Examiners at Jefferson City, Missouri, Professor B. J. Robertson, who, with Mr. LeRoy A. Griffith, represented our Board, reported that all of the other Boards of the thirteen states in the Central Zone require the sixteen-hour or two-day examination. This requirement for a written examination is general with all of the Registration Boards in the United States. Action was taken by the Minnesota Board in order that the standards of registration in Architecture, Engineering and Land Surveying in the State of Minnesota be kept abreast of the requirements throughout the nation. With a great many of our engineers becoming registered and practicing in other states it is essential that the higher requirements for registration established by this rule revision be maintained by our Board.

It is also called to your attention that the Board may, on all applications received prior to July 1, 1952, waive written examinations for graduates from accredited engineering curricula with date of graduation previous to 1945 and may also waive the taking of Parts I and II in the case of non-graduates with the required experience. In other words, the present basis of registration may, at the discretion of the Board, be extended to July 1, 1952, after which time the sixteen-hour written examination will be applied generally. For those applicants passing the Engineer-in-Training examination, a credit of eight hours is given for the Parts I and II included in this examination. Those having the status of Engineer-in-Training will only be required to take Parts III and IV of the written examination, a total of eight hours.

*RULES AND REGULATIONS

Foreword: In adopting and following these rules, the Board recognizes two important requirements it must meet: first, to respect the right to his means of livelihood of the individual who has conscientiously prepared himself to practice the professions of Architecture, Engineering or Land Surveying and, second, to do what is within the power of the Board to protect the Public against dangers arising from attempts of incompetent or unscrupulous persons to practice said professions.

All rules and parts of rules inconsistent with the provisions of the following rules are hereby repealed.

Rule 1

Classes:

There shall be three classes of Registrants as follows:

- Class 1. Those who were registered without examination prior to July 1, 1933, and by exemption subsequent to 1933. (Registration by exemption or by mere submission of record with references was discontinued in 1938.)
- Class 2. Those registered under the reciprocal provisions of the law.
- Class 3. Those registered following examination, either oral or written, or both.

Rule 2

In Training Classes:

There shall be a classification of Architect-in-Training and a classification of Engineer-in-Training. (For examination of Engineer-in-Training see Rule 11.)

Rule 3

Application for Registration:

- (a) Before making formal application for examination, the candidate is requested to submit to the Board, by typewritten letter, information relative to place and date of birth, time and place of schools attended and studies completed, whether he graduated or not, degree or degrees received, together with a chronological record of his employment, with all dates and with complete information relative to duties and type of work performed, and particularly outlining the applicant's responsibilities in charge of the whole or any part thereof. This information will be evaluated and if the candidate is found definitely ineligible for examination at that time, he will be so notified and no expense will have been incurred. If he is apparently eligible at the time for examination, he will be so notified and a form will be sent him on which to make his formal application for registration subject to the Rules and Regulations of the Board.
- (b) Applications for registration shall be made on forms prescribed and furnished by the Board and shall be filed with the Secretary-Treasurer of the Board at St. Paul, accompanied by the payment of the examination fee.
- (c) Applications for examination as Architect-in-Training or Engineer-in-Training shall be made on forms prescribed and furnished by the Board and shall be filed with the Secretary-Treasurer of the Board at St. Paul accompanied by the examination fee.
- (d) Application forms will be furnished to individual applicants but will not be furnished in quantities to intermediaries.

*As Filed with the Secretary of State and Approved by the Attorney General July 9, 1951.

