

FIRST ANNUAL REPORT
OF THE
STATE BOARD OF REGISTRATION
FOR
ARCHITECTS, ENGINEERS AND LAND SURVEYORS
OF MINNESOTA
TO THE GOVERNOR
FOR THE YEAR ENDING DECEMBER 31, 1921.

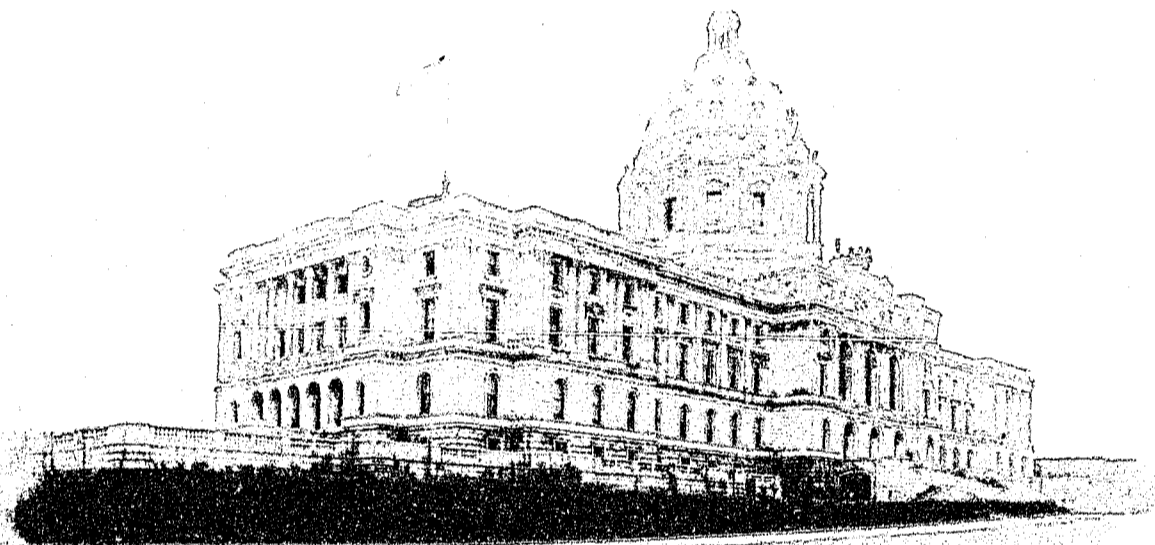

2770

FIRST ANNUAL REPORT
OF THE
State Board of Registration
For
Architects, Engineers and Land Surveyors
of Minnesota

TO THE GOVERNOR

For the Year Ending December 31, 1921.

MINNESOTA'S STATE CAPITOL BUILDING, ST. PAUL, MINNESOTA.

MEMBERS OF THE BOARD.

Chairman: Paul Doty, *St. Paul, Minnesota.*

Vice Chairman: N. Y. Taylor, *Litchfield, Minnesota.*

Secretary-Treasurer: H. T. Downs, *Minneapolis, Minnesota.*

A. F. Gauger, *St. Paul, Minnesota.*

F. C. German, *Duluth, Minnesota.*

F. W. McKellip, *Faribault, Minnesota.*

D. E. Woodbridge, *Duluth, Minnesota.*

St. Paul, Minnesota, December 31, 1921.

To His Excellency J. A. O. Preus,
Governor of the State of Minnesota.

The State Board of Registration for Architects, Engineers and Land Surveyors of Minnesota respectfully submit this, its first annual report, for your consideration.

APPOINTMENT OF THE BOARD.

Pursuant to the act of the Legislature herewith attached, Your Excellency appointed in June, 1921, the following citizens as members of the first Board:

Paul Doty	Mechanical Engineer	of St. Paul, Minnesota.	for a term of 4 years
D. E. Woodbridge	Mining Engineer	of Duluth, Minnesota.	for a term of 3 years
H. T. Downs	Architect	of Minneapolis, Minnesota.	for a term of 3 years
N. Y. Taylor	Land Surveyor	of Litchfield, Minnesota.	for a term of 2 years
F. G. German	Architect	of Duluth, Minnesota.	for a term of 2 years
A. F. Gauger	Architect	of St. Paul, Minnesota.	for a term of 1 year
F. W. McKellip	Civil Engineer & Land Surveyor	of Faribault, Minnesota.	for a term of 1 year

ORGANIZATION OF THE BOARD.

