I would like to say this is a waste of time as I could hire a new deputy and this record would not be on file, also what in the world is the Seal for that we place on each of the certified copies from our office. Also if the above is to be done and have a central location the Clerk of Court should be recorded in the State Court Administrators office. And foremost why don't they call the Clerk of Court's office that is involved as they would have to do this deputy is not recorded in your office.....
