MEMORANDUM

The board in approving the detachment wishes to note for the record that the board does have concerns about the affect this detachment will have on the symmetry of the corporate boundary lines of the City of Tyler. Under Chapter 414, one of the factors the Municipal Board considers in making a determination on boundary adjustments is the contiguity of the boundaries between the affected city, the subject area, and the town. In this detachment, a petition was received by all of the property owners and a resolution supporting the detachment was also received from the City of Tyler. However, the boundaries resulting from the detachment leaves irregular boundaries. In future detachments, or any other boundary adjustments, the board urges the concerned parties to very carefully address the issue of contiguity as well as other factors contained in Minnesota Statutes 414.