On July 28, 1921, all of the above appointees met at the Capitol Building in St. Paul, and after taking their oath of office proceeded to the organization of the Board, and elected the following officers:

Chairman, Mr. Paul Doty
Vice Chairman, Mr. N. Y. Taylor
Secretary-Treasurer, Mr. H. T. Downs

By-laws were adopted and, as provided therein, the Chairman appointed the following Standing Committees:

Executive—	Mr. Doty, Mr. Downs and Mr. McKellip
Finance—	Mr. Taylor, Mr. Gauger and Mr. German
Rules and Regulations—	Mr. Woodbridge, Mr. German, Mr. McKellip, Mr. Taylor and Mr. Gauger
Public Information—	Mr. Woodbridge, Mr. Downs and Mr. Doty

Rules and Regulations of the Board, the necessary official blanks, and the design for the official seal of the Board were adopted, copies of which are attached hereto.

OTHER BOARD MEETINGS.

During the period covered by this report other meetings have been held by the Board, as follows:

July 28, 1921, at the Governor's office, State Capitol, St. Paul.
August 11, 1921, at the Governor's office, State Capitol, St. Paul.
September 27, 1921, at the Secretary's office, Minneapolis, Minnesota.
November 10, 1921, at the Secretary's office, Minneapolis, Minnesota.
November 11, 1921, at the Secretary's office, Minneapolis, Minnesota.
December 19, 1921, at the Secretary's office, Minneapolis, Minnesota.

APPLICATIONS FOR REGISTRATION RECEIVED.

During the period covered by this report the Board has received 272 applications for registration, of which number 227 have been approved and registration granted as shown by the attached roster. The balance of applications received either have not had the attention of the Board or are being held for further consideration.

Roster of Architects, Professional Engineers and Land Surveyors registered to practice in the State of Minnesota during the year ending December 31, 1921.

The Registration Law

CHAPTER 523—S. F. 258.

An act to regulate the practice of architecture, professional engineering and land surveying.
Be it enacted by the Legislature of the State of Minnesota:

Section 1. *Architects, engineers and surveyors to be registered.*—In order to safeguard life, health and property, any person practicing or offering to practice as an architect, a professional engineer or a land surveyor in this State shall hereafter be required to submit evidence that he is qualified so to practice, and shall be registered as hereinafter provided; and from and after six months after this act becomes effective, it shall be unlawful for any person to practice or to offer to practice in this State as an architect, a professional engineer (hereinafter called engineer) or a land surveyor except under the provisions of this act.

Sec. 2. *Not to apply to practicing architects, etc.*—Nothing in this act shall be construed as requiring registration for the continuation of his practice, by any person who prior to the passage of this act resided in this state and practiced as an architect, as an engineer or as a land surveyor; provided, however, no person shall represent himself as, or use the title of, "Registered Architect," "Registered Professional Engineer" or "Registered Land Surveyor," unless such person is qualified by registration under this act; nor shall anything in this act be construed as requiring registration by any person, not an architect or an engineer, who may engage in work of any architectural or engineering character; provided that such person shall not represent himself as a registered architect or as a registered engineer; and provided further, that on drawings, specifications or other documents prepared or issued by such person, he shall not use the title Registered Architect or Registered Engineer, or any other title implying that he is a registered architect or a registered engineer: Nor shall anything in this act be construed as requiring registration by any person selected by any municipality or other public authority to perform public work in the State of Minnesota.

Sec. 3. *State board of registration of architects created—Terms—Appointment.*—To carry out the provisions of this act there is hereby created a State Board of Registration for architects, engineers and land surveyors (hereinafter called the board) consisting of seven members, who shall be appointed by the Governor within sixty days after this act becomes effective. Three members shall be registered architects, three members shall be registered engineers and one member shall be a registered land surveyor. Not more than one member of said board shall be from the same branch of the profession of engineering. The members of the first Board shall be appointed to serve for the following terms: two members for one year; two members for two years; two members for three years; and one member for four years, said terms ending on the first day of January of the succeeding years. On the expiration of each of said terms the terms of office of each newly appointed or reappointed member of the Board shall be for a period of four years and shall terminate on the first day of January; except that each member shall hold over after the expiration of his term until his successor shall have been duly appointed and qualified. The Governor may remove any member of the Board for misconduct, incompetency or neglect of duty. Vacancies in the membership of the Board, however created, shall be filled by appointment by the Governor for the unexpired term.

