

Proclamation

- REAS: Engineers, scientists and technologists have made our society the envy of the world, as technological innovation has moved people across our frontiers from east to west, and, in an historical instant, into outer space; and
- REAS: While it is true that society is facing unparalleled problems today, it is worth noting that engineers have always approached problems as opportunities, and have, in fact, been called "America's problem solvers"; and
- REAS: The National Society of Professional Engineers, with a membership of 85,000 professional engineers from all disciplines of the profession, began sponsoring National Engineers Week in February of 1951; and
- REAS: The purpose of the week is to familiarize the public with the work of engineers and to honor outstanding members of the profession; and
- REAS: It is in recognition of the solutions of our common problems, as well as the realization of the opportunities, that led to the selection of "Engineers: Turning Ideas Into Reality" as the theme of the 1983 celebration;

THEREFORE, I, Rudy Perpich, Governor of the State of Minnesota, do hereby proclaim the week of January 20 through February 26, 1983 to be

NATIONAL ENGINEERS WEEK

Minnesota.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Minnesota to be affixed at the State Capitol this nineteenth day of January in the year of our Lord one thousand nine hundred and eighty-three, and of the State the one hundred twenty-fifth.