State Board of Registration for Architects, Engineers and Land Surveyors

Rule 4

Fees:

- (a) Fees shall be paid to the State Board of Registration for Architects, Engineers and Land Surveyors.
- (b) The fee for examination is Fifteen (\$15.00) Dollars for an Architect and Engineer and Seven and 50/100 (\$7.50) Dollars for a Land Surveyor, which in all instances must accompany an application. Where an applicant is apparently qualified for and requests registration in more than one profession, the examination fee will be Twenty-five (\$25.00) Dollars if, in such instances, the appropriate examinations are taken at the same time. If a registrant desires registration in an additional branch of engineering subsequent to original registration, it may be granted if applicant passes the examination for which the examination fee will be Fifteen (\$15.00) Dollars. In the event an applicant does not appear for examination within one year following notification of date of examination, a new application and examination fee shall be required except when a delay of more than one year is due to circumstances which, in the opinion of the Board, justify a different procedure. One retaking of the examination will be permitted without additional fee. Subsequent retakes will require payment of the stated fee. These fees will be retained by the Board regardless of the outcome of the examination. The examination fee for an Architect-in-Training or Engineer-in-Training shall be Five (\$5.00) Dollars. This fee shall be credited toward the total examination fee of Fifteen (\$15.00) Dollars for final registration as an Architect or Professional Engineer, provided application and examination for such final registration are completed within ten years from date of becoming an Architect-in-Training or Engineer-in-Training, otherwise the full Fifteen (\$15.00) Dollars examination fee must accompany the application.
- (c) The fee for registration in addition to the fee for examination is Ten (\$10.00) Dollars for an Architect or Engineer and Five (\$5.00) Dollars for a Land Surveyor and such payment shall be due when the application has been approved. Payment of this fee must be made prior to the issuance of the certificate of registration.
- (d) The fee for registration in two or more professions is Fifteen (\$15.00) Dollars.
- (e) The fee for a non-resident who is registered in Minnesota is Ten (\$10.00) Dollars for an Architect or Engineer, and Five (\$5.00) Dollars for a Land Surveyor. The aggregate fee for registration in two or all of the three professions is Fifteen (\$15.00) Dollars.
- (f) The fee for renewal of registration is due in the month of December of each year in the amount of Five (\$5.00) Dollars for an Architect or an Engineer, and Two (\$2.00) Dollars for a Land Surveyor. The aggregate fee for renewal in any two or three of the professions is Five (\$5.00) Dollars. There is no annual renewal fee during period of applicant's status as Architect-in-Training or Engineer-in-Training.
- The renewal fee must be paid on or before December 31 of each year, otherwise the name of the Registrant will be deleted from the Roster. The postmark on the envelope containing the remittance will be accepted as the date of payment.
- (g) No fee will be charged for certifying to the qualifications of a Minnesota Registrant who applies for registration in another State. The cost of certified copies or photostats of other documents required by the State in which registration is desired shall be paid by the applicant.

State Board of Registration for Architects, Engineers and Land Surveyors

- (h) The fee for renewal of registration after December 31, as fixed by the Act is Seven and 50/100 (\$7.50) Dollars for an Architect or Engineer, and Three (\$3.00) Dollars for a Land Surveyor. The aggregate fee for renewal in any two or three of the professions is Seven and 50/100 (\$7.50) Dollars.
- (i) The fee for the issuance of a new certificate to replace one revoked, lost, destroyed or mutilated is One (\$1.00) Dollar.
- (j) It is the duty of the Secretary-Treasurer to notify each registrant by mail of the date of expiration of his registration. Such notice will be sent to the address filed with the Secretary-Treasurer, and failure to receive such notice at such address shall not exempt the registrant from the penalties required by Section 326.10, Minnesota Statutes 1945.

Rule 5

Certificate of Qualification:

Certification of an applicant's technical qualifications by the National Council of Architectural Registration Boards or the National Bureau of Engineering Registration conducted by the National Council of State Boards of Engineering Examiners may be accepted by the Minnesota Board as establishing such qualifications and the applicant, in such instances, will not be required to pass further examination.

Rule 6

Rejections:

A person whose application for registration has been rejected shall be fully informed of the reasons for rejection. A new application, in such instances, may be filed at any time after the lapse of six months next succeeding the date of the previous rejection.

Rule 7

Requirements:

It is required that the applicant submit evidence to the Board indicating that he is qualified to practice in the profession or division thereof, in which he seeks registration. The burden of proof is upon the applicant and he, therefore, should make every effort to present qualifications fully and clearly. Qualifications shall be established by one or more of the following methods:

- (a) By passing a written examination. (Required of all Architect applicants, of Engineer applicants as outlined in Rule 11, and of Land Surveyor applicants as outlined in Rule 12.)
- (b) By passing an oral examination and by submitting satisfactory exhibits of technical qualifications. (Required of all applicants in addition to such written examination as may be required.)
- (c) By submitting a record prepared by the National Council of Architectural Registration Boards. (For Architect applicants only.)
- (d) By submitting a Certificate of Qualification prepared by National Bureau of Engineering Registration. (For Engineer applicants only.)
- (e) For reciprocal registration, under provisions of Sec. 326.10, Subd. 2, M. S. 1945, and experience as the Board may thereunder require together with evidence of current registration and proof of good standing.

State Board of Registration for Architects, Engineers and Land Surveyors

Rule 8

Procedure:

- (a) Exhibits in connection with oral or written examination shall not be submitted until requested by the Board.
- (b) An Architect registered by exemption and desiring a change of status may apply therefor and his qualifications for such change will be determined by (1) written examination, or (2) oral examination and submitting satisfactory exhibits of his technical qualifications. (The oral examination shall apply only to those having ten (10) or more years of independent lawful practice as a principal in the profession of Architecture.)
- (c) In the consideration of Engineer applications, mere employment in engineering work must be distinguished from the kind of progressive experience necessary to qualify an applicant for registration. When beginning his experience, an Engineer, with or without the benefit of a college education, might be engaged in activities which may or may not qualify him to practice professional engineering under an accepted definition of such practice. It is, therefore, incumbent upon the Board to carefully scrutinize the applicant's record, the progressive nature of the tasks performed, the responsibilities assumed, and his ethical conduct in order to determine whether or not he is qualified to assume the title of Registered Professional Engineer. In the evaluation by the Board of the experience record submitted in addition to education in a school with an accredited curriculum, responsible charge of engineering work as a subordinate will be considered as qualifying experience.
- (d) Written examinations will be given under conditions as nearly as possible like those under which an applicant works in his own office, except as otherwise noted in advance of the examination. Handbooks, textbooks, catalogs, and such other printed source of information as may be available will be allowed the candidate for all examinations except those on History of Architecture, Architectural Composition, and Architectural Design. By virtue of the candidate's apparent eligibility to be examined, it is presumed that he is well qualified in the theory of the different branches of architectural, engineering, or land surveying practice.
- (e) Examinations will be given each year at such time and place as may be designated by the Board. Persons who file applications for registration and are eligible for examination will be informed by letter of the date of the next examination.

Rule 9

Examination of Architect Applicants:

An applicant for registration as an Architect shall be required to pass a written examination of the allotted time as indicated in the following Divisions:

- Division I. Qualifications and Preparation for Practice. Time—as required.
Examination A. Natural Aptitude and Theoretical and Practical Training. (Examination of Applicant's Record.)
Examination B. Personal Audience. (Oral Examination of Applicant.)
- Division II. Structural Design and Materials.....total 8 hours
Examination C. Structural Design3 hours
Examination D. Truss Design2 hours
Examination E. Selection and Use of Materials.....3 hours

State Board of Registration for Architects, Engineers and Land Surveyors

- Division III. Mechanical Equipment, Counselling and Administration, and Supervision.....total 8 hours
Examination F. Mechanical Equipment of Buildings.....3 hours
Examination G. Counselling and Administration.....3 hours
Examination H. Supervision2 hours
- Division IV. History of Architecture and Architectural Compositiontotal 8 hours
Examination J. History of Architecture.....4 hours
Examination K. Architectural Composition4 hours
- Division V. Architectural Design.
Examination L. Design Problem12 hours

If an Architect applicant fails in not more than three subjects, such applicant may upon application retake examinations in those subjects in which he failed but may not retake an examination in any subject more than four times. Such examination or examinations may not be retaken within two months of the time of taking the previous examination and must be retaken within one year of taking the original examination. In case of failure in more than three subjects or a failure to retake and pass examinations within the time limit above set out in the case of a failure in not more than three subjects, the application will be considered obsolete. A new application accompanied by the examination fee may be filed after the lapse of not less than 12 months next succeeding the date of the last failure.

Rule 10

Divisions of Engineering Registration:

The Board recognizes for registration under the Act the following divisions of the profession of Engineering, namely, Agricultural, Civil, Mechanical, Electrical, Mining, Chemical, Aeronautical, Highway, Structural, Metallurgical, and Naval Architecture. (These are based on full accredited curricula at the University of Minnesota with the exception of the Highway division which is required under the Act, the Structural division which is a specialized branch of Civil Engineering, and the Naval Architecture division.)

Rule 11

Examination of Engineer Applicants:

An applicant for registration as a Professional Engineer shall be required to pass a written and oral examination. These examinations are required from all applicants except those listed under Rule 7 (d) and Rule 7 (e). The written examination consists of a minimum of a two-day examination with 16 hours allotted time.

The oral examination is required from all applicants except those registered as provided in Rule 7 (d) and Rule 7 (e).

The written examination consists of four parts. Parts I and II are preliminary examinations which may be taken prior to completion of the statutory qualifications for registration. The successful passing of these preliminary examinations will give the applicant the status of Engineer-in-Training as defined in Sec. 326.10, Subd. 7, M. S. 1945, and he will not again be required to take these parts of the examination. Parts III and IV are examinations in professional practice and are required as hereinafter outlined. The scope of these examinations is as follows:

Part I. Practical problems in fundamental mathematics and the basic Engineering sciences of physics and chemistry as presented in an

State Board of Registration for Architects, Engineers and Land Surveyors

accredited college engineering curriculum, including application to hydraulics, strength of materials and mechanics. Allotted time—4 hours.

Part II. Problems in planning and designing of elementary engineering projects for the purpose of establishing the applicant's competency and knowledge in applying his educational or other training to specific problems in the engineering division in which he seeks registration. Allotted time—4 hours.

Parts III and IV. Problems embracing knowledge of professional practice and applied economics such as should be acquired in connection with the planning, design and construction of engineering work during the statutory period leading up to final registration. These parts of the examination, together with the oral examination, will not be required and cannot be taken until the full statutory period of engineering work has been completed. Allotted time—4 hours each, or a total of 8 hours for Parts III and IV.

The examination in engineering design and construction given for the purpose of determining proficiency in professional practice will include questions designed to show the applicant's ability to use his fundamental training and his skill in planning, designing and supervising the construction of engineering projects. The judgment and resourcefulness shown in respect to appropriateness of design for the purpose intended, relative economy, and appearance of the structure designed, will be taken into account in determining the grade.

The Board may, on all applications received prior to July 1, 1952, at its discretion, waive written examinations for graduates from accredited engineering curricula with date of graduation previous to 1945 and may also waive the taking of Parts I and II in the case of non-graduates with the required experience. After July 1, 1952, the two-day (16 hour) written examination will be required of all applicants, except those registered under Rule 7 (d) and Rule 7 (e).

Rule 12

Examination of Land Surveyor Applicants:

An applicant for registration as a Land Surveyor shall have a thorough knowledge of and pass a written examination covering some phase of each of the following subjects:

- (a) Fundamental mathematics including square root, logarithms, geometry, algebra and plane trigonometry;
- (b) The history, principles and application of the U. S. system of public land surveys and elementary knowledge of the other systems used in the United States;
- (c) The instructions of the United States Land Office relative to the relocation of lost and obliterated corners and the subdivision of sections;
- (d) The legal essentials of resurveys including those involving disputed boundaries, defective deed descriptions, riparian rights and adverse possession;
- (e) Provision of Minnesota Statutes relative to preparation and filing of plats;
- (f) The writing of correct deed descriptions;

State Board of Registration for Architects, Engineers and Land Surveyors

(g) Topographic surveying and platting essential to determining the boundaries or subdivision of areas differing widely in character, value or usefulness;

(h) The judicial functions of land surveyors.
Allotted time—8 hours.