Sec. 4. *Qualifications of members of board.*—Each member of the Board shall be a citizen of the United States and a resident of this State at the time of his appointment. He shall have been engaged in the practice of his profession for at least ten years and shall have been in responsible charge of work for at least five years. He shall be a member in good standing of a recognized society of architects, engineers or land surveyors, and except as provided in Section 5 shall be a registered architect, registered engineer or registered land surveyor.

Sec. 5. *Powers and duties.*—Each member of the Board shall receive a certificate of appointment from the Governor, and before beginning his term of office he shall file with the Secretary of State the constitutional oath of office. Each member of the Board first created shall receive a certificate of registration under this act from the Governor of this State. The Board or any committee thereof shall be entitled to the services of the Attorney General in connection with the affairs of the Board, and the Board shall have power to compel the attendance of witnesses, may administer oaths and may take testimony and proofs concerning all matters within its jurisdiction. The Board shall adopt and have an official seal which shall be affixed to all certificates of registration granted; and shall make all by-laws and rules not inconsistent with law needed in performing its duties; and shall fix standards for determining the qualifications of applicants for certificates, which shall not exceed the requirements contained in the curriculum of a recognized school of architecture or engineering.

Sec. 6. *Meetings—Officers—Quorum.*—The Board shall hold a meeting within thirty days after its members are first appointed, and thereafter shall hold at least two regular meetings each year. Special meetings shall be held at such times as the by-laws of the Board may provide. Notice of all meetings shall be given in such manner as the by-laws may provide. The Board shall elect annually from its members a chairman, a vice-chairman and a secretary-treasurer. A quorum of the Board shall consist of not less than four members, of whom two shall be architects and two engineers.

Sec. 7. *Fees to be used for expenses—Compensation of members.*—All fees and other monies accruing from the operation of this act shall be paid to the Board and shall be used for the purposes of this act. The expenses of the Board shall be paid by voucher made by the secretary-treasurer and approved by the chairman. Each member of the board shall receive such compensation as the Board may direct, not to exceed \$10.00 per day for time spent in attending meetings of the Board. The members of the Board shall be reimbursed for actual expenses incurred in travel to and from meetings and for expenditures for hotel bills, meals, stationery, postage, printing, typewriting and the like necessary expenses incurred in the performance of their duties under this act. The secretary-treasurer of the Board shall give a surety bond satisfactory to the State Treasurer conditioned upon the faithful performance of his duties. The premium on said bond shall be regarded as a proper and necessary expense of the Board.

Sec. 8. *Records—Reports.*—The Board shall keep a record of its proceedings and a register of all applicants for registration showing for each, the date of application, name, age, educational and other qualifications, place of business and place of residence, whether or not an examination was required and whether the applicant was rejected or a certificate of registration granted, and the date of such action. The books and register of the Board shall be prima facie evidence of all matters recorded therein. A roster showing the names and places of business and of residence of all registered architects, engineers, and land surveyors shall be prepared by the secretary-treasurer of the Board during the month of January of each year; such roster shall be printed out of the funds of the Board as provided in Section 7. On or before the first day of February of each year the Board shall submit to the Governor and file with the Secretary of State a copy of the report of its transactions for the preceding year together with a complete statement of the receipts and expenditures of the Board signed by the chairman and the secretary-treasurer, accompanied by a certified audit, and a copy of the said roster of registered architects, registered engineers and registered land surveyors:

Sec. 9. *Application for and issuance of certificates.*—The Board shall, on application therefor, on prescribed form and the payment of a fee of not to exceed Twenty-five (\$25.00) Dollars issue a certificate of registration as an architect or an engineer, and on the payment of a fee of not to exceed Ten (\$10.00) Dollars issue a certificate of registration as a land surveyor:

1. To any person over twenty-five (25) years of age, who is a citizen of the United States or Canada, or who has made declaration of his intention to become a citizen of the United States; who speaks and writes the English language; who is of good character and repute, and has been actively engaged for six or more years in architectural or engineering work, or engaged for four or more years in surveying work. The character of such work shall be equal to the standards fixed by the Board. Each year of teaching or of study satisfactorily completed, of architecture, engineering or surveying in a school of architecture or engineering of a standard recognized by the Board, shall be considered as equivalent to one year of such active engagement.

