Dear Mr. Erdahl: Re: County Court for Pipestone and Murray Counties

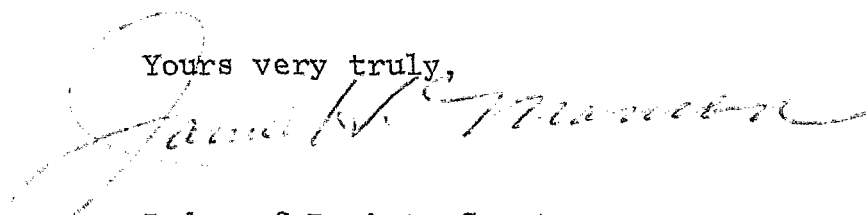

Pursuant to Chapter 951 Minnesota Session Laws 1971, the County Court District comprising Pipestone and Murray Counties was established.

This law also provides that the Probate Judge of the County having the largest population is to be the County Judge therein provided he files a consent in your office.

I have prepared and am enclosing herewith my consent to act as County Judge for said County District.

I trust the same is in good form and proper order.

Yours very truly,

Judge of Probate Court
