WHEREAS: the program includes coordination with the kidney centers at the Hennepin County General Hospital, Mayo Clinic, Veterans Administration Hospital and University of Minnesota Hospital, and calls for a much-needed expansion so that it may help more sufferers; calls for the sending of teams of kidney specialists into nearby communities to present to local doctors the latest diagnostic and treatment techniques to help center patients in this state; and

WHEREAS: it is estimated there are more than 150,000 sufferers in Minnesota; and

WHEREAS: the suffering of these individuals contributes to their absenteeism and so weighs heavily upon local business and industry through lost production, lost wages, and loss of purchasing power;