2. To any person who holds a like unexpired certificate of registration issued to him by proper authority in the District of Columbia, in any state or territory of the United States, or in any province of Canada, in which the requirements for the registration of architects, engineers or land surveyors are equal to those fixed by the Board for this state.

When the evidence presented by an applicant for a certificate of registration does not appear to the Board as conclusive or as warranting the issuance of a certificate, the Board may require further evidence to be presented, or may subject the applicant to such examination as may be deemed necessary to establish his qualifications.

In determining the qualifications of applicants for registration as architects, a majority vote of the architect members of the Board only, shall be required; in determining the qualifications of applicants for registration as engineers a majority vote of the engineer members of the Board only, shall be required; and in determining the qualifications of applicants for registration as land surveyors, the affirmative vote of land surveyor members and of one engineer of the Board only, shall be required.

Any person so qualified may be registered in two or all of the three professions covered by this Act; but the aggregate fee for such registration shall not exceed Twenty-five (\$25.00) Dollars.

In case the Board denies the issuance of a certificate to an applicant, the registration fee deposited shall be returned by the Board to the applicant.

Certificates of registration shall expire on the last day of the calendar year for which they are issued and shall become invalid on that date unless renewed. It shall be the duty of the secretary-treasurer of the Board to notify, by mail, every person registered hereunder of the date of the expiration of his certificate and the amount of the fee required for its renewal for one year; such notice shall be mailed at least one month in advance of the date of the expiration of said certificate. Renewal may be effected at any time during the month of December by the payment of a fee of Five (\$5.00) Dollars for an architect or an engineer, and Two (\$2.00) Dollars for a land surveyor. The failure on the part of any registrant to renew his certificate annually in the month of December as required above shall not deprive such person of his right of renewal thereafter, but the fees to be paid for the renewal of the certificate after the succeeding first day of January shall be Seven (\$7.00) Dollars for an architect or an engineer, and Three (\$3.00) Dollars for a land surveyor. The aggregate fee for renewal of registration in two or three of the professions shall be the same as the single renewal fee for registration as an architect or an engineer.

Sec. 10. *Certificates may be revoked for cause—Reissue.*—The Board shall have the power to revoke the certificate of registration of any architect, engineer or land surveyor registered hereunder, who is found guilty of any fraud or deceit in obtaining a certificate of registration or of gross negligence, incompetency or misconduct in the practice of architecture, engineering or land surveying. Any person may prefer charges of such fraud, deceit, negligence, incompetency or misconduct against any architect, engineer or land surveyor registered hereunder. Such charges shall be in writing, sworn to by the complainant and submitted to the Board; and unless dismissed without hearing by the Board as unfounded or trivial, shall be heard and determined by the Board within three months after

the date on which they are preferred. A time and place for such hearing shall be fixed by the Board. A copy of the charges, together with a notice of the time and place of hearing, shall be legally served on the accused at least thirty days before the date fixed for the hearing, and in the event that such service can not be effected thirty days before the hearing, then the date of hearing and determination shall be postponed as may be necessary to permit the carrying out of this condition. At said hearing the accused shall have the right to appear personally and by counsel, to cross-examine witnesses against him and to produce evidence and witnesses in his defense. If after said hearing five or more members of the Board vote in favor of finding the accused guilty of any fraud or deceit in obtaining a certificate, or of gross negligence, incompetency or misconduct in the practice of architecture, engineering or land surveying, the Board shall revoke the certificate of registration of the accused.

The Board may reissue a certificate of registration to any person whose certificate has been revoked, provided five or more members of the Board vote in favor of such reissuance for reasons the Board may deem sufficient.

A new certificate of registration to replace any certificate revoked, lost, destroyed or mutilated, may be issued, subject to the rules and regulations of the Board. A charge of one dollar shall be made for such reissuance.

