The Council inquired into why the Civil Defense Sirens were not blown due to the fact that there was a tornado warning on Tuesday, May 22, 1979. Staff gave Council an explanation as to why they felt it was not necessary, some of the reasons being that they are in constant contact with the National Weather Service; they had spotters out in the community; and also because of the complaints that they have gotten in the past from sounding sirens too early. Staff also advised Council that they would be discussing this matter in the future to see what different action should be taken, if any, and will advise the Council.

Councilman Amundson introduced the following resolution and moved for its adoption:
