SUBJECT: Population Adjustments: June, 1981 to September, 1982

Attached is a list of Minnesota cities and townships experiencing population change through actions of the Minnesota Municipal Board between June, 1981 and September 1982. These population changes were determined by the Municipal Board and our office has applied these changes to the "most recent population", as required by state law.

You will note that the starred Municipal Board actions have revised base populations and thus will differ from the memoranda sent you on an individual basis, throughout the year.

If you have questions, please call Eileen Barr of my staff at 296-4886.