Sec. 11. *Certificate to be evidence.*—The issuance of a certificate of registration by this Board shall be evidence that the person named therein is entitled to all rights and privileges of a registered architect, registered engineer or registered land surveyor while the said certificate remains unrevoked or unexpired.

Each registrant hereunder may upon registration obtain a seal of the design authorized by the Board, bearing the registrant's name and the legend "Registered Architect," "Registered Professional Engineer" or "Registered Land Surveyor." Plans, specifications, plats, reports or other documents issued by a registrant may be stamped with said seal during the life of registrant's certificate, but it shall be unlawful for anyone to stamp or seal documents with said seal after the certificate of the registrant named thereon has expired or has been revoked.

Sec. 12. *Violations—Penalties.*—Any person who after this Act has been in effect six months is not authorized to practice in this State as a registered architect, a registered engineer or a registered land surveyor under the provisions of this Act and shall so practice, or offer so to practice, and any person presenting or attempting to file as his own the certificate of registration of another, or who shall give false or forged evidence of any kind to the Board, or to any member thereof, for the purpose of obtaining a certificate of registration, or who shall falsely impersonate any other practitioner, of like or different name, or who shall use or attempt to use an expired or revoked certificate of registration, shall be deemed guilty of a misdemeanor; and shall for each such offense of which he is convicted be punished by a fine of not less than fifty (\$50.00) dollars nor more than five hundred (\$500.00) dollars, or by imprisonment for three months, or by both fine and imprisonment. However, nothing in this Act shall be construed as excluding any registered architect from doing work of an engineering character, nor of excluding any registered engineer from doing work of an architectural character.

Sec. 13. *Exemptions.*—The following shall be exempted from the provisions of this Act:

1. Offering to practice in this State as an architect, an engineer or a land surveyor, by any person not a resident of and having no established place of business in this State.
2. Practice as an architect, an engineer or a land surveyor in this State by any person not a resident of and having no established place of business in this State, when this practice does not aggregate more than thirty days in any calendar year; provided, that said person is legally qualified for such professional service in his own State or country.
3. Practice as an architect, an engineer or a land surveyor in this State by any person not a resident of and having no established place of business in this State, or any person resident in this State, but whose arrival in the State is recent; provided, however, such person shall have filed an application for registration as an architect, an engineer or a land surveyor and shall have paid the fee provided for in Section 9 of this Act. Such exemption shall continue for only such reasonable time as the Board requires in which to consider and grant or deny the said application for registration.
4. Practice as an architect, an engineer or a land surveyor by any person not a resident of, and having no established place of business in this State, as a consulting associate of an architect, an engineer or a land surveyor registered under the provisions of this Act; provided the non-resident is qualified for such professional service in his own State or country.
5. Practice as an architect, an engineer or a land surveyor solely as an officer or as an employee of the United States.

Sec. 14. *Corporations may engage in work if responsible head is registered.*—A corporation or partnership may engage in work of an architectural or engineering character, or in land surveying, in this state, provided the person or persons connected with such corporation or partnership in responsible charge of such work is or are registered as herein required of architects, engineers and land surveyors, or is or are otherwise authorized to practice. The same exemptions shall apply to corporations and partnerships as apply to individuals under this Act.

Sec. 15. *Definitions.*—Land surveying as covered by this Act refers only to surveys for the establishment or re-establishment of land boundaries, the subdivision and platting of land and the determination of areas.

Sec. 16. *Inconsistent acts repealed.*—All laws or parts of laws in conflict with the provisions of this Act are hereby repealed.

Sec. 17. This bill shall take effect and be in force from and after its passage.

Approved April 25, 1921.

State of Minnesota

BOARD OF REGISTRATION FOR ARCHITECTS, PROFESSIONAL ENGINEERS, AND LAND SURVEYORS.

St. Paul, Minn.

RULES AND REGULATIONS.

(As amended and approved January 16th, 1922.)

RULE 1.