Rule 13

Code of Ethics:

Technical work based upon the professional practice of Architects, Engineers and Land Surveyors has become an increasingly important factor in the progress of civilization and in the welfare of the community. These professions are held responsible for the planning, construction, and operation of such work, and are entitled to the position and authority which will enable them to discharge this responsibility and to render effective service to humanity.

That the dignity of his chosen profession may be maintained and that his obligation and responsibility to the public be impressed upon the applicant, it is required before registration is granted that each applicant subscribe to and agree to exemplify the following Code of Ethics:

- (a) To maintain interest in the public welfare and be ready to apply his special knowledge, skill, and training for the use and benefit of mankind.
- (b) To refrain from associating himself with, or allowing the use of his name in connection with, any enterprise of questionable character.
- (c) To carry on his professional work in a spirit of fairness to all concerned, fidelity to clients and employers, loyalty to his country, and to be devoted to high ideals of courtesy and personal honor.
- (d) To regard as confidential any information obtained by him as to the business affairs and technical methods or processes of a client or employer.
- (e) To discourage consulting practice by manufacturers and contractors, and endeavor to have all architectural or engineering plans, other documents, surveys and plats signed by the Architect, Engineer, or Land Surveyor directly responsible for them.
- (f) To inform a client or employer of any business connections, interests, or affiliations which might influence his judgment or impair the disinterested quality of his services.
- (g) To accept financial or other compensation for a particular service from one source only.
- (h) To advertise only in a manner supporting the dignity of his profession.
- (i) To refrain from submitting competitive bids for professional services or using other improper or questionable methods of soliciting professional work.
- (j) To avoid using unfair means to win professional advancement or to injure the opportunities of another to secure or retain employment.
- (k) To confine his professional service to the profession or division thereof, in which he is registered.
- (l) To refrain from associating, in a partnership, with a person not professionally qualified, and to refrain from lending his name or seal for the

State Board of Registration for Architects, Engineers and Land Surveyors

approval of plans or other documents for the preparation of which he was not directly responsible.

- (m) To refrain from using the advantages of a salaried position to compete unfairly with other Architects, Engineers, or Land Surveyors.
- (n) To cooperate freely with architectural and engineering agencies in advancing the architectural and engineering professions.

Rule 14

Partnership:

No person registered under Chapter 523, Laws of Minnesota for 1921, as amended, shall form a partnership with another person or persons to practice the profession of either Architecture, Engineering, or Land Surveying unless the person or persons with whom the partnership is formed is or are registered under said Act in one or more of the three professions.

Rule 15

No partnership formed to practice Architecture, Engineering, or Land Surveying, or all of said professions, shall contract with or accept employment for professional services of an architectural, engineering, or land surveying character as defined by the Act unless a member of the partnership or the employee of the partnership in responsible charge of the work is registered under the Act to practice the profession called for by such employment.

Rule 16

Responsible Charge:

A person in responsible charge of Architecture, Engineering, or Land Surveying work as used in Sec. 326.14 M.S. 1945 is hereby construed to mean the person, or persons, who determines technical questions of design and policy, advises with the client, superintends the work of subordinates and, in general, the person whose professional skill and judgment are embodied in the plans, designs and advice involved in the work.

Rule 17

Misconduct:

It shall be misconduct for any registrant to practice or to offer to practice Architecture, Engineering, or Land Surveying unless he be registered in the profession in which he offers to practice.

Rule 18

It shall be misconduct for a registered professional engineer to practice or offer to practice a division of engineering in which he is not registered.

