The following information was obtained from the records of the
 Department of the Interior, Bureau of Land Management, and the
 Bureau of Reclamation, and is being furnished to you for your
 information. It is not to be used for any other purpose.
 The information is being furnished to you for your information
 only and is not to be used for any other purpose.

A 10x10 grid of handwritten digits from 0 to 9. Each digit is heavily corrupted with black noise, making them difficult to recognize. The digits are arranged in rows: the first row contains 0s, the second row contains 1s, the third row contains 2s, the fourth row contains 3s, the fifth row contains 4s, the sixth row contains 5s, the seventh row contains 6s, the eighth row contains 7s, the ninth row contains 8s, and the tenth row contains 9s. The noise is distributed unevenly across the grid, with some digits being more legible than others.