Applications for Registration: These may be made either for registration without examination as provided in section 9 of the general laws of Minnesota for 1921, chapter 523 (hereafter referred to as the act) or for reciprocal registration, or for admittance to examination for registration, all as provided in the above section. Applicants for registration without examination shall be referred to herein as of Class 1; those applying for reciprocal registration as of Class 2; and others as of Class 3. Class 1 is limited to those who can show to the satisfaction of the Board of Registration for Architects, Professional Engineers, and Land Surveyors (hereafter referred to as the board) that they have been actively engaged for six or more years in architectural or engineering work prior to October 25, 1921, or engaged for four or more years in surveying work prior to the same date, and are otherwise qualified as required by the act. Class 2 is limited to those who can show the board, by legally certified copies of registration certificates issued by the District of Columbia, by at least one state aside from Minnesota, or by the Dominion of Canada, that they are duly registered where the requirements for registration by examination are equal to those fixed by the board for this state. Class 3 includes all applicants other than the above, and applications under this class are limited to those who can show to the satisfaction of the board that they are qualified to be admitted to examination for registration by the board.

RULE 2.

Form of Applications: These shall always be made on printed blanks issued by the board. No applications made otherwise will be acceptable for filing. In event that the forms issued by the board do not contain sufficient space for evidence the applicant desires to present, he may attach additional sheets to said form, to any extent he may wish, but such sheets are to be of the same size as the printed forms, and securely attached thereto.

RULE 3.

Class 1 Applications: Applicants will be required to furnish information on the following: Color, name, age, sex, place of birth, citizenship, residence, place and nature of present business (and for the information of the board in the case of engineering applicants, the particular branch or branches of engineering under which the applicant seeks to register) service, if any, in the military, naval, or engineering branches of the United States government, record of professional career during a period of at least six years for architects and engineers, and of four years for land surveyors, as required in the act, and evidence of good character. In addition to submitting full information on the above, the applicant is invited to submit as complete an account of his educational and professional and business career as he considers desirable in order to aid the board in determining that he is qualified for the registration that he seeks. It should be made clear to applicants that favorable action in any case will be facilitated by the amplitude and comprehensiveness of the evidence submitted, and that the board does not desire applicants to be limited to the six or four year periods specified. Statements as to professional practise and experience should contain specific references to important works with which the applicant has been connected, and the names of persons given as references should be so that the board may communicate with them in order to substantiate any state-

ments made. At least two of such references shall be from men in the same profession as that in which the applicant seeks registration. Professional papers, technical books, photographs, patents, reports or other documentary evidence of the applicant's qualifications may be referred to in the application. Prolivity and unnecessary verbiage and detail are to be avoided. To a certain extent the manner in which an application is prepared and submitted will be considered by the board in determining qualifications of applicant. Evidence as to character shall accompany applications, through at least two reputable persons or firms. Applications shall be accompanied by the registration fee of \$25.00, as required by law, and applications not so accompanied shall be returned with notification to the applicant of the cause of return. Applications must be attested on oath or affirmed before a notary public or other qualified official.

RULE 4.

Class 2 Applications: Applicants will be required to furnish information on the same subjects as is required of those under Class 1 and in addition properly attested certificates of registration in the District of Columbia, in any state or territory of the United States, or in any province of Canada where the requirements for registration are equal to those fixed by the board for this state, together with an attested copy of the evidence of character there submitted by them. Applications under class 2 must also be accompanied by the registration fee of \$25.00, as required by law and must be attested on oath or affirmed before a notary public or other qualified official.

RULE 5.

Class 3 Applications: Applicants will be required to furnish information on the same subjects as is required of those under class 1, except that the record of professional career need not be for the period of six or four years, as therein required. If there has been a professional career then applicants will furnish a record thereof, basing this on the information given above for class 1 applicants. In connection with these applications, the training and experience of the applicant will be the basis on which the board will determine 60 out of 100 total points of the examination. It is therefore important that the applicant shall appreciate that his ultimate rating will depend to a considerable extent on the nature of the disclosure made by him as to education and experience, and that he exercise due care to prepare a careful and well supported record of these. Applications shall be accompanied by the registration fee of \$25.00 as required by law. Applications must be attested on oath or affirmed before a notary public or other qualified official.

Note: In the case of land surveyors the fee required by law, and to be forwarded with the application for registration, for all the above mentioned classes, is \$10.00.

RULE 6.

Registration in Class 1 and Class 2: If after the examination of the evidence submitted, or such other evidence as the board may require, secure, or possess, the board is satisfied that the applicant has the qualifications necessary for registration as an architect, as a professional engineer or as a land surveyor, the applicant shall be so notified, and the board shall forthwith cause applicant to be registered as of the proper classification or classifications, and shall issue a suitable certificate of registration, duly executed.