Rule 19

It shall be misconduct in the practice of his profession for any registrant to violate the Code of Ethics by Rule 13 prescribed.

Rule 20

Certificate of Registration:

This Board will issue to each successful applicant a Certificate of Registration properly filled out, signed and sealed, giving the Registrant proper

State Board of Registration for Architects, Engineers and Land Surveyors

authority to practice the profession of Architecture, Engineering, or Land Surveying under the Registration Act of the State of Minnesota for a period ending December 31 of the year Certificate is issued, after which date the Certificate will expire unless renewed.

The certificate issued to an Architect-in-Training or an Engineer-in-Training indicates that his name has been recorded as such in the office of the Board and shall be in effect for a period not exceeding ten years from the date of the granting of such a certificate.

Rule 21

Signature on Plans:

The certification and signature on plans, specifications, plats, reports, etc., is mandatory, as provided by Section 326.12, Subd. 3, M. S. 1945. A person in direct supervision of work as referred to in the foregoing subdivision is construed to mean the person whose professional skill and judgment are embodied in the document signed, and who assumes responsibility for the accuracy and adequacy thereof.

The Board has designed a stamp which combines certification and a space for signature.

The size of the stamp together with the size of letters and spacing of lines may be varied to suit individual requirements. The stamp may be imprinted directly on the tracing and signature affixed thereto thus eliminating the necessity of duplicate signatures on prints.

When the plans are bound together as an entity only the title sheet need bear the signature and certification. Where the set is broken up for specific purposes, such as sub-contracts, each such set or sub-set should be signed and certified. When the plans customarily carry a title on each sheet of drawing or tracing, the certification and signature should preferably be affixed to each such sheet. Certification and signature need not appear on cross section sheets or similar routine data. One certification and signature on bound specifications or separate section of specifications, if so issued, is required.

Rule 22

Seal:

Each registrant may, upon registration, also obtain a seal of a design approved by the Board bearing the registrant's name and the legend, "Registered Architect," "Registered Professional Engineer," or "Registered Land Surveyor." Plans, specifications, plats, reports, and other documents prepared by a registrant may be stamped with the seal during the life of a registrant's certificate provided that such certificate remains unrevoked or has not expired or has not been suspended.

State Board of Registration for Architects, Engineers and Land Surveyors

ROSTER

of

**REGISTERED ARCHITECTS, PROFESSIONAL
ENGINEERS AND LAND SURVEYORS**

AUTHORIZED TO PRACTICE IN MINNESOTA DURING THE YEAR 1951

The Act authorizes registration as

A—ARCHITECT B—ENGINEER and C—LAND SURVEYOR

In 1951 registration certificates will be issued in the following classifications only
i.e., Architect, Land Surveyor, and the following divisions of Engineering, viz.,

40 Aeronautical	14 Electrical	27 Mining
2 Agricultural	18 Highway	41 Naval Architecture
7 Chemical	25 Mechanical	37 Structural
9 Civil	26 Metallurgical	

Previous to 1937 various other classifications were recognized and, for that reason,
the following numerical index is published only to identify classifications as noted in
the Roster.

1—Landscape Architect	14—Electrical	27—Mining
2—Agricultural	15—Gas	28—Municipal
3—Analyst	16—Geophysical	29—Paving Technologist
4—Architectural	17—Heating	30—Power Plant
5—Assessment	18—Highway	31—Professional
6—Bridge	19—Hydraulic	32—Railroad
7—Chemical	20—Hydro-Electrical	33—Refrigerating
8—City Planning	21—Industrial	34—Sanitary
9—Civil	22—Insurance	35—Sewage
10—Combustion	23—Location	36—Soils
11—Construction	24—Marine	37—Structural
12—Consulting	25—Mechanical	38—Valuation
13—Drainage	26—Metallurgical	39—Ventilating

Omission of name of State indicates Registrant lives in Minnesota.
