SUBJECT: Reorganization Order No. 10

Attached for your signature is Reorganization Order No. 10 transferring an employee and certain functions from the Iron Range Resources and Rehabilitation Department to the Department of Natural Resources.

The purpose of this action is to place the responsibility of the Iron Range Resources and Rehabilitation Department relating to the development and maintenance of state land ownership records in the Department of Natural Resources. The IRR & RC employee assigned to this responsibility has been working out of the Department of Natural Resources for some time and that Department has state-wide responsibility for such records. This move will serve to eliminate duplication of responsibility.

In addition the Iron Range Resources and Rehabilitation Department has some activities related to forest products marketing and utilization which utilizes a fraction of one position's time. That same activity is a major responsibility of the Department of Natural Resources. Therefore, the transfer of these responsibilities will help to eliminate duplication of responsibility.

All affected parties are in agreement on this transfer.

As soon as the order has been finally approved by you, my office will prepare copies for all files and will deliver a complete copy of the file to your office.