RULE 7.

Examinations: Committees of the board, appointed from time to time, will conduct examinations at meetings held for that purpose. The recommendations of these committees shall be at once submitted to the board for final action. In the case of class 3 applications, if from the evidence submitted or such other evidence as the board require, secure, or possess, it is satisfied that an applicant is entitled to be admitted for examination, and such examination is required, he shall be so notified and a time and place for the examination shall be fixed by the board.

The nature of this examination and the ratings thereunder are as follows:

	Maximum points:
Education, training and experience,	60
Oral test,	20
Written test,	20

The applicant must receive at least 70 points out of the possible 100 as above, in order to secure registration under the act. At least 25 of these points must be obtained through the oral and written tests combined. In written tests the applicant will be permitted the use of such books of reference as he requires. All applications for examination must be in the hands of the secretary of the board at least 30 days prior to the date set for examination.

The examining committee shall execute certificates setting forth the result of each examination, these to be called "examiners' certificates." These will form a part of the records of the board, and will be attached to and form a part of the appurtenant papers in each case, duplicate copies of which papers shall be kept by the board among the records of the state.

RULE 8.

References: Upon receipt of applications the secretary shall prepare a digest of the information contained therein and at convenient intervals shall mail same to each member of the board, and these shall promptly acquaint the secretary with information known to them reflecting on the verity of the statements of the applicant. Such information shall be attached to the application for the use of the board. The secretary shall by means of prepared blanks use due diligence in inquiring concerning the truthfulness of applicant's statements, from the references given or from others whom the board or the secretary may suggest. All information received from such references shall be and remain confidential.

RULE 9.

Records: The secretary shall keep a record in connection with applications for registration; which shall be a duplicate of the informations submitted in the applications, together with the result of the application. He shall maintain a list of all registered architects, professional engineers, and of the especial branch or branches of engineering under which they seek registration, and of land surveyors, with their registration numbers. There shall be two of such lists, one by priority of number and one alphabetical.

RULE 10.

Rejections: In case of the rejection of applications the unsuccessful applicant shall be notified, both of the fact and of the reason, and shall then be invited to submit additional evidence bearing on the case; unless the rejection be by reason of alleged improper conduct or unsuitable character, in which cases the board may or may not extend invitation for additional evidence. A rejected applicant may, if invited, file with the board any reason he desires in support of a claim for reconsideration or re-examination. It will be the policy and intent of the board to give rejected applicants every reasonable opportunity to support claims for reconsideration or re-examination, and to consider such evidence as may have been omitted or overlooked on the original application or examination. In case of final rejection the applicant's fee shall be refunded.

RULE 11.

Certificates of Registration: These shall be in a form adopted by the board; they shall bear on their face a notation stating whether the registrant has qualified as an architect, professional engineer or a land surveyor. Registrants under the act and doing business with the public on their own account or as chief executives or consultants, should keep their certificates of registration posted conspicuously in their places of business, where the public may readily examine the same.

RULE 12.

Official Stamps: All maps, plans, diagrams, or other drawings and all specifications, reports, estimates, or other documents prepared by a registrant under the act for issuance to the public, or a client, and for which compensation is received by him, in whole or in part, should bear on their face an official stamp containing the name of the registrant or registrants responsible therefor. This stamp shall be of a form approved by the board, and there shall be general uniformity in the type of stamps thus used.

RULE 13.

Registration Numbers: These will be issued by the board consecutively in the order in which applicants qualify before the board. No discrimination or preferences will be permitted in issuing registration numbers to registrants.

RULE 14.

Transfer Certificates: Upon request registrants are entitled to receive from the board certified copies of their certificates of registration.

STATE OF MINNESOTA

BOARD OF REGISTRATION FOR ARCHITECTS, PROFESSIONAL ENGINEERS, AND LAND SURVEYORS.

—
St. Paul, Minn.
—

APPLICATION FOR REGISTRATION

As an Architect, Professional Engineer, or Land Surveyor; pursuant to Chapter 523 of the General Laws of Minnesota for 1921, entitled An Act to Regulate the Practise of Architecture, Professional Engineering and Land Surveying.

Under this Act there will be three general classes of Applicants for registration for those who are over 25 years of age, are citizens of the United States or Canada, or who have made declaration of intent to become citizens of the United States, who speak and write the English language, who are of good character and repute, and who have been actively engaged for six or more years in architectural or engineering work or for four or more years in land surveying, the character of which work shall be equal to the standards fixed by the Board.

(Note: Each year of teaching or of study, satisfactorily completed, of architecture, engineering, or surveying, in a school of architecture or engineering of a standard recognized by the Board, shall be considered as equivalent to one year of such active engagement.)

- Class 1: For those who have practised at least six or four years, as above specified, and are otherwise qualified under the Act.
- Class 2: For any person who holds a like unexpired certificate of registration issued to him by any proper authority in any State or Territory of the United States or in any Province of Canada, where the requirements for registration by examination are equal to those fixed by the Board for this State.
- Class 3: For all other than the above, applications under this Class being limited to those who can show to the satisfaction of the Board that they are qualified to be admitted to examination for registration by the Board.

Fees for registration shall be \$25.00 for architects and engineers, and \$10.00 for land surveyors, and fees paid prior to January 1st, 1922, shall be regarded as sufficient payment up to and including December 31st, 1922.

Payment of fees shall be by money order, bank draft or certified check, payable to the order of the Board, and shall accompany this Application.

STATE OF MINNESOTA

BOARD OF REGISTRATION FOR ARCHITECTS, PROFESSIONAL ENGINEERS,
AND LAND SURVEYORS.

—
St. Paul, Minn.
—

Statement of Evidence of Good Character of Applicant for Registration.
—

Notice: Any person signing this Statement will be expected by the Board to be familiar with the following:

1st: The State Board of Registration for Architects, Engineers and Land Surveyors is required to obtain evidence of the good character of applicants for registration as architects, professional engineers or land surveyors. Statements by responsible persons with actual knowledge of the character of the applicant, if made on this form, will be filed by the Board for consideration as evidence in such connection.

2nd: The Board desires the person subscribing this statement to understand fully that the purpose of the State in asking registration is to protect the public from the practise of architecture, engineering or land surveying by persons whose character is not good, and who are not competent to so practise. Practise in these professions involves relations with the public that necessitate a high degree of honor and integrity, and the Legislature has decided that applicants who cannot satisfy the Board as to their character shall not be accepted for registration, in the interest of the public.

3rd: The Board points out that evidence submitted must not be perfunctory, nor made for the mere purpose of aiding applicant. On the contrary, the execution of this statement will be taken by the Board as a deliberate act, made in full knowledge of the responsibilities toward the public involved. Any knowingly incorrect statement, or attempt to conceal matters unfavorable to the character of the applicant will be taken by the Board as an attempt to abet applicant in obtaining something to which he is not entitled under the law. Penalties of heavy fine and imprisonment may be incurred, on conviction, by those who indulge in this practise.

4th: All statements and information on this sheet are for the use of the Board alone, and are considered by it as confidential.

The Board desires to point out that it has power to compel attendance of witnesses, to take testimony or proofs concerning all matters within its jurisdiction, and in cases of doubt, persons subscribing these statements may be summoned before the Board and compelled to testify under oath.

No statement will be accepted unless *every blank* of this form is filled in and the statement witnessed.

To the State Board of Registration for Architects, Engineers and Land Surveyors,

Gentlemen:

I of
(Give full name) (Give full address)

do hereby submit to you the following statements bearing on the character of
of

I have personally known applicant for years, from to My relations with him have been
as follows:

I am not in any way related to applicant, nor have I any personal or business interest in his being registered as
..... My purpose in submitting this statement is solely in the interest of the public.

Remarks

I know nothing reflecting adversely on the integrity or general good character of the applicant that should be taken into ac-
count by the Board in its consideration of this application. Yes, or no, and specify:

From my personal knowledge of applicant I know him to be of good character both as a citizen and in his profession, and
well qualified by his character to fill positions of trust in his profession. Yes or no, and specify:

I make the above statements with full knowledge that the applicant above named is purposing to be registered by the State
of Minnesota as, and after I have read carefully the information on the opposite side of this sheet.
